STO FINE FOR MAILING WRITTEN MATTER IN PAPERS

To Save One Cent Postage Four Albuquerqueans Violate Law.

Postmaster E. W. Hopkins has been authorized by the postoffice department to warn all Albuquerque people using the mails not to enclose writings in packages of the second, third or fourth class. Any violation of that order will subject the offender to a fine of \$10.

The order was published several months ago, and for a time it was heeded, but the department is complaining that various persons in New Mexico are again sending letters and writing to friends enclosed in packages, newspapers and the like, in order to save one cent in postage.

Postmaster Hopkins said today that since the order went into effect he has collected about \$40 from various local people, who violated the order and were caught.

To catch the offenders, all mail en route each over the Santa Fe goes through a receiving station at Kansas City, Mo., where all packages and papers of the second, third and fourth classes are opened and inspected. As soon as the name of the offender is learned, the package is sent to its destination and the postmaster at the place where the package was mailed, is instructed to collect \$10.

A prominent man of this city was fined \$10 for sending a letter, enclosed in a local newspaper to a relative. When asked why he did so, he remarked, "Oh, to save a little money." He had to pay \$10 for sending the letter and paper together, in his effort to save two cents.

DYNAMITE CAPS ON STREET CAR TRACKS

Mischievous boys put pistol cartridges on the street car tracks near Stover avenue and Third street. A car ran over these causing six loud reports in quick succession. The explosions caused many people in the vicinity to rush into the street to investigate the cause. Officer Kennedy, who heard the shots from a distance of several blocks, hastened to investigate, but could not find the mischief makers who had disappeared.

The employees of the traction company say that this sort of thing has been a frequent occurrence of late. The boys, and it seems to be one particular gang of them, take a special delight in placing explosives on the tracks and hiding around a corner to listen to the reports, after which they make their flight before they can be caught. Not only torpedoes are placed on the tracks, but dynamite caps and cartridges. The danger of these explosives is considerable and in the vicinity of South Second and Third streets feel no little alarm at the dangerous pranks played by the boys. Particles of the dynamite caps fly a long distance and if they become lodged in a person's flesh are liable to cause blood poisoning. Two months ago a small boy in the Highlands lost his thumb and suffered a severe flesh wound in his hand from the explosion of one of these caps. The police give warning that if any boys or other persons for that matter, are caught placing any sort of explosives on the street car tracks that arrests and punishment will follow.

RANGER EXAMINATIONS ARE COMPLETED

The civil service examinations of the forest service were completed yesterday. Tuesday the written examinations were held in the office of Supervisor H. H. Harris and yesterday the outdoor tests were held in the park. A number of citizens were present to witness the tests which consisted of riding, packing, surveying, pacing and estimating distances and various other things along the line of a ranger's duty. In all eleven applicants finished the examinations. All of these are western men accustomed to life in the mountains. The class was exceptionally promising. The results of the examinations will be reported upon through the civil service commission at Washington. Most of the applicants have already left the city.

NON DELIVERY OF MESSAGE CAUSES SUIT

A case styled Waldo V. Snyder vs. The Western Union Telegraph company was filed in the district court yesterday by Klock & Owen, attorneys for the plaintiff. The plaintiff demands judgment against the defendant in the sum of \$1,400 with interest and court costs, the amount alleged to have been lost by the plaintiff by reason of a delay in the delivery of a telegram.

It is stated that on December 6, 1906, Elton L. Kreider, a stock broker of San Francisco sent the following message to Snyder: "Market very low. Trade forty, wire ten points additional margin, protect stock by all means." This message, it is alleged, was received at the local office on Dec. 6, but was not delivered to the plaintiff until the 8th of December, thereby causing the loss of the sum above mentioned.

