

LOREN F. VAUGHN

MEMBER OF THE HOUSE OF REPRESENTATIVES

A candidate for re-nomination subject to the Democratic primary the 12th, submits his record to the voters for their consideration.

Main Line Railroad for Phoenix

Mr. Vaughn's bill to encourage electric railway and railroad construction would have some long way towards putting Phoenix on a main line; the bill was so well received that the Chamber of Commerce took up the measure to assist in its passage and the Arizona Gazette commented most favorably upon it editorially.

(Six Per Cent Farm Loans

His untiring efforts in behalf of the six per cent farm loans of the money derived from the sale of school lands shows his faith and interest in the farmers, not only of this county but of the entire state; there is now available for farm-loans something over \$200,000 at this rate of interest.

Educational Appropriations

Having been a teacher in the public schools for ten years, Mr. Vaughn had occasion in the last legislature to show his fidelity to the cause of education by opposing the proposed reduction of school appropriations whereby the schools of Maricopa county would have suffered a loss of more than \$62,000 in two years, under Arizona's beneficent educational system this county gets that much more from the state school fund than she puts into it owing to the numerous small property holdings of

this county and the large school census enumeration.

In the matter of appropriations for the Tempe Normal Mr. Vaughn stood shoulder to shoulder with Hons. J. C. Goodwin and J. E. McLain of that city, while the Arizona Fair (located in Maricopa County) received his un-doubted support when appropriations were up, as also did the Experimental Farms, the University and the Northern Normal.

Followed the People's Expressed Wishes

Every question upon which the people had expressed themselves, either in the election or by platform, he followed their wishes; and on all other questions he voted as he conscientiously believed his constituents would have him vote were they fully informed of the facts.

Constructive and Economical

His bill to remove the small cases (under \$200) from the Superior Courts, with their expensive machinery of bailiffs, clerks, reporters and high-salaried judges, to the Justices of the Peace will save thousands of dollars and does not interfere with a trial by jury nor deny the right of appeal; also, his bill giving Maricopa County an additional Judge of the Superior Court was supported by the business men of Phoenix and Maricopa generally and helps to relieve the congested condition of the courts of this county with very little additional expense.

Never Missed Nor Dodged a Roll Call

During the sessions of the legislature he put private business aside and devoted his entire attention to serving the people; he never missed nor dodged a roll call and at the same time was chairman of the Judiciary Committee, the most over-worked committee in the House—more bills were referred to, and acted upon, by this committee than any other two committees.

Against Special Mine Tax Bill

Mr. Vaughn voted against and was one of the members who led the fight on the SPECIAL MINE TAX BILL, believing himself to be the representative of the farmer, stockman, merchant and all other small property-taxpayers. This bill, everybody NOW says, is dead, or wrong, or that it is NOT an issue at this time, but it must be remembered that at the time he took the stand against it, it was very much an issue and the advocates of the bill now admit that had the bill become a law it would have transferred \$75,000,000.00 tax valuation from the big mining companies to the shoulders of the farmer, stockman and all other small property-taxpayers, who would have had to pay taxes to make up the difference.

REPUBLICAN CLUBS BUSY IN COCONINO

(Special Correspondence) FLAGSTAFF, Sept. 1.—Intent on fully redeeming Coconino county, the republicans have organized early both in Williams and Flagstaff. The club here has been at work for some time and has a working membership of about one hundred and fifty, a little less than the membership of the Williams club. Dr. M. Froussie is president, G. T. Wall, vice president, and John Zaloha secretary of the Republican club in this city. Like the club in Williams, the real activity will not begin until after the primary, when the membership will grow rapidly. Coconino county is going to give Tom Campbell a rousing majority this fall. This prediction has been heard so much of late that it has come to be accepted as a foregone conclusion by even some of the ardent democrats. Organization and team work, combined with good men on the ticket from the head down, is what is spreading the optimism. Tom Campbell, candidate for governor on the republican ticket, arrived in Flagstaff last evening after

