SNOW AT PRESCOTT.—It was reported yesterday that Prescott had a snowfall of six inches.

AN ARROGANT FATHER.—Clay Sparks is the proud and arrogant father of a ten-pound boy less than twenty-four hours old.

FINED THIRTY DOLLARS.—Jerry Stowe, who was convicted of assault by Justice Johnstone, was yesterday sentenced to pay a fine of \$30.

LEFT FOR HOME.—Mrs. Thomas left last night for her home in Butte, Mont., accompanying the remains of her husband, who died a couple of days ago.

THE GONZALEZ ESTATE.—A petition for an accounting and an order of final distribution in the estate of Manuel Gonzalez was filed in probate court by one of the heirs yesterday.

A CANAL DEAL.—The sale of the interest of the late Captain W. O. O'Neill in the Buckeye canal was concluded yesterday. The interest was transferred to Attorney-General Almsworth on account of the purchaser, J. H. Brawley of Los Angeles.

DISCHARGED.—D. Boggis, who was arrested on the charge of selling liquor to an Indian, was examined yesterday by Court Commissioner Johnston, who failed to find sufficient evidence to hold the prisoner to the grand jury. He was accordingly discharged.

ELLINGSON STOREROOM.—Work is being rapidly pushed on the new Ellingson block now in course of construction on Washington street. It is understood that Talbot & Hubbard will occupy the room adjoining their present storeroom, when the building is completed.

A BLOOMER SOCIAL.—The ladies of the Christian church will give a bloomer social on Friday afternoon and evening at the residence of Mrs. Zoekler, corner Eighth avenue and Jefferson streets. A musical and literary programme will be rendered. Those taking a prominent part will wear bloomers. Bloomers will be given as prizes.

EX-GOVERNOR McCORD AT MISSOULA.—The Anaconda (Mont.) Standard, describing the late meeting of the irrigation congress at Missoula, says: "Ex-Governor McCord of Arizona, upon invitation, delivered a twenty-minute address upon the needs and conditions of arid regions. Governor McCord's introduction described briefly the development and reclamation of arid lands and his description of what has been done was comprehensive and complete. The speaker referred to the present conditions as they exist in the arid states, speaking especially of his own state."

AN AUTOMOBILE.—Phoenix has long since enjoyed the distinction of horseless carriages, but investigation has always revealed that they were drawn by mules. A real sure enough automobile, however, is soon to be one of the attractions of our streets and boulevards. The parties who have leased the property of Mrs. Horner on the corner of Jefferson street and Third avenue, for the winter, will arrive in a short time and it is understood the ownership of an up-to-date automobile is vested in them. They purpose bringing the vehicle to Phoenix to add to the pleasure of tourist life in the southwest.

WET WEATHER REPORTS.—During the last day or two rain has fallen in the southern part of the territory almost the entire length of the Southern Pacific railroad. Tucson people, both the righteous and the unjust, have been praying for rain for lo, these many days and their petitions have seemingly been heeded. Though the rains have been heavy in but a few places, they have been general throughout the south, and will do a vast amount of good to all classes. Phoenix has enjoyed the pleasures of anticipation for a couple of days, but though the sky has been cloudy results are not worth mentioning.

THE APPARATUS CHRISTENING.—The new fire apparatus will be dedicated and christened tonight with rather imposing ceremonies. A band stand will be constructed in front of the engine house and the new hose cart will be drawn up on one side of it and the new hook and ladder truck on the other. The ceremonies will be begun at 8 o'clock with an opening address by Chairman Shott of the department, and he will be followed by addresses by Mayor Ganz, Councilman N. A. Morford and other members of the council, and by ex-Mayor Adams. The principal speaker of the evening will be Judge Frank Cox, who was a charter member of the engine company No. 1. At the conclusion of his address Miss Annie Monihon will christen the hook and ladder truck "Aztec Hook and Ladder Truck No. 1," and the new hose cart will be called for all time "Pioneer Hose Cart No. 1." The Pioneer band will furnish music for the occasion.

