ALBUQUERQUE, FEBRUARY 7, 1908

PRESIDENT DIAZ of Mexico denies that he will soon visit the United States.

THE recent intense cold weather caused the death of over 100,000 head of sheep in Wyoming.

This city should properly observe Arbor day and thousands of trees should be planted along the streets.

A CLOSE investigation of the Pueblo Indians will cause any one to wonder what those noble red men want with water.

THE Arizona Press Association will convene at Tucson, March 11. J. C. Martin, of the Prescott Journal-Miner, is president of the association.

THE city council is carefully guarding the interests of the people, and is holding the corporations to the strict letter of contracts with the city.

DISTRICT ATTORNEY CHILDERS emphatically denies the sensational story sent to the New York World by the Washington correspondent of that paper.

OF the four hundred thousand Christian hymns that have been written, it is said that Charles Wesley alone wrote six thousand, five hundred and Isaac Watts four hundred.

THE mortality in the Cuban city of Santa Clara last year is reported at 6,881, or considerably over one-half of the total population. History has few examples of such deadly suffering.

THE Denning Headlight, recently damaged by fire has changed hands and again appears improved in appearance. J. L. Whitton & Co. are the new publishers, and they know how to make a good local paper.

L. L. MERRILL, for many years an employee of the Albuquerque postoffice, has established a weekly paper in El Paso and has named it the News. It is a clean production of the pen and press, and we wish it success.

TO this date seven chief justices have sat upon the bench of the supreme court of the United States. Connecticut, New York, Maryland, Virginia and Illinois each furnished one and Ohio two. There have been fifty associate justices.

IT is said that the reason for mistletoe growing in the uppermost branches of trees is that the seed is carried by the birds in their claws and deposited. The dairymen say that mistletoe is excellent feed for cows as it is a milk producer.

THE Danish government has promised the sum of \$25,000 a year for twenty years to a French telegraph company which wishes to connect Iceland with Copenhagen. If the company can now induce Great Britain to contribute \$15,000 a year the project will be carried out.

THE Denver Republican is assured that the capital question is not at issue in New Mexico. Santa Fe was made the capital in 1849, and since then the few spasmodic efforts to remove the seat of government have only resulted in stirring up Col. A. Staab to renewed energy.

THE growth of the shipment of American horses to Europe in the past few years has been enormous. These shipments in 1907 aggregated in value \$4,765,395, as against \$718,907 in 1903. The value of those sent to Germany in 1907 was \$2,250,000, as compared with \$79,950 in 1903.

THIS growth of the shipment of apples abroad has been enormous in the last sixteen years. In 1880-81 the shipments amounted to 1,325,890 barrels, while in 1907 they aggregated 3,919,840 barrels. Of this aggregate 111,590 barrels, valued at \$213,482 were shipped to Hamburg, the remaining number, with the exception of approximately 100,000 barrels going to English ports.

JUDGE CAMPBELL this morning handed down the opinion of the court in favor of the new ditch company, giving the company the right to make the survey for the proposed new irrigation canal north of this city. This is an improvement badly needed, and it is the hope of THE CITIZEN that the company will do so liberally and fairly with the farmers and owners of the present ditch system, that all opposition to the new enterprise will be withdrawn.

IT is reported that this government will send a man-of-war to Samoa because the natives insulted a man from Arizona who had established a mission there, and refused to make reparation. The Fresno (Cal.) Republican says: "We don't believe the offended gentleman is a man from Arizona. A genuine, simple, bona fide, all-wool Arizonian wouldn't need the backing of a war vessel in such a fly-speck kingdom as Samoa, and he wouldn't waste any time asking for satisfaction."

