

CASH TO ASK MINERS TO GO TO EL PASO

Will Call Men Together This Morning and Submit Proposition for Committee to Confer With Managers in Texas

MORE GUARDSMEN REACH CLIFTON

Manager Carmichael Wires to Clifton Asking Union to Guarantee Managers Not Be Molested if Returned for Conference

By Ernest Douglas (Special Representative of The Republican.)

CLIFTON, Ariz., Oct. 9.—Sheriff James G. Cash returned here today accompanied by Adjutant General Charles W. Harris. He announced tonight that tomorrow morning he will call the men of the district together in a mass meeting and will personally talk to them. The matter of the elimination of the Western Federation of Miners from the district will not be brought up. Sheriff Cash will ask the men to appoint a committee to go to El Paso to confer with the mine managers who are still in the Texas city.

It had been stated earlier in the day by a number of the committee men that they would not go outside of Clifton for a conference but there is seemingly a disposition tonight to look with favor upon the suggestion that will be advanced tomorrow by Sheriff Cash.

Eighteen additional guardsmen arrived here tonight from Flagstaff and another detachment from Yuma is expected tomorrow.

This afternoon Manager Carmichael wired E. M. Williams, manager of the Arizona copper front here asking the union to guarantee that the managers would not be molested if they returned for a conference. Williams communicated with C. S. Edmondson, secretary of the executive committee of the Clifton local. Edmondson laid the matter before a committee meeting. A sub-committee was composed of Theodore Hollingsworth, J. S. Hughes and Frank Hoeker were named to wait upon Williams and assure him the managers would be received in an amicable spirit and not molested in any way.

The executive committee appointed Fred Nuys, Frank McKeough and Harry Chilson to call tomorrow upon all the foremen who have not joined the union and ask them to take out cards.

A. Y. Smith, chairman of the executive committee of the Morenci local, was arrested last night on a verbal complaint of citizens, who accused Smith of molesting men without union cards. Justice J. M. Lally discharged Smith.

Today the relief committee of the Clifton local distributed among the strikers' families 735 pounds of flour, 180 pounds of beans and 80 pounds of lard. They fed 32 single men at the relief kitchen.

This afternoon Sergeant Maynard A. Frazier of Company B of Phoenix, acting as battalion sergeant-major called at union headquarters. He was given the glad hand and asked to convey an invitation to all the guardsmen now here to dine at the strikers' kitchen at any time.

Several tons of food were received today by the Becker Franz company were not delivered to the committee because of no funds. The strikers wired an appeal to Miller.

Private Mason Novinger of Company B was the first militiaman to fall victim to this cruel war. He was wandering around camp after dark and tumbled down an embankment because of a knee and sprained an ankle and also sustained many bruises. He was unconscious from a blow on the head when his groans brought his comrades. The surgeon predicts a quick recovery.

Waiting for Committee

EL PASO, Oct. 9.—The mine managers stated tonight they were awaiting the appointment of a committee of their employes and their arrival here for the purpose of holding a conference upon the miners' griev-

MINERS ONLY MUST NAME PEACE ENVOYS SAY THE MANAGERS

MANAGERS MAKE STATEMENT PUBLIC

EL PASO, Oct. 9.—The mine managers of the Clifton-Morenci-Metacalf district, in reply to Governor Hunt's proposals for a conference to attempt settlement, just made public accuse the governor of making "inflammatory speeches" and "openly encouraging the affiliation with the leaders of the Western Federation of Miners." The operators express a willingness to "enter into arrangements for the resumption of operations" upon the condition that the "atmosphere must be entirely clarified of the dominating influence of the Western Federation, under whatever name, title or disguise it may take on."

URGE COUNTIES ALL TO ADOPT HIGHWAY WORK

Flagstaff Good Roads Conference Wants Counties to Have Road Bonds - Ask Indian and Forest Service to Help Out

(Special to The Republican)

FLAGSTAFF, October 9.—After the passage of five strong resolutions pointing to the good roads spirit that is rapidly extending over the state, the Flagstaff conference of the Arizona Good Roads association adjourned with a dinner this evening, given by the citizens of the convention city.

