

STANDARDIZED COUNTY BUDGET SYSTEM WANTED

The state tax commission is endeavoring to establish some system in the business of securing appropriations and expenditures for the public schools. All this has hitherto been done by guess work and the results have always been sufficiently such. The commission has therefore prepared forms of a budget which with the following letter have been sent to all county school superintendents:

Dear Sir:

Forms for the 1917-1918 budget were recently mailed to all boards of superintendents. This commission, with the cooperation of the various boards and their clerks, has been endeavoring to have published annually a complete and standardized budget. Such a budget of great value to all county officials in making comparisons with other counties and we deem it only just that the taxpayers be fully advised as to the actual cost of conducting all branches of county and state government.

The expense for schools is larger than any other item in the budget and naturally is of great interest to the taxpayers of the various counties. The law provides that the estimates of the various boards of trustees must be submitted to you by July 1, while your estimate is not required to be submitted to the board of supervisors before August 1. The board of supervisors must begin publishing the budget about July 20. In order to include the schools' expenditures in such published budget, it would be necessary for the county school superintendents to submit their estimates to the board of supervisors about ten days before August 1. This would still leave your office about 20 days in which to make up your estimate, which would appear to be ample for this purpose, provided you insist that the local boards of trustees submit their estimates to you by July 1, the date specified in the statutes.

The commission solicits your cooperation in this matter to the extent of furnishing your estimate to the board of supervisors in time for same to be included in the budget when published.

Very truly yours,
STATE TAX COMMISSION,
D. G. Henderson,
Secretary.

WILL REGULATE SALE OF ARMS

Acting upon the recommendation of the United States Attorney General, the city commission in regular session yesterday morning adopted an ordinance designed to regulate the sale of arms, ammunition and explosives in this city. The measure, which carries the emergency clause,

“Goodies! just melt in your mouth—light, fluffy, tender cakes, biscuits and doughnuts that just keep you hanging round the pantry—all made with Calumet—the safest, purest, most economical Baking Powder. Try it—drive away bake-day failures.”

Received Highest Awards
New Oats Baking Powder—See Sign in Postal Can.

NOT MADE BY THE TRUST
CALUMET
CALUMET BAKING POWDER CO.
CHICAGO

Cheap and big can Baking Powders do not save you money, Calumet does—it's Pure and far superior to sour milk and soda.

CROP SURVEY PLANNED FOR ENTIRE STATE

An accurate crop survey of Arizona is now in process of compilation by a staff of experts under the direction of the Arizona Council of Defense. This short and plain statement gives no idea of the magnitude of the task, the infinite care and precision of every detail with which it is being accomplished and the value it will be to the people of the state and nation when completed according to the full plan formulated by the council.

This crop survey which is being made in the form of a map is to be completed at the earliest possible moment, to the end that the Council of Defense may know the exact agricultural production possibilities of the state for the coming year. This information which is being gathered will show what surplus there will be of certain crops and what the shortages will be.

As the large proportion of the agricultural land in Arizona is located in Maricopa county, the first work was started here. It is in charge of W. A. Barr, recently appointed county farm agent. A splendid start was made in this work at the recent meeting held at the twenty-six school houses.

J. F. Sears, a statistician who has done much good work of this character, recently in San Diego, has been placed in charge of the crop map making by Dwight B. Heard, chairman of the Council of Defense. Heard also has arranged for several volunteers who are giving valuable service as field engineers. Among these are Arthur P. Dunn, formerly of New York, Frank Parker and Percy Keen.

These men as they check up a specific school district turn the maps over to Mr. Sellers who then plots them, with a specific problem for every crop. These will be assembled on large maps showing each an entire county which with the valuable co-operation of the state engineer's office are being prepared in the form of a map.

Many farmers of the Salt River Valley, realizing the practical value of this work, are coming into headquarters in the senate chamber at the state house and conferring with Chairman Heard and Mr. Smalley, giving material help. It is particularly urged that all farmers interested in this—and it should include every one in the county—come to headquarters and aid in the preparation of these maps which, when completed for Maricopa county, will give an accurate crop record of 1917 of nearly 200,000 acres and will serve as a basis of the work to be carried on in all of the other counties of the state.

Keenly desirous of having this crop map absolutely correct in every detail and being personally interested in its progress, Mr. Heard urges all farmers to come in and aid the experts and the council that it may be done promptly. When Herbert Hoover, national food director, asks what the crop prospects and conditions are, it is the intention of the Council of Defense to be ready to give full and correct answer. The county map when completed will be six by eight feet in size and will be a scale to see correctly each plot of farm land down to a five-acre plot. Only by seeing this work in process of compilation can the magnitude and value be appreciated.

HAYDEN MEXICANS PROUD OF LOYALTY

HAYDEN, June 14.—The army registration which took place June 5 surprised every one by the large number of men who were subject to this registration. No. 1 district, Hayden Smelter, No. 2 district, Smelter with 57, making a total of 230.

Many Mexicans registered and seemed proud of the opportunity of showing their patriotism. The women of the Red Cross assisted in the work by making the arm bands and the men were decorated as soon as they received their registration certificates.

W. W. Pierce of the flotation department, is in Los Angeles spending his vacation and will visit the coast cities before returning.

Bonds for Schools
A school bond issue election was recently held in Hayden, at which the people voted to issue bonds to the extent of \$25,000 for the purpose of raising money to build a new school building, which is required on account of the growing population of the town.

Louis S. Gates, general manager of the Ray Consolidated, spent Wednesday in town on business.

The Hayden Drug company has secured the storefront formerly occupied by the barber shop and will use this addition to their store as an ice cream parlor which their many patrons will appreciate.

The excavation for the new furnace at the Hayden Smelter is progressing rapidly with a large force of men, other construction work at the plant is also making good headway.

Gail Moffat of Salt Lake City is visiting his brother, D. D. Moffat, superintendent of mills.

Doctor Rood, the dentist, is spending several days in Phoenix on a business trip.

Benefit for Red Cross

A first class boxing and wrestling match will be held at the tennis court by the Noycar club tonight. This will be a "Red Cross Benefit" affair and a large crowd is assured.

The regular Saturday evening dance was held at the Noycar club and a large crowd was in attendance. The music was exceptionally good and all present had a good time.

The Red Cross relief presented "The Girl of the Golden West" at the theater, Wednesday night, under the direction of E. J. McNaughton. The company played to a crowded house.

Each actor was commendable in their part and a number of specialties were put on which were unusually attractive.

The company motored to Ray Thursday where they were entertained by the Ray Consolidated company, going down the mines and seeing the sights of the camp and in the evening presented the same show to a full house.

C. H. Studley, Jr., is in Globe attending to legal matters and will return the first of the week.

Do not wait till tomorrow—Phone that WANT AD to the Republican this morning and get your wish fulfilled.

Why Not Keep Chickens? It's Lots of Fun. And a Little Want Ad Will Find Regular Buyers for the Eggs!

Just think how convenient and what a lot of pleasure it must be to get your eggs fresh and to have an occasional chicken from your own "flock." The expense of chickens is almost nothing and the pleasure you get from keeping them is great. Besides, if you work it right, there is lots of "pin money" in it. A little Want Ad inserted in this paper will get you into immediate touch with people who will start you off. Another little Want Ad will find families who will buy your eggs regularly. But perhaps you are a dealer in chickens, eggs and the like. A little Want Ad will carry your message to thousands of homes and produce for you steady customers. It is a good scheme to keep our little Want Ads working for you week in and week out. The cost is trivial. It is a money-making investment to—

(Suggestions for You to Adopt)
