STATE INTELLIGENCE.

Eureka.

From the Sentinel, 11th.
EARLY SOWING.—J. T. Hunter, at his ranch, three miles east of this place, will commence sowing grain in a few days. His crops of last year were the envy of all who are acquainted with farming as a business, and the prices he has obtained would make many a mine owner wish he could exchange his mine for a ranch. We ought to have very many just such farms in the county.

We believe that we can safely say that the richest bullion that has ever been smelted in Nevada was made by Ogden, Dunne & Co., at their furnace in Eureka. For the whole week they were making bullion that would exceed \$500 in value, and on Friday and Saturday they made three tons that assayed \$1,231 per ton.

A Row.—On Saturday night there was a row down town, and a Cornishman had his hair cut in a streak about an inch wide from a ball by a pistol. One case of hair cutting for less than a dollar. A woman was underlying the affair. On Sunday night there was a little muss, but nobody was hurt.

MASONIC.—A large number of Masons assembled at the office of Judge Adams on the evening of February 5th, and took steps towards forming a Masonic Relief Association in this place. B. F. Bivens was chosen temporary Chairman, and G. H. Willard temporary Secretary. G. W. Merrill, D. E. Baily and G. Collier Robbins was chosen to draft a Constitution and By-laws, and D. B. Immel, Judge Adams and G. H. Willard were chosen a Committee on Finance, and to procure rooms for the Association to meet in.

Austria.

From the Reese River Reveille, 11th.
BULLION FROM MONTEZUMA.—Ten bars of bullion of the value of \$6,000 were brought to town day before yesterday. They were the product of the new mill of Messrs. McGlew, Dawley & Co., in the Montezuma district. The mill has been running just one month, during which it has produced silver to the amount of \$20,000. Pretty good for a beginning.

MUDDY STREETS.—The snow is melting rapidly and the streets are in a terrible condition in consequence. Our snow storms do not come right this year. Instead of a good fall of three or four feet which would stick to the mountain sides till the next fourth of July, we get a series of small installments which disappear almost as fast as they fall.

SHOOTING IN THE MOUNTAIN DISTRICT.—From Mr. McGlew we learn that a difficulty occurred between two men employed by the mill company at Montezuma, about the 1st instant, which resulted in a Scotch carpenter, known under the name of Scotty, being shot and severely wounded by a half-breed Cherokee Indian, who was employed as a wood-chopper. The difficulty grew out of a discussion between the men as to which was the best chopper. Scotty's wound is not dangerous; the ball struck him in the arm and glanced around his ribs. The Indian got away. He was from Colorado.

Humboldt.

From the Register, 11th.
HEAVY MEN.—We think Winnemucca can boast of four of the heaviest men in the State, and we defy any town in the State to beat the following weights: R. B. Stewart, 271; Geo. C. Cornwall, 212; E. Tusler, 241; George Barrett, 220. Total pounds, 944. The only reason we can advance why these parties are in so healthy a condition, is that the quality of the beef and the lager beer sold in this place is of an extraordinary good quality, and has evidently a tendency to enlarge the corporations of our citizens, and makes them feel good.

Reno.

From the Reno Crescent, 11th.
INDIAN DANCE.—The Washoes of this section are having a grand dance some three miles above the river. A general invitation has, we understand, been extended to such white bucks as think they can conform to the customs and courtesies observed by the elite of the Washoe society.

Rev. J. H. Warren, Superintendent of the Missions for the Congregational Church, will be here on Sunday, February 19th, to organize

a church of that denomination. A preliminary meeting of the church and society is called for, on Saturday, February 18th, at the school house. All interested are invited.

Eiko.

From the Independent, 11th.
AMPUTATED.—Mr. J. R. A. Norton, who was shot by Tim O'Flaherty in a melee somewhere near Cope last Summer, and for which offense O'Flaherty was penitentiary for fourteen years, has been compelled to have his leg taken off again some four inches above the knee. The operation was skillfully performed on Saturday last by Dr. I. White, assisted by Drs. Meigs and Terry, and the patient we understand is getting along as well as could be expected of one who has been so weakened and debilitated as he has from the effects of the wound received at that time. Mr. N. had submitted to one amputation below the knee while at Mountain City, but the bone becoming diseased necessitated taking it off again.

ROBBERY.—On Friday afternoon, the 3d instant, Adolph Abrahams, partner of N. Wiel, doing business near Camp Halleck, in this county, while on his way from Camp Halleck to Ruby Valley, some eighteen miles from the former place, was stopped on the road by three men. Abrahams had two horses packed with goods at the time. The three men robbed him of his horses and goods, consisting of clothing and cutlery, amounting to between \$500 and \$600, and also took from him \$85 in money. In defending himself from the robbers, he was severely cut on one of his hands. After taking all he had, they left him to walk back to Camp Halleck.

STORM SIGNALS.—On and after today, February 1st, regular weather reports will be received at Washington three times a day from Corinne, in Utah, and San Francisco, in California. The system of storm signals, which has so frequently been advocated, and the adoption of which has already commanded important direct and indirect advantages, will thus be extended from the Atlantic to the Pacific. The first of the recent heavy snow storms came, according to unanimous reports, from the Rocky Mountains. The presumption is that these storms came from the Pacific. One important scientific question is to be decided by the storm signals is whether this was actually the case, proving that some of the storms hitherto supposed to sweep from the Atlantic over the country to this side of the Rocky Mountains have, in fact, swept from the Pacific across the lofty Sierra Nevada and the Rocky Mountains. It may be expected that the system of storm signals will have been so greatly perfected and extended within a few months as to satisfy the public that we have not exaggerated the immense practical services it is capable of rendering. This system will effect a saving of life and property on both land and sea which will be incalculable, if due attention be paid to its warnings of the approach of storms, from whatever direction.—[Pittsburg Leader.

"Neck-tie parties" have dawned in the rural districts. A neck-tie party is one where each lady attending the party makes a neck-tie of the same material as the dress she wears. These are taken to where the party is to be held and placed in a bag. When the gentlemen arrive each one must go to the bag and take out a neck-tie, and it is his duty to wait upon the lady, during the evening, who wears the dress corresponding in material with the neck-tie.

A pawnbroker's shop on a large scale is projected in Troy, and a bill incorporating a company to carry it on has been introduced into the Legislature. The corporators named are among the most prominent citizens.

Keokuk, Chief of the Saes and Foxes, numbering 700, who occupy the Deep Fork country, west of the Arkansas, says they are going to build a large school-house, and intend "to live like white people."

"Why did Joseph's brethren put him in the pit?" asked a Buffalo Sunday school teacher, and the reply he got was, "Because there was no room for him in the family circle."

There is said to be an organization of determined young females in Ohio, the object of which is to intimidate the young men to discontinue the habit of wearing mustaches—they tickle so.

An Illinois grocer had an empty kerosene barrel which he wished to clean out to pack pork in, so he lit a match and put it in the bung hole. That was the last public act of his life.

In Boston a poor man, who less than a year ago had only one suit of clothes, went into the newspaper business, now has eight suits. Seven of them are for libel.

NEW GOODS

—FOR—

THE HOLIDAYS!

JOHN G. FOX.

HAVING RECENTLY VISITED THE MOST EXTENSIVE BOOK CONCERNING and Toy and Jewelry Importers of the Eastern States and San Francisco, is

NOW OPENING

THE LARGEST AND MOST VARIED ASSORTMENT OF GOODS, FOR THE APPROACHING HOLIDAYS

EVER OFFERED IN NEVADA.
