START MOVE FOR MORE HOUSES IN CHANDLER

CHANDLER, August 12.—Chandler is being held down to its present size solely because would-be residents can find no place to live. There are no vacant houses and with a view to remedying this condition the Chandler chamber of commerce has appointed a committee, with George L. Taylor of the Bank of Chandler at its head, to devise some means whereby the situation may be improved.

Funeral of H. G. Beardsley
 The funeral of Herbert G. Beardsley of this place, which was an evening, took place yesterday morning at 9 o'clock at Phoenix. The service was held in the J. T. Whitney undertaking parlors, and interment was in Greenwood cemetery. The folks, of which the deceased was a member, had charge of the funeral.

Mr. Beardsley, for some time prior to his death, had been the local agent of the Arizona Eastern Railway company. Several months ago he went to California for a rest and while there was stricken with the really business of diseases from which he never recovered. He was at one time a member of the regular army. He leaves a wife and son.

Lieutenant Rice Becomes Realty Man
 Lieut. Morten Rice, recently returned from overseas, has become associated with J. L. Erickson in the realty business and will make his home permanently in Chandler. This is good news to his large circle of friends, and they are predicting that the young soldier will be a valued addition to the already prosperous realty agency. Before going to war Mr. Rice was principal of the Chandler schools. He was welded to Miss Austin, a member of the faculty here, shortly before he left for the army, and there followed one of the most beautiful examples of wifely devotion.

The two had bought a pretty home and were paying for it on the installment plan. With a heavy sum yet due, the husband had only a private's pay, but that was nothing to daunt the wife. Continuing her teaching, she lived most carefully, hoarded every penny, rented a portion of the home, and when, through sheer bravery and efficiency, Rice returned a lieutenant, it was to find the home clear, and the future smilingly bright before him.

Marquis Rich, tailor and cutter, has just received his fall and winter samples and they are really very nice. Prices are reasonable. An investigation invited; also it will be to your advantage to have them made early this fall as there will be a great demand.—Adv.

H. G. Shanks of San Antonio, Texas, is visiting with his daughter, Mrs. Garrett. Miss Goldie Hart, a cousin, is also visiting with Mrs. Garrett. They expect to remain about a month before returning to their home.

Mrs. Roy Cook is spending a few weeks at the Norton ranch where a new baby boy was born recently to Mr. and Mrs. C. J. Hartline.

Mrs. Earl R. Marble left Saturday for Los Angeles to spend the remaining weeks of hot weather.

Mr. and Mrs. Geo. Kornbau received word recently that their son Clark had fallen from a pipe line while working in the oil fields near Downright, Okla. He was seriously injured, but no fatal results are expected. At last reports he was improving nicely and was expected to go to Tulsa as soon as he was able to be moved.

Cooper Green, a foreman in the Ray Con. mines, left Sunday for California to enter the university at Berkeley. Mr. Green has been a resident of Hayden for some years, with the exception of the time spent in the U. S. army service. The best wishes of his many friends go with him for his future success.

James Angus left Sunday for the oil fields of Texas where he will spend the greater part of his vacation period. J. W. Kinney, formerly employed by the Ray Con. has gone to Ray to accept a position with Miller Brothers as manager of the dry goods department. Mr. Kinney is an experienced dry goods man. For some time he was connected with that department of the Knight-Thompson store before going to work for the Ray Con. He will move his family there as soon as arrangements can be made.

F. M. McQuiston returned recently from New York where he has been for some weeks and has resumed his duties with the Ray Con.

ANOTHER SMASHING GAS WELL ROARS IN BEHIND US

Gas—wet with gasoline—so full of the precious fluid that the derrick and everything about it is soaked—is roaring out of the Rat Masterson No. 3 well just beyond the Giant acreage. It's making about twenty-five million feet a day. Think of it! Gas enough to supply a small city—and immeasurably rich in gasoline. That's the Giant's neighbor.

You know the Giant now. We've told you the wonderful story—how we started as the wildest kind of a wild-cat—a straight out gamble. And now the field developments are making our properties so rich that we are ceasing to have a gambling proposition and it is becoming an investment.

But we stick to our original proposition. We keep the limit on. You can't buy more than \$100 worth of this stock. We'll sell as little as \$1 worth.

Do you think we stand a fair chance to get a big well?

If we do, a few shares will be worth a fortune.

Buy it now. It's ten cents a share, and up to Sept. 1 we'll pay 100 per cent stock dividend to all buyers. One extra share free for every share you buy. Double stock means double profits.

FINANCE AND MARKETS

NEW YORK, August 12.—Dullness and irregular price changes were the conspicuous features of today's stock market. The volume of business transacted almost to the smallest total of any full session in many weeks, sales amounting to only 775,000 shares.

Unlike previous days, the opening was heavy, evidently as a direct consequence of pressure from the short interest, which centered mainly in steels and the shares of related groups.

Thereafter the list rallied and reacted alternately.

The industrial situation was more favorable. Bonds were more steady than the stock list, although Liberty issues yielded slightly and international issues were irregular. Total sales, par value, \$11,275,000. Old Un-
