

TAFT-WILSON CABLEGRAMS MADE PUBLIC BY GOVERNOR COX-OPPONENTS OF LEAGUE PACT SCORED BY MONROE

Correspondence Given Out by Cox Details Suggestions For Changes in Tentative League Draft and Advice By Former President Regarding Its Presentation to United States Senate.

(Republican A. P. Leased Wire) SPRINGFIELD, Ill., Oct. 10.—Cable correspondence between President Wilson and former President Taft in 1919, during drafting of the league of nations covenant at Paris was made public here tonight by Governor Cox...

Mr. Taft, the correspondence detailed sought and had cable communication with President Wilson, submitting numerous suggestions for changes in the tentative league draft and advising the president regarding its presentation to the senate.

Governor Cox's statement, issued prior to his departure to make addresses at East St. Louis, Ill., and St. Louis, Mo., said that he published the Taft-Wilson correspondence as a White House memorandum because of the equivocal position ex-President Taft and other friends of the league now occupy in their support of the candidate of the league destructionists.

Followed Taft Suggestions The White House memorandum, containing some of the cables exchanged by President Wilson and Mr. Taft stated that in "every instance" the president followed Mr. Taft's suggestions and Governor Cox's statement declared that "every suggestion of Mr. Taft was followed literally."

"I would like to send a return message and that is, that the president argue for the league and its necessity; the impossibility to secure peace without; the dreadful unrest in Europe, the pressure of our allies to ratify and secure peace at once; the need of the league with the United States to stabilize and to resist bolshevism, the necessity for renewal of negotiations if an important amendment like striking out article ten is made; the absurdity of a congressional declaration of peace on one side, the giving up of all objects of the war in such a peace if Germany were to make a similar declaration. I hope sincerely he will not attack the Republican senators. His appeal will be much more influential if he pleads his cause and does not attack the opposition."

On March 16, 1919, the correspondence showed, Secretary Tumulty sent the president a message stating that Mr. Taft desired to cable the president with suggestions not looking to change "the structure of the league, the plan of action or its real character, but simply removing objections in minds of conscientious Americans which its language does not justify and whose fears could be removed without any considerable change of language."

The reply given by President Wilson said he would appreciate Mr. Taft's offer of suggestions and welcome them. "The sooner they are sent, the better."

On April 13, 1919, signed by Mr. Taft and A. Lawrence Lowell, read: "I venture to suggest to president that failure to reserve Monroe doctrine more specifically in face of opposition in conference will give great weight to objection that league at first respects endangers doctrine. It will seriously embarrass advocates of the league; it will certainly lead to senate amendments embodying domestic and foreign reservations; it will be less likely to secure subsequent acquiescence of other nations than proper reservations now. Deem some kind of Monroe doctrine amendment now to article ten vital to acceptance of league in this country. I say with full realization that complications in conference are many and not clearly defined here. A strong and successful stand now will carry the league."

Another on April 13, signed by Mr. Taft and A. Lawrence Lowell, read: "I venture to suggest to president that failure to reserve Monroe doctrine more specifically in face of opposition in conference will give great weight to objection that league at first respects endangers doctrine. It will seriously embarrass advocates of the league; it will certainly lead to senate amendments embodying domestic and foreign reservations; it will be less likely to secure subsequent acquiescence of other nations than proper reservations now. Deem some kind of Monroe doctrine amendment now to article ten vital to acceptance of league in this country. I say with full realization that complications in conference are many and not clearly defined here. A strong and successful stand now will carry the league."

Why the Republican Was Late

Trouble Will Be Eliminated

Within the last two weeks The Republican has been frequently irritatingly delayed in going to press, with the result that it has reached its readers late. The management is doing its utmost to eliminate the causes of the delays, and is pleased to announce that that will be done very quickly.

Several factors have contributed to the delays, the foremost being large increases in the volume of news and especially in the much enlarged volume of advertising. Too much of the copy of the larger space-users comes in late, and all of it later than it should be received, both for the good of the readers and the advertisers, who are themselves penalized by this delay of the publishing hour. All this will be shortly remedied.

