

Why I Lost My Job REASONS WHY THOUSANDS LIKE ME CANNOT SATISFY THEIR EMPLOYERS.

"I believe my fate is not unlike that of thousands of other workers who daily lose their places for reasons they do not know, and probably would not believe. When their last pay envelope comes along, it is usually, "Your services no longer required." If the truth were known, the reason for their unceremonious removal would probably be that their usefulness was destroyed because of some mental worry, bodily ailment or general indisposition. These things, as we all know, are the most fruitful causes of failure in all walks of life. The battle of Waterloo was lost because of a headache. In this quick age our minds must be clear, rapid, active and free from outside influence or worry, or else we go down to failure with the throng of "floaters" who go from one place of employment to another, giving no satisfaction to others or to themselves, constantly growing older and less useful, with no ambition, no will power, and no hope of success.

Every man requires from every other man the best that is in him. But no man can use or get the best that is in himself until he is first free from all fretful indispositions and worries. That was my trouble. I was full of troubles. That's why I lost my job. My stomach in the first place was always out of order, and I was worrying about it and my mind grew cloudy, and slow. I made mistakes, and grew grouchy. That was the end.

There are thousands like me, going about with "quick lunch" faces, dyspeptic manners, and repulsive attitudes. No employer wants such men's services. Take my advice. A healthy stomach is half the battle, for it keeps your mind clear, and your face rosy. I have a healthy stomach now and hold a good position, and my employer is satisfied and so am I.

I started to take Stuart's Dyspepsia Tablets which I was told were good for the worst cases of indigestion and dyspepsia. The first two tablets made a wonderful difference in my condition. One ingredient of Stuart's Dyspepsia Tablets is a great tonic for the stomach. The stomach doesn't have to work at all. The Tablets do all the work, no matter how heavy your meal.

Stuart's Dyspepsia Tablets cure brash, eruptions, burning sensations, bloating, irritations, loss of appetite, nausea, heartburn, lack of energy, loss of memory and dyspepsia and indigestion in their very worst forms.

No other little tablets in the world can do so much. You should carry them around with you wherever you go and take them regularly after meals. Then you will realize what it is to be freed from stomach torment, and have a clear mind, a quick memory, a happy disposition, comfort and rest. Get Stuart's Dyspepsia Tablets at any drug store for 50c a package.

Send us your name and address to-day and we will at once send you a trial sample package free. Address F. A. Stuart Co., 159 Stuart Bldg., Marshall, Mich.

AN OFFICER SHOT. A Cochise posse in Pursuit of Mexican. Bisbee, Ariz., Feb. 4.—Robert Reed, a deputy sheriff of Cochise county, was shot and seriously wounded to-night by a Mexican at Fairbanks, eighteen miles west. The bullet inflicted a wound in the neck. It is supposed that the officer was making an arrest when shot. A posse of officers is attempting to intercept the assailant before he crosses the international line.

COLLEGIATE SHOOTING. Result of Arizona-New Hampshire Match. Washington, Feb. 4.—The University of Iowa made the highest score in the Inter-Collegiate Rifle Shooting league match with a total of 1891 out of a possible 2000 points in its match with Purdue.

Other matches of the seventh week resulted as follows: New Hampshire defeated Arizona 1682 to 1617; the University of Missouri defeated California 1712 to 1701.

MINING CONTEST SETTLED. Washington, Feb. 4.—(Special.)—The secretary of the interior has approved the decision of the commissioner of the land office in the appeal of Oliver Loper, dismissing his protest against the mineral entry for Collinwood filed by W. B. Allen and located within the Verde national forest.

SHE SHOT IN SELF-DEFENSE. A California Woman Unarrested for Death of Husband. Vallejo, Feb. 4.—Thomas Constance was shot and killed today after a quarrel with his wife. No charge has yet been placed against Mrs. Constance, who claims that she acted in self-defense.

NEVER TOO LATE TO GET HUNK. Deacon Flint—Jane, if I die I wish you'd marry Deacon Skinner. Mrs. Deacon Flint—And why, Amos. Deacon Flint—Well, Abe Skinner beat me on a hoss trade once.—Puck.

DISARMAMENT. "You approve of disarmament?" asked the lady who discusses world affairs. "I do," replied Miss Cayenne. "I am in favor of wholly abolishing the hat pin."—Washington Star.

ANSWERED. A drummer approached a girl in charge of a soda fountain in WHIMMANTIC, and before giving his order asked: "How is the milkmaid tonight?" "Milk isn't made; it comes from cows, you fool," was the retort.—World.

STRAYING HORSES AND BARBED WIRE FENCES

Subjects of Numerous Complaints to the Police Department

Telling troubles to the police is ever a popular pastime and Marshal Moore received an unusual number of complaints yesterday. While rain usually brings smiles in this country, it brings frowns to some, and the whole town seemed to have been waiting for the next rainy day to present various matters of varying degrees of importance to the attention of the police department head. Several complaints were horses running loose. A great many persons seem to be extremely careless with their livestock. While most people prefer to keep their horses in their back yards when not in use, there are some who seem to think everything is all right if the animals are within the city limits. A horse wandering at large is pretty certain to make for the best grass. As the best grass in the city is in lawns, front yards are sometimes utilized as pastures by stray livestock. A horse's hoofs work havoc with a lawn just after a rain on a irrigated lawn. Several in the southern part of the city were badly cut up yesterday.

Several complaints in regard to barbed wire were also received. There is a city ordinance against brush or barbed wire fences, which are a menace to the flesh and clothing of passers-by. Wire on top of high fences, designed to keep thieves from climbing over, injures no honest person, but low fences of barbed wire are certain to give more or less trouble.

PERSONAL MENTION

The following guests registered yesterday at the Star: W. W. Corbin, Los Angeles; W. P. Waters, W. W. Driskill, Jr., Sheridan, Wyo.; D. E. Wright, St. Louis; D. E. Koester, San Francisco; M. J. Ely, Long Beach; Henry Brown Hall, Ogdensburg, N. Y.

Following are the guests who registered at the Adams Annex yesterday: Charles G. Newberger, Topeka, Kan.; J. W. Pierce, San Francisco; W. C. Burgess, San Diego; Mrs. H. W. Albee, Chicago; J. T. Donovan and wife, Paducah, Ky.; M. A. Sweeney, Denver; Mrs. A. Sinclair, Tucson.

The following named guests registered yesterday at the Ford hotel: H. E. Fox, New York; W. J. Brown, Denver; Charles L. Montgomery, Cananda; C. E. Redd and wife, Pratt, Kan.; Lee B. Striefling, R. Ronstadt, Denver; Miss S. Martin, Tucson; G. Jones, Tucson; D. M. Smith, San Francisco; W. A. Duncan, Louisville, Ky.; Ed L. Shaw, Los Angeles; Major and Mrs. John Esso, St. Paul; William S. Dolph, Chicago; Agnes M. Herg, Lansing, Mich.; William V. Lockwood, Los Angeles; G. L. Crawford, Maine, Arizona; O. B. Burdick, St. Louis; M. Finsburg, Buffalo, N. Y.; T. B. Flanagan, Los Angeles; C. E. Williams, El Tigre, Mexico.

The following are the guests registering yesterday at the Commercial hotel: A. E. Surrizen, Brooklyn, N. Y.; J. W. Stewart, J. S. Clark, Prescott; Ira E. Brown, Kelvin; E. Hull, S. Cohn, San Francisco; Mrs. S. M. Bartleson, Florence; W. D. Berry, James; Mullen, E. F. Winters, Los Angeles; Mrs. A. H. Morris, Chilton; J. H. Cavanaugh, Mazatlan, Mexico; J. W. Sweet, Prescott; D. S. Matthews, Butte, Mont.; James Scott, Pinedale, Arizona; Mrs. Florence McDonald, Topeka, Kan.; M. H. Salyer, Tempe; H. Lovin, Denver; William Walton, Nels Benson, Palo Verde; Joseph Hedrick, City; J. W. McNamara, Chicago; Charles Kemper, Minneapolis; T. E. Pulliam, W. H. Campbell, Flagstaff; H. Caldwell, J. Pascoe, Ray; F. Kleiner, Frankfort, Ky.; W. O. Perkins, Williams; Fred Wagner, Aurora, Nev.; T. H. Sutton, Los Angeles.

GENERAL TERRELL STRICKEN. Washington, Feb. 4.—Senator Joseph M. Terrell, of Georgia, was suddenly

S.S.S. CURES BLOOD POISON

A great many so-called remedies for Contagious Blood Poison are composed almost entirely of strong mineral ingredients. They seem to be compounded with the idea that one poison will counteract another—provided the stomach and delicate portions of the system can withstand the effects of the strong treatment. These concoctions are intended to kill the poison in the system. In this article we want to tell you of S.S.S., a purely vegetable remedy for Contagious Blood Poison, a medicine that not only cures the disease, but one which from the first dose has a fine tonic effect upon the stomach and the entire system. Nor does S.S.S. attempt to kill the germs within the system, but cures by REMOVING them from the blood—which is absolutely the only way to cure the disease.

It does not require any argument to establish the fact that a blood disease can be cured only by a blood purifier; every one will admit the truthfulness of this statement. The question of most importance therefore is, what medicine has proven by actual results its superiority as a blood purifier? We claim this distinction for S.S.S., and offer as proof the fact that for more than forty years it has been sold under this claim and the demand for it has steadily increased, and we have thousands of testimonials from cured patients from all parts of the country.

Contagious Blood Poison, as the name implies, is an infectious blood taint which may be communicated from one person to another. Its virus is of a most insidious nature, multiplying from an insignificant germ in the blood, until it becomes a thorough systemic poison. Its first symptom is usually a tiny sore or pimple, but it rapidly spreads, and in a short while the entire body gives evidence of the poison in the blood. The mouth and throat ulcerate, glands in the groin swell, the hair begins to come out, copper-colored spots appear on the body, and frequently running sores and ulcers break out on the flesh.

A condition of such serious nature requires proper treatment. Not only must the disease be driven out, but the system which has been weakened by the ravages of the poison, must be built up before health can be restored.

S. S. S. CURES CONTAGIOUS BLOOD POISON BY PURIFYING THE BLOOD. It goes into the circulation and removes the last trace of the infectious virus, acts with fine tonic effect on the stomach, bowels, kidneys and all portions of the system, and thus makes a perfect as well as lasting cure. S. S. S. is made entirely of roots, herbs and barks, each of which has a specific action on the system. Not a particle of mineral of any kind enters into the composition of this great medicine. S. S. S. is perfectly safe for any one to take, and instead of upsetting the stomach as mineral medicines do, it tones up this important member and makes digestion easy. Thousands have cured themselves of Contagious Blood Poison by the use of S. S. S., and if you will write and request it we will send you, without charge, a Home Treatment Book, which will give you all necessary information for curing yourself at your own home. We will also give you free any special medical advice you ask for. S. S. S. cures by making pure, healthy blood—Nature's real remedy.

S. S. S. CURED HIM. I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large red spots on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass. H. L. MEYERS. 58 Clinton St., Newark, N. J.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

stricken with acute indigestion in his room at the senate office building late today.

He was removed to George Washington University Hospital, where the physicians said his condition is serious.

WEATHER TODAY. Arizona—Fair in south; rain or snow in north portion Sunday; Monday, probably fair.

PHOSPHORUS AND SULPHUR IN MONTANA.

Phosphate has been discovered in Montana. It is believed in valuable commercial quantities. Last summer, under authority from congress and specific instructions of the secretary of the interior, the general land office and United States geological survey, cooperated in the classification of certain lands within the original grant to the southern Pacific Railroad company in the western part of Montana, to determine whether they are of mineral or non-mineral character, inasmuch as the grant included only such lands as do not contain minerals other than iron and coal.

One of the geological survey geologists engaged upon the work found deposits of rock phosphates, which

phosphate. The possible tonnage may be estimated, for instance, a square mile underlain with a three foot bed of phosphate would contain about 5,760,000 tons. The Montana lands now having been withdrawn, it will be possible to make a detailed geological investigation of the deposits and a close estimate of the tonnage.

Phosphorus, of which phosphate rock is the principal source, is one of the three necessary elements of plant food, and it is moreover by far the scarcest of the three, the others being nitrogen and potash. The United States has, however, the largest known deposits in the world, and the deposits found upon the public lands in the west contain a greater tonnage than all the other American deposits combined.

Since most phosphate as used for fertilizer is chemically treated with a sulphuric acid, the commercial importance of the Montana phosphate deposits appears to lie in the fact of their proximity to the great Montana smelters, which are daily falling to utilize vast quantities of available sulphuric acid.

OYSTERS AS ARTISTS. Fifteen sculptors, whose history was romantic and strange, are holding a posthumous exhibition of their own life work at the Modern Gallery on New Bond street.