### THE DRINK BILL

THE British board of trade has just published some figures showing the consumption of wine, beer and spirits in the countries of Europe and the United States. The report emphasizes one fact that is generally overlooked and that is that the consumption of the various intoxicating beverages is controlled very largely by climate. Spirits predominate for drink in the cold countries, beer in

the more moderate and wine in the southern sections. Thus we see that spirits are used very largely in Scotland, northern Russia, Sweden and Norway, beer in England and Germany, while in France, Spain and Italy wine is drunk almost to the exclusion of other intoxicants. From this it would follow that beer should be used chiefly in the northern section of the United States and wine in the southern.

What the effect of high taxation is upon a nation's drink bill is a subject not well settled, while it is well established that the amount of spirits consumed varies with the prosperity or purchasing capacity of the people; that large vineyards and correspondingly large production of wine increase the amount of the per capita consumption and that in most cases increase in taxation and corresponding increase in the cost of intoxicants somewhat reduces the amount consumed. There is considerable variation in the revenue derived by different nations from the taxation of alcoholic beverages. In Great Britain it is 35 per cent; in France 10 per cent; in the United States 30 per cent, and in Germany 17 1/2 per cent.

### Old Friends Meet

W. M. Lampton, of Denver, and T. J. Helm, of Santa Fe, two popular officials of the Denver & Rio Grande railway, returned to the city last Saturday night from a business trip to the towns south of the metropolis, and remained here yesterday, continuing north to their respective headquarters last night.

On the train coming from the south, Mr. Lampton was pleased to meet an old Missouri school mate in C. C. Hall, and the two chatted pleasantly of the good times they had when both were boys and played marbles for keeps and told stories about their love for the same Missouri school girls, years ago.

That evening, Mr. Lampton was invited by Mr. Hall to the residence occupied by the latter's sister, Mrs. J. J. Frey, and the recollections of by-gone years were again revived.

Yesterday afternoon, in Trimble's "Tally-Ho," Mr. Hall and party took Messrs. Lampton and Helm for a drive through the principal thoroughfares of the city.

### Highwaymen on Wheels

A wheeler of west 40th street, New York, was attacked, robbed and left senseless by two highwaymen mounted on bicycles, in Central Park. Repeated accounts of robberies on wheels have appeared in the papers in various parts of the country. Those depredations of the health, diseases of the highways and bladders, will likely increase, and pursue their atrocious career unchecked, unless they are arrested by the potent intervention of fleetest of foot. The use of the bicycle is followed by the heaviest results in dyspepsia, liver complaint and nervousness.

### INSURANCE DEPOSITS MADE.

Five Companies in New Mexico Have Complied With New Law.

The new insurance law requiring a deposit of \$10,000 in cash or territorial bonds with the territorial treasurer, which went into effect on February 1, has been complied with by the following companies:

Fireman's Fund Insurance company, of San Francisco, Cal., \$10,000 in cash.  
North British & Mercantile company, of London and Edinburgh, \$10,000 in New Mexico territorial institution 5 per cent. bonds.  
Springfield Insurance company, of Springfield, Mass., \$10,000 cash.  
Royal Insurance company, of Liverpool, England, \$10,000 in capital contingent fund bonds.  
St. Paul Fire & Marine Insurance company, of St. Paul, Minn., \$10,000 in Grant company bonds.

### A GOOD LETTER

From the Clerk of the Circuit Court, Ferdinand, Ind., Feb. 28, 1908.

Dear George:—Please send a bottle of Chamberlain's Cough Remedy. I work not feel easy if I know there was one of this valuable remedy in the house. I have given it a fair test, and consider it one of the very best remedies for cough that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract very readily to this medicine. I can conscientiously recommend it for cough and colds in children. Yours respectfully, GEO. K. WOLFE.

Sold by all druggists.

### Found a Mine

A rich strike was made in the Hidden Treasure mine, on Groom creek, five miles south of Prescott, yesterday. C. W. Bennett and C. R. Mitchell, to whom the mine is under lease and bond from T. R. Whiteside, struck at a depth of forty feet and in 120 feet a lead that will assay over \$100 to the ton. C. H. Bennett, father of one of the lessees, brought a fine sample of the ore to this office this morning that gleams with fine gold and concentrates. The vein is eight inches thick. The Hidden Treasure is the south extension of the Monte Cristo, and if the vein extends as expected will be one of the best properties in that section of the country.—Prescott Journal-Miner.

