EIGHTEENTH YEAR.

PHOENIX, ARIZONA, SATURDAY MORNING, AUGUST 17 1907

VOL. XVIII. NO 91

THE STRIKE BLANKET FALLS ON THE COUNTRY

The Long Threatened General Order Sent Out by President Small

It Has So Far Not Altered the Situation in Any of the Strike Centers and May Affect Only the Brokerage Houses.

Phoenix suffered another derangement of its Associated Press service yesterday, one which may be described as the "real thing," though it will probably not be of long duration, since the trouble lies so far as Phoenix is concerned wholly in the local office.

The strike order of President Small issued shortly after midnight yesterday was received here after three o'clock in the afternoon and H. P. Doherty, the only remaining operator, reluctantly walked out, leaving Manager Roebuck alone.

Mr. Doherty had been faithful to the Western Union and its patrons and declined all along to engage in any premature movement for the annoyance of the company and the public, but when the strike order came he felt bound by his relations to the union to obey it.

Manager Roebuck also a union man, is absolved by his contract and bond from obedience to the order and he accordingly took his place at the key and kept business moving.

Notwithstanding the work of three men was thus suddenly put upon him he accommodatingly consented to take as much of The Republican's night report as could be sent up to a reasonable hour and the Associated Press was so informed.

It is quite likely that he will shortly be sent assistance from one of the coast offices.

Chicago, Aug. 16.—President Small at 1:30 this morning issued a general order for all commercial telegraphers to cease work immediately where contracts with their union have not been signed.

Despite the issuance of the general strike order, the situation in this city is not materially changed as all the men disposed to strike were already out. It was believed by the officials of the union that the order would paralyze a number of brokerage and commission houses.

No additional strikes are reported. The improvement of the Associated Press service is marked. Efforts at peace making so far have failed.

OLD TREASURY OFFICIAL YIELDED TO TEMPTATION

He Held Out \$3000 From a Package of Bills to be Retired from Circulation.

Boston, Aug. 16.—J. Warren Hastings, since 1863 a trusted official of the United States sub-treasury in this city was arrested today on a charge of embezzlement from the government of \$3,000 in cash on June 7.

The money was taken from a package containing \$105,000 in bills and was prepared for shipment to Washington to be retired from circulation, and the shortage was made good by another clerk, technically responsible but who was at no time under suspicion.

PLENTY OF COAL

Superior, Aug. 16.—There is no danger of a coal shortage in the territory tributary to the head lake if the roads entering here are able to handle the business the coming winter. Receipts up to the present time break all records. There are actually on the docks at the present time about 2,000,000 tons.

BEAUTIFUL OSTRICH PLUMAGE IS THE SUMMER'S RAGE

Every girl or woman can be made very happy with an ostrich plume. We ask you to see our big stock. Every shade, every style. Sole agents Arizona Ostrich Co.

Little Beatty small Navajo blankets, \$3.25.

THE JAPANESE RAIDERS.

Regarded as a Sign of Japan Feeling Toward This Country.

Portland, Aug. 16.—A special from Valdez says the people of Alaska are bitter against Japanese poachers who raided an Indian village at Kodiak island and threatened with violence the crew when brought ashore for trial. The people believe that the raids by the Japanese are an expression of the feeling held by the Japanese toward this country. The raiders are trying to cause a more bitter feeling between Japan and the United States.

DR. BOXTON'S WIFE.

Tells Again of the Plunder Her Husband Brought Home.

San Francisco, Aug. 16.—The wife of former Supervisor Bixton testified at the Glass trial this morning that her husband brought home \$5,000 and counted it out to her and said that Halsey had given it to him. There was no cross-examination.

The Halsey trial was continued for a week this morning and the statement of his physician that Halsey is recovering his strength and progressing as well as could be expected. He said he would be able to leave the hospital in six or eight weeks.

AN IDAHO FIRE.

A Loss of Three Lives and Property to the Amount of \$50,000.

Portland, Aug. 16.—An Oregonian special from Spokane says that a fire accompanied by a loss three lives wiped out the mill and half the lumber yard of the Springfield Lumber company three miles from Harrison, Idaho, Wednesday. It was started by a spark. The loss is \$50,000.

CHINA WITHOUT A HEAD.

The Empress Dowager Incapacitated by an Incurable Illness.

Tokio, Aug. 16.—Private dispatches from Peking forecast a gloomy future owing to the unsettled state of politics there caused by the absence of a ruling mind powerful enough to cope with the situation. The empress dowager is now in a critical state of health. She is incapacitated by an incurable disease. The historical animosity between the Manchus and the Mandarins constitutes the baffling problem.

