It's In the Knot Is It Not?

Page Lion Fencing is strong and durable. The knot is bent and crimped just enough so that it gets a firm grip on the stay and line wires and prevents slipping, yet does not break the heavy galvanizing. The marginal and line wires are made of high carbon coil spring steel, thus insuring long and durable service. Page Lion fences do not show their age. They are still young after most fences are worn out. Our figures are mighty attractive on this line of fencing.