Mr. Ward L. Smith, of Fredericktown, Mo., was troubled with chronic diarrhoea for over thirty years. He had been fully satisfied that it was only a question of a short time when he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the dose done helped him and he continued use cured him. For sale by all druggists.

Two young noddies, known to the county jail inmates as Minnie and Myrtle, delighted their cell companions, mostly men, with several songs last Saturday night and their singing could be heard for several blocks. "A Hot Time in the Old Town" seemed to be their favorite song.

Captain B. F. Kartick, a popular director of the Crocoan Coal company, came in from Pueblo, Colo., last Saturday night, to enjoy the company of John A. Lee during the Sabbath. Mr. Kartick continued on south to El Paso on this morning's early passenger train.

C. G. Wade, representing that sterling company—the Springfield Fire and Marine—is in the city. He is to be found at the Highland and registers from Denver.

H. A. Reese, of Los Angeles, spent yesterday at the Highland, and went south to El Paso on No. 21 this morning.

Chas. Quier and Russell Brooks, two young men of the city, are at Los Lunas duck hunting.

D. J. Abell, the tobacco dealer, has returned to the city from Denver.

## THE TOWNS OF NEW MEXICO!

### Items Culled and Classified from Our Territorial Exchanges.

#### NEWS OF INTEREST TO ALL KINDS OF READERS

##### SANTA FE.

From the New Mexican.

Mrs. Helwig, the old lady who was so badly hurt in a runaway accident Friday morning, is in a precarious condition at St. Vincent's hospital.

Having approved and signed the records of proceedings, Judge Laughlin formally closed the United States and territorial district court Saturday afternoon. Messrs. William Gillis, of Taos, and Thomas N. Reynolds, a brother of Hon. Frank A. Reynolds, of Santa Fe, left for Bland, the metropolis of the golden Cochiti mining district, on horseback.

Miss Virginia Otero, daughter of Register M. A. Otero, of the local United States land office, left to pay a visit to friends and relatives in Albuquerque. Thence she will go to Los Lunas to visit her sister, Mrs. Solomon Luna, for a few days.

William C. Stephens, the 21-year-old brother of John L. Stephens, of Albuquerque, and Dick Stephens, of Bland, died at the house of Hilario Trujillo, in Santa Fe, at 4 o'clock Saturday morning. Consumption was the cause of his death. He also leaves four married sisters.

Secretary Corran, of the Omaha exposition board, writes that Mrs. Fred Lewis, of Albuquerque, is receiving more votes than anyone else in the voting contest. Our Santa Fe people should be their own selves. And what has happened to Las Vegas that it does not actively support some one of its ballies?

Captain William H. Beck turned over to his successor, Captain G. A. Cornish, of the Fifteenth Infantry, the United States agency at White Rock, Utah, on February 1. Captain Beck, under the present orders, will proceed to join his regiment, the Tenth cavalry, at Fort Knoch, Mont. Captain Cornish is well known in Santa Fe and New Mexico, having served here with the Fifteenth Infantry for about ten years during the 70s and 80s.

##### LOS ANGELES.

From the Examiner.

The deaths of five children are reported to have occurred in the old town, all from the same disease—measles. The disease is quite an epidemic here and of a serious type.

"Stanselle's Modern Miracle" show is billing the town for a three night stand, on the 11th, 12th and 13th of this month. This is a Spanish show and is to give its entertainments in the building next to the old town postoffice, formerly occupied by Prigmore.

It is stated that a person who recently lost a son in this city and took his remains east for burial, tried to get away without paying burial, doctor or undertaker, though having \$900 in straight cash on hand.