Another cause of delay is in the fact that a part of the equipment of The Republican has already been installed in its new home while the building is being finished, while the rest of it is in the present quarters of the paper. This is a handicap that militates against efficiency.

The Republican has recently purchased another multiple magazine linotype and also a carload of new time-saving efficiency printing equipment that is now being installed in the new home of this paper. Within the next two weeks the entire equipment of the paper will be established in its new building and it will then be prepared to handle its business efficiently and on time.

The circulation of The Republican has grown to more than 14,000 and it is now printing fifty per cent more pages than were required fifteen months ago.

The most marked delay recently was that of Saturday night, caused in a great measure by a shut down of the gas used in heating the metal of the typesetting machines, followed by a further loss of time by a derangement of the lighting system during the busiest hour of the busy Saturday night shift.

MILTON LOWERS DIRT TRACK HUNDRED MILE RECORD FIVE MINUTES

Tommy Milton, driving a Deussen Special, broke another world's record yesterday afternoon when he circled the state fair grounds track 100 times in 1 hour 24 minutes and two-fifths seconds, lowering Eddie Hearne's time by 5 minutes 48 2/5 seconds.

Gaston Chevrolet, piloting a Monroe Special, showed great speed for the first half, leading Milton by an eighth of a lap until fouled spark plugs sent him into the pit on the forty-eighth lap. Chevrolet missed one and one-half laps and got away to a second start, traveling at a terrific rate of speed for seven laps, when a cracked cylinder cut him out of the race.

Omar Toft looked good at the start, leading the field on the first lap and holding a fast pace on the second turn. Toft's engine was not firing as it should and the local driver fell behind, but finished second when Chevrolet dropped out of the race.

The race was the speediest ever held at the state fair grounds. It was not sensational, but held the crowd on edge until Chevrolet was out. After that it was the crowd's desire to see Milton lower the dirt track record rather than interest in the car circling the oval. In a desperate effort Chevrolet drew the pole position, with Milton in the center and Toft on the outside. The trio circled the track with a great burst of speed. Chevrolet gradually gained on Toft and Milton. On the thirteenth mile Chevrolet passed Toft for one complete lap and Milton gained a full lap on Omar at the sixteenth mile. On the twenty-sixth mile Milton and Chevrolet gained a second lap on Toft. When the racers passed the thirty-ninth mile Milton opened the dust and Toft crashed into the wall. He gained on every lap until Chevrolet went into the pit on the forty-eighth mile. Gaston lost one and one-half laps on the first stop and gained one-half lap before dropping out.

On the fifty-ninth mile Milton passed Toft for the third complete lap, again passing the local driver on the seventh lap. Toft picked up a little speed, but his engine was not working properly and Milton took another complete lap on the nineteenth mile, finishing five and three-quarter laps ahead of the field.

The time for the first 10 miles was 3 minutes and 24 seconds, the fastest lap being turned in this part of the grind when Milton circled the oval in 47 seconds.

Milton's time, as given for each five miles, was as follows: Five miles—4 min. 16 sec. Ten miles—8 min. 24 sec. Fifteen miles—12 min. 32 sec. Twenty miles—16 min. 42 1/2 sec. Twenty-five miles—20 min. 52 1/2 sec. Thirty miles—25 min. 2 sec. Thirty-five miles—29 min. 14 1/2 sec. Forty miles—33 min. 28 sec. Forty-five miles—37 min. 43 sec. Fifty miles—42 min. 58 sec. Fifty-five miles—47 min. 12 1/2 sec. Sixty miles—50 min. 24 sec. Sixty-five miles—54 min. 38 1/2 sec. Seventy miles—58 min. 48 3/4 sec. Seventy-five miles—63 min. 12 1/2 sec. Eighty miles—67 min. 14 1/2 sec. Eighty-five miles—71 min. 27 3/4 sec. Ninety miles—75 min. 38 1/2 sec. Ninety-five miles—79 min. 53 1/2 sec. One hundred miles—1 hr. 24 min. 2 1/2 sec.

