ALBUQUERQUE, — JULY 20, 1918

JUNE interest and dividend disbursements in New York aggregate \$34,305,240, as against \$2,638,194 in the same month a year ago.

To General Shafter: The CITIZEN still insists that you are too fat for personal comfort, but as a soldier this paper is forced to admit that you are all right.

PORTO RICO is now feeling the pangs of hunger and will soon experience the terrors of a bombardment. San Juan's record of a successful resistance to attacks will soon be changed.

At last Col. W. J. Bryan's Nebraska regiment is off for the war, and no doubt will make a good record for itself. The regiment left Omaha for Jacksonville, Florida, and will take part in the capture of Havana.

The horrible suspense of waiting for accurate news from a battlefield is wearing on the relatives and friends of those engaged. The government should provide better facilities for supplying information. During the past two weeks the editor of this paper has telegraphed all over the country trying to get news of his boy, who was reported wounded in some of the dispatches. No information could be obtained, and only yesterday the western agent of the Associated Press wired that the list of killed and wounded in the battle of July 1st was being sent out as rapidly as possible. This is slow work.

PUBLIC ROADS.
A well informed authority on the subject of public roads states that there are 1,500,000 miles of public roads in the United States, over which the aggregate amount of 500,000,000 tons of freight is hauled annually. Estimating the average distance over which freight is thus hauled from the farm to the depot at eight miles, it is figured that the total cost of hauling freight annually over the public roads in the United States is \$1,000,000,000, or \$2 per ton. With uniform good roads it is claimed that the cost of hauling freight from the farm to the depot ought not to be more than \$400,000,000, or \$0.80 less than what it is at present.

FRONTIER COUNTRY.
An export trade amounting to \$1,000,000,000 is the phenomenal feature of the statistics of the foreign commerce of the United States for the fiscal year ending with June, the preliminary figures of which have just been given out by the treasury department. For the month of June itself the total exports were valued at \$94,808,283, which represents an increase of over \$21,500,000 as compared with the corresponding month of last year, and an excess over imports amounting to over \$43,500,000. The imports were valued at \$51,297,591, a decrease of over \$33,000,000 as compared with June, 1917. For the twelve months the exports were valued at \$1,331,311,865, which represents an increase of over \$180,300,000 as compared with the preceding fiscal year. The imports were valued at \$616,624,844, which represented a decrease of over \$48,600,000 as compared with the preceding year.

DYNAMITE GUN.
The dynamite gun used by the Rough Riders at Santiago consists primarily of two tubes of great tensile strength placed one above the other. The upper is the projectile tube. It is two and a half inches in diameter and fourteen feet long. The combustion tube below is four and a half feet in diameter and seven feet long. At its rear it connects by an opening with the tube above. From the rear a small firing tube projects inside the combustion tube. One movement opens the breech mechanism. A projectile containing four pounds of gelatine is placed in the upper tube and a tiny ounce cartridge of smokeless powder is placed in the small firing tube. One movement and two breeches are closed. The lanyard is pulled, the smokeless powder explodes, causing a compression of the air in the combustion tube. The compressed air is communicated to the base of the projectile in the upper tube. The projectile shoots out of the mouth and explodes when it strikes. The ordinance is really not a dynamite gun, but a gelatine gun. Gelatine is used because it is safe to handle and the most destructive known explosive. The gun costs \$3,500; one charge costs \$35.

WORTHLESS ALLIES.
The campaign against Santiago has proven the utter worthlessness of the Cuban soldiers and their uselessness for our government. They would not fight, absolutely refused to assist, and would not lift a hand to assist in the care of the American soldiers who were dying on the field of battle to secure their freedom. When the city was taken Gen. Garcia held a junta and elected a governor for the city. They confidently counted upon having Santiago turned over to them to loot and plunder, as they

had in expression of their ingratitude, St. John and Ki Caney. The Cuban soldiers fully realize that there is a rising sentiment against them in the army. They hear nothing but words of scorn from our men as they pass onward, jingling their swords and hard tack into the woods. Even our officers no longer conceal their disgust for their allies and it is understood the warm friendship displayed toward them at first has now turned into contempt.

