CONTINUING THE INVESTIGATION OF KAUM.

The Committee Refuses to go into Details of Bradley Tanner's Connection With the Refrigerator Company.

WASHINGTON, September 15.—In the Ramm investigation today Cooper asked the Commissioner whether there was a sub-company of the Universal Refrigerator Company in this district.

The Commissioner stated that steps had been taken looking to the formation of a sub-company. The stock had been subscribed. Bradley Tanner, who sat at his desk, was secretary of the company. Tanner subscribed for one share of the stock so as to be able to act as an incorporator, but no money had been paid in. That organization was, in fact, in chaotic condition as yet.

Witness had withdrawn from the field and stopped selling State rights until he could by the erection of a practical working plan, show the value of the patent. Tanner was not expected to pay for his share and the same was true of the gentlemen who organized the sub-company.
