**The Maricopa Investment Company.**

M. E. SMITH, Pres., Denver. C. E. MAJOR, V. Pres. GEO. L. HODGES, Sec'y, Denver.

**CHAS. EDWARD MAJOR, Manager.**

15 South Center St., (with Oscar L. Gibbs.) PHOENIX, ARIZ.

## WASHINGTON.

**Democrats Preparing to Occupy**

**The Elective Offices of the Senate.**

**Cleveland Changes the System of the Senatorial Bosses.**

**There is no Longer Such a Thing as Sacred Patronage, the Scramble is Made Free for All.**

WASHINGTON, March 22.—[Associated Press.]—The Democrats of the senate met in caucus at noon to consider the subject of the reorganization of the elective offices of the senate. The caucus adjourned at 4 o'clock, having come to a determination to nominate an elective officers' ticket composed of Wm. R. Cox of North Carolina, ex-representative, for secretary of the senate, J. B. Right of Indiana, ex-sergeant-at-arms, for sergeant-at-arms, Rev. R. H. Milburn, present chaplain of the house of representatives, for chaplain of the senate. The result was not reached without protracted debate, for there was considerable element of the party that opposed the idea of doing anything that would be a violation of the precedents of the senate, and give cause for opposition on the part of the Republicans. The motion for the admission of three senators, who were appointed by the governors of Montana, Wyoming and Washington, was not broached. The question will come before the senate on the report of the committee on privileges and elections.

After the caucus was over one of the leading members of the Democratic committee said it was the intention of the party to make an attempt to elect the nominees; just when this would be done he could not say; but a resolution, he thought, might be introduced in the senate at any time. If the Republicans appeared determined in their efforts to prevent the reorganization at this session it may be that the Democrats will desert and let it go over. It appears though that there is no probability of the abandonment of the idea to make at least an effort to carry out the will of the caucus.

**Changed the System.**

The pressure exerted by Congressmen at the white house for appointments, developed into an individual scramble. The president effectually disintegrated the election endorsement system, and now each man is going for himself, and pushing for individual friends. One result which the president achieved, and which was his design, is breaking up ring politics and patronage heretofore considered the sacred property of senators, for instance, marshals and district attorneys. They are now declared free for all, and even members of the lower house, or humble groups of private citizens may present the names of candidates with some degree of success.

**Appointments.**

The president sent to the senate the following nominations today: John S. Seymour, of Connecticut, commissioner of patents; Silas W. Lamoreux, of Wisconsin, commissioner of the general land office; Wm. H. Sims, of Mississippi, first assistant secretary of the interior; Edward A. Bowers, of Washington, D. C., assistant commissioner of the general land office; Henry W. Bell, second deputy commissioner of pensions; H. H. Lorton, of Tennessee, United States circuit judge sixth judicial district; Frank E. White, United States marshal for Nebraska; Max Judd, of Missouri, consul general at Vienna.

**No Cholera in the Netherlands.**

The United States consul at Rotterdam informs the state department that there has not been a case of cholera in Rotterdam since November 17, 1892, nor in the whole of the Netherlands since January 12, 1893.

**A New President.**

Senator Manderson has resigned as president pro tem of the senate and Harris, of Tennessee, has been elected to the position and was at once sworn in.

**Gold Accumulating.**

A ten days' statement issued by the treasury department today gives gold in the treasury as \$106,575,000; a gain of \$4,000,000 within the last ten days.

**No Extra Session.**

NEW YORK, March 22.—A Washington special says Holman was called to the White House today and is authority for the statement that the President does not intend to call an extra session of congress. He will only call one under a stress of circumstances that do not now exist.

**Allen W. Thurman's Ambition.**

COLUMBUS, O., March 22.—It is said here that young Allen W. Thurman, son of the "Old Roman," is making a red-hot fight for minister to Germany and that he is endorsed by Senator Brice, all the Ohio Democratic congressmen, ex-Governor Campbell, Lawrence T. Neal, and other prominent and eminent Democrats. There is probably no Democrat in the country who had more influence with President Cleveland than ex-Senator Allen T. Thurman, and if he requests the appointment of his son to

this important place of honor and trust, it is almost certain that he will get it. President Cleveland and Secretary of State Gresham, it is said, have had the strongest petitions filed with them in the last few days asking for Thurman's appointment. There are a very few Ohio Democrats who are against Thurman.

**Utilized His Suspenders.**

ATLANTA, Ga., March 22.—The dead body of Levi McMichael, late tax receiver of Butts county, was found last night hanging from the limb of a tree two miles from his home. He had been demented for a year or more and was frequently heard to say that he intended to kill himself, and was closely watched by his family. He wandered away, climbed upon a fence, took his suspenders, tied one end around his neck and the other to the limb of a tree and swung off.

**JOHN W. MACKAY.**

**The Physicians Have Hopes of His Recovery.**

SAN FRANCISCO, March 22.—Drs. Morse and Keeney, who are attending John W. Mackay, had a consultation this evening at 8:30, made the announcement that Mr. Mackay passed a very good afternoon, slept well and awoke much refreshed. Both physicians are very much pleased with his condition, and say that he is doing as well as possible; and that the crisis has passed and quiet rest is all that is necessary to restore him to good health.

**Commander of the G. A. R.**

LOS ANGELES, March 22.—State Senator E. C. Seymour was elected department commander of the G. A. R. of California today.

## THE CAPITAL OF GILA.

**Fine Public Library and Reading Room.**

**Society Matters Reported from Globe—A Runaway Team Causes Serious Injury.**

GLOBE, Ariz., March 22.—[Special.]—The public library and free reading room is being well attended, and the mining companies deserve great credit for their endeavors to make the working classes comfortable. The regular attendance of the men has proven to Messrs. Walker and Oates that their work is appreciated. Any evening there may be found many readers, and from two to five games of cards being played. Loud talking, or any unnecessary noise is not allowed, but the men are permitted to smoke. The rooms are opened from 11 a. m. to 4 p. m., and from 6 p. m. to 10 p. m., and on Sundays from 11 a. m. to 10 p. m. Fourteen daily, one tri-weekly, fourteen weekly and seven monthly papers and magazines are taken. A large consignment of books arrived this week, but will not be accessible until book cases are placed in the rooms, which will be in the near future. The library also has the finest collection of railroad maps in the territory, if not on the Pacific coast. Large, fine, and well-made wall maps of the following railroads may be found: Chicago and Alton, Union Pacific, Chicago and Northwestern, Chicago, Burlington and Quincy, Missouri Pacific and Iron Mountain, Chicago, Rock Island and Pacific, Chicago, Milwaukee and St. Paul, and Wabash; besides, about thirty small maps of the most important railroads of the United States, and an atlas of the Atchison, Topeka and Santa Fe system, also the official railroad guide and a rate sheet to nearly all the large cities east from Deming, El Paso, Eagle Pass and Albuquerque. Mr. C. A. Fisk, who has charge of the library and rooms is always on hand to give any information which may be desired, and does all in his power for the entertainment of his visitors.

St. Patrick's day was honored in Globe by a grand ball given at the rink on Friday evening under the auspices of Co. A. N. G. A. The hall had been beautifully decorated for the occasion with evergreens, the "stars and stripes," and the national colors of the "Emerald Isle." About sixty couples joined in the grand march, which was led by Mr. and Mrs. Blevins. The music was good and dancing was kept up until a late hour. St. Patrick has a warm spot in the hearts of the people of Globe, and the anniversary of his birth is always remembered with feelings of pleasure and patriotism.

F. W. Westmeyer has been confined to his room during the past week on account of injuries received while out riding on Sunday the 12th inst. His team was frightened by a drove of hogs passing along the road, and, becoming unmanageable, overturned the buggy, throwing the occupants violently to the ground. Mr. Westmeyer was quite severely bruised, but is recovering. The buggy was badly damaged.

E. S. Field who has been in Globe for several weeks visiting his daughters, Mrs. Helen F. Harris and Miss Edith H. Field, left by Wednesday morning's stage for his home in Los Angeles.

Constable E. L. Benbrook came up from San Carlos last week and spent a few days in Globe with his friends.

## BY HIS OWN HAND

**Hiram Stevens Ends His Own Life.**

**A Pistol Ball Does the Fatal Work.**

**Mrs. Stevens is Also Mysteriously Wounded.**

**No Cause Assigned for the Horrible Deed—Ill Health and Losses May Have been the Motive.**

TUCSON, Ariz., March 22.—[Associated Press.]—H. S. Stevens, a prominent cattleman and delegate to congress from Arizona from 1872 to 1876, shot himself this afternoon, dying in two hours. He had been despondent for some time owing to cattle losses and ill health. The deceased was a highly respected citizen.

**The Citizen Last evening contained the following account of the tragedy:**

Hiram Stevens shot himself in the forehead this afternoon. The wound is an ugly one and will very likely prove fatal.

No cause can be given for the desperate act, and his friends were surprised as much as shocked when they first heard of it.

Mr. Stevens for several days has been out with the board of supervisors looking over the newly surveyed road between here and Nogales.

The party returned about noon today, and all who saw Mr. Stevens say that he seemed in a very good humor, and waved his hand pleasantly to them.

One story is that he went to his home and had his dinner and afterwards went to his room.

He was left alone and Mrs. Stevens was doing some work in another part of the house.

He seemed all right and she suspected nothing, but on the contrary was feeling glad of his return.

Suddenly she heard the report of a revolver from the room of her husband was in, and running in she found him lying on the bed. Blood was spurting from a large hole in his forehead and by his side was a smoking revolver.

He was not dead, so two local physicians were called in and commenced probing for the ball. It seemed to have taken a course toward the right side of the head instead of going directly into the brain. If such is the case he may recover unless some mental complication sets in.

Mrs. Stevens was in the hall of the house when the physicians were at work. Her head was tied up with a towel with blood spots on it.

Some of the people there say she was not hurt, but others told a different story.

It seems that he came home and for some reason or another objected to something she said.

Before she could realize what he intended to do he fired at her twice, inflicting slight flesh wounds.

She then ran out into the yard screaming and he went into the room and put the bullet into his own head.

Some of the children who were in the yard playing at the time say they heard the shot after she ran out the door.

Mrs. Stevens when seen was in a very nervous and excitable condition and could not speak coherently to anybody. She was much affected by what may turn out a tragedy.

One of Mrs. Stevens' wounds is said to be on her head and the other on her hand.

The case is one of the saddest that has occurred in the community for a long time, and everybody deeply regrets the event.

Mr. Stevens is an old pioneer, having come to this country about thirty years ago. Ever since then he has occupied the highest place in the estimation of the community, and twice represented Arizona in congress.

He has been identified with all enterprise that promised to be for the public good, and everybody has looked up to him as one of the best citizens of Tucson. When elected to his position on the board of supervisors he received 636 votes, which gave him one of the largest majorities on the ticket.

Mr. Stevens was born in the United States in 1832.

One of the gentlemen who was with the survey party that had just returned says that Mr. Stevens had been sick most of the time they were out and was always taking medicine of some kind. He did not say what it was, but it is quite possible it may have been some nerve irritant that produced temporary insanity.

## AN INSANE MATE

**Shoots Himself Through the Head in a Girl's Presence.**

SAN FRANCISCO, March 22.—[Associated Press.]—Frederick Cook, chief mate of the steamship Argo, called on Miss Belle Hey, 340 Seventeenth street, last night at 8:30, and while talking to her drew a revolver and shot himself in the head. The bullet entered the right ear and lodged deep in the brain, and at the receiving hospital small hopes are given for the man's recovery. It appears that on March 10th Cook got into a fight with a man named O'Harrell, on Stockton street, and when he was taken to the receiving hospital Dr. Beane diagnosed his case as alcoholism and possible fracture of the skull. After his discharge, a few days later, he acted

queerly and had several epileptic fits. Last night when he called on Miss Hey he drew a revolver the first thing, and flourished it around in an excited manner. John Hey, the girl's father, a wholesale liquor dealer at 215 Sacramento street, went to the Seventeenth street station and got a policeman, who came to the house, but was dismissed at once, as Cook had quieted down. The policeman had barely gone, however, before Miss Hey ran, screaming, out on the porch and Cook shot himself. No reason is assigned for the deed. Cook was still alive today, but his recovery is impossible.

