

BIG VERDICT IS SUSTAINED

Affirmation by Ninth Circuit Court of Appeals of Judgment for Plaintiff in Case of Clark vs. A. & N. M. Railroad Company

Attorney W. M. Seabury has been notified of the affirmation by the ninth circuit court of appeals of the judgment of the United States court for this district in the case of Thomas P. Clark against the A. & N. M. railroad company. This is an action for damages on account of injuries received by the plaintiff at Clifton while employed as engineer on the road of the defendant.

He was engaged in shunting cars on the Shannon switch. The track was on uneven ground and four of the cars released ran down the hill and "side swiped" the engine which Clark was driving. He was knocked from the engine, sustaining injuries which caused the loss of one eye. An injury to his breast resulted in pneumonia, which in turn resulted in the contraction of Bright's disease.

The case was tried here last spring before Judge Sloan. Mr. Seabury appearing for the plaintiff. The jury returned a verdict for Clark, awarding him \$12,675. It is said that four or five members of the jury stood out for a long time for a verdict of \$40,000.

The case was appealed and argued at San Francisco last May by Mr. Seabury and by Mr. McFarland for the railroad company before Judges Gilbert, Hunt and Ross. It is expected that an effort will be made to take the case to the United States supreme court, but in the opinion of Mr. Seabury that court will not review it, inasmuch as there are no doubtful constructions of law to be made.

This is the first case tried in the summer the federal employers' liability law of 1908 as amended in 1910. That law consists of two sections, one applying to roads in interstate commerce and the other applying to territories. The injuries complained of were received while Arizona was still a territory and the action was begun before its admission into the union. The case was brought under the latter section.

SOME SPEEDY HORSES ALL BEAT FAIR

Secretary Wood Learns That Vernon McKinney and Joe Patchen Are Coming

Secretary Wood of the fair commission has just had word from De Ryder, one of the drivers of the McKenzie string of horses that the pacers, Vernon McKinney, 2:01 1/2 and Joe Patchen, 2:03 3/4, will be at the state fair. These horses were started on the grand circuit last spring and were driven by "Pop" Geers. While at Fort Erie they were seized by an epidemic prevalent among horses in that part of the country and their grand circuit career for the season was brought to a close. The horses were sent to the farm of the owner where they have fully recovered and De Ryder says, are in excellent trim. Bertha Clay, a young and promising trotter still in the east, will also be at the fair.

James C. Goodwin in charge of the mineral exhibit has returned from a tour of the south and he says that contributions to his department will be numerous. There will be a larger attendance than ever from the southern counties for there is an impression that the fair will be much better than it has ever been before.

The secretary announces that Saturday is the last day on which checks or money will be received for boxes until after the drawing which will take place on Monday. If there are any boxes left they will be sold after the drawing.

WANTED TO SEE 'EM.

A woman at a recent dog show noticed a pretty girl gazing around as if puzzled. She went over to her and said:

"Pardon me, but can't you find the kennel you wish? If not, I shall be glad to assist you."

"Oh, thank you," replied the maid. "Would you mind showing me the ocean grey hounds?"—Exchange.

DRINK HABIT WRECKS HOMES

Nearly all divorce proceedings are based upon the fact that the husband or wife is a drinkard. Such plain language is not used by the attorneys in the case, but this is the true state of affairs and should be better understood by the general public.

If the husband or wife is a drink-habit victim they should not be forsaken until they have had the opportunity to reform. The Neal Drink Habit Treatment affords the drinker the opportunity to reform. It is a safe, sure, vegetable remedy that removes the craving and necessity for drink in three days, without the use of hypodermic injections. Call and investigate before your home is wrecked. Get proof and references. Home treatment can be arranged for those who desire it. Write or phone for book of information, the head of Neal Institute, 1537 West Jefferson street, Phoenix, Ariz. Phone 1733.

DRUG HABIT SUCCESSFULLY TREATED

NOW IS TIME TO BE REGISTERED

About 250 Had Placed Their Names on the Register in Office of City Recorder Up to Closing Time Last Night

There was just a little bit of a rush in the office of the city recorder yesterday by those desiring to register for the approaching charter and bond issue elections. When it came time to close the office for the day it was estimated that the hotel registration which began one week ago and passed the 250 mark. But even if this rate is maintained the next eleven working days there will have been registered at the end of that time not over 700, whereas it is estimated that there is in Phoenix eligible to vote upon the charter at least 7000 men and women.

The apathy shown in the registration is a surprise to every thinking citizen in view of the importance of the two subjects to be voted upon on October 11. With such a question as that of whether or not a new city charter is to be adopted and another as to whether this city shall issue bonds in the sum of \$250,000 to meet present indebtedness and to improve the city fire department there is no citizen of Phoenix but that must have some interest in the outcome.