Jose Trujillo, the 11-year-old son of Flor Trujillo, of Agua Zarca, died of measles. The remains were buried in the San Jose cemetery.

##### From the Optic.

Mrs. Maria Bowen and Mrs. Ethel Perry, who have been on the sick list, are improving.

The Optic understands that someone named Smith, a confidence man wanted in Albuquerque, to the extent of \$2,000, was captured by Pierce Murphy, in one of the saloons of this city.

F. W. Fleck, having leased his hotel on Railroad avenue to other parties, is having large additions made to one of his houses on Main street, near Eighth, intending to occupy the same as a family residence.

One of the principal features of the coming Jewish fair will be the living pictures, which were such a drawing card at the May will fair. They are entirely different and more elaborate than before, and the ladies are hard at work in practicing and posing for them.

##### LOS CRUCES.

From Rio Grande Republican.

Nick Galles is an applicant for the position of clerk of the third judicial district.

W. B. H. Lowellyn, J. R. Fry and others expect to go to the Klondike in the spring.

Mrs. C. M. Logan has recovered from an attack of pneumonia and is now able to be out.

Isidoro Armpio, one of our bright young native sons, is a candidate for the inter-pretship of the district court.

James Baird is now in Mexico buying cattle for Joe Nations, of El Paso, and is looking out for big deals in the same line.

Messrs. Chandler and Nelson have purchased three hundred stands of bees from Captain Brannigan, and are negotiating with H. D. Bowman for a suitable place for an apiary.

Numa Grandjean, cousin to Numa Raymond, arrived from El Paso and expects soon to go into business in this city.

Doctor Morrison, superintendent of the Methodist Episcopal church for this district, was here with Rev. J. A. Russell, and preached here Sunday morning at the Methodist Episcopal church.

The representatives of the English dam company are patiently waiting to hear from London. They have sent the propositions agreed upon here recently to London and have asked that the money needed be sent at once if they wished to accept the present situation.

From the Dona Ana County Republican.

It takes twenty-seven hours to go from Las Cruces to Silver City and twenty-five hours to return by rail. The old stage coaches made the trip in twenty-four hours.

Fred Pierson, the miner, who had the misfortune to lose the sight of one eye, is in the city under the medical care of Dr. Cowan, who believes he can save the eye, although the sight is gone.

Mrs. M. A. Granger, who has been ill with nervous prostration for several

weeks, is again at her post of duty. Her school now numbers 71 enrollment with an average of 60 daily attendance. The scholars all speak English and are progressing rapidly in all branches.

J. H. Cameron arrived in Las Cruces in response to a telegram that his wife was very ill. On his arrival he found Mrs. Cameron improving rapidly. Mr. Cameron is professor of French language in the University of Toronto.

Quite an exciting race took place on the street in front of the park, but it was regarded by many lookers on in the light of a fake race. The race horse Klondike, owned by Jim Smith and Charles Gardner, defeated a horse owned by Frank Herron, of La Mesa, beating it by thirty feet on the outcome.

##### SOCORRO.

From the Chieftain.

The prospects are excellent for a largely increased amount of work to be done on the mines of Socorro county this year.

Socorro would make a fine location for a canning factory. No part of the territory of the entire country, for that matter, is any better adapted for the raising of fruits and vegetables than is this locality.

Mrs. D. H. Harroun is up from her home in Mexico for a visit to her mother and sister. Mrs. Harroun, then Miss Annie Martin, was for some years deputy clerk of the district court here, and one of the leaders of our best society.

The Coming Men of America lodge of the city met and elected the following officers: Leo Wattleit, president; F. R. Siskie, vice president; F. K. Lund, secretary and treasurer; B. A. Saunders, director; L. A. Cortey, speaker; J. F. Hinn, sentinel.

In the tax suit cases, judgment was rendered against the Armendariz grant for \$6,033.24 and against Wilson Washington for \$777.77. These cases had been pending for two years. An appeal to the supreme court has been taken by James G. Fleck, the attorney for the defendants.