Briefly reviewed, the resolutions relate to the following vital points of good roads work:

1. It was urged that all counties that have not issued road bonds, or are not considering such, do so at the earliest opportunity. It was pointed out that no county road system can be of any material benefit unless it connects up with all other counties at the most convenient points.

2. A resolution endorsed the forest service plans for a complete road system throughout all the state forest reserves. These plans call for the expenditure of a half million dollars, and five years in which to complete the work mapped out. Congress is to be invited to loan the amount from general funds, the same to be repaid to that fund from the revenues of the forests over which the roads are built. The 1915 forest service road fund, apportioned to Arizona has not yet been touched.

3. A road exhibit at the state fair. This resolution calls for the appointment of a committee to work in co-operation with the county engineers. The exhibit will include natural road materials from every county, such as soils and deposits lying

In Addition to Assurance Western Federation Men Have Gone, Operators Insist That Body Have No Part in Election

EL PASO WILL BE SCENE OF CONFAB

Meeting for Discussion, But Not for Immediate Arbitration, Ought to Be Over During This Week, Says Gov. Hunt

Following receipt of a reply from the mine managers, setting forth the conditions on which they would confer with representatives of their striking employes, Governor Hunt yesterday transmitted the conference terms to the striking miners of the Clifton-Morenci district through Adjutant General Harris, now at Clifton. The conditions laid down by the managers will probably be accepted or rejected today, when they will be laid before the men of the district.

The full reply to the governor's letter, delivered to the managers Friday in El Paso by the adjutant general and Sheriff Cash, states that the managers would be glad to meet at El Paso committees chosen without the exercise of any control by the Western Federation of Miners, after positive evidence had been furnished that non-resident agitators of the federation had left the district. The conference was not to be for arbitration, but for the purpose of a full and free discussion of the situation. Conditions laid down in a letter to the governor, and received here early yesterday morning, were reiterated.

The first letter to the governor, replying to his communication of Oct. 5, referred to his activities at Clifton and his relations with officers of the federation, and to conditions in the strike district. The letter stated that the governor, by inflammatory speeches and threats to put the mine managers in jail had contributed to the conditions that compelled them to leave the district and that the sheriff had been unable to furnish adequate protection to life and property. They insisted again on the elimination of the federation from the district.

The second letter, which was transmitted to Adj. Gen. Harris by wire yesterday for communication to the men, follows:

"Replying to your favor of the 7th inst., in which you refer to our letter of September 25th, wherein we stated: 'We will take immediate steps to meet our former employes as soon as all non-resident officers and agents of the Western Federation of Miners leave the district and committees have been fairly chosen without the exercise of any control by that organization.'"

"We would say that as soon as we are furnished with positive evidence that such non-resident agitators of the Western Federation of Miners have permanently left the district and committees have been fairly chosen without the exercise of any control by the Western Federation of Miners we will be glad to meet such committees at a meeting to be held at El Paso, Texas.

BELGRADE IS IN HANDS OF TEUTONIC ARMY

Old Capital of Serbia, or at Least Greater Part, in Possession of the Enemy for Second Time Since War Began

REAL TEST IS YET TO COME

When Teutons Meet Serbians in Mountain Stronghold Where Austrians Were Defeated in December, Decisive Battle Likely

(Associated Press Dispatch)

LONDON, Oct. 9.—Belgrade, the old capital of Serbia, or at least the greater part of it, is in the possession of the enemy for the second time since the outbreak of the war. The Austro-German troops have crossed the Save and the Danube and are attempting to make a drive into Serbian territory. Its capture is expected.

The real test will come when the Teutons meet the Serbians in their stronghold in the mountains, where the Austrians were severely defeated last December. The Bulgarians are advancing from Sofia toward Pirot on the Serbian frontier. Heavy fighting is reported around Loos. The French claim that the Germans, who were the aggressors, were mowed down. Berlin, however, claims some progress. Von Hindenburg is striking at Dvinsk and is making some headway along the rest of the front the Russians are attacking the most.