CHARGE WITHDRAWN BY COMPLAINANT

Ed Kramer was arraigned before Justice of the Peace Romero in old town yesterday charged with assault. The case was dismissed upon Kramer agreeing to pay the costs of the case. The complaining witness was L. Springer, with whom Kramer engaged in a fight with rocks as weapons on last Sunday night. Kramer was put under a \$200 bond to keep the peace. Kramer swore out a warrant for the arrest of Springer previous to this hearing, but promised to withdraw his complaint. Their differences thus settled, the two vowed to be friends again.

SUGAR BEET PROJECT ON 30,000 ACRES OF LAND

Great Irrigation Work in Bernalillo County Will Begin Soon.

J. M. Murdock, owner of 30,000 acres of land, situated in Bernalillo and Valencia counties, the eastern boundary of which is eighteen miles south of Albuquerque, which is officially known as the "Antonio Sedillo land grant" is visiting in Albuquerque today.

In talking to a reporter, Mr. Murdock said: "The land is to be irrigated, that is the biggest portion of it, with water secured from the Rio Puerco and San Jose rivers, and also from fifty natural springs on the grant. The irrigation project is to be carried out by a party of eastern capitalists who are to spend \$500,000 on the property."

"After the irrigation project is in operation the land will be divided into 3,000 tracts of ten acres each, which will be disposed of to sturdy farmers and miners of Pennsylvania and the east, who will plant sugar beets on it. Immediately after the irrigation project is completed, a sugar beet factory is to be erected. One reason why the sugar beet industry will be pronounced a success on our property is that there is a good bed of coal and limestone near Rio Puerco, our headquarters. To operate a sugar beet factory five car loads of coal and three car loads of limestone are used daily, and both can be secured with out any trouble, right on the grounds."

"Beside the possibilities for a successful sugar beet industry, the minerals in the hills are an attractive feature, coal, marble, and copper being found there. The waste made by the factory can be used to good advantage by the cattlemen living near our property."

"Altogether, I feel certain that we are better situated and have more natural facilities than the Colorado sugar beet fields. The soil is splendid and all it needs is water." A number of prominent New Mexicans are interested in the project which bears all the earmarks of being a gigantic success.

STOLEN SILVER RECOVERED TODAY

Chief McMillin today recovered the silver vessel which was stolen from the Baretas church last week. He at once turned it over to the priest in charge of that sanctuary, and is now trailing the thief.

The theft was a peculiar affair. A stranger who represented himself at various times to be a Catholic and also an Episcopalian minister, appeared at the church, obtained permission to enter, and when he came, took the vessel, which he disposed of here. The man to whom he sold it has been found and he promptly turned it over to the chief.

MORTUARY

The funeral of Mrs. Mary A. Frank was held this afternoon from the Highland Methodist church, South, with interment in Fairview cemetery. The deceased was 40 years old and is survived by a husband and three children, Harry and Earl Frank, and Mrs. Hiram Embrook.

ARMENIANS EMPLOY "BLACK HAND" SYSTEM

New York, July 25.—Acting District Attorney Smith and his assistants are doing their best to probe deeply into the terrorist methods employed against the wealthy Armenians of New York to force them to contribute to the anti-Turkish movement being worked up by certain fellow countrymen.

That these revolutionist Armenians, who constitute a society called the Hunchakist, do not stop at murder, was proven by the shooting to death on Monday of H. S. Kvashtjam, a rich rug importer.

Within four hours after the murder of Kvashtjam, threatening letters were mailed to at least a half dozen other well to do Armenians.

JAP CAPTAIN TOASTS AMERICAN SAILORS

Brest, July 25.—In the course of a dinner given by Rear Admiral Stockton on the American cruiser Washington and Tennessee last night, a number of Japanese officers from the cruiser Tanaka and Chitose, as well as some French officers, being present, Admiral Stockton proposed the health of the emperor of Japan and the Japanese navy.

In reply Captain Tanakunuchi, of the Tanaka, toasted President Roosevelt and the American navy. The Japanese sailors are still confined to their ships, and will not be granted shore leave until the departure of the American squadron this afternoon.