visiting the lumber mills in route from the grand canyon. Doane Merrett, candidate on state ticket, on the republican ticket, and George H. Smailley, candidate for state tax commissioner, accompanied him. The party arrived in "The Favorite Son" auto, driven by Max Goheen, a Campbell booster from Prescott who volunteered to pilot the car over the roads of the state. The party has encountered some bad roads along the Old Trails route due to the heavy rains, but notwithstanding the hardships of the journey Mr. Campbell and party are in excellent spirits and sanguine of success in November. Mr. Campbell and party met the people informally, visited the lumber mills, heard the good news of what is going to happen in Coconino county this fall, and left late this afternoon for Winslow where they will spend the night and part of tomorrow.

MOVIE PROGRAM TONIGHT

"Poor Little Pepina," coming to the Airdome tonight, is one of the most thrilling dramatic stories, and contains more great moments than any photoplay in which Mary Pickford has ever appeared. It is a bigger story in scope and in conception than anything in which Miss Pickford has been seen on the screen. Opening in Italy, the action moves to the sea coast and thence to Sicily, from which the kidnapped child escapes on the steam and then is transferred to New York, where the picturesque Washington Square furnishes many of the settings.

RED CROSS MEETING TONIGHT AT MESA

There will be a meeting of Mesa citizens tonight at the Baptist church in the interest of the work of the Red Cross Society. Dr. Allen Hamilton Williams, of Phoenix, will be the speaker. Some time ago a meeting held here was addressed by Mrs. Shaw, who arranged for a future session, at which a local branch of the Red Cross Society should be organized. It is understood that this great organization for the relief of the distress of all nations does not engage in the smaller charities, which are supposed to be handled by the various communities, but holds itself in readiness for all missions of mercy of magnitude. A full attendance is hoped for at this evening's meeting.

HAY BURNED

McLain & Warner had a lot of hay valued at \$350 burned Friday at the ranch south of town and on the Chandler road. The hay was being baled at the time. Mr. McLain stated that the fire, but has an idea that it was the result of cigarette smoking around the stack.

BENDING UNDER FRUIT

Mr. and Mrs. L. W. Stillwell are at home after a stay of several weeks in California. They made the trip in the auto going first into the mountains, then to San Jacinto Hot Springs and concluding their visit at Long Beach, where two weeks were spent as the guests of a sister of Mrs. Stillwell. Mr. Stillwell reported a pleasant journey, but said he had to get away as soon as he reaches home, propping up some of the limbs of his four-year-old grape fruit trees. The fruit on these limbs is so heavy that they had been bent to the ground. The grape fruit on the residential variety and the owner is very enthusiastic as to what can be done in this section with this most valuable article. He reports that Mr. Robert Scott and family, who are at Long Beach, will start home on September 15.

VANADIUM SAMPLES

F. D. Barr, of Phoenix, was in Mesa yesterday with samples of vanadium ore from the mine of the United States Vanadium Development company, east of here. About 30 per cent of this ore, which is said to be very valuable, is found in Peru.

VISITING WINTERS FAMILY

E. F. Mitchell and daughter, of Southern California, have been visiting with Mr. and Mrs. M. Winters for the past two weeks. The families are old friends, having known each other in California. Mr. Mitchell, with his daughter, will leave today for Glendale, where they will make their home.

VISITING HER DAUGHTER

Mrs. Alice Dunn, of Hayden, is visiting her daughter, Mrs. Frank Lumbard, Mrs. Dunn has sold her hotel business in Hayden and will remove to Albuquerque.

BICYCLE MEET POSTPONED

Owing to inability to complete arrangements by September 8, the bicycle meet set for that date will be postponed for a week or two. However, the members of the Mesa Bicycle club are practicing steadily. A sociability run is arranged for today, open to all. The participants will ride to Tempe and perhaps on to Phoenix.

