

The Lamson Business College

Phoenix Arizona

Will begin its twenty-first year in September, but you are not obliged to wait. You may enter any day and prepare for one of the many positions that will be open in the fall and winter.

Hundreds of the most successful young Business Men, Bookkeepers, Stenographers and Clerks in Arizona and the United States were former students of this school.

What Others Have Done, You Can Do

Miss Sarah J. Kenyon of Salome, Arizona, wrote, "In my own case one month's salary more than pays for the price of the Combined Course in the Lamson Business College and I think the Combined Course the cheapest and best." Miss Kenyon secured a position which she still holds the week she finished the course.

Roy C. Herald of Prescott, Arizona, says, "I took the Combined Course and secured my diploma on April 3, 1908. On the 6th, the following Monday, through the influence of the school I went to work as stenographer and Deputy United States Marshal for the United States Marshal at a salary of \$90 per month. My hours were short, work easy and pleasant."

Sidney Hill of Prescott, Arizona, says, "The faculty of the Lamson Business College is fully competent and always willing to do everything consistent in assisting students in their studies and in securing a good position for them after completion of the course. I have not been out of employment for a day since leaving the College."

Under date of April 14, 1909, John A. Lewis ("Red" Lewis as the baseball boys call him) writes, "I came direct to Philadelphia and secured a fine place with Henry Disston & Sons. The hours are 8:20 to 4:45 with one hour for lunch. We quit at 12 o'clock on Saturdays. This firm employs 4,000 hands. The office force consists of 65. All of the stenographers are men. Everybody is well paid. I think this is a place to be coveted." Mr. Lewis entered the Lamson Business College on his thirtieth birthday to take the Combined Course. The above quotation from his letter speaks for itself.

Young man and young woman, why do you hesitate about entering the Lamson Business College and taking the Complete Course?

HOW WOULD YOU LIKE TO BE EARNING A SALARY OF \$80.00 TO \$125.00 PER MONTH ONE YEAR FROM NOW?

If you wish to know how it can be done, call at the College Office or write

E. M. Lamson, Pres.
Phoenix, Arizona

FARMERS' MEETINGS IN SCHOOL DISTRICTS

Result of the Conferences Thursday Night in Conformity With the Alhambra Call.

In response to the call originating in the Alhambra mass meeting, for mass meetings of the water users in the various school districts, to elect delegates to a general convention of the representatives of the farmers, to formulate answers to the questions sent out by the senate committee on irrigation, so far as heard from, there were gatherings in six districts. Delegates were elected in the Scottsdale, Isaac and Murphy districts. The Creighton district meeting adjourned to another date, only three farmers, it is reported gathered at the Alhambra meeting and no action was taken, while in the Cartwright district only five or six assembled and as most of them preferred to take action under the call of the Water Users' association no action or discussion was indulged in Thursday night. Following are the reports of the four meetings that were organized, as furnished by the respective secretaries:

Scottsdale.
In accordance with G. R. Brewster's call to water users, there was a meeting of the water users of Scottsdale held at the school house Thursday evening, and the three delegates elected were Mr. Miller, Mr. Brown and Mr. Wilber.

The meeting was called to order by V. A. Vanderhoof, who stated the purpose of the meeting by reading the call of Mr. Brewster. Charles Miller was chosen chairman and Mr. Vanderhoof, secretary. Many phases of the water question were discussed, and though no resolutions were drawn up it was the sense of the meeting that no water temple ought to be undertaken at this time, and that the expense of the W. U. A. should be cut down as low as possible. While it was decided best to keep the W. U. A. alive, it was thought best to do away with regular salaried officers. There seems very little for such officers to do now, and so long as Uncle Sam is in charge we are willing to trust to him for our water.

It was decided also to co-operate with the reclamation service as much as possible in perfecting the running of the water system. We all feel the need at times of water at shorter intervals than twelve days as it is impossible to raise small truck under the present system.