The women who have been entitled to vote upon one previous occasion are not turning out for this registration with the same spirit that it was believed they would. Of those already registered it is estimated that but twenty per cent are women.

Judge Thomas has an ample force of deputies in his office to take care of registrations and it requires but a moment or two to go through the form. There should be a registration of not less than 5000 for the charter election. Today is the time to attend to this matter.

FINANCES AND MARKETS

(ASSOCIATED PRESS DISPATCH) NEW YORK, Sept. 17.—The spectacular performance of Reading stood out conspicuously today in the stock market, which otherwise displayed little ambition. There was a rise before opening here of two points in London, following a sharp upturn. The first transaction was a block of 12,000 shares at 16 1/2 to 16 3/4. The quotation ran up quickly to 17 1/4, the highest figure of the year, a level of over ten points above last week's low, a gain for the day of 2 3/4. Then it fell back a point and trading grew quiet.

The general market was affected unfavorably by these gyrations. It is held that Reading's rise represented merely a severe squeeze of the shorts, and little credit was given to bullish rumors put out concerning increased dividends. When the dealings in Reading resumed normal proportions there was a corresponding improvement in the tone of the market. Union Pacific, the Seaboard issues, Great Northern, ore and petroleum stocks led in the rise, with some showing of strength in other quarters.

Following the announcement that only the regular dividend had been declared by the Reading directors, the stock lost what was left of the day's gain and something more. Rock Island shares were especially heavy collateral, fours lost three points. New Haven touched a new low record during the day, yielding over two points to 87 1/2.

Time money rates remained at recent levels, but call money was firmer, rising to 2 1/2 per cent. Bonds heavy, total sales, par value \$1,500,000. United States bonds unchanged on call.

Stocks. Amalgamated, 78 1/2; Smelting 63 1/2; Santa Fe, 95 1/2; St. Paul, 103 3/4; New York Central, 96 3/4; Pennsylvania, 112 1/2; Reading, 167; Southern Pacific, 93 1/2; Union Pacific, 158 1/2; Steel, 64 1/2; Preferred, 109 1/2; Silver, 60 1/2.

Metals. Copper firm, electrolytic unchanged, London copper quiet.

MISPLACED KINDNESS

"Isn't Bugsby the kind-hearted chap who built the luxurious patent kennel for stray dogs?"
"Yes."
"How did it work?"
"After he had been bitten seven times while trying to coax the dogs to enter the humane society locked him up for cruelty to animals!"
Cleveland Plain Dealer.

ALUMNI AND THE ALUMNAE

All Are Invited and Expected to Be Present at Banquet Following P. H. S. and Coyote Game on October 11

The final date for the giving of the banquet of the alumni of P. H. S. and of the first of the games between the alumni and Coyotes was set yesterday at a sub-rosa meeting of the management of the two organizations. The game will be played on the afternoon of October 11, just one week later than was at first arranged. This delay is in order that the team of the alumni may have more time to arrange a piece of machinery that will be able to cope with the strong aggregation from the high. After the game the banquet will be held, in the banquet room at the Phoenix union high school.

All the alumni of the school are invited to be on hand for the game and especially for the banquet. Their presence is absolutely required. They are needed at the game for the purpose of rooting, as all the rooting that they can do, will be just a move toward victory. At the banquet, they will be called on to make the evening the best and most enjoyable affair of the early social season. It is proposed to have on hand the members of the Coyotes' team, and perhaps a few words from men of both teams will be heard during the evening. Beside the food and speeches there are other "things" about for the entertainment of the guests, which will be announced at the banquet, but not before, as the mystery of that something is needed to bring the crowd.

In order that a line may be had as to the number of guests to expect for the evening, the management has devised an original and working scheme for pre-counting. Simply, "this—register." Julian Clark, the manager, is in his office every day, Register there. The office is over the National Bank of Arizona building, and Ganz is expecting all to get in a register as soon as possible.

Alumnae are all eligible to admission to the banquet. This does not necessarily imply that one should be a graduate of the P. H. S. before he is liable to duty at the banquet board, but it does mean that every man and woman who has gone to the institution for any time will not only be expected, but will be ostracized if not on hand. Such is the feeling of the men behind the fun, and they are on the lookout for all who are possible guests.

The alumni team has been on the field several times during the past week. Night before last they were out in full force, with their leader, Coach Horrell. Horrell stated that he would whip into line a team that will skin 'em all. Geary replied that the Coyotes will be there at the skinning and Doc Jones is one of the many show-me men of the High who look upon the brags of the alumni as "just brags." Spirit in the game, in the management of the two teams, in the coaches of the two teams, and in the adherents of each team assure a good game, and a full set of bleachers who will support one or the other contender over the hide.

