

THE ARIZONA REPUBLICAN.

ISSUED EVERY DAY IN THE YEAR BY THE REPUBLICAN PUBLISHING COMPANY.

Entered at the postoffice at Phoenix, Arizona as mail matter of the second class.

THE REPUBLICAN HAS ITS OWN SPECIAL WIRE connecting its office direct with San Francisco and Chicago, and through these cities with all the great news centers of the world.

RATES OF SUBSCRIPTION: Daily, per week, by carrier, \$2.00; Daily, per month, by carrier, \$10.00; Daily, three months, by mail, \$25.00; Daily, six months, by mail, \$45.00; Daily, one year, by mail, \$80.00; Weekly, per month, \$1.00; Weekly, per quarter, \$2.50; Weekly, per six months, \$5.00; Weekly, per year, \$9.00.

SILVER, COPPER AND LEAD. Silver was quoted yesterday at \$1.08 per ounce; copper at \$15.15 per 100 pounds, and lead at \$4.15 per 100 pounds.

Let the American flag float over every school house in Arizona.

Ten acre fruit farms, well worked, are the coming sources of wealth for Arizona.

The coming winter will witness the planting of a fruit acreage equal to all that heretofore planted in Arizona.

Every resident of Phoenix should make it a duty to attend the Business Men's Carnival given by the "Busy Bees" December 17th.

SILVER has got back as high as \$1.08. And it must be remembered that the semi-panic is not relieved as yet. The white metal is bound to rise, in spite of the gold bugs of Wall Street.

GOVERNOR MURPHY has had printed the ten lost laws and is prepared to furnish them to attorneys throughout the Territory. As there is no fund to provide for the printing a small sum will be charged for each copy, in order to meet the expense incurred.

SOME men's friendship for an enterprise of almost any kind, and particularly a newspaper, is measured by the amount of work it happens to do in their interest. Let their selfish plans be crossed and instantly they are very bitter. Phoenix unfortunately has a few of this class, but they will not be able to stay the progress of the community.

SITTING BULL is dead. Perhaps it is wrong to be elated over the taking of life, but the citizens of the West will feel much pleased at the intelligence conveyed in the telegraphic columns this morning. It is as though a celebrated wolf had been killed after a long and bloody career of depredation. There is only one thing wrong about it. The old savage should have been hanged ten years ago, instead of meeting his death in a fight.

PHOENIX should lose no time in setting about the work of securing the Indian school for this point. Both Commissioner Morgan and his intelligent lieutenant here fully appreciate the advantages offered by this point for such an institution, and it will be by neglect and inactivity, only, if it be not established. Patriotism is commendable, from a local as well as a national point of view, and should be exercised with energy in this instance. Attend the meeting and help.

"THERE is probably no industry that adds so much to the pleasure and health of the public," affirms the Boston Cultivator, "as that which preserves in perfect condition, by canning, fruits and vegetables for all seasons of the year. Fruits and vegetables are thus put up wherever cheap, preventing the glutted markets that would result were these perishable articles all to be used at once. Thus they equalize prices throughout the year. More than this, they give to many localities fresher and better vegetables than are often offered in their season in our large cities. It is to the interests of farmers everywhere to encourage the establishment of canning factories in their neighborhood. They make as good a market for fruits and vegetables as many cities or villages can supply, and by diversifying the products of farmers do much to insure them against the losses to which they are liable when growing only grain and other crops in which the severest competition prevails."

MAHOCOPA COUNTY is fortunate in the character of its educators. It would be indeed difficult to find a more intelligent or enthusiastic band of teachers than that which met at the High School yesterday afternoon. Superintendent Baxter, in his opening address, said that "The end of all human government is to teach men to govern themselves." Accepting this view, it becomes at once patent that the work of the teachers of Maricopa County will be appreciated in its fullness only when the rising generation shall have assumed their full political stature. The work devolving upon teachers in this frontier land is not calculated to cause much desire among drones to assume the profession. Every class and condition must be met, conciliated and instructed and the range of studies is often from the simplest to the most abstruse. Routine, machine-like work is rarely effective and a teacher, who really wishes to advance the cause of education soon appreciates that progress is dependent almost solely upon his individual energy. Then, too, the examinations given applicants for pedagogic honors are of such a character as to bar incompetents most effectually from the profession. The teachers of Arizona should be encouraged, in every possible manner, as keepers of the most sacred trust of the Nation, a service hard and ill-paid and the labors of their Institute should be aided by the attendance and cooperation of our citizens.

FOREIGN EXULTATION.

Herewith is an extract which we ask every reader of THE REPUBLICAN to read carefully and impartially, and then before reading our further comments to pass judgment in his or her own mind as to the politics of the paper from which it was taken. The extract here presented is a very small part of the original article. From beginning to end it ran on in the same strain:

Evidently the Americans have learned already what the McKinley tariff means: a measure for the enrichment of the few at the expense of the many; an impudent blow to the great manufacturing interest to secure its adhesion to the Republican party; and what they have learned equally well, and resented even more, is the sacrifice by the party in power of every scruple of conscience and every consideration of principle to a league of party interest.

Not less has the Republican party been more reckless or more corrupt than during President Harrison's administration. But it has been found out and dealt with according to its deserts. Thanks to the eccentric methods of the American Constitution the Republican administration, repudiated by the people, will be able to hang on to office for another two years. Even the newly elected Democratic Congress will not come into power until March next, and the Republican President can prevent it from assembling until the following December.

We will venture to say that the calm verdict of ninety-nine out of every 100 persons who see this quotation will be that it was taken from some rabid Democratic paper. Not so, however. It is the editorial exultation of the London Financial News over the recent defeat of the party of protection. Exultation, did we say? It is not all rejoicing. Through the article there runs a pathetic note of mourning, because the Democrats must be kept from complete control of the Government for at least two years more. There can be no explanation for the startling similarity between views expressed on the other side of the Atlantic and those of the Democratic Free-Trade papers on this side, except that of identical aims, interests and policies in American legislation. Is not the loyalty of men open to question who vote with and for one party to this unholy foreign alliance? THE REPUBLICAN rejoices from a patriotic standpoint that it is on the other side.

"Small farms, well worked, are best," is an adage that will especially apply in Arizona. Ten acres of oranges or raisin grapes or apricots will, in a few years, yield a much larger income than 100 acres of grain or alfalfa.

WANTS.

The quickest returns for the least money are to be obtained from THE REPUBLICAN'S WANT COLUMNS. Situations Wanted, Help Wanted, For Rent, For Sale, To Let, To Exchange, One Cent a word each insertion, or by the month at Five Cents per line per day.
