**THIS MAN WANTS BEES RESTRAINED**  
What is the legal status of the bee? Andreas Rossi wants to know. As if the fowl and swine can be restrained why not bees, he inquired of Justice De Souza yesterday. He says if he makes anything out of his vineyard a restraining order must be issued against his neighbors bees. They have been running at large he declares, to the damage of his property. The court referred him to See Inspector, J. P. Ivy.

**KENILWORTH LOTS ARE SELLING FAST**

The first week's sales of Kenilworth lots is a success. The response of the public to the sale of homesites among the many beautiful residences in this addition indicates that the big realty and building movement in Phoenix is begun.

In several instances buyers insisted on having the adjoining lot reserved for some friend whom they brought in during the week and had them buy it.

This opportunity of choosing your neighbor is one of the best features of the present sale. During the coming week Greene & Griffin will mark all the unsold lots in order that prospective buyers may inspect and select their choice. Each lot will be given its proper number and the buyer will act as their own salesman.

The Kenilworth tract extends from 3rd Avenue to 7th Avenue and from Roosevelt Street to McDowell Road. Its streets are lined with palms. Many of Phoenix's beautiful homes and prominent families are there and no part of Phoenix excels it in the rapidity of its growth. All lots are 70 by 145 Sidewalks and all city improvement are in.

The sale will continue for the full 30 days, unless the rush for lots closes it.