The Belgrade attack is to be more formidable. A new army group in command of Field Marshal von Mackensen has been organized for that purpose. Its strength is unknown. It is supposed to be of artillery chiefly Austrians, with stiffening by the Germans. It is to be largely commanded by Germans. Generals von Koevess and von Gallwitz, who took part in the great offensive in Russia, have commands under von Mackensen. Pirot is a fortress covering the road to Nish, the Serbian capital. French and British troops are landing in Saloniki at the rate of fourteen thousand daily. They are being sent by railway to the assistance of Serbia. The Bulgarians have taken Belgrade in London has reiterated that the neutrality would continue to be benevolent toward the entente powers. More than that has been expected and the allied capitals are awaiting the definite statement of the Greek cabinet.

The British attack on the northern coast of the Balkans has failed. In the Champagne fighting seems to have resumed the character of trench warfare. The French are holding virtually their gains while there has been a resumption of activity in Lorraine, where the Germans record the capture of the contested height near Leintroy. The general belief is that the Teutons are concentrating troops on the wings of the eastern line of the Dnieper and north to drive the Russians across the Bessarabian frontier before digging themselves in for the winter.

CARRANZA RECOGNIZED BY PAN AMERICANS AND UNITED STATES

At Conference Held Yesterday Unanimous Agreement is Reached to Extend Recognition to Carranza Government

FORMAL ACTION IN TWO WEEKS

Means Carranza Will Receive Moral Support of United States and Embargo on Arms Established Against Others

(Associated Press Dispatch)

WASHINGTON, Oct. 9.—The recognition of the Carranza government in Mexico was agreed upon unanimously at the Pan-American conference today. Secretary of State Lansing expressed the intention of the United States. The Pan-American ministers transmitted tonight the decision of the United States as well as their opinions to their respective governments.

The action is regarded as the most important of the United States since this government decided to withhold recognition of President Huerta and his government. This means that Carranza will receive the moral support of the United States and that an embargo on the shipment of arms to the opposing factions will be made as soon as recognition is actually extended. It will probably be a fortnight before the conference session lasted three hours. Officials believe that many elements in Mexico will align themselves with Carranza. The latter will adopt a liberal attitude toward his opponents, permitting reconciliation of the various branches to the original constitutional party.

Lansing made it clear that while the United States cannot condition recognition upon the giving of amnesty, the settlement of other questions will be strictly of an internal nature, satisfactory assurances on these subjects having been received from Carranza. The guarantees are for the protection of foreigners and property. Carranza to assume full responsibility for the claims which are the outgrowth of the revolution, adjustments to be made by international commissions. Freedom of religion is to be granted. The decree of amnesty is in course of preparation which will enable all elements, irrespective of their political affiliations, to return with the exception of those guilty of the murder of Madero and Suarez and those charged with civil crimes.

The form of the recognition to be extended has not been decided. Secretary Lansing said that an ambassador might go to the Carranza capital or an ambassador named by Carranza might be received here, or there might be an exchange of notes. The recognition of the "de facto government" does not limit action in any sense, but the term applies to authority which arises out of a revolution. When a constitutional government is again erected, other credentials will be given to American diplomatic representatives. In the meantime the full moral support of

(Continued on Page Five)

BULGARIAN MINISTER STILL IN LONDON

LONDON, Oct. 9.—Up to noon, P. Hadji Mischeff, the Bulgarian minister to England, had not taken steps to leave. He takes the ground that Bulgaria has no quarrel with Great Britain, and that any initiative in the matter of a severance of relations must come from England. Significance is attached to the statement in a message from Sofia that the British and French ministers had been granted an audience with King Ferdinand before their departure. Optimists see in this a glimmer of a possibility that the Balkan wheel may take another turn.

WAR IN MEXICO BEGINNING IS WORD OF VILLA

Upon Receipt of Information from Washington of Recognition of Carranza, Northern Chief Makes a Brief Statement

(Associated Press Dispatch)

EL PASO, Oct. 9.—The war is just beginning, said Villa upon receipt of information from Washington of the recognition of the Carranza de facto government in Mexico. Villa was in his private car on the troop train, ready to leave for Casas Grandes and had just completed a reception to a party of American women, when he heard the news. Colonel Silva, assistant chief on the staff of Villa, stated that he now would begin a campaign to cause constant surprises.