NOTES TO THE MOROCCAN SULTAN.

Paris, Aug. 16.—France and Spain are transmitting to the sultan of Morocco copies of the notes which they have communicated to the powers.

AN IMPROVED SITUATION.

Tangier, Aug. 16.—Advices received here today from the coast towns of Morocco are more reassuring and it is hoped that the improvement will be more pronounced when the tribes realize that the French and Spanish action will only affect the places where the disturbances occur.

BURLINGTON WRECK.

One Killed and Four Persons Seriously Injured.

Kansas City, Aug. 16.—At Wheaton, Missouri, near here early today one person was killed and four seriously wounded in a wreck of a Burlington passenger train, No. 20, southbound. The dead man is Louis N. Williams, a traveling salesman of Kansas City. The injured: Engineer Marshall, William Lewis a mail clerk; Mrs. S. F. Chilfert Hellock and M. Spunick of Chicago.

GERMAN WINE GROWERS DECEIVING AMERICANS

A Condition Which Calls for a Revision of the Inspection Laws of Germany.

Berlin, Aug. 16.—A convention of some 1500 wine growers met yesterday at Oeltrich on the Rhine and adopted a resolution advocating a speedy revision of the wine laws. The reforms demanded include a uniform system of government inspection of wine cellars. A recent visit to the Rhenish wine region developed the fact that wines which are favorites with the American public are often falsely labeled by exporters.

It is specifically stated on the best authority that there is much more so-called Niersteiner exported to the United States than is produced at Nierstein. One of the authorities said that almost no genuine Niersteiner goes to the United States, adding that the exporters trust to American lack of experience with wines to escape detection.

DOES AWAY WITH SKILL

A Machine to Displace Telegraph Operators

The Valentine Device to be Taken Over by One of the Companies.

Carson City, Aug. 16.—W. H. Valentine, the inventor of a machine to send telegraph messages without the use of expert operators left this city this evening. He came down from Lake Tahoe several days ago, where he met a man named Foss who came from Chicago, at a hotel. The two were together several days and it is known that when Foss left he had authority to deal with one of the big companies for the exclusive right to the machine. There is no exhibition machine here, but it is known that it is the same machine exhibited in Los Angeles a few weeks ago.

It sends messages actuated by a type writer, and receives them by printing them automatically on a sheet of paper so that the message looks like ordinary typewriting. No operator is required at the receiving end and the message sent is duplicated in the sending machine.

Valentine admitted that a company is about to establish stations in Nevada, as the service can be made with or without wires. He declined to discuss the rumored deal with the telegraph company but it is understood that negotiations have been going on with the telegraph people to put the machine in operation for the company and thus do away entirely with skilled labor so that strikes may be avoided.

A CHICAGO DELUGE BY BURSTING MAIN

Great Damage to Property From the Flood. Nine Horses Drowned.

Chicago, Aug. 16.—With a roar that brought frightened sleepers from their beds for blocks a thirty-six inch water main on Chicago avenue burst early today shooting a column of water sixty feet in the air and imperiling lives and damaging property to the amount of several thousand dollars. The water broke through a brick pavement in front of the Stockholm hotel. There was a panic among the 500 guests and policemen carried out the women and children.

Water flooded the basements of two blocks. A number of families were rescued by the police. Nine horses were drowned.

OUTLOOK PROMISING FOR PHOENIX & ARIZONA

Never Before Have Outsiders Manifested so Much Interest in This Region.

Two Tucson men, Andres Rebell, member of the territorial board of equalization, and Register Lyman Wakefield of the land office, last night were speaking of the early future of the Salt River valley and the territory. Mr. Wakefield though a resident of Phoenix is a Tucson man in the sense that his interests are there and in that vicinity.

Mr. Rebell believed that Phoenix was a coming town by reason of its superb winter climate, that which there is nothing finer out of doors, but he believed that the future metropolis of the territory is Douglas, which before long will rival El Paso. It might in fact, he thought surpass it since it will be the gateway to the richest district of Mexico, Sonora, whose resources are yet in almost virgin state.

Mr. Wakefield however thought that

THE COST OF WATER FOR WINTER SEASON

The announcement of the new rate for irrigation water which will be charged by the government to prevail during the winter season, or rather from October to June was made yesterday by the reclamation service. The rate will be \$1.00 per acre during that named period.

