GERMANY AMUSED AT TALK OF JAPANESE TROUBLE.

Berlin, Feb. 2.—The foreign office does not regard the differences between the Japanese and the United States as having reached a serious point. The Japanese embassy, replying today to inquiries from various papers, said that there is no reason to consider the relations between Japan and the United States as being in any way strained, adding that President Roosevelt doubtless will settle the whole matter to the satisfaction of the Japanese.

A PLOT AGAINST THE EMPEROR DISCOVERED.

NO BARBER SHOPS WILL BE OPEN ON SUNDAYS

SHERIFF'S OFFICE PETITIONED TO CLOSE TONSORIAL PARLORS BY THE BARBERS.

"Next" "Are you 'next'?"

Better get "next" before tomorrow if you are going to the barber shops are going to be closed and you'll have to shave yourself unless you get fixed up for Sunday before 10:30 o'clock tonight.

The sheriff's office is going to enforce the Sunday law and there is going to be nothing doing in the tonsorial line hereafter—or that is, until sentiment takes another change for the betterment of the beard on Sunday.

The closing of the barber shops in Albuquerque on Sunday was agitated some time ago but it almost died a born.

Recently, however, a number of barbers and the owners of shops—about thirty-five, to be more specific—petitioned Perfecto Armijo, sheriff of Bernalillo county, to close up the barber shops on Sunday and the sheriff has acquiesced.

Sheriff Armijo could not be seen at his office in the Bernalillo county court house this afternoon by a reporter for The Evening Citizen. Deputy Sheriff Hixon was there, however, and he confirmed the report that there would be no barber shops open in Albuquerque at any time tomorrow.

HE ONLY WANTS SMALL SUM OF \$125,000,000

A patriarch of many winters and myriads of summers wandered into the office of The Evening Citizen this afternoon and made himself comfortable in the editor's chair.

"I want to raise one hundred and twenty-five million dollars," was what he said.

He handed the office boy a petition to found "The Ranaldo," self-supporting orphan institution, for orphans of the United States.

The following was printed on the head of the petition: "The originator and bearer of this petition, ex-Professor H. M. Ranaldo, M. D., M. T. V. C., the American traveler, the eminent naturalist, is a Kentuckian."

The doctor said that he met Delegate Rodey in Washington and that he had come to New Mexico on Mr. Rodey's recommendation to establish an orphan asylum, for which he wants thirty miles square of land.

"I am going to build you a city of industry and manufacture to rival Chicago, Pittsburg and New York City if all were put together. Our motto is 'Live and Let Live.' We are going to have farms and let them out at cheap rent. We are going to have a million of children in this city and on these farms. Its a great thing for the territory."

The doctor is a Booster.

He said that he was older than Methusalem and that he has traveled more miles than Humboldt. And the doctor looked the part.

There is But One Real Success—Contentment

Which Man Do You Think Has Made A REAL SUCCESS IN LIFE?

"And this is success," said the rich man, despairingly. "This is what I have earned after 60 years of hard labor. Everything that money can buy—except content. If I were only young again, my baby in my arms and my wife by my side—a day of it would be worth my fortune. Dollars, dollars, dollars! Nothing left but the dollars!"

And thus, perhaps, reasons many a rich man who has found that his life has been a mistake, that wealth cannot purchase true happiness.

Contentment is the only thing worth living for. It is the highest goal. If you should control all the world's wealth, and be discontented, you would still have lived an unsuccessful life.

Contentment has nothing to do with money, nothing to do with fame, nothing to do with luck. FROM YOUR MIND ALONE CAN COME CONTENTMENT.

It is possible for you to acquire contentment. Not by mastering an art or through finding a fortune, but by training your mind.

Train yourself to be contented. KNOW this: "My possibilities have no limit. If I strive honestly and faithfully that which is really good and right for me to have will come to me."

Blessed is the man who in the acquiring can say each day: "I am contented with my lot—with the part I played today."

To one man success means one thing—riches; to another it will mean something else—fame; and yet to another it may mean growth of spirit. BUT THE REAL OBJECT IN VIEW IS CONTENT. The man who acquired riches may find that he has no content—nothing but dollars; the man who has struggled for fame may find no balm in the glory of this finite world when he stands looking into eternity.