"A murmur of relief ran through the headquarters, which crowded the car, as the news spread. 'We know what we have to do now,' one exclaimed. 'That is better than suspense,' said another. In the discussion following the retirement of the American women, satisfaction rather than resentment, was generally expressed by the chief northern leader. Villa retired to his private car upon receipt of the news, saying that he had nothing to add to the statement. Silva said: 'We will enter Sonora with forty thousand men. Twenty thousand are now in Casas Grandes, well armed and equipped. The army has been reorganized and is now a clean cut fighting unit. Every superfluous government official has been cut off to found the army.'

"We cannot reveal our plans which have been carefully thought out. An arrangement has been completed for a campaign which I believe will startle the world." The troop train to which the Villa car was attached, pulled out of Juarez for Casas Grandes and west-

SOX HIT 'EM WHERE THEY AIN'T; WIN 2-1

Breaks of Second Game With Boston, But George Foster Acquires Lot of Votes When He Turns Back Phillies

GAME MORE OF A REAL BALL SCRAP

Boston Pitcher Bats for Average of .750 and Lets Phils Down With 3 Hits, Two Successive Doubles Netting One Run

(Associated Press Dispatch)

PHILADELPHIA, Oct. 9.—The breaks of the game favored Boston today and tonight the American League champions and the Phillies are on their way to Boston with the honors of the world's series so far even.

The president and his fiancée shared the honors in the second contest with a stoutly built Boston pitcher, George Foster. Foster held the fighting Phillies to three hits. He struck out eight men. He made three hits himself including a smash in the ninth that sent Gardner across with the winning run. In addition to this Foster sped to first twice and took throws from his fellow-fielder Holtzler. He turned two scolding errors into sensational outs.

Foster in the field and Wilson in the stand were heroes of the day. Foster won his game two to one. The president had a wider margin. More than 20,000 fans were on their feet time after time with Wilson. They greeted him with cheers when he came. They forgot the sting of defeat to send him on his way to Washington with a shout that echoed for many blocks.

The baseball group greatly admired Mrs. Galt, who was smilingly happy over the attention. The president rooted royally for the home team. In the last half of the ninth when the Phillies plight was desperate, Wilson was on his feet as the band began to play the "Star-Spangled Banner" and was followed by the entire crowd. The bleacherites heard the music and joined the standing throng, hats in hand. It was a scene of genuine dramatic tenseness.

It was real baseball from the moment Hooper was first up until Speaker ended the contest by reaching into center field bleachers to snatch a bullet-like drive from Passer's bat and turn the potential home run into a meteoric out, thereby saving Foster a well-earned victory.

Play was sharp and brilliant through all the innings. It was different from the somewhat saffron-hued contest of yesterday. The field was fast and the players of both teams seemed to have found themselves. Their nervousness had disappeared. There was no semblance of the lack of thought that characterized some of the plays of yesterday. There was little to choose in the field. The only error was charged to Burns, catcher of Philadelphia, who dropped a difficult throw from second and allowed Hooper to score in the first.

There was also a wonderful difference in the effect of today's game on the crowd. A lack of excitement yesterday kept the throng in an attitude of indifference most of the time. Today the fans were kept in a state of high excitement. Rooters aggressively followed each play. At times they generously bestowed applause on the visiting players, as well as upon the home team. Gardner, Speaker and Foster, of Boston, and Bancroft, Whitted and Stock of the Phillies, seemed all over the field. Their presence was sorely needed. Flashing plays brought a spontaneous response from spectators if the batted stands and the bleachers.

Although Mayer allowed more hits than Foster, he was seldom in real difficulty and kept the fence wreckers of the Boston crew batting pop flies. Speaker had the good fortune

(Continued on Page Five)

PRESIDENT AND HIS FIANCEE RETURN TO THE CAPITAL

(Associated Press Dispatch)

WASHINGTON, Oct. 9.—The president and his fiancée, Mrs. Norman Galt, returned to Washington tonight much pleased with the reception in New York and Philadelphia. The trip to Washington was made on a special train in three hours and thirty-five minutes.

As the party left the train the president shook hands with Eschler Brumbe. The party dined at the White House.

The president was happy and enjoyed the ball game at Philadelphia, especially the exciting action in the last inning.

