

PROSPECTS FOR BASEBALL.

CONNECTICUT STATE LEAGUE TO HOLD A MEETING HERE TO-DAY.

Three Other Cities May be Admitted to Membership—Five Clubs Already in the League—Manager Ted Sullivan is Expected to be at the Meeting.

An adjourned meeting of the Connecticut State League of Baseball clubs will be held at the Tontine hotel this morning at 11 o'clock. At this time the final steps toward the organization of the league will be taken and all arrangements completed. It is expected that Manager Ted Sullivan, who has been granted by telegraph a franchise for New Haven in the league, will be present and the franchise for this city formally delivered to him.

At the present time there are five clubs in the league, the cities represented being New Haven, Hartford, Bridgeport, Meriden and Waterbury. At the last meeting of the league, two weeks ago, a committee was appointed to visit other clubs in the state, among them being New London, Norwich, Stamford, Danbury, Norwalk and New Britain, with a view to securing more cities, thus making an eight-city circuit. At the meeting to-day it is expected that this committee will make its report and it is more than probable that at that time the two remaining cities will be selected and the eight-city circuit thus completed.

The league should be a success from the start and it is believed that it will be provided in a carefully and economically managed. Locally the prospects for a successful season of baseball are considered excellent and it is believed that baseball has come to stay. The affairs of the league will be managed by such well known baseball men as James O'Rourke of Bridgeport and Ted Sullivan of this city, both of whom know baseball from top to bottom and will make a success of the league if anyone can.

Manager Sullivan is expected here to-day and will at once commence the organization of the local team. When he was here before he received substantial encouragement and it is believed that an association can be formed with but little trouble. An effort will be made to secure playing grounds at Elm city driving park, which is now within easy access of the center of the city and can be reached in a few minutes by the electric cars of the Fair Haven and Westville Railroad company. An effort will be made to interest the railroad company in the project and if the driving park can be secured, it would seem that the club would be a financial success in this city.

In Bridgeport and Hartford local associations have been formed, each with a capital of from \$2,500 to \$3,000, and in both these cities almost the entire amount of stock has been subscribed for and a portion of it paid in. With the natural rivalry between these cities and New Haven great interest, it is believed, will be taken in the contests on the green diamond and a successful season result, even if there were no other clubs in the league.

In speaking of the prospects of the new league last night, a well known local baseball enthusiast said: "A good team might play three games a week in this city. Make a small estimate and say that there would be about 3,000 people attend the games each week. Then take into consideration the large increase in attendance on holidays and it seems only reasonable to suppose that the season would be a success in every way. Another thing that should be taken into consideration by the skeptics is that the Connecticut State league will be formed with capable men at its head and for the first time in some years the patrons of the game can see first class sport. The indications at present are that there will be a start in the spring and the start will be backed up by plenty of enthusiasm."

A meeting of those interested in the formation of a baseball club for Meriden was held Saturday at the Meriden house. A great deal of enthusiasm was shown over the plan and a team for that city is now practically assured. A stock company was formed with the capital at \$1,000 the shares to be \$5 each. One-third of the capital stock was subscribed for at the meeting and a committee was appointed to solicit subscriptions for the balance. The electric road people have offered to assist the baseball scheme and will enlarge the grounds in that city.

The Constellation Named.

[From the Chicago Record.] A certain very stout matron of this city, who has broad shoulders and a full neck, and has all her evening gowns cut extremely low, sailed into a certain drawing-room the other evening wearing several brilliant clusters of diamonds arranged in the form of stars. "Hello," exclaimed a gentleman, "what constellation is this?" "I think it must be Ursa Major," was the retort of a witty lady beside him.