THERE IS NO SUCCESS BEYOND CONTENT. It comes of honest effort and right thinking. It is REAL success and the only success that is.

BLIZZARD REIGNS THRU MINNESOTA WITH A 41 DEGREE FALL

All Ordinary Traffic Was Suspended and Trains Indefinitely Late.

MARK SINCE 1903.

Memphis, Feb. 2.—The river gauge marked 49.2 feet here today, the highest ever recorded, the former high mark being 49.1 made in 1903. Reports from Holly Bush, Ark., today say that the levee there continues to hold. For many days the labor of hundreds of men has been kept on reinforcement of this strip of low, soggy levee, extending a half mile above Holly Bush, and as the waters climbed inch by inch, the workmen built the embankments higher. A telegram from Helena, says that the situation there is unchanged. The only trouble there has been the collapse of a small protection levee, which flooded the negro section.

EMPLOYES WILL TOTAL ONLY SIXTY-FOUR

In Territorial Legislature Regardless of Malicious Falsities of Morning Journal.

Special to The Evening Citizen.

Santa Fe, N. M., Feb. 2.—Members of the territorial legislature state this morning that the number of employees in both houses will total sixty-four and that the pay roll will average \$33 per day per employee. This is considerably smaller in both numbers and pay than for years past. Efforts were made to keep the pay roll within the \$15,000 appropriation by the federal government but as it now stands there will be an excess of \$2,000 to be provided by the territory for extra help. The wages of federal expert stenographers and translators this year were so low, party leaders assert that there was a difficulty in securing the necessary expert help.

BOMB IN PULLMAN WAS THE CAUSE OF DISMAY

Workmen's Fire Explodes Ton of Giant Powder With Deadly Effect.

MANHATTAN LIMITED HAS SERIOUS ACCIDENT

Philadelphia, Feb. 2.—The discovery of a genuine bomb, made up of gaspipe, fuse and dynamite, under a berth of a sleeping car in the Pennsylvania yards yesterday, scared the detective force of the railroad and the city. Every effort is being made to discover the identity of the young man who occupied the lower berth under which the bomb was found. All anyone seems to know is that he boarded the train at Newark and got off at the West Philadelphia station, that he seemed about 35 years old and was fairly well dressed. They think that the man was an anarchist and unwittingly left the bomb in the car.

Washington, D. C., Feb. 2.—Immediately after the approval of the Journal today, the house resumed consideration of the river and harbor appropriation bill, the leaders recognizing that if the decks are to be cleared of legislation before March 4, earnest work must be done.

Representative Small of North Carolina, insisted that if the interstate trade of the country is to be preserved, additional waterways must be developed and the present waterways deepened and widened. He addressed the house particularly in favor of the 200 mile canal from Norfolk, Va., to Beaufort, N. C. inlet.

"War Scare is All Bosh."

Washington, D. C., Feb. 2.—After a talk with the president today Senator Cullom, chairman of the committee on foreign relations, said: "This war scare is all bosh. I'd like to go to war with Senator Perkins for talking as he did last night. There is no more chance of our going to war with Japan over this little school question than there is of our fighting China, Russia or Great Britain."

HOT FIGHT FOR SCHOOL DIRECTORSHIP

Ignacio Gutierrez wants one Martinez ousted from the office of school director in district No. 2, Corralos, Sandoval county. Ignacio claims Martinez has no title to the office and that he is the legal incumbent thereof. To press his claims and to get Martinez out of the office to which he declares he was elected last June by a single vote, Ignacio has secured Klock & Owen to invoke in his favor the highest and mightiest remedy in the law, a quo warranto proceeding.

The proceeding was heard by Judge Abbott in the Bernalillo county district court today. Eight or ten witnesses were sworn and they testified. Further hearing was this afternoon postponed until Tuesday on account of the absence of other material witnesses.

Gutierrez alleges that although he was elected to the office of school director, as above set out, J. F. Silva, superintendent of public instruction for Sandoval county, removed him and appointed Martinez to the office, declaring that he had not certified to the returns of the election according to law.

DICK HOBSON SEEMS A BIGGER FOOL THAN WHEN TAKING HIS KISSING TOUR

Let Little Brown Men Make War if They Dare or if They Court Complete Annihilation.

