COLLECTION FOR HOSPITAL POOR IS POSTPONED A WEEK

Visit of President Roosevelt Changes Plans of Hospital Saturday and Sunday Association.

At a special meeting of the Executive Board of the Hospital Saturday and Sunday Association, which took place Friday afternoon in the rooms of the Noonday Club, the plan for the postponement of the annual collection of the association was discussed, and the following resolution was passed:

Whereas, The city is to be honored by the presence of the President of the United States on November 26, the day appointed for the annual collection of the Hospital Saturday and Sunday Association, and

Whereas, It is recognized that all good citizens will desire to pay respect to the chief magistrate at the World's Fair grounds,

Therefore, In the best interests of the entire city and all of its people, this association is willing to postpone for this year, its annual collection for the sick poor in our hospitals from the Saturday and Sunday immediately following Thanksgiving Day, for one week to Saturday and Sunday, December 3 and 4, and by resolution its Executive Board does hereby defer its annual collection for one week to Saturday and Sunday for the year 1904.

It was also the sense of the board that if any church or Sunday school had already set aside the Sunday following Thanksgiving, which would be November 28, for its collection, and should desire to make its collection for the association on that day, no objections would be found in the matter.

The ladies who each year assist the association by presiding over the glass boxes and all others interested, are respectfully requested to avail themselves of this notice of the change. Secretary James A. Waterworth will so immediately forward notice in writing to all the ladies with whom he is communicating relating to the work of this year's collection.

Vice President A. L. Shapleigh presided. Others who were present were E. H. Semple, E. J. T. O'Connell, James A. Waterworth and J. G. Stadelman.

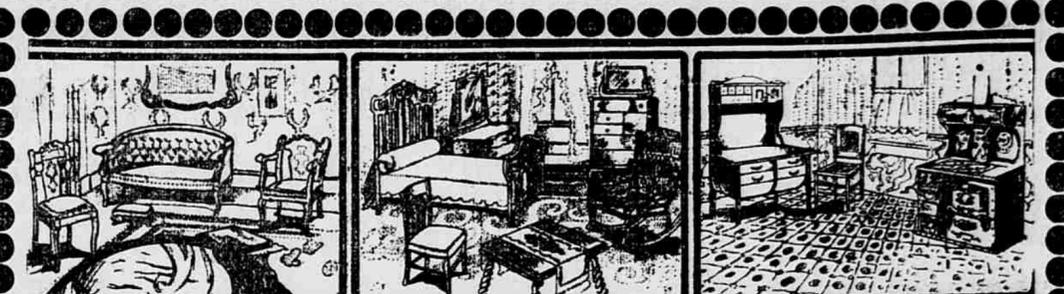

ROSSA, EXILED IRISHMAN, RETURNS TO THE OLD SOIL.

Will Attend the Unveiling of the Monument to Allen, Darlin and O'Brien.

REPUBLICAN SPECIAL. New York, Nov. 12.—"I am 74 years old, and as big a rebel as ever." More than 1,000 members of Irish societies and their friends cheered the gray-haired J. O'Donovan Rossa when he said this as he was boarding the Cunard liner to sail for Ireland, from which he was exiled in 1847 for taking part in the Fenian movement.

STOCK DEALINGS ARE LARGE AND DEMAND SHOWS VARIETY. TRANSACTIONS ON STOCK MARKET DISTRIBUTED.

Desire to Realize Profits So Far Overbears Eagerness to Secure Stock Ownership as to Cause Irregular Tone.

New York, Nov. 12.—With no change in the hopeful and cheerful tenor of the news, and no abatement of the general confidence in conditions, the desire to realize profits so far overbears the eagerness to secure new ownership in stocks as to cause a decidedly irregular tone in today's stock market.

The price changes compared with last night of the trading. The dealings were very large, and the demand showed great variety. Transactions were well distributed, and dealings were not greatly congested in a few stocks. The favorite speculative stocks, which usually lead the whole market in point of activity, suffered most from realizations, and generally ground during the day. Considerable gains were made by the less prominent railroad stocks and by many industrial and utility stocks which are rarely heard of in the market.

Such gains were striking, extending to many points in some cases, but their effect is never so reassuring to the general speculative sentiment as the uplifting demand for standard stocks. The Washburn Illinois Central and Southern Pacific were the most effective sustaining forces in the day's market, and United States Steel preferred showed revived strength in the latter market, when the general tendency was downward.

DECLINE OF CASH. The bank statement showed a larger decline in cash than was expected, but its effect on the surplus was modified by the considerable loan contraction of \$14,738,000. The loan contraction is supposed to be due to the fact that several trust companies have been active lenders of funds during the week, thus relieving demands upon the banks in point of activity, and the decline in cash is accordingly lessened.

EXPECT UPWARD BOUND. The election rise in the market is based largely on the assumption that the reviving tendency of industry and commerce will show an upward tendency, as a result of the release of orders of all kinds which have been held up pending the election. It is believed also that expansion and improvement plans by railroads and

great corporations will be resumed and that the retrenchment orders, which have been in force on some of the great railroad systems, will be rescinded. The great growth in demand for steel products is corroborative of this belief. The demand for copper, which has caused an advance in the quotation for nearly every day, is regarded as good supplementary evidence of the expanding demand for the metals, railroad earnings showing improvement.

The Government's preliminary estimate of a corn crop of nearly 2,500,000 bushels, shipped the earlier fear of an insufficient supply for export to make up the present great discrepancy in the value of our breadstuffs export.

EASE OF MONEY. The great ease of the money market deprives the factors of depletion of supplies of any force to intimidate the speculative news of borrowed funds, and fosters the speculation for further large engagements of gold for shipment to Cuba on the Cuban loan floated here. The offering of half of a \$100,000,000 Japanese loan in New York, the limitation of \$20,000,000 of Government deposits with banks will be withdrawn by December 1 to replenish the Government's working balance, the unsolved question whether the European demand upon us for gold is fully satisfied, and the evidence of a subsidence of the return flow of currency from the interior have successively passed in review without causing a ripple in the money market or any apparent misgiving in the minds of borrowers committed to the stock market.

The bond market has been active and buoyant for speculative issues and firm for investment bonds. Deposits with banks have declined 1/2 per cent on call during the week.

"Incurable" Stomach Trouble. Cured With Five Bottles of Drake's Pain-Expeller.

Mrs. B. W. Smith, Malton, Iowa, writes: "Three doses of Drake's Pain-Expeller Wine gave me the first relief from two years of constant stomach distress. Five or six bottles have cured me. The best doctors and largely advertised medicines utterly failed to give me any relief. I can now eat any wholesome food and have gained twenty pounds weight in three months. My druggist sold nine bottles of Drake's Pain-Expeller Wine one to my friends who know what it has done for me. I am recommending it to all who suffer. The Drake Formula Company, Drake Building, Chicago, Ill., will send a trial bottle of Drake's Pain-Expeller Wine free and prepaid to any one who suffers with stomach trouble or constipation, even to small doses a day gives prompt relief and cures.