Captain A. B. Fitch, lessee and manager of the Graphic Mines and Smelting works at Magdalena, was in the city on his way to Albuquerque to visit his two bright young sons, James and Hereford, who are attending the Territorial university. He informs us that the smelter is working along finely for twenty-four hours a day and is shipping the usual quantities of bullion. And, also, that at the time of the recent explosion of the pump engine boiler there was no delay, as a temporary boiler and pump were fired up that furnished water as fast as consumed by being very economical in its use.

##### HOTEL ARRIVALS.

GRAND CENTRAL.

W. H. Reed, Winslow; R. H. Lee, New Mexico; G. E. Daugherty and wife, Princeton, Ind.

##### HIGHLAND.

A. W. Harris, City; W. C. Fraker, Omaha, New Mexico; C. M. Taylor, Baton Rouge, La.; D. A. Shupe, San Antonio; W. T. Scudder, A. A. Rugg, A. T. & S. F. M. H. Wellman, W. C. Frager, St. Louis; J. H. A. Reese, Los Angeles; Miss Crawford, San Francisco; C. G. Wade, Denver; Mrs. U. K. Daugherty, Portland, Ore.

##### STURGEON'S EUROPEAN.

F. M. Gues, Los Angeles; E. Wells and wife, Arizona; Alex. G. Robinson, Louisville, Ky.; C. H. Wolf, Pueblo, Colo.; Thos. S. Berg and wife, McIntosh, Minn.; F. M. Murphy, Denver; J. H. Lanagan, Kansas City; E. Turner, Frank George, Winslow; M. L. Kahn, R. T. Nickerson, Pueblo; E. Marcus, Los Angeles; Miss M. Sanders, El Paso; Dawson and wife, Springfield, N. M.; Geo. W. Clarke, New York; W. M. Lampton, Denver; T. J. Helm, Santa Fe; Robert H. Smith, Cleveland, Ohio; Thos. Groom, Galveston, Texas; Leon Hertzog, Los Lunas; W. D. Gardner, Helena, Mont.; Miss Numa Gardner, Jansenville, Wis.

##### Favors Final.

The Raton Range names Mr. A. M. Blackwell of Las Vegas for the consideration of republicans at their nominating convention to select a candidate for delegate to congress next fall. The suggestion of the Range is all right; but as Mr. Ferguson will be renominated by his party for the congressional job, we believe his political opponent should be a lawyer and a resident of the same city.

Therefore, a very good plan it would be for the republicans to nominate that stalwart republican, popular gentleman and gifted attorney, Hon. Thos. A. Finca. It would be a pretty rare, and the outcome would show Mr. Finca well in the lead.—San Marcial Bee.

##### A Joke on the Cow.

An Ohio editor says that hay fever is caused by kissing grass widows. A Missouri editor says that it is caused by a grass widow kissing a fellow by moonlight. An Iowa editor says it is caused by the fellow kissing the hired girl while she is feeding hay to the cow, and a Kansas exchange is of the opinion that it is caused by missing the girl and kissing the cow.

W. H. Reed, a well known gentleman of Winslow, is at the Grand Central.

#### LATEST MINING NEWS.

Information Regarding Mining Operations in the Cochiti District.

From Bland Herald.

A number of new idle mines near Bland, it is said, will begin work at an early day.

Alex. Conrad is striking some fine ore in the development work on the Aunt Betsy in Peralta canyon.

Messrs. Clausen and Williams are making ground in the main tunnel of the Julia, their valuable property in Colla canyon.

A big tunnel scheme that will cut several of the finest leads of gold quartz in the district is forming with the assurance of an early realization.

The Kilon L. Tunnel is making more rapid progress than at any time heretofore, and is now within a very short distance of one of the best and richest veins of gold quartz in the Cochiti district.

Harry Wood was over during the week from Peralta canyon, where he is busily employed developing some of his valuable mining claims. He reports the usual activity in mining over there.

