VETERAN TEACHER GRANTED PENSION

A. H. Fulton, who gave a lifetime's service to the public schools of Arizona, was granted a pension by the state board of education at its meeting yesterday.

Serving as a teacher in the schools or supervising teachers, Mr. Fulton was identified with the educational development of Arizona from 1875 to 1918.

Mr. Fulton taught in both the rural and city schools in the pioneer days. He later held position in the Phoenix schools and his most recent service was as superintendent of schools of Maricopa county.

In addition to granting a pension to Mr. Fulton, the state board acted favorably on a like petition of Mrs. S. E. Haywood, whose son, S. C. Haywood, is superintendent of schools of Graham county.

Members of the board present at the meeting were Elsie Toles, state superintendent of public instruction, I. B. McMullin, president of the Northern Arizona Normal school, Kate Reynolds, superintendent of schools of Pima county, C. P. Philbrook, superintendent of schools of Yavapai and S. H. Martin, principal of the Prescott High school.

OLD SAINT NICK TO VISIT MARKET

Santa Claus is going to be a real Christmas saint to 300 kiddies during the week, and he is going to carry out his program at the Grand Central market tomorrow, Thursday and Saturday.

Between the hours of 4 o'clock and 6 o'clock in the afternoon tomorrow and Thursday and between 10 o'clock and noon Saturday Santa Claus will give bags to 100 children each day from the Christmas tree which is erected in the market.

The children must be accompanied by grown-ups. The Christmas tree will be reached from the First avenue entrance to the market, and children must wait at this entrance until the signal to begin the gift-giving is announced.

ORGAN RECITAL IS ARTISTIC EVENT

The organ recital given at the Central Methodist church last night by Mrs. Clara R. Taylor, assisted by Bess Barkley, contralto, proved to be one of the high lights of this season's musical events.

The first number, Fantasia-Sonata, by Rheinberger, was rendered in a capable and intelligent manner, the adagio-expressivo showing the tender, more subtle powers of both the organ and the organist, while the fuga-finale commanded splendid power and execution.

Andrew's Air in D, though not so masterful as Rheinberger or Gullmaut, was a gem of melodic loveliness. The Gavotte from "Mignon," by Thomas, was like a dainty piece of bric-a-brac as interpreted by this capable organist, while the Andante from Symphony in G was rendered in true Haydn style, marked by fine, clear phrasing and excellent registration.

Gullmaut, master of the French school or organ playing, furnished a splendid climax to this excellent program.

Bess Barkley's splendid voice rang with true resonance throughout her numbers. The "Song of Thanksgiving," by A. Aitken, was sung with assurance and spirit, while the lovely Recitative and Aria from the "Messiah" was sung in true oratorio interpretation. The Florian's Song, by

MUSICAL TRIO IN CONCERT TONIGHT

The Conner Trio

Santa Fe mail car on Nov. 13, is now a tailor in Leavenworth prison, according to J. P. Dillon, United States marshal, who returned yesterday from Kansas after delivering Gardner to the prison authorities.

Gardner's train was met all along the route, Marshal Dillon said, by people who were interested in the notorious bandit, while a real reception was given to him at Leavenworth. The bandit was brought into the prison at 10 o'clock Thursday night.

Marshal Dillon said that the trip to the penitentiary with Gardner was uneventful, no trouble of any kind having occurred between here and the prison. On his return to Phoenix, Marshal Dillon ran into a real, old-fashioned snow storm at Kansas City.

AD MAN PAYS HIGH TRIBUTE TO PHOENIX

"Phoenix showed the finest public spirit of any of the 120 cities I have visited since becoming president of the Advertising Club of the World," was the tribute paid this city in El Paso Saturday by Charles Henry Mackintosh, who the day before addressed the El Paso representative local business men and women at luncheon at the Hotel Adams.

Although Mr. Mackintosh's visit here was but a brief one, he had ample time to be impressed with the city's advantages and progress and the spirit of its citizens, as shown by his statements to the El Paso Herald that in public spirit Phoenix excelled the 120 cities he has appeared in on his present tour of North America.

Mr. Mackintosh, who is president of the Advertising Club of Phoenix and attended by large delegations of the Rotary club, Kiwanis club, Merchants and Manufacturers association, Salt River Valley Real-estate association, Business and Professional Women's club, Century club and W. C. T. U., as well as by individuals.

During his visit Friday, Mr. Mackintosh was taken for a trip about the city by a committee of the Rotary club and on a tour of the valley by members of the Ad club.

FOUR ASK PERMITS TO OPERATE STAGES

Four applications for certificates of convenience and necessity to operate stage lines were heard by the corporation commission yesterday, action on which will be taken shortly.

G. S. Neill petitioned the commission for the right to operate over the paved highway from Chandler to West Chandler, formerly Kyrene. Four protests were entered by former petitioners who claim there is not sufficient business for more than one stage line.

A protest also was filed against Jerry Trull's application to operate a stage line between Miami and Porphyry. The Consolidated Stage company of Globe opposed Trull, claiming that two miles of the road was a private highway owned by mining companies which had given it a permit to operate.

The Consolidated at the same time asked for authority to extend its Globe-Miami line to Saford. Rogers and son applied for a permit to extend their freight line, which

Filipinos Contend New Treaty Should Bring Independence

WASHINGTON, Dec. 18.—Independence for the Philippines was advocated today by J. C. De Veyra and Isuro Gabaldon, resident Philippine commissioners, who in statements forwarded to President Harding and

members of congress declared that "world events make the present time propitious" for the granting of independence.

They contended that the four-power treaty affecting the Pacific "removes any reason for fear for the safety of a Philippine republic."

They also referred to the action of England in offering to make Ireland a free state, as opening the progress of new freedom to subject peoples.

Build the Highway to fit the climate

The resilience of Asphaltic Concrete makes this type of pavement peculiarly suitable to the climate of Arizona. The wide range in temperature between summer's hottest and winter's coldest days calls for a pavement that can expand and contract without deterioration.

Asphaltic Concrete pavement, being resilient, does not crack in cold weather or buckle in hot weather. It remains smooth and true to grade despite climatic changes.

Asphaltic Concrete's resilience is a factor in its great durability and helps keep maintenance cost to the minimum.

The durability of this type of pavement has been proved by the most valuable of tests—long and successful service.

The taxpayers of Maricopa County will profit by adopting Asphaltic Concrete—the type of pavement which fits the climate.

Moreover, Asphaltic Concrete highways pay dividends in long and successful operation. Their small upkeep costs and long life save the taxpayers' money.