THEY COULD DO DAMAGE, NO DOUBT, BEFORE UNCLE SAM GOT GOOD AND READY BUT THEIR WHOLE LITTLE EMPIRE WOULD BE SOLD TO PAY FOR ANY DAMAGES THEY DID.

New York, Feb. 2.—In an address here last night Capt. Richmond P. Hobson, speaking of the Japanese question, said: "The ultimatum which the Japanese have given this country says: 'Take our people to your public schools in California, or take the consequences.'"

"That is only a pretext. The trouble is that Japan wants to control the commerce and markets of the far east. She is determined to drive America out of the Philippine islands. If the Panama canal were completed we might be able to protect the Pacific coast, but we are helpless now; and, should the Japanese strike, the Philippines and Hawaiian islands would be lost to us. This is the real situation, and it is a pity we have not strong fleets on the Atlantic and Pacific oceans to protect our interests and keep Japan from attacking us. War with the Japanese is inevitable unless we can convince the financiers of Europe and the people that there is really no cause for Japan to go to war with us."

CALIFORNIA NEED NOT DO ANYTHING IN PREMISES.

Chicago, Feb. 2.—A Washington dispatch to the Tribune says: War with Japan is the remotest of possibilities. The differences between the two countries owing to the refusal of San Francisco to permit Japanese pupils to enter the public schools at that city, has never reached a stage where it created any fear of an armed clash between the two countries. The reports of a possible war sent out from Washington are not only misleading, but wholly unjustified by facts in possession of either government.

The relations between the United States and Japan were never more cordial than they are today. Japanese representatives are well acquainted with the situation, and President Roosevelt has secured the consent of Japan to the basis of a compromise which will settle the whole difficulty, provided the people of San Francisco do their part. The treaty, which is pending, and which is a direct result of the delicate intervention of the president, was not framed by either country because there is the slightest danger of war. It was brought about because the Japanese realized it was not to their interest to have their people come to the mainland of America because they are not wanted here. At the same time they are entirely unwilling to submit to anything in the nature of international insult, and so to avoid the latter, they have agreed to sign a treaty prohibiting their people from landing in the United States and prohibiting our workmen from landing in the Japanese islands.

LOUIS SULZBACHER'S EXCELLENT ILLUSTRATION OF

What Judge on Bench Should Be—His Many New Mexico Friends

GLAD TO HEAR HE KEEPS SO WELL HIS REPUTATION

Denver, Feb. 2.—A special to the Republican, dated Muskogee, I. T., concerns Judge Louis Sulzbacher, now of Kansas City, but formerly of Las Vegas, N. M. It says: An expensive wedding present sent to Miss Carrie Sulzbacher, of Kansas City, caused the giver to be severely reprimanded by Judge Louis Sulzbacher, the recipient's father, in the federal court at Eufaula, today. The present was sent by F. W. Sharp, a prominent oil man. Sharp and Sloan are in the oil business. They are alleged to have driven Fred Sawyer, another oil man, from the possession of an oil lease in the Spaulpa, I. T., field some time ago. An injunction was asked for and the case went to the federal court, where Judge Sulzbacher presides. The case was decided today against Sharp and Sloan. Then Judge Sulzbacher commented on the wedding gift.

Sharp himself is in Texas. His attorneys did not know anything about the present. Mr. Sharp's alleged gift consisted of a silver and desert set, valued at \$2,000. Miss Sulzbacher did not know Mr. Sharp. Thinking he was probably a friend of her father, she immediately informed the latter of the circumstances. The federal judge then notified his daughter that the gift should not be accepted.

The case in which Sharp was a litigant involved a lease on 129 acres of land in the head of the Glenn pool, which is estimated to be worth \$100,000. The land belongs to Zuke Moore, a negro, now serving five years in the Leavenworth, Kan., penitentiary, for larceny. Sharp and Sloan have a lease on the land, and Fred Sawyer has a deed to it. It was on this property that a fight occurred recently in which Sharp and Sloan, with rifles, drove off thirty men working on the land for Sawyer.

When Sharp obtained a temporary restraining order against Sawyer in Judge Sulzbacher's court at Waggoner, I. T., he thought that the case was permanently decided and went to Texas.

Miss Sulzbacher will be married early in March to J. S. Bradwin, an attorney of New York city.