Toft made a good race despite engine trouble, but he refused to quit, and made good time when the engine hit in order. Milton drove a consistent race over the hundred miles, his time varying a few seconds to the lap. He traveled a terrific speed for a dirt track and his new honors were well earned. Milton wins the \$10,000 cash prize and the diamond-studded medal given by Barney Oldfield.

A crowd estimated at 10,000 swarmed into the grounds, with every available grand stand seat occupied long before the starter dropped the flag. Thousands stood in the aisles and crowded the roofs of the fair ground buildings in an effort to see the speed demons burn the dust under their wheels. A number of private automobiles parked in the grounds and along the road leading to the fair grounds, Phoenix can boast an automobile to every two or three inhabitants. Visitors from every section of the state attended the races and the valley had its quota of auto fans in attendance.

SENSATIONAL FIELDING MARKS CLEVELAND VICTORY IN FIFTH GAME OF BASEBALL STRUGGLE FOR CHAMPIONSHIP OF WORLD

TRIPLE PLAY UNASSISTED AND HOME-RUN WITH BASES FILLED FEATURED FOR FIRST TIME IN WORLD SERIES CONTEST.

(Republican Associated Press Leased Wire) CLEVELAND, Oct. 10.—In a baseball game erupting sensational, unique and thrilling plays far beyond the wildest dreams of an imaginative fiction or scenario writer, the Cleveland Americans defeated the Brooklyn Nationals eight to one in the fifth contest of the world series here this afternoon. An unassisted triple play by William Wambsgans, a native born son of Cleveland, and home runs by Elmer Smith and Jim Bagby were a trio of individual features which formed a flashlight photograph on the fans which no future diamond battle can erase.

The victory broke the existing tie between the pennant winners of the two major leagues and tonight Cleveland is confident that the first American league pennant ever won by this city will be overshadowed by the great glory of the world's series banner to be flung to the breeze next spring.

The Brooklyn Robins, crushed by the two terrible catastrophes of Saturday and today, are clinging desperately to the hope that Sherrod Smith may be able to check the batting onslaught of the Indians, but the home team and fans declare that nothing can stop the rush of the Clevelanders now that they have solved the mystery of the Flat-bush hurling staff. The caliber of the play made by the Clevelanders in that two world's records were established during the hour and forty-five minutes in which the tribe of Speaker took great handfuls of plums from the stunned and helpless Robins never before in the history of world series had a triple play been made by one player.

In the case of ten hits and feature plays other incidents and efforts were lost sight of which might have brought applause during a less sensational game. O'Neill had two such feats to his credit, when in the first inning he threw his body full length back of the plate and blocked a wild pitch by Bagby which, had it passed, would have permitted Olson to score. Wheel followed with a fly a left fielder, Brooklyn's chances to score that inning. Again in the second O'Neill took Jamieson's perfect throw from deep left field and checked Konetchy's rush to score from third, where his triple had placed him.

Only seven points separate Cleveland and Brooklyn in batting in the world baseball classic as a result of the fifth contest. The Indians are hitting for an average of .247, while the Clevelanders boosted their mark to .249 by gathering 13 hits today.

Today's game was the last in which the players share in the receipts, and tabulation of the figures for the five contests show that if Cleveland wins each player on the American league club will receive approximately \$4204, while if Brooklyn wins the National league athletes will get only \$3811 each. The discrepancy is due to the fact that Brooklyn's share must be split among 27 men, while only Clevelanders will be rewarded. The share in addition goes to Mrs. Chapman.

In neither case are the figures for last year's series, \$4881.55 each for Cincinnati players and \$3843.37 for Chicago men received. The Cleveland players' portion of receipts as losers would be approximately \$2930 each, while if Brooklyn is defeated the Dodgers will be given \$2877 apiece.

The second and third place teams—Chicago and New York in the American league and New York and Cincinnati in the National—will receive \$23,717.63 from the receipts to be divided. This represents 25 per cent of the players' share in the first five games. The second place teams got 60 per cent and the third players 40.