A correspondent of the Associated Press saw a group of Cuban refuse-point blank to aid in the building of roads and during two days of heavy fighting, while they were loitering in the rear, our surgeons sought in vain to secure assistance from them even to cut poles for improved litters for the wounded.

HONOR TO WHOM HONOR IS DUE
With the departure last evening of Capt. Fall's company for Whipple the last of New Mexico's quota under the second call of the president for volunteers has been completed, and we are to be congratulated that the work of organization has been so prompt, efficient, so patriotically and so thoroughly performed. To Governor Otero is due the honor and credit of this most excellent work, for from the beginning to the close he has given it his most earnest, undivided attention, and personally superintended the organization of every company, and gave each his hearty goodspeed on its departure.

The work has not been performed in a merely perfunctory manner, but he has thrown into it an enthusiasm that has inspired whole communities and every member of the organizations.

He had an opportunity to reward many of his personal friends and to make political capital in the appointment of officers, but with the credit of the service, honor of the territory and interest of the men solely in view, he has performed his duties, we believe, in such a manner as to be equaled by but few executives in the whole union, and certainly excelled by none.

War is a great science. In no other war has science and skill over mere unskilled force shown more conspicuously; therefore, in selecting trained scientific officers to command his troops, Governor Otero has not only held the best interests of his men in view, but the glory and honor of the whole commonwealth.

The imperishable honor and renown already won by our gallant troops on the stormy fields of battle prove conclusively the wisdom and patriotism of Governor Otero in the organization of his troops, and should opportunity occur the later organizations will but add additional honor to him, the territory, and the whole of the United States. Honor to whom honor is due. H. S. STOVEN.

ALWAYS CRUEL.
According to General Napier, author of the celebrated work, "The War in the Peninsula from 1808 to 1814," the Spaniards were as ruthless then as they are now, and had been as cruel a hundred years before as they were then.

While General Napier did not seek for instances of Spanish cruelty to put in his book, he takes them as they come, and they are quite numerous. It seems, also, that the Spaniards of a century ago lied as they do to-day about their exploits.

"It was," says Napier, "in the character of this people while groveling on the earth to suppose they were standing firm, and when wavering in the doom of defeat to imagine they were soaring in the full tide of victory."
Strangely enough, they called their French opponents "pigs," and contented themselves with terms the English, who were saving them, "dogs."

Now and then the junta or their generals issued bulletins announcing a glorious and astounding victory, when, as a matter of fact, a Spanish army had been simply annihilated as completely as Dewey annihilated their fleet at Manila. One bulletin represented two French marshals laying down their arms to a Spanish captain, and another announced that the appearance of a brave Spaniard was the signal of the enemy's flight.

Perhaps the most infamous act perpetrated by the Spaniards was connected with the Rock of Cabrera, where 7,000 French prisoners of war were confined in the heat of summer. The rock is altogether bare. It has a well in winter, which dries up in summer, and there the French were forced to sweat until 5,000 of them died, 1,000 went mad, and the rest were released by the English navy.

KNOWLEDGE IN TO-DAY'S paper is published an interesting letter from Garfield Hughes, who was a participant in the bloody battle of Santiago. He will be made fighting editor of THE CITIZEN when he returns.

THE Rough Riders from this city have had a rough time in Cuba, but no one of them has written back for any sort of aid.

Try Scullin's Best Gun and Bazing Powder.
FOR OVER FIFTY YEARS.
AN OLD AND WELL-TRIED REMEDY.
Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the pain, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It is pleasant to the taste, sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

THE CITIZEN received this morning the following invitation: "Mr. and Mrs. Julian A. Martinez request the presence of yourself and family at the marriage of their daughter, Cleodias, to Veneciano Jaramilla, Wednesday, July 27, 1918, at 7 o'clock, in the church of Our Lady of Guadalupe, Taos, New Mexico. Reception at Barron's hall, following the ceremony."

R. F. Meyer, representing an El Paso Wholesale cigar establishment, is in the city. He was met this morning by an Albuquerque gentleman, who remarked, "It is very hot," whereupon Mr. Meyer replied: "This is cool weather compared with what the people are experiencing south of here."

William Garland, wife and children came in last night and continued on to Las Vegas Hot Springs, where Mrs. Garland and children will remain for a few weeks. Mr. Garland is the president of the Gila Valley, Globe & Northern railroad, and will return to this city in a few days.
A Mennet, the commission merchant of Las Vegas, is in the city.

NEW MEXICO TAX COLLECTIONS!

Reports of the Collectors From Ten Territorial Counties.

SHOWING FOR THE MONTH OF JUNE.

Territorial Treasurer Kilduff has received returns from the following counties of taxes collected for the month of June:

| County | 1918 | 1917 | 1916 | 1915 | 1914 | 1913 | 1912 | 1911 | 1910 | Totals |
|--------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|------------------|-------------------|
| Chaves | 1,245,000 | 1,125,000 | 1,000,000 | 875,000 | 750,000 | 625,000 | 500,000 | 375,000 | 250,000 | 6,350,000 |
| Bernalillo | 1,100,000 | 1,000,000 | 900,000 | 800,000 | 700,000 | 600,000 | 500,000 | 400,000 | 300,000 | 5,300,000 |
| San Miguel | 800,000 | 750,000 | 700,000 | 650,000 | 600,000 | 550,000 | 500,000 | 450,000 | 400,000 | 4,550,000 |
| Socorro | 600,000 | 550,000 | 500,000 | 450,000 | 400,000 | 350,000 | 300,000 | 250,000 | 200,000 | 3,550,000 |

ARIZONA ARTICLES!

ST. JOHNS.
From the Herald.
Miss Lottie Barth left last Monday for Albuquerque, N. M., where she will act as clerk for Leon B. Stern & Co.

Miss Krna and Nellie Udall, of Springville, are here for the purpose of studying music, under Prof. F. W. Seibel. Last Saturday, while driving a broncho team from Springville to St. Johns with the mail, Benjamin Howell met with an accident, the team ran away with him and threw him from the backboard. He succeeded in getting them stopped, but by the time he had got them started again, they ran away and threw him out a second time. He was pretty badly bruised, but no bones were broken.

WHIPPLE BARRACKS.
Two of the volunteers at Whipple have become ill.

Capt. Baldwin has returned to Phoenix. He reported to Governor McCard in person that Arizona's full quota of volunteers under the second call is now in rendezvous at Whipple barracks.

Lieut. Col. Pope, formerly stationed at Whipple, and well and favorably known all over Arizona, occupies a prominent position as surgeon in Gen. Shafter's army.

The Prescott Journal-Miner of July 15 says: "There are present six full companies stationed there, over 650 men. Oklahoma's quota of three companies is daily expected, while the fourth company from New Mexico, which completes the regiment, is expected here this week."
Saturday afternoon, while drilling, Capt. Donaldson of company B led his men off the parade ground and out into the hills north of the barracks. The captain, who was in advance of his company, observed the Tucson company drilling on the opposite side of the hill. He immediately ordered a march charge upon them. The boys replied with great gusto. They raced over the brow of the hill, yelling like Indians, taking the Tucson boys entirely by surprise. The Tucson boys surrendered unconditionally. It was highly interesting to the other companies and spectators.

PRESCOTT.
Mrs. K. D. Treadwell was thrown from a horse and sustained quite painful though not serious injuries.

The question of erecting a monument in honor of the late Captain W. O. O'Neill, is beginning to assume tangible shape. Prescott's lodge of Woodmen of the World have appointed Tom Shultz as a committee to co-operate with other committees in the matter, and the Knights of Pythias have appointed Judge R. M. Ling on a similar committee. M. J. Kiley and J. W. Wilson will serve as a committee of citizens, while Acting Mayor F. K. Andrews will represent the city council in the matter.

The Postal Telegraph company completed stringing its second wire to Prescott to-day. This will give it greatly increased facilities for business, as the railroad work as well as the commercial work has heretofore had to be done on a single wire.

Quite a serious accident happened to a Santa Fe, Phoenix & Prescott brakeman on Saturday. He lost his balance, and fell from the top of a cattle car, as the train was crossing Granite creek bridge, landing in the creek below. He was picked up unconscious and carried to the Sisters' hospital, remaining unconscious for over twenty-four hours. He was reported as getting along nicely and it is thought that he will recover.

WILLIAMS.
From the News.
Mr. and Mrs. Geo. McKim have moved back from Winslow to Williams. Mr. McKim is engineer on engine 42, which has been placed in the yards here.
J. C. Phelan was attending to his shop in Kingman the first of the week. His brother, J. F. Phelan, had the misfortune to get his finger, from the effects of which blood poisoning set in, incapacitating him from the use of his right arm. Mrs. Dr. Melick and son, Karl, returned from St. Louis last Saturday. Mrs. Melick consulted the best doctors of the Mississippi valley in regard to her young son, who became deaf from the effects of spinal meningitis last spring. His case seems to be hopeless, which is a great misfortune to both child and parents.

James McArdle, section foreman for Santa Fe Pacific at this place, is the most patriotic American so far heard from in this precinct. Mr. McArdle has money and puts the same on deposit in a San Francisco savings bank, but he applied for \$100 worth of 3 per-cent from the government. When asked why he would take money from a larger per cent income and apply for a lower per cent, he

replied that he was only a section foreman, but he had \$100 to loan Uncle Sam or give it to him to help him out if he needed it. That's the kind of Irish that counts.

HOLBROOK.
Mr. and Mrs. Tom Keger are at Los Angeles. Mrs. Keger is suffering from impaired eyesight, and is there under the treatment of a specialist. Her many friends hope she may be speedily cured.
The foundation of the court house is about completed. The jail cells are being put in, and the bricklaying will commence in a few days. The building will be a credit to Navajo county.
S. I. Frankelstein, who for many years has kept books for the Atlee & Lane Cattle Company, will return to Philadelphia in a few days, and may possibly never return to stay. He will be missed by his numerous friends here.
ARIZONA AT LARGE.
Probate Judge Bradley has received notices that survey and plats of the Bisbee townsite has been accepted by the commissioner of the land office.
Fifty thousand dollars will be spent by the government this year in new drainage blacksmith shops. Last Monday morning about half past 9 o'clock, the discovery was made by his partner, W. C. Sparks. Near midnight Sunday, R. B. Kent, who occupied the adjoining room, was disturbed by means proceeding from "Killer's" room, and got up and called to him asking "Killer" what he was doing. Receiving no answer, and hearing no further sounds Kent went back to bed.—Globe Silver Belt.
How to Look Good.
Good looks are really more than skin deep, depending entirely on a healthy condition of the liver. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at J. H. O'Reilly & Co.'s Drug Store, 30 cents per bottle.
Internal Revenue Euling.
Internal Revenue Collector Morrison has been advised by Hon. W. B. Scott, commissioner of internal revenues, that he is correct in holding that certificates of allowance, checks, drafts, or orders of county, town or municipal officers, when in their official capacity, in discharge of duties imposed upon them by law or local ordinance, do not require stamps.
[New Mexico and Arizona papers please copy.]
A Child Enjoys.
The pleasant flavor, gentle action, and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be constipated or bilious, the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle. Manufactured by the California Fig Syrup Co.
HOTEL ARRIVALS.
STURGEON EUROPEAN.