Messrs. Wilson and Bruce are making good headway with their 200-foot contract in the lower level of the Crown Point mine. It is the intention of the gentlemen who have this valuable property, under lease and bond to push extensive development upon their return to Bland from Denver.

Thomas F. Abbott is stopping out some fine ore from the main vein of the Little Mollie mine at the lower level. This ore is for shipment to the Cerillos smelter, and at present Mr. Abbott has about 40 tons of it. His intention is to connect the lower level with the south shaft by a tunnel of furnishing perfect ventilation and stopping ground.

George Ostrander, who was in camp from Peralta canyon on Wednesday, informed the Herald that since his last visit he has crossed two veins in crosscutting for the main lead of the King mine. The first of these encountered was 18 inches wide, the second being about three feet, four inches in width. The quartz is of a fine grade and will run high in gold.

Work at the Albarine mine progressed in the most satisfactory manner possible pending the arrival of the big 135-ton steel mill now in course of construction by Gillett & Herzog of Milwaukee, Wisconsin. The contractors in the main shaft of the mine mentioned are making good headway. Excavation for the mill and other buildings is employing large forces of men and the buildings going up are nearing completion.

##### The Discovery of the Day.

Alv. J. Bogel, the leading druggist of Silverburg, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is a great relief to me. It never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for consumption, coughs and colds is not an experiment. It has been tried for a quarter of a century, and to-day stands at the head. It never disappoints. Free trial bottles at J. N. O'Reilly & Co.'s drug store.

##### An Appeal Granted.

In chambers this morning, the judges of the United States court of private land claims granted an appeal to the United States supreme court in the matter of the rejected Vallecito de Lovato grant in Rio Arriba county. Under this alleged grant 114,500 acres are claimed by S. Radclott Peabody.—New Mexican.

## Cures

Prove the merit of Hood's Sarsaparilla—post-stre, perfect, permanent cures. Cures of scrofula in several forms, like gutta, swollen neck, running sores, etc. Cures of skin diseases, like eczema, itching and burning, scald head, tetter, etc. Cures of Boils, Pimples, and all other eruptions due to impure blood. Cures of Dyspepsia and other troubles where a good stomach tonic was needed. Cures of Rheumatism, where patients were unable to walk or walk with sticks. Cures of Catarrh by expelling the impurities which cause and sustain the disease. Cures of Nervousness by properly toning and feeding the nerves upon pure blood. Cures of That Tired Feeling by restoring strength. Send for book of cures by

## Hood's Sarsaparilla

To C. I. Hood & Co., Proprietors, Lowell, Mass. Hood's Pills are the best after-dinner pills, aid digestion, etc.

##### New Mexico Pension.

An increase of pension from \$6 to \$8 per month has been granted to George M. Reynolds, Hope, Rio Arriba county.

From everywhere come words of praise for Chamberlain's Cough Remedy. "Al-lah me be glorified," say you on the merits of its remedy. It cured me of chronic bronchitis when the doctor could do nothing for me." Charles F. Hemel, Toledo, Ohio. For sale by all druggists.

##### A Question Answered.

Why do we never have any old stock on our shelves?

Because we will not allow goods to become old. At the end of every season all odds and ends are cleaned out at big discounts, and thus we keep our stock fresh and clean at all times. See our \$2.00 shoes, they are the \$4 kind.

##### THE MODERN WAY.

Commends itself to the well-informed, to do pleasantly and effectively what was formerly done in the crudest manner. It is as agreeable as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after-effects, use the delightful liquid laxative remedy, Syrup of Figs. Made by California Fig Syrup Co.

For a good job go to E. J. Post & Co.; they employ competent mechanics from the east.

A few months ago, Mr. Byron Evory, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent bottles are for sale by all druggists.

People have a motive for whatever they do in life. Thus they go to Alaska when in search of wealth and gold and likewise they go to the grocery store to get the very best groceries at the most reasonable prices.