**FOR BREACH OF PROMISE.**

**Mrs. Hopkins Sues Mr. McBride for Heavy Damages.**

SAN FRANCISCO, March 22.—[Associated Press.]—Louisa Hopkins today sued Patrick McBride for breach of promise of marriage, setting the damages at \$15,000. She avers in her complaint that he promised last February to marry her on the 12th inst. between 3 and 6 p. m. She announced the engagement to her friends and bought her trousseau, but McBride failed to keep his appointment and has shown no inclination to make another one. The plaintiff alleges that McBride has a large income and owns two houses on Silver street and twelve lots in the neighborhood of the crossing of Eighteenth street and the Corbett road.

Neither of the parties are youthful; in fact, both passed the meridian of life some years ago. McBride has been attentive to the lady for a number of months. They were near neighbors and he was accustomed to spend his evenings and as many hours during the day as possible in the company of his fiancée. His attention continued until the eve of the ceremony, the lady alleges, and then ceased unaccountably. McBride is a collector and has made money at his business.

**GREAT POWER.**

**Commissioner Blount Granted Unusual Authority.**

CHICAGO, March 22.—[Associated Press.]—A Washington special says: Commissioner Blount has gone to Honolulu clothed with extraordinary authority, that should any trouble arise the islands pending his investigation the naval commander and Minister Stevens are expected to follow his advice. He has discretionary orders, it is said, to decide after his arrival whether a continuance of a temporary protectorate is desirable and whether American sailors should be continued on shore.

## UNREQUITED LOVE.

**Why W. K. Bailey Attempted to Commit Suicide.**

**He Takes Laudanum, but the Prompt Action of His Parents and a Physician Saves Him.**

SAN FRANCISCO, March 22.—[Associated Press.]—W. K. Bailey, twenty-two years of age, residing with his parents at 54 First street, was taken to the receiving hospital at an early hour this morning by his father to be treated for an overdose of laudanum taken with suicidal intent.

It appears from the statements made by his father that it is a case of unrequited love. At about 2 o'clock this morning young Bailey entered the bedroom of his parents and said to his mother: "I want to tell you something," and then returned to his room. When his mother reached his apartment she found him in an unconscious condition, with an empty vial labeled laudanum on the table by his bedside. The frightened mother reported the circumstance to her husband, who went in search of a doctor and, meeting Police Officers Daly and Farrell, told them what had occurred. The officers summoned a patrol wagon and took the sufferer to the receiving hospital. Surgeon Samuels successfully applied the necessary remedies and restored the would-be suicide to consciousness and he was taken to his home.

The father stated that his son was a most exemplary young man, who has a good education, and the only way he could account for his rash act was the unfortunate result of a love affair.

**A Breaking Reservoir.**

NILTON, Cal., March 22.—The California company's reservoir at the head of Rock creek, known as the Salt Spring valley reservoir is in danger of giving way. This morning about one hundred feet of the outer breast some eight feet thick, caved down. The latest news is that a crack one hundred and fifty yards long between the inner and outer breasts had opened about the size of a man's body. If this large body of water should be precipitated down into the valley, it would do immense damage to residents along Rock creek and also at Farmington, and the city of Stockton.

**Missouri Pacific Directors.**

NEW YORK, March 22.—The directors of the Missouri Pacific railroad are in secret session at the general office today. It is understood that George Gould will be elected to fill the newly created office of chairman of the board, that first vice-President S. H. H. Clark will be elected president to fill the vacancy created by the death of Jay Gould and that Geo. C. Smith, assistant manager will be elected general manager. If this slate goes through President Clark will continue to make his headquarters in St. Louis.