CAUTION

A boy who had been absent from school for several days returned with his throat severely swollen and presented this note to his teacher: "Please don't let my son learn any German today; his throat is so sore he can hardly speak English."—Everybody's Magazine.

BABY AFFLICTED WITH ECZEMA

Broke Out in Rash, Itched and Burned. Very Painful. Used Cuticura Soap and Ointment. Eczema Disappeared.

R. F. D. No. 1, Lucerne, Colo.—"About two years ago my baby, who was about four months old at that time, was afflicted with eczema which at first appeared on the back of the neck and kept constantly enlarging. The eczema broke out in a rash at first and it was small and rough and very red. It itched and burned so much that he could not sleep well, continually turning and twisting his head as the eczema was on the back of his neck where he could not get it to scratch well. But in rubbing so much it became red and almost raw. It seemed very painful as the child fretted constantly. After some time a similar trouble appeared on the cheeks.

"I do not remember now. Some did not good and some only irritated more. At last a friend advised me to try Cuticura Soap and Ointment. I sent for a sample and this did so much good I bought a cake of Cuticura Soap and the Cuticura Ointment. I used them according to directions and it was only a month until the eczema was apparently well and it soon entirely disappeared and has never returned." (Signed) Mrs. Carrie M. Brown, Mar. 28, 1913. Cuticura Soap (25c) and Cuticura Ointment (50c) are sold everywhere. A single set is often sufficient. Sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

BUSINESS OF TRADE BOARD

Organization Publishes List of Its Present Activities, Gains Little Boost for Itself, as Well as the Valley

While the Phoenix board of trade is succeeding mightily well in advertising the Salt river valley, it has taken slight heed of the need of advertising itself. Beyond stamping its name on certain literature and letter heads, it has taken no part in the affairs of the outside world—as a board of trade. But now it is preparing to show the people of Phoenix, those most vitally interested in its activities just what it is doing each day or week. In pursuance of a resolution to get a little publicity for itself, the board yesterday gave out a list of the affairs in which it is taking an active, if heretofore silent part.

Among the subjects listed are some which are of the greatest moment for the city plan expert, the plans for fair week, the protection of the watersheds of the project, and the baseball situation. It will be noted that some of the directors are fans.

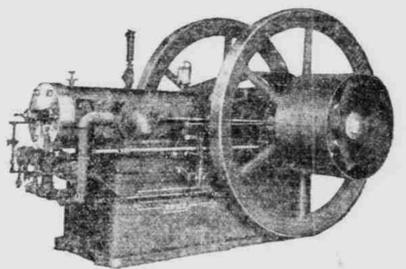

Here is the list: City plan expert. Automobile fun to Casa Grande. Entertainment commercial organizations fair week. Lighting on Central avenue. Motorcade to Tucson. Establishment of National Cactus park. Southside Loop road. Aiken pictures. Conference of teachers on agricultural matters fair week. California Expositions, 1915. Establishment of cannery. Opening of Parker Indian reservation.

Main line through Phoenix. State flag and power. Signs on road and Roosevelt road. Exhibit at state fair. Special articles on: Fair, Dairying, Sun Fete, Phoenix. Mineral lands at Quartzsite. Attractions at theaters fair week. Protection of project watershed. Post card invitation day for fair. Big ball team to winter in Phoenix. Slides for lectures.

Some of the things on the list are not self explanatory. For instance the note about the Aiken pictures. The wherefore is about like this: On his recent trip to the Miami-Saddle Dunes, Secretary Harry Aiken saw the magnificent Aiken paintings, housed in the Babbit building at Flagstaff. The pictures belong to the estate of the painter, who has been dead for about a year. The executors do not know just what to do with the collection, and are marking time, awaiting suggestions. There is one painting in particular that will probably be worth more than all the rest. This is the Grand Canyon picture, which the best painter of Arizona land-states that wild horses have made

The Proof of the Pumping Plant

Is In Its Operation!

The big question is, "How much water will it pump?" Not, "What horsepower is the engine?" The customer wants to know, "How much does it cost to run the plant?" not "What is the rated capacity of the pump?" Scientific planning and proper installation are the important factors in any pumping problem. Tell us the depth to water, water supply, number of acres to be irrigated, and our engineer's report and estimate will be authoritative and correct. We will see you get the kind of engine you should have, the size and style of pump best adapted for your work, and best of all our contract will include the most scientific installation and satisfactory operation of the plant.

"The proof of the Pumping Plant is in its operation." Let us show you some of the many successful plants we have installed.
