## WORK OF CONGRESS.

### Vest's Meat Bill Passes the Senate.

### All Shipments Hereafter to Be Inspected.

### The House Passes the Dependent Pension Bill After Short Debate—The Vote in Detail.

By the Associated Press:

WASHINGTON, June 11.—In the Senate today adverse reports were made from the Finance committee on Stanford's bill for government loans on real estate and on the bill to abolish metal money. These bills were then indefinitely postponed.

The committee having reported back favorably, with sundry amendments, the House silver bill, it was taken up and Eastie addressed the Senate.

The bill to prohibit monopoly in the transportation of cattle to foreign countries was passed, with an amendment that it shall not apply to vessels that have already contracted. The Senate joint resolution in regard to the export trade in cattle was then passed.

It requests in part that the United States cause correspondence and negotiation to be had with the authorities of Great Britain for the purpose of securing the abrogation or modification of the regulation now enforced which require cattle imported into Great Britain from the United States to be slaughtered at the port of entry and prohibiting the same from being carried alive to other places in said Kingdom.

The Senate bill to provide for inspection of live cattle and beef products intended for export to foreign countries was then taken up and passed.

It requires the owner or shipper of Agriculture to cause to be made a careful inspection of all live cattle and beef products intended for export to foreign countries from the United States with a view to ascertain whether such cattle and beef products are free from disease, and for this purpose he may appoint inspectors who shall be authorized to give an official certificate clearly stating the condition in which such animals and beef products were found, and no clearance shall be given any vessel having on board cattle or beef products for exportation to a foreign country unless the owner or shipper of such cattle has a certificate from the inspector stating that said cattle or beef products are sound and free from disease.

The Senate then proceeded to a consideration of individual pension bills on the calendar and passed seventy-five of them.

After an executive session the Senate adjourned.

Speaker Reed announced the appointment of Mr. Mills of Texas, as a member of the Committee on Rules and Mr. Turner of Georgia, as member of the Ways and Means, both being to fill vacancies.

Mr. Morrill presented the conference report on the Senate dependent pension bill.

Mr. Springer of Illinois, asked that the report go over until tomorrow. Mr. Morrill objected. The previous question was then ordered. Yeas 119, nays 76.

Mr. Morrill stated that the bill would distribute \$35,000,000 among the soldiers of the nation.

Mr. Springer entered a vigorous protest against the manner in which the bill had been brought before the House. No opportunity had been offered the members to examine its provisions.

The conference reported and their report was agreed to. Yeas 145, nays 56. The following is the vote in detail:

Yeas.—Alderson, Anderson (Kan.), Arnold, Atkinson (Penn.), Banks, Bartine, Barwig, Bayne, Belden, Bergen, Bingham, Boothman, Bowden, Bricker, Brookshire, Brosius, Browne (Va.), Buchanan (N. ## THE PACIFIC COAST.

### Stir Over the Washington Bribery Case.

### The Bribers Reported to Have Flown.

### Deep Snow in the Mountains—Daughters of the Golden West in Convention.

By the Associated Press:

PORTLAND, June 11.—The Oregonian's special from Olympia, Wash., says: The sensational bribery exposure in the State Board of Education is the principal topic of conversation here. All the members of the Board are very reticent and decline to speak.

The facts are already known to the Book Trust in the East, and it is said they were in constant communication with their agents here before the deal was consummated. What is even worse is the fact that the trust has brought in other concerns to which contracts were awarded for a good round sum, and will gain their point. The agents of the trust were Capt. R. L. Edwards, J. W. Womack and L. E. Leveridge. The latter had no hand in the bribery as it is said the others would not trust him. Edwards and Womack are said to have made the deal with Sullivan and Eames for the trust.

A dispatch was received today from E. O. Carnes of Portland by the Olympia Tribune, saying: "We were employed as detectives to shadow and test this man Leach which was done. The giving of the check was simply following out the line of the above work. The check was worthless and his accepting it has completed our test and proved him to be contemptible and weak. If the school board desires I will go before them and make further explanations as regards Mr. Leach."

The check is now in the hands of one of the State officers and will be photographed and preserved. It is understood that Edwards and Womack have left the State. The trust is very anxious over the matter and Mr. Gunn, one of the trust, is trying to smooth things over, as it will have an evil influence in the adoption of text books in the future for Washington, California, Oregon and all the Pacific States.

PLED THE COUNTRY. SAN FRANCISCO, June 11.—The Chronicle's special from Olympia says: Warrants were issued today for the arrest of J. W. Womack and R. L. Edwards of the American Book company, on the charge of attempting to bribe State officials. The men have gone to British Columbia.