SNOW IN FLAGSTAFF.—If there are any Phoenixians left at Flagstaff they should hurry home at once for two reasons. First, to help push the carnival along, and secondly, to escape being frost bitten. Jerry Sullivan, the Seligman cattle buyer, was an incoming passenger on last night's train from the north and he reports that when the train passed through Flagstaff yesterday snow was falling quite rapidly. It had made but little showing on the ground as yet, but it was a gentle reminder of what will happen in the near future. Mr. Sullivan was returning from New Mexico, where he went a few days ago with a trainload of cattle.

THE BAND BANQUETED.—While the Pioneer band was busily engaged in practice at Moss hall Tuesday evening Mr. W. A. Watts made his appearance and requested permission to spread the boys a nice little lunch in token of his appreciation of their good conduct while in Prescott on the recent excursion, as well as the good music they furnish both at home and abroad. The permission was granted and in a very few minutes thereafter the tables were arranged and salads, sandwiches, sardines and beer directed from his wholesale liquor establishment were placed before them. After the banquet a season was spent in toasts and repartee.

RICH SILVER STRIKE.—F. E. Jones, a mining man, who has been spending considerable time in Sonora recently, was in Phoenix yesterday and reports a rich silver strike in the Roy mine in the well known Pinaleros mining district. The ore found in the new strike, it is said, will run \$17,000 in silver, Mexican, or about half that amount estimated on a gold basis. Great excitement prevails throughout the district over the discovery. The Roy is located in the same region as the Cinco de Mayo and Pinaleros properties, the first of which is owned and operated by Col. Garcia, President Diaz's chief of staff, and the latter by A. J. King. Both these mines have been well known producers for a long time and in each of them strikes have been made that were even richer than the one above referred to. The Roy, owned by L. E. Booker, has always been considered a valuable mine, as it is located on the same lead, but no previous showing has equalled the present rich strike.

SHOOTING IN THE CITY LIMITS.—Last night a badly scared woman invoked the aid of the police in a matter which she thought needed attention. She said that she was coming down First avenue and when she was near the corner of Adams street she heard what she believed to be a shot. She was sure that either a murder or a suicide had been committed, though it might have been a deadly explosion. She was rather inclined, though, to the murder or suicide theory. Officer Dowell and Constable McClintock undertook an investigation of the crime. They hunted through the alleys and back lots of the vicinity, awoke the occupants of a corral near by and inquired if they had heard the fusillade. The officers were about to give up the hunt when they suddenly got a clue. They heard a shot, Officer Dowell, who had been looking into the mysteries of the Elks, knew what it was. The lodge was in session and the members were shooting at a fawn. When the officer explained the character of the disturbance to Constable McClintock, he said: "They oughtn't to use such big guns. I should think a 22 would do just as well unless they want to hit 'em."

WAR IS AT AN END.—In one of his earlier productions before he became famous by his observations upon national and international affairs, while he was still confining his philosophy to the people and politics of Archey road and Chicago, Mr. Dooley was describing to Mr. Hennessey a mutual acquaintance who was always doing unusual and unexpected things. He illustrated the contrariety of his disposition by denominating him as a freak who drank whisky at a German saloon and bought beer of an Irishman. Yesterday afternoon County Recorder Sheridan, who is not of German descent, was parading Washington street with a pipe five feet long which was not a dud. Nothing like it was ever seen between Bantry Bay and Londonderry, nor yet between Galway and Dublin. That pipe and Recorder Sheridan together looked as if the millennium had come in unheralded and as if the lion and the lamb had lain down together without the lamb being submitted to the process of digestion; as if ploughshares were to be beaten into pruning hooks and as if

nations would not learn war any more. That Sheridan-pipe combination was a stronger argument in favor of disarmament than any presented at the Hague conference. Those who had been betting on the South African war hastened to hedge. The pipe is the property of Herman Stuhr, who had bet the recorder that he had not the hardihood to wear it on the principal thoroughfares.

THE GRADE CROSSING.

Fairhaven, Vt., Oct. 4.—Charles Woodbury, 17, and John McGinley, 40, were struck by a westbound freight on the Delaware & Hudson railroad today. Woodbury being instantly killed and McGinley so badly injured that he died an hour later. Both lived in Castleton, Vt., and were driving in a buggy over a grade crossing at the time. The horse was killed.
