

IT WAS A SPICY MEETING

OF THE LEGISLATORS FROM NEW HAVEN COUNTY.

The Enlargement and Improvement of New Haven County Jail was the subject of some routine business transacted at the meeting of the Legislature...

Resolved, That the commissioners of New Haven county be and they are hereby authorized and instructed to make such additions to and such alterations in the New Haven County Jail as may be necessary to meet the existing and prospective requirements of that institution at an expense not to exceed \$150,000.

Resolved, That the commissioners of New Haven county be and they are hereby authorized and instructed to make such additions to and such alterations in the New Haven County Jail as may be necessary to meet the existing and prospective requirements of that institution at an expense not to exceed \$150,000.

Resolved, That when said plans and specifications shall have been decided upon by the said county commissioners they be authorized and instructed to advertise for bids for making such additions and alterations in accordance with said plans and specifications...

Resolved, That the said commissioners be authorized to borrow for the county a sum not exceeding \$150,000 to meet such expenses.

This aroused Representative Gunn, who said in part: "There is no reason for the proposed increase in this committee from three to five and if it is insisted upon I shall resign for one. I don't know the object of this resolution unless it is to place this work in the hands of the republican party. I would not serve on a committee aimed at this specific purpose. I see no reason why there should be a postponement of this enterprise until the new board of commissioners assume office. If the republicans wanted a larger representation they could add the county treasurer to the committee. Under the circumstances I desire my name removed from both resolutions."

Mr. Eaton said he had no desire to be partisan in the matter, but as the new board of commissioners were to be organized so soon, it would be no hardship to wait.

Mr. Gunn—If you are to take politics into this thing then make the committee entirely republican and take all the power from the county commissioners and then there would be no contaminating influences at all. I would not be a member of a committee so tainted with partisanship from the outset. What power would I have?

Mr. Chaffee—As a member of the committee I very much fear that Mr. Gunn is wrong in his belief. I should be very sorry for him to resign.

Judge Cowell—I sincerely hope that so valuable a member as Mr. Gunn will remain. He has inquired into the matter and we want the benefit of his knowledge and advice. In order to give the democrats one more member, I move that Mr. Wood be added to the committee.

Mr. Wood—I shall decline to serve. This should be conducted as a purely business matter and a small committee would do the work quicker and better. The original plan was very much better.

Mr. Morrow of Meriden—There is a necessity for immediate action on the jail addition. The details should be worked out between now and July 15. The committee as proposed will consist of five republicans and three democrats, and certainly that is not very rabid partisanship.

Mr. Newton of Wallingford said he was not in favor of any partisanship. It was not the way business was done in his town, and it was not the way to do in county matters.

Mr. Beard did not like so many of the people in the west part of the town, have no respect for the laws of God or man, and become demoralized and bedragged down by bad influences, but kept aloof from all such influences and leaves a name that will always be cherished.