### NO CHINESE FOR THEM.

### Tiburon Citizens Send a Very Plain Message.

SAN FRANCISCO, June 11.—The announcement that a number of Chinese laborers were to be employed to do grading on the property of the Bellevue Land company on Kershaw Island near Tiburon, has been the cause of the following notice to contractors, signed by one hundred citizens of Tiburon:

To Mr. WILLIAM JEWELL, We, the undersigned citizens of Tiburon, hearing that you are to engage Chinamen to work on the island near Tiburon, object to any such class of labor, and if such class as Chinamen are engaged to work in or near Tiburon, there will be some other remedy enforced to prevent such class of people coming to, or near Tiburon.

We, the citizens of Tiburon, hope you will take caution and act accordingly.

### The Last of the Snow.

SAN FRANCISCO, June 11.—After the big blockade in the Sierras last winter some sidings which were little used were not dug out. Today General Superintendent Fillmore of the Southern Pacific stated that the Lake View siding, three miles east of Summit, had just been cleared of snow from fifty feet deep remains in the mountain gulches along the road.

### Serious Balloon Ascension.

SPOKANE FALLS, Wash., June 11.—At Oakesdale, yesterday, an aeronaut named Woolley made an ascension with a hot-air balloon. At an elevation of 300 feet the balloon collapsed and Woolley was thrown into a tree top, falling from there to the ground. He was picked up insensible with a broken arm and leg and other injuries.

### Oregon Masons.

PORTLAND, Ore., June 11.—The Grand Lodge of Oregon, A. F. and A. M., convened in this city today. The following officers were elected for the ensuing year: Grand Master, J. F. Robinson of Eugene; Deputy Grand Master, J. C. Moreland of Portland; Grand Senior Warden, F. A. Moore of Saint Helens; Grand Junior Warden, William Armstrong of Salem.

### Native Daughters.

SANTA ROSA, June 11.—The Grand Parlor of the Native Daughters of the Golden West convened here today. Grand President Miss Bertha Roesch presided. They decided to hold the next Grand Parlor at Santa Cruz. Grand officers will be elected tomorrow.

### Cost of Armoured Vessels.

SAN FRANCISCO, June 11.—A Washington special says: Bids for the new naval vessels which were opened yesterday, have been referred to the Bureau of Construction and Engineering. The

## ON THE ROAD.

### A Trip from Phoenix to Prescott.

### Some Rich Mines Along the Route.

### Many Improvements Taking Place in Prescott and Business Flourishing—Notes and Comments.

Special Correspondence of THE REPUBLICAN.

Your correspondent arrived in Prescott Thursday and has been busily engaged in distributing THE REPUBLICAN among the citizens of this city and is more than pleased at the glowing tributes paid it on all sides. I see many marked improvements, notably the water works and electric light plant, since my last visit here seven years ago. The old landmarks are many of them, the same now and as easily recognized as they were then, but business men tell me that they are all doing well and that money is not at all close. This of course can be accounted for by the great amount of placer mining in the hills adjacent to Prescott.

After leaving Phoenix nothing of interest attracted my attention till I arrived at the Congress mine—110 miles by stage via Vulture and Wickenburg. It was 2:30 a. m. when I struck the camp, and a lively one it seems to be. Only stopping here a few minutes and at such a late hour, of course it was impossible to note anything in particular.

The next stop was at Stanton, where all enjoyed a splendid breakfast. Here we left the buckboard and mounted a Concord coach, which runs over the rest of the line.

From Stanton up a heavy grade three miles and a half brought us in sight of the Yarnell, Edgar & Moss group of mines, situated on the very top of Antelope Hill, 500 feet above the stage road and 6000 feet above the sea level. At this mine a gentleman boarded the stage who, after arriving in Prescott, gave me all the information that was necessary in regard to this group of mines. By request I promised to withhold the gentleman's name. He said what information he gave me could be relied upon as an honest and candid opinion. He was sent here by his company from California to examine and report upon the mine, but on his arrival found to his regret that the mine had lately been bonded to Dunlap & Co. Nevertheless, he carefully investigated and prepared a very accurate chart of the ledge.

"The ledge lies in a direct line between Antelope Peak and the Congress mine," said he, "being four miles from the latter place. On the surface in open sight it is 300 feet long by 90 feet wide and assays all over from \$12.50 to \$15 per ton, and I think I can safely say there is \$1,000,000 in sight. Dunlap & Co., propose to run a tunnel, which I would have done had been fortunate enough to have obtained the mine) commencing at the base of the hill and running through along the west hanging wall of the ledge, cutting occasional drifts across the ledge, and if the ledge maintains its size at this depth that it does on top it will prove the richest property in Arizona. The mill site is located at the base of the hill 500 feet from the mine where wood and water is abundant. This is a great blessing in itself."