SOCIAL A SUCCESS

The social and dance given Friday night at the Mesa opera house was a decided success. The affair was in honor of the ward teachers, and the presidency, composed of J. W. Lesueur, O. S. Stapley and Elijah A. Will, were the hosts. President Lesueur, in telling of the good work done by the ward teachers, made the following statement: "These ward teachers are visitors to the homes of the families of the L. D. S. faith. For instance, Mesa First ward has 32 districts and 84 teachers. These teachers are expected to visit every family once a month, and during the last eight months they have made calls upon 93 per cent of the families of their district. In case of trouble between any men in their districts they adjust it, and in cases of want among any of the families, they see that provision is made for their help." There were about 150 people at the social and refreshments made up the program.

MESA'S SICK

Mrs. J. B. Nelson, who has been quite ill for several days, is reported as improving. Mrs. Marguerite Arwood has been ill for the last few days, the poison from an ulcerated tooth producing a general illness. Mrs. Arwood is reported as improving. Joe, the son of J. D. Robertson, who broke his arm about three weeks ago in a fall from a bicycle, has so far recovered as to be able to have the cast removed from the arm. He has been fortunate in suffering but little pain.

RESTA'S SPEEDY LAP Who Gets That Large Margin of Profit? ON SILVERTOWNS

Dario Resta made one lap of the two-mile track at the Chicago speedway in 1:03:44, an average of 113.5 miles per hour, in his Peugeot mount on Silvertowns tires in the race last week. This is the fastest two miles that has ever been made in qualifying heats on American speedways.

In the Grand Prix two days later, he again took first place, his average speed being 109 miles per hour. Lewis, Buzzano, Galvin, and D'Alene, the other drivers finishing, also used Silvertowns.

Resta is a consistent user of Silvertowns and he credits them largely with his success in the racing game. Shortly after the Omaha races he made known the fact that the tires on the rear of his Peugeot were the same which had carried him to victory at Indianapolis and Chicago.

"We consider the recent performance of drivers using Silvertowns as the best recommendation the tire can receive," said W. J. Watterson, local manager of the B. F. Goodrich company, who handle Goodrich tires in this city. "With the general acceptance of Silvertowns as the racing tire following the Corona races of last year, speed records have been noticeably increased. The leading drivers feel so sure of Silvertowns that they refuse to use any other tire."

When you buy a suit off a merchant for \$22.50 or \$25 and then see him sell this suit a few weeks later for \$12 to \$14, don't you ever wonder and marvel at the large margin of profit made off you?

A FEW FACTS Stalie for Constable

I wish to call to the attention of the voters of this community that I have had previous experience as an officer in Cochise and Graham counties and assure the people that if elected I will enforce the laws to the best of my ability, regardless of who may be concerned be high or low, rich or poor and regardless of nationality. My record will show, if investigated, that I have acted in the past without fear or favor.

Some criticism has been made regarding my intemperate habits. I have realized this fact, and have resolved to lead an absolutely temperate life. My every effort will be given to the support, and enforcement of the dry amendment, I hope that the people of this community will grant me the privilege and opportunity to show that I CAN and WILL make good. I will maintain a deportment in daily life that will be free from intemperance and will discharge my duties as an officer and a citizen in a manner that will bring no reproach on the community or myself.

If given the opportunity I will also attend to the duties of Humane Officer and will do all in my power to bring to justice parties who persist in the abuse and ill-treatment of their stock, a condition that is apparently being overlooked in Tempe at present.

I believe in averting trouble in its infancy and will give my promptest attention to matters in an effort to quell trouble at its start. I also believe that the time of an officer should be shared with the different localities of his precinct rather than devoted just to the business center of town.

My interests are centered in Tempe and it is my purpose to continue my residence here where my children may be afforded the advantage of Tempe's excellent schools.

Respectfully submitted, GEO. E. STALIE Candidate for Constable Tempe Precinct, Subject to Democratic Primaries Sept. 12th.