Creighton.
A meeting of the water users of Creighton school district was held Thursday night, at which there was a fair attendance. C. M. Eiter was chosen chairman and T. T. Powers, secretary. A full discussion of the best means of proceeding with the preparation of answers to the questions propounded by the senatorial committee was had after which the meeting adjourned to meet Tuesday evening, August 10. The choosing of delegates to a general meeting was postponed until that date. Every water user in Creighton school district is urged to be present at the next meeting.

Isaac.
At the meeting held at the Isaac school house Thursday evening August 5, by the farmers of District No. 5, Ira Beck was chosen as chairman and W. O. Isaac, secretary. Ira Beck, J. C. Muldersbach and Sam Barrett were elected delegates to confer with the delegates from the other districts as to plans and arrangements to meet the investigating committee from Washington. It was decided by a unanimous vote to hold another meeting at the same place, after the conference of the delegates, notice of which will be given in due time.

Murphy.
At a meeting of the water users Thursday at Murphy school house much interest was shown and a good crowd was present, notwithstanding the unfavorable conditions of the weather. Mr. Austin presided as chairman and C. V. Galley, Mr. Bustin the committee asked to be in the committee. Following their election the committee asked to be instructed and it was during the following discussion that some new things of importance were brought to light discussed and aired. It was the opinion of some of the association officials were trimmed down from thousands to hundreds that some of these fellows who sit at their desks and farm would lose interest in the man with the shovel. And a man who had the farmers' interests at heart could be put in his stead, or the thing could be, and would be, disbanded when the farmers once got control. But the way it is now let a man open his head and he is abnormal and told he is talking tommyrot and all that sort of stuff. The meeting noted how quick the association was to develop a plan to secure the sentiment of the people after the farmers had already taken these steps. Won't it be comical to see the committee of farmers coming up bearing the sentiment of the tillers of the soil and the sentiment of his neighbors? Then coming along behind comes this other committee that the association officials are setting up. Whose expressions do they hear? The farmer, too, or is there something back of it all?

MEXICAN GIRL KILLED CHINESE ARE SUSPECTED
The Oriental Quarter of Guadalajara Threatened With Violence.
El Paso, Aug. 6.—With a heavy cloth wrapped closely about her head and finger marks on her throat, the body of a young and unidentified Mexican girl, with evidence pointing to a party of Chinese as the murderers, was found last night at Zabolán, near Guadalajara, Mex. The Chinese quarters tonight was surrounded by a mob calling for vengeance. The girl was about twelve years old. The body was found in a house recently occupied by Chinese. Marks on the throat indicate that the girl was strangled.

THE PRESIDENT'S ROUTE TENTATIVELY OUTLINED

IT IS NOT QUITE SATISFACTORY.

Makes No Provision for Central and Southern Arizona.

Washington, Aug. 6.—President Taft made public today a tentative outline of his trip to the west this fall. The journey will cover 13,000 miles, and will be one of the most notable ever made by a president. No "seeing all America" could be devised to embrace as many points of interest.

Taft will be accompanied by Private Secretary Carpenter, Military Aide Butt, White House attaches, and perhaps a guest or two on various parts of the trip.

Taft will traverse the Royal Gorge of the Rocky mountains, visit the Alaska-Yukon-Pacific exposition at Seattle, spend three days at Yosemite, stop off at the Grand canyon in Arizona, greet President Diaz of Mexico on the international bridge at El Paso on October 16, take a four days' sail on the Mississippi and then go from St. Louis to New York.

Taft will motor into Boston, and board his car on the morning of September 15, which will be his fifty-second birthday. He will occupy a special car attached to regular trains.

The first stop will be at Chicago, on September 18, in Minneapolis five hours on September 19, in Des Moines on September 20 and go to Omaha.

Denver will be reached on September 22. He will stop an hour in Colorado Springs, go to Pueblo and reach Glenwood Springs on September 24, Salt Lake on September 24.