The receipts in the remaining games go to the national commission and the owners of the contending clubs. Figures for the first five games follow: Attendance, 123,028; net receipts, \$397,919; players' share, \$214,870.74; club's share (divided equally), \$143,048.26; national commission's share, \$38,992.10.

The two big floral wreaths presented to Tris Speaker yesterday were taken to the grave of Ray Chapman today by the Cleveland manager.

In every game in this year's world's series the team to score first has won. Mrs. J. R. Speaker, the gray-haired mother of the Cleveland manager, was to proud spectator. She came all of the way from Hubbard, Texas, to witness the games.

Ticket scalpers, despite all precautions to halt them, sold tickets for today's game for prices as high as \$50 to \$75.

In the eighth inning Olson was deprived of a hit by the official scorer. He hit a swift grounder toward Gardner and the ball took a freakish hop. Gardner attempted to spear it with one hand, but the ball got away from him. The writers and fans bowed at the decision of the scorers, who gave an error to Gardner.

Elmer Smith, Indians' right fielder, was the batting hero of the day. In four times at bat Smith lamed out on a home run, scoring three ahead of him, a triple and a single.

"Doc" Johnson, Cleveland first baseman, made his first hits of the series today, knocking out a brace of singles. His brother Jimmy was unable to play third for the Dodgers today because of a damaged leg, injured while sliding into base yesterday.

Three New Stars In Baseball Firmament

Five Killed When Train Hits Auto at Glendora, Cal.

(Republican A. P. Leased Wire) GLENDORA, Cal., Oct. 10.—Five persons were killed late today when section two of the California limited crashed into an automobile at a crossing of the Santa Fe railroad near here.

The dead: Mr. and Mrs. William Clark, Covina, Cal., sister of Clark. S. Williams, Dodge Center, Minn. Mrs. Effie Miller, New York city, daughter of the Clarks.

LITTLE PROGRESS AMONG POWERS ON RUSS-CHINA PLAN

(Republican A. P. Leased Wire) WASHINGTON, Oct. 10.—Informal negotiations entered into with other powers by the United States with a view to the protection of Russian rights in China have reached only a very tentative stage. So far no definite or concerted plan of action has been agreed upon, but it was learned today that no form of international trusteeship of Russian rights in China, as proposed by the powers, will be undertaken because of the difficulty which the United States holds must inevitably surround such a procedure.

Upon receipt of formal notification last week from Charles R. Crane, the American minister at Peking, of the withdrawal by China of recognition of Russian diplomatic and consular representatives in China appointed by the Kerensky regime, the American government immediately made informal inquiry of the Chinese foreign office as to the measures to be adopted for the protection of Russian citizens in China in the absence of Russian representatives. At the same time informal negotiations were entered into with the allied powers for the formulation of a joint plan of action for the safeguarding of Russia's rights in China.

Since the state department initiated these negotiations it has been given assurance by the Chinese foreign office that the Peking government has no intention of accepting the return of Russian rights in China as proposed by the bolsheviks.

PARIS WRECK VICTIMS 42

PARIS, Oct. 10.—The number of persons killed in the wrecking of the Paris-Maines express yesterday near Malsons-Lafayette totals 42. One hundred were injured. An investigation showed that the wreck resulted from accidental causes.

The School Child's Health

This is one of the most vital questions that the mother faces in all the course of her life. It cannot succeed in its pursuit of an education—cannot grow into normal maturity.

Our Washington Information Bureau, realizing this, asked the American Red Cross to make for its distribution, a bulletin that would give the mother the best possible advice about keeping her child physically fit.

The book is now ready. It is undoubtedly the most practical study ever made of the subject. IT IS FREE. In the cost of well-being of your children, send for it. In filling out coupon, print name and address or be sure to write plainly.

Frederic J. Hough, Director The American Red Cross Information Bureau, Washington, D.C. I enclose herewith ten cents in stamps or a check for postage on a business copy of booklet, The School Child's Health. Name: Street: City: State:
