**MILL ENDS** mean goods that fall short of forty or fifty-yard lengths. Identical in quality, style and design with the full piece, still not to be classed with regular goods, because they are wanting in lengths—a thread missing in Napkins—a slight discoloration in some—fabric—crooked or careless stitching in underwear—a coarse thread in hose. These are "MILL END" characteristics. None of these slight flaws matter to the customer, but they prevent the mill or factory from selling goods at a profitable price. You will pay twice or thrice the money for the same goods at other stores. You save the retailer's profit, the jobber's profit, commission merchant's and broker's profit. Everything marked in plain figures.
