Deere Alfalfa Cultivator

It pays to CULTIVATE ALFALFA just as it pays to cultivate corn and other crops. It is especially desirable to cultivate Alfalfa fields which are pastured, since such fields become very hard and compact at the surface, and unless the soil is loosened again the Alfalfa cannot thrive. The DEERE ALFALFA CULTIVATOR is an ALFALFA CULTIVATOR in fact as well as in name, and is the only CULTIVATOR that has stood the test. We sell it under a positive GUARANTEE that it will CULTIVATE your ALFALFA lands better than any other TOOL made.