NAVAL DEFENSE SMASHED

(Associated Press Dispatch)

WASHINGTON, Oct. 9.—For the second time the naval defense of the Atlantic coast has been smashed theoretically and hostile troops landed on American soil. Admiral Fletcher's blue fleet was scattered and destroyed by a night torpedo attack. The navy department announced that transports bearing the enemy's landing force, steamed up Delaware Bay, bringing to an end the fall navy maneuvers which began on October fourth.

LONE BANDIT KILLED

(Associated Press Dispatch)

WILSON CREEK, WASH., Oct. 9.—After locking the assistant cashier of the Wilson Creek State bank in the bank vault and carrying away all the cash in sight, a lone robber was pursued and killed by a posse of citizens after a desperate battle.

Cannot Openly Break

WASHINGTON, Oct. 9.—Official dispatches to the state department say that Bulgaria's answer to the Russian ultimatum said that she could not openly break with the central powers, as such action would be in violation of her neutrality. Bulgaria denied that there were German officers and men in her army.

SERIOUS RICHMOND FIRE

(Associated Press Dispatch)

RICHMOND, Va., Oct. 10 (Sunday)—Fire destroyed a block of wholesale tobacco district. At two o'clock this morning the fire was still spreading. The loss was estimated at that hour at two hundred and fifty thousand dollars. Two watchmen are reported to have lost their lives.

DOOMED MEN ARE DENIED REHEARINGS

The supreme court yesterday denied the motions for rehearing of the appeals of William Faith, Leonard and Tomlin, sentenced to hang November 26 for murder. Faith was convicted of the murder of Carl Petersen near Phoenix two years ago. Leonard and Tomlin are the youths sentenced to hang for the murder of Marshal Peterson of Mesa in November, 1913.

MORENCI MILITIA COMPANY IS NOT ORDERED TO LEAVE

That the story sent out from Clifton and printed in several papers to the effect that individual members of the Morenci company of the Arizona National Guard had been escorted to the edge of the district and told to "keep on going" was entirely without foundation or truth is the statement made by Captain Frank W. Hayes of the Morenci company, in a long distance conversation with The Republican yesterday. Captain Oscar T. Temple of the

ances. They have no intention of returning to Clifton until the strike is settled.

Neither side of the conference at the state house could be induced to talk about the conversation, although the governor said that he had merely discussed the situation as it now stands, with the federation men.

Moyer said yesterday that while the federation is strictly out of the fight, it has not and will not abandon the strikers. He intimated that the organization of relief work was the only thing he could see that would cause him to re-enter the zone.

Adjutant General's office yesterday also denied that there had been any warning issued to members of the Morenci company directing them to leave the district.

"It is true," said Captain Hayes "that acting under orders of the adjutant general I am having the army in Morenci guarded by a few militiamen. Other members of the Morenci company are still here and are taking no part in the strike situation. Some have absented themselves from the district for a few days, either on hunting trips or on brief holiday excursions. So far as I know the best feeling prevails as between the men of my company and the strikers. It is absolutely false that strikers have waited upon the members of the Morenci company and directed them to get out."

"You can say for me," said Captain Temple, "that there is absolutely no truth in the story. I am in almost daily communication with Captain Hayes and if such a thing were to happen, I would be among the first to know."

The correspondent of The Republican now stationed at Clifton investigated the report carefully and wired this paper that the story is without foundation. As to the members of the company barricading themselves in the ad-mory, this is also denied. The Republican representative says, however, that it is true that since the beginning of the strike three members of the Morenci company have been engaged in guarding the guns and other equipment of the Morenci armory. Some of the men who are office men or clerks employed by the company have left the camp on hunting trips or visits to relatives. And so another canard is laid.

Federation Head Watches Developments in Strike

Although an informal meeting was held yesterday morning by members of the official body of the Western Federation of Miners and although those officials called for half an hour upon Governor Hunt at the state house during the forenoon, no developments were announced in the federation's policy. President Moyer last evening stated that, together with his fellow officials, Powell, Miller and De Lara, he would remain in Phoenix two or three days longer watching the effect of the mine managers' offer of an El Paso conference upon the striking copper miners.