This is selling water by a new plan. Heretofore the farmers have bought by the inch, paying \$1.50 per inch with a maximum of 66 2/3 inches to the quarter section. Under the beneficent supervision of the government therefore it figures out by the new rate that the farmer will pay for 100 acres, \$100 instead of \$150 as formerly where the maximum was purchased.

The new method is however considered the fairest and the cheapest in the end, as it was probably true that sometimes parties buying the 66 2/3 did not receive any more water than others who only bought 33 1/3. Under the new plan each will receive whatever he pays for.

Another matter that is of interest is the disposition of surplus water to land not already entered which is usually at hand in the winter season. The surplus water in the river after a certain stage will be sold to these lands at 50 cents per acre. This will not establish a water right but will simply give the use of whatever surplus there may be to be disposed of to the farmers.

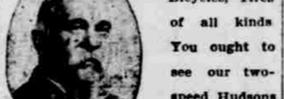

The customers of the service will be received in new quarters, room 15 in the post office building when the time comes around again for payments.

RECYCLES AND BICYCLES, TIRES

You ought to see our two-speed Hudsons—they are a revelation.

GRISWOLD

The Bicycle Man. 34-36 W. Adams St.

For SALE

Good cattle range, 160 acres patented land; two large pastures, house, barn, orchard, good running water, 600 head cattle, 100 head horses, at a bargain. See

DWIGHT B. HEARD
Center and Adams Streets.

SALOME.
The Board of Supervisors after making a personal investigation, selected Salome as the location for the branch county building and make the following statement:
"Salome is the natural center of the county at this time and will remain so, as all roads—stage and rail—lead to Salome."
If you want to visit or inspect the northern end of Yuma county, make your headquarters at SALOME, THE COMING COPPER CAMP.

The moon gives back reflected light. The planets do the same; But Donofrio's candles bright, Shine with their own bright flame.

UNHAPPY ELOPEMENT TERMINATES HAPPILY

The Elopers Drawn by Hunger Obligated to Return Home Where They Received Parental Consent.

A license was issued yesterday for the marriage of Jesus Perez and Candelario Ruiz of Tempe. This is the happy ending of an unhappy and circuitous elopement which led the elopers back to the starting point.

The suit of Perez for the hand of Senorita Ruiz was looked upon with favor by the mother of the latter and a few days ago they disappeared.

Mrs. Ruiz called upon Sheriff Hayden, who then happened to be in Tempe, to intervene for the saving of her daughter. The sheriff came to town and consulted with the assistant district attorney in relation to the matter.

But before any action could be taken word was received from Tempe that the elopers had returned. They had come as far as Phoenix and lingered here for two or three days without money and most of the time without anything to eat. They had only one base of supplies, Tempe, and they determined to return to it.

The mother of the girl while her repugnance toward Perez had not been softened believed that as things had turned out it was better that she and her daughter should marry and the sooner the better, before a scandal should attach itself to the proceedings.

Perez was willing to head off a scandal but he was so financially situated that he could pay neither for the license nor for the services of a justice of the peace. The mother did not feel like contributing any financial support to a proceeding so distasteful to her but she consented finally to do it. The license was accordingly sent for and the marriage presumably was solemnized at Tempe last night.

THE SINEWS OF ARIZONA ITS TAXABLE VALUATION

Wealth of the Counties in Different Varieties of Property

The last session of the territorial board of equalization will be held at one o'clock today for the signing up of the minutes on which the force of the auditor's office has been engaged since yesterday morning. An adjournment will be taken and Auditor Page will leave tonight on his well earned vacation. The following are statements in various forms of the wealth of the territory as arrived at by the board:

TOTAL VALUATION BY COUNTIES FOR THE YEAR 1907.

COUNTIES	VALUATION
Apache	\$ 1,970,827.91
Cochise	20,728,715.25
Cocconino	2,808,059.09
Gila	4,792,387.28
Graham	7,576,942.12

Railroads	11,912,994.57
All other property	11,148,974.00
Total valuation of all property	77,705,251.11
Less exemptions	333,095.00
Total subject to taxation	\$77,372,156.11

GETTING READY FOR IMPROVEMENT—The Collins addition Water Users association is now getting everything down to a working basis and at the last meeting Thursday night a committee which had been previously selected, were instructed to continue their work and draw up and secure signers to an agreement to become members of the association. This paper will be circulated this week. Numerous improvements are contemplated, making new and cleaning old ditches, which will beautify and materially advance the value of property in that part of the city.

There is nothing handsomer or more unique than hand-made brass. There is only one pre-eminent variety, the Russian, which we have in stock in great variety of patterns and designs. It is being sold at greatly reduced prices.