They have set an example in industry which few sculptors of today could follow. They started work with no tools—not even a mallet and chisel among them. They had no materials to work on save the walls of their houses. They had never seen the objects which they depicted so cleverly, and—this is the tragedy of it all—they unconsciously illustrated a famous Latin proverb by dying ere their works could secure the fame which was their due.

They started at a considerable disadvantage, too—at least, the average sculptor would think so—because their studios had not any windows, being situated at the bottom of the sea. For the fifteen sculptors were pearl oysters, rejoicing (in their own quiet way) in the family name of margaritifera.

In the ordinary oyster shell there is often what may be described as a bump. The sculptors of these pearl "bumps," which have been moulded unwittingly, by the deep sea craftsmen, into forms which we recognize—a woman's figure, a swallow, a crocodile, a triton.

Such accidental shapes, of course, are rare, and it has taken fifty years to collect these fifteen. They were found principally in the fisheries on the Barrier reef and around tropical Australia. The size of each shell is about eight inches by seven.

But in many cases the sculptors of the oysters—possibly because they had no models, was rough; they hardly ever achieved the fullest possibilities of their designs, and they did not understand backgrounds.

So George White—an artist who, after months of careful study and experiment, has discovered how to make delicate and transparent colors which would adhere to and work on the surface of the shells—has "touched them up." He has made them into exquisite pictures, which are expected to fetch high prices—the whole collection, indeed, being valued at £250.

One poetic phantasy (priced at no less than £275 10s) is called "The Pearl Finder." A beautiful maiden stands on the sea shore, with foaming billows all around her. She is gazing enraptured at a large, perfect pearl she has found.

The entire molding of the delicate figure is the work of the oyster; the beautiful background, and the finishing touches here and there are the work of White, and the silver repousse frame, which gives this, as to all the other pictures, a charming setting appropriate to the subject, was designed by Onslow Whiting—London Express.

THE BAFFLED MAGICIAN. Malin was boasting of his lamp. "But it won't keep an even temperature in an incubator," cried a sour suburbanite. Sadly he owned there were limits to magic.

A TINY WATCH. A prominent actress has one of the tiniest watches in the world. It is a wonderful piece of mechanism and is said to keep perfect time.

THE PRINCETON PRESIDENCY.

Philadelphia, Pa., Feb. 4.—It was learned from an authoritative source here tonight that the presidency of Princeton university has not been offered to Charles Homer Hasken, dean of the Harvard graduate school.

MARIETTA'S SICK SAILORS.

Five Cases of Yellow Fever Have Developed. Washington, Feb. 4.—Five probable cases of yellow fever, two of them serious, are the extent of the outbreak of that disease on board the American gunboat Marietta, according to a wireless telegram received today by the secretary of the navy from Commander Copper of that vessel.

This dispatch was sent from the ship as she approached the pier of Key West this afternoon. The two seamen who were seriously ill are doing nicely, the commander added, and not a new case has developed since Monday.

HIS PECULATIONS GREW.

Rearrest of Denver Superintendent of Mails. Denver, Feb. 4.—Carlson Wilson for twenty years superintendent of mails at Denver, was rearrested today upon the assertion of the postoffice inspector that Wilson's alleged peculations might amount to \$25,000. When first arrested he was released on \$2500 bond. It was increased to \$5,000 today and he was unable to furnish that amount.

EAGLE DAM TO BE BUILT.

Washington, Feb. 4.—Engineers of the reclamation service have approved the plans for the construction of the Eagle dam of the Rio Grande irrigation project, as laid out at the present time. The dam is located in New Mexico, some distance north of El Paso.

CHILDREN'S HAIR

Keep it Clean and Free From Disease By Using Parisian Sage.

If you want your children to grow up with strong, sturdy and vigorous hair, teach them to use Parisian Sage, the world-renowned hair tonic. Parisian Sage is guaranteed by A. L. Boehmer to cure dandruff and stop falling hair in two weeks. It grows new hair quickly in all cases where the hair is "thinning out."

It is positively the most delightful and invigorating hair dressing on the market, and for that reason is a great favorite with women of refinement. It is not sticky or greasy, and will make the coarsest hair soft, lustrous and luxuriant. Get a 50-cent bottle from A. L. Boehmer and watch how rapid its action. If you do not live near a druggist who sells Parisian Sage, you can get it for 50 cents direct by express, all charges prepaid, from Gilroy Mfg. Co., Buffalo, N. Y. The girl with the Auburn Hair is on every bottle.
