HOLIDAY VACATION

Christmas Greetings and Other Items of School News.

Friday was the close of school for the Christmas vacation and it was a very interesting day for the pupils of both the high school and the grammar grades. There were appropriate exercises and the exchange of greetings between teachers and pupils. Superintendent McDonnell made the pupils of all the schools happy, as well as the teachers, by presenting to each one of them a beautiful card bearing the season's greetings. In some of the rooms the children who could not wait for Santa Claus to do their errands presented to their teachers little tokens of childish affection that will no doubt be appreciated by the teachers better than anything they will get Christmas morning.

County Superintendent Fulton is busily engaged writing warrants preparatory to paying off everybody next week, who has a valid claim on the school fund. It is his busy time but he keeps as good natured as a school superintendent is expected to.

Another item of interest pertaining to the schools is the fact that a petition is being circulated by one of the high school students, for the formation of a cadet company to be attached to the National Guard as is the Normal cadet company.

COUNTRY CLUB NEWS

Good Golf Scores, Tennis Match and Ladies' Tea.

Saturday is always an important day at the Country club, but yesterday afternoon the house and grounds presented a more animated scene than usual. Sandwiches and tea were served by Mrs. W. C. Foster and Mrs. J. W. Dorris and a great many of the society ladies of the city were in attendance.

There were more players than usual on the links and some very good scores were made. Paul Murphy, who is home from college on his Christmas vacation, made a record of 35 on Friday and yesterday played around 38, both of which are exceptional scores. Other good scores of yesterday were 42 by T. W. Pemberton and 49 by C. F. Ainsworth. Several ladies played but none handed in scores.

The tennis enthusiasts held an impromptu match in which Messrs. Morton and Goodrich and Henderson and Arthur Ainsworth contested. The match resulted in a victory for Morton and Goodrich but was a closely contested and well played game. The tennis committee has decided to hold a double tournament Christmas beginning at nine-thirty. There are several

COTTAGE HOTEL. American and European Plans.

well matched teams and some excellent playing may be expected. The annual ball held Friday night at the Adams was a success from a social as well as financial point of view. The attendance was very good and the decorations, music and floor combined to make this the most pleasant affair of its kind ever given in Phoenix.

JUDGE RUPPERT DEAD

Was Fatally Injured by the Fire Engine Yesterday.

The Phoenix fire engine has scored another victim and Judge, Ed Rupert's well known Great Dane dog lies cold in death while his spirit has flown to dog heaven. A lot of dogs have died in this town that have been more greatly missed than some men who have filled up their page and submitted their balance sheet. The memory of Judge is now added to the number. Judge was a native son, being born here about four years ago. He was an unusually large dog, weighing 178 pounds and was of a kind and affectionate nature. He was raised from puppyhood by Mr. Rupert, whose children thought more of him than some children do of their parents. The dog's grandmother was imported from Germany and was from the kennels of Bismark, the great chancellor.

He was well known around the engine house and felt an interest in the engine horses. It was his custom whenever he met them on the street to go out and exchange compliments in a dog's way. Yesterday afternoon the engine team was driven out for exercise and passed Mr. Rupert's house. The dog ran out, jumped at the horses' heads and a moment later was caught under the wheels. One of his legs was terribly mangled and he was otherwise badly hurt. Dr. Richmond was sent for it was determined that if he recovered at all he would be a cripple so it was decided to end his career with a bullet, which was done. As a result there is sorrow not only in the Rupert household but in the hearts of a lot of other people who knew the dog, which was a familiar figure around town, a thoroughbred and a valuable animal.

Incidentally it may be noted that the fire engine is fatal to more canines than is the average dog-catcher though Mr. Rupert desires it said that the driver is in no way to blame for the accident to his dog.

Biggest Sign in the World.

New Yorkers who are used to big things have been astonished during the past week by a painted sign at the corner of Broadway and Spring street, covering the north side of two eleven story buildings. This sign covers 15,416 square feet of space and is by far the largest advertising sign ever painted. The picture is the well-known fig-

ure of "Sunny Jim," who for so many months has testified to the goodness of "FORCE," not only over the entire United States, but in the United Kingdom, as well.

In this picture, "Sunny Jim" is 112 feet 6 inches tall and 15 feet broad. His nose is 19 feet long. His ear is 3 feet 9 inches high. His arm is 17 feet long; his legs 60 feet long. His thumb extends over a space of 5 feet. The height of his collar is 12 feet 6 inches, and his tie is 7 feet 6 inches in height. His cuffs are 6 feet 3 inches wide. The buttons on the coat are 3 feet 9 inches in diameter, and his cuff buttons are 3 feet 6 inches in length. "Sunny Jim's" feet are 20 feet long, and the cane which he carries is 50 feet in length. His dog, which sports along by his side, is 42 feet 6 inches in height.

With this enormous sign, the reading matter is very brief and fills but a small part of the space. It is as follows:

"Vigor, Vim, Perfect Trim, 'FORCE' made him 'Sunny Jim.'"

Samuel Motter, assistant prosecuting attorney in Buchanan, Mo., was fined the other day for sneezing, the justice believing the sneeze was an indication of contempt of court. The St. Joseph News describes the occurrence as follows: "Attorney Motter, though he carries about the culture and polish of Yale and other alma maters, in addition to the refinement of St. Joseph's best circles, persists in sneezing as did all our Missouri ancestors in pioneer days—just throws his head back and opens his mouth in an influenza smile, which is broken by lines of tender sadness just before the eye ends meet at the back of his neck. Then he gathers in all the circumambient atmosphere and microbes and lets go like a fog horn, ending up with 'ash hoppers,' as do the denizens of Big Creek, even unto this day." It is not surprising that the court should assert its prerogative.

HOLIDAY EXCURSIONS.

On December 24 and 25 and December 31 and January 1 the S. F. P. & F. will sell tickets between all stations at rate of one fare for the round trip.
