Dancing.

MRS. LUTHER STEWARD

Public School Music and Piano Teacher's Normal Course.

Public School Music Course Diploma Accredited by State Board of Education.

Children's Primary Training Department for All Children Under 12 Years of Age.

Terms of Tuition Extremely Reasonable for Advantages Offered.

Call or write for Catalogue. Phone 1009.

STANDARD OIL PLANT IS RISING RAPIDLY

New State Headquarters in West Phoenix Will Soon Be Under Roof; Brick Work Finished

With the completion of brick work on the Standard Oil company's new plant in Christy across this week, the work of getting the new buildings under roof already has begun. Most of the roofing material has already been unloaded from cars on the company's new spur track from the Santa Fe.

The new office building, which faces north on West Filmore street, is of red brick, trimmed in concrete, and when completed will be a handsome addition to that part of the city. The main warehouse, also of red brick, is located just west of the Santa Fe tracks. This building is partially under roof, with the loading platforms on the north and west already completed.

The company's stables at the rear of the property are now nearing completion, and as soon as the plant is ready for business the company's products will be handled locally from the new state headquarters. Foundations for seven storage tanks are now ready, and as soon as the new ones arrive they will be put in place. The two tanks now being used for storage will be emptied and moved to the new plant in West Phoenix.

ACTIVE DEMAND FOR GOOD CITY PROPERTY

Barnhard and Clement Office Reports a Number of Sales of Property in and Around Phoenix

The continued increase in the demand for city property was reflected this week in a number of deals reported by E. D. McDonald of the Barnhard & Clement Real Estate company.

Among the transfers effected was the sale of a house and lot in Rose-lawn addition for Mr. Cooper, a residence on East Monroe to J. O. Sexson, and a lot in East Evergreen for Mr. Hamilton to A. F. Clauson, who will erect a fine home in the near future.

Other transfers of the week included a residence in Thomas Place for George Crandall to Mrs. Fannie Reuter, and three lots in the same addition to J. O. Morales, Eva Crandall and Dr. Bradbury. A house and lot went to C. W. Darby, and an apartment house on East Jefferson street was sold for Mrs. Thompson to Joe Dutton.

TONY BRIGHT RETURNS

Tony Bright of the Bright Realty company, returned yesterday after having spent four weeks with Mrs. Bright at the Grand Canyon and at the San Diego beaches. Mrs. Bright returned with friends to the coast and will not return until the middle of September. Mr. Bright, who has been a keen student of the business conditions of the west, states that he prefers to cast his lot in Phoenix to any other place that he knows of.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back its Color and Lustre With Grandma's Sage Tea Recipe.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.—(Advertisement.)

The following are the telegrams sent and received, about which there has been so much discussion.

Phoenix, Arizona, August 28, 1914. THE PRESIDENT, Washington, D. C. Senator Smith is making his campaign here and standing in every particular by your administration. I, representing many of his friends and without his solicitation, would like a word from you expressing your opinion and feeling of Senator Smith's return to the senate.
JOHN L. IRVIN.

The White House, Washington, D. C. September 4, 1914. MR. JOHN L. IRVIN, Phoenix, Ariz. I am very glad to reply to your inquiry. I should regard it as a very serious loss to the public service if Senator Smith should not be returned to the senate. His record here speaks for itself, but I can say that throughout I have been strengthened by his support and have come to feel a dependency upon it which makes me sincerely anxious to see him returned.
WOODROW WILSON.

OAKLAND ADDITION HAS BUILDING BOOM

Three of a Large Number of Buildings Started. Others to Follow in Rapid Succession

Building operations on a large scale are now under way in Oakland, the popular new subdivision two blocks north of the state capital. Greene & Griffin are the moving spirit in a syndicate composed of the best known builders in Phoenix who will construct a large number of homes in Oakland.