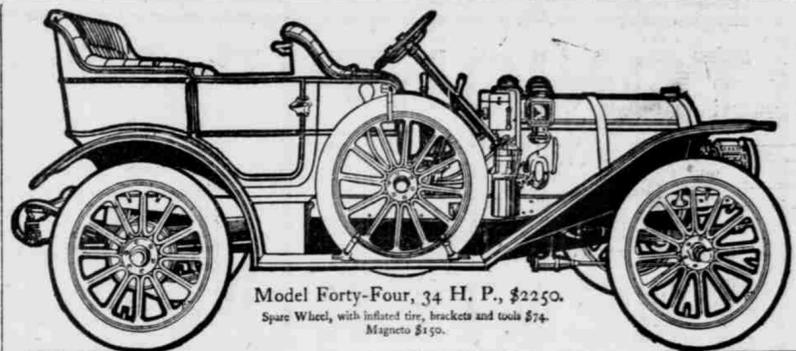

Sunday afternoon, September 25, he leaves for Pocatello, Butte, Helena, Spokane, and will arrive at Seattle on September 29, to spend two days at the exposition.

Portland will be reached on October 2. He will be two days in Portland. He arrives at Sacramento, Cal., on October 4; Oakland on October 5, reaching San Francisco on the afternoon of October 5. He will leave there on the morning of October 6 for Yosemite, to remain four days. On October 12 he reaches Los Angeles, visiting his sister. He will be at the Grand Canyon in Arizona on October 14, and in Albuquerque on the evening of October 15, going to El Paso to meet President Diaz on October 16, and shake hands with him on the international bridge. There will probably be a banquet on the bridge.

Taft will visit San Antonio, Fort Sam Houston and spend four days at his brother's ranch at Corpus Christi. Next he will be in Houston and Dallas, and thence to St. Louis for a four days' trip to New Orleans. There will be a spectacular flye program. Following the president's boat will be one containing thirty governors of states and another with more than 100 congressmen.

Taft will reach New Orleans on October 29, remaining for the meeting of the Deep Waterways association until November 1.

Stops will be made at Jackson and Columbus, Miss.; Birmingham, Macon, Savannah, Charleston, Augusta, Columbia, Wilmington, and twelve hours will be spent at Richmond, Va., returning to Washington on November 16.

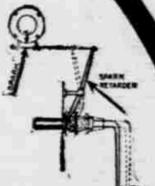

Model Forty-Four, 34 H. P., \$2250.
Spare Wheel, with inflated tire, brackets and tools \$74.
Magneto \$150.

THE SAFETY SPARK RETARDER

There is absolutely no danger in cranking a Rambler when properly adjusted. The starting crank then cannot engage until the spark has been automatically retarded.

Every one who has had the unpleasant experience of a premature spark in starting an automobile will appreciate the Rambler safety starting device. This prevents an explosion ahead of center, even though the operator forgets to retard the spark.

You cannot engage the big on the shaft with a tooth on the starting crank until the spark-retarder lever has moved from the position of the dotted line to the position shown, thus retarding the spark.

Rambler

The Car with the Offset Crank Shaft

Let us demonstrate the silence and comfort of this car. Let us call at your home, and take you to your place of business some morning in a Rambler.

ULTIMATUM TO GREECE FROM CONSTANTINOPLE

It Must Keep Out of Cretan Affairs or There Will Be War.

Constantinople, Aug. 6.—The Porte today sent a note to Greece demanding a formal declaration by that country of non-interference in Cretan affairs. If Greece refuses, Turkey will break off diplomatic relations with that country.

WASHINGTON APPREHENSIVE.

Washington, D. C., Aug. 6.—Apprehension of serious trouble between Turkey and Greece is conveyed in telegrams received by the state department today from Athens. The Macedonian and Cretan situation is referred to in the communication as very grave.

GOVERNMENT BEATEN

Muskogee, Aug. 6.—Judge Ralph Campbell today sustained the demurrers of the defendants in thirty thousand Indian land allotment suits brought by the government. The actions by the government were ordered dismissed. The court held that the title, obtained from the Indians before the act removing the restrictions went into effect are good.