This movement is a proper step in the right direction, as it is a well known fact among realty men as well as the returning tourists that modern houses are scarce right now in Phoenix. It is hoped to have at least a dozen of these homes ready for the late fall demand. Claud W. Cisney is in charge of the work and his reputation as a builder of substantial homes is a guarantee that Oakland will be improved with a grade of homes that will be a credit alike to it and the city. These first three to get under way will be of brick with plaster finish and will be of mission design, both interior and exterior. They will be a close approach to a six room house on account of the convenience enclosed in the large screen sleeping room instead of porch, this with the other two bed rooms, bath, living room and dining room will when finished be a larger house than is usual and of a newer type of homes that should prove popular.

All lots in Oakland are sixty foot wide and with the reasonable restrictions imposed and its convenience to the capitol and car line, there is no reason why it should not build up rapidly. The entire Capitol section has had a wonderful growth the past few years. Homes of the best have been built by the score, its desirability is admitted and the addition of a large tract like Oakland with its splendid improvements is bound to bring the entire western part of Phoenix still more favorably to the front.

Several recent lot purchasers are having plans prepared and as soon as these are completed work will commence and this in addition to the work already contracted for will make Oakland the busiest spot in Phoenix.

EARLY FALL BUSINESS SHOWS MANY SALES

Average a Sale a Day the Past Week. Two Houses in Bonnie View, Three Lots in Capitol Addition and One in Ashland.

The past week has been a busy one for Greene & Griffin. Something moving every day is the best indication that the early fall business has got under way. In Bonnie View where the Home Builders are building their second row of seven houses. The firm closed up the sale of the first house on the southeast corner of Ninth street and Brill street. The price of this home was \$2500. It is a pretty plastered brick and will be finished the latter part of the week. It looked good enough to the buyer to buy on sight and was taken at once.

The house next to it is also near the finishing point and the buyer decided to take it before some one else fancied it. The purchase price was \$2250. This makes the ninth house in this one block the Home Builders have sold. The reasonable terms and well built appearance of the houses have been big factors in making these properties move so fast. The Home Builders are finishing five more which makes every lot in the block occupied with a house. All yards are fenced which helps to give a compact appearance to the block. Every house is equipped with a solar heater, all porches and steps are of cement and no two houses are alike on the exterior.

Three lots were sold in the Capitol addition on which three houses will be built details of which will be heard later. In the new Ashland tract a lot was taken on which a home will be built later. The demand for renting houses is becoming more active on account of the returning tourists and will be strongly felt in the real estate business for the next two weeks as many families are figuring on returning in time to send their children to school so that an extra demand will be noticed which will be followed by the call for homes from the early eastern visitors who will be here in large numbers this year.

GRIMSHAW APARTMENTS READY FOR TENANTS

The Grimshaw apartments at the corner of Fourth avenue and Bennett Lane have just been finished by Clinton Campbell, and are ready for occupancy, in fact Mrs. Olive A. Grimshaw, the owner of the apartments has moved into the one she has selected for her own residence. The apartments are among the most up-to-date in Phoenix. They are of four rooms each, with hardwood floors. The bathrooms are finished a most chaste white. Buffet and beds are built in. All are equipped with solar heaters, hot and cold water, steam heat, and gas in every room. No such apartments as the Grimshaw are going to remain vacant long in Phoenix.

DEAD AND WOUNDED IN TRENCHES OUTSIDE THE CITY OF LIEGE

This picture gives a faint idea of the terrible carnage wrought at the battle of Liege. It was taken during a lull in the fighting, and shows dead and wounded Belgians in the trenches.

The Saxon, \$470 Here

Absolutely the Best

Two Passenger Car Built

The Saxon car today is the best two-passenger automobile in the world at anywhere near its price.

It has more room than any other; it is more comfortable to ride in; it is better looking; it has better materials; it is more up-to-date in design; it has plenty of power for all emergencies and all road conditions; and it can be kept running for less cost per mile than any other car.

More than 6500 Saxons now in use in owners' hands throughout the country are averaging from 28 to 36 miles per gallon of gasoline.

They are simple, durable, and perfectly safe to handle; impossible to back-kick with this motor.

Phone 1213 for demonstration.