Kodol will nourish and strengthen your digestive organs and furnish the natural digestive juices for your stomach. It will make you well. Kodol digests what you eat. Sold by J. H. O'Reilly & Co.

ALAMEDA LAND GRANT CASE IS AGAIN ON TRIAL

Judge Parker at Las Cruces Will Hear Motion Saturday.

The case of Vincente Montoya, plaintiff, vs. the unknown heirs of Bernallillo county. The new motion will seek to set aside the decree of partition and to quash the service of process by publication and to dismiss the case, it being made by about eighty people of the Alameda grant.

A. H. McMillin is the attorney for the plaintiff and A. A. Sedillo and George S. Klock appear for the defendants.

Early in 1906, Francisco Montes, petitioner to have all the undivided land held in common. The commission appointed some time ago by the court reported in favor of having the undivided portion of the claim sold, and the proceeds divided among the claimants.

The Alameda land grant consists of the 90,000 acres given by the Spanish government to Francisco Montes Vigil nearly two hundred years ago in 1710, in appreciation of his distinguished military services. Later the grantee transferred the land to Capt. Juan Gonzalez. The claim was afterwards confirmed during the existence of the court of land claims in the suit of Alejandro Sandoval et al before the court of land claims.

KEEP SEWERS OPEN BY HARD WORK

The sewers in the southern portion of the city, the outlet of which is the Rio Grande, but which have been clogged up with sand and other debris, are being put in working order by a force of men under Street Commissioner Martin Tierney.

The contract for finishing the artesian well abandoned some time ago, has been let to Messrs. Maxwell and Pickens and the work will be pushed forward as rapidly as possible.

NON SUPPORT OF WIFE CAUSES HIM TROUBLE

Henry Schultz was arraigned before Justice of the Peace McClellan this morning on the charge of roughly handling his wife, Mrs. Lucy Schultz, who testified that whenever her husband got angry he was in the habit of mistreating her and the children, and that he has not contributed a cent to the support of the family for a year.

Mrs. Schultz said that she works in a laundry to support herself and five children. Schultz admitted his fault, would not permit him to go. He was committed to the county jail for thirty days in default of putting up a \$200 bond.

ESTANCIA ENJOYS SOLID PROSPERITY

M. B. Atkinson, of Estancia, is in the city today on business. Mr. Atkinson said that things are booming in that town, and that there is considerable building going on. A new bank started business in Estancia this week.

SPECIAL SQUADRON SAILS FROM BREST

Washington, D. C., July 25.—The armored cruisers Tennessee and Washington sailed today from Brest for New York. They form Admiral Stockton's special service squadron and have been in European waters for some time. Later they will go to the Pacific coast.

TOO LATE TO CLASSIFY.

A Memorable Day. One of the days we remember with pleasure, as well as with profit to our health, is the one on which we became acquainted with Dr. King's New Life Pills, the painless purifier that cures headache and biliousness, and keeps the bowels right. 25c at all dealers.

Use Kennedy's Laxative Cough Syrup. Contains no opiates. It drives the cold out of the system by gently moving the bowels. Contains Honey and Tar and tastes nearly as good as maple syrup. Children like it. Sold by J. H. O'Reilly & Co.

BOY WILLING TO LOCK HIMSELF IN A CELL

Young Offender Caught After Robbing Gas Meter of Coln.

Two lads, one of whom was arrested this week by Lieut. Kennedy for stealing a baby buggy and who was released during good behavior, after a fine of five days had been entered against him, is again in jail, this time charged with robbing an automatic gas meter of his contents, \$3.25 in cash. He and the second youth, who is also an acquaintance of the police force, were spending the money when Lieut. Kennedy arrested them last night. As they neared the jail, the officer said:

"Well, go ahead boys, you know the way in."

The older boy darted inside and attempted to open the cell door in order to get into the prison proper, but had to wait until the lieutenant arrived with the keys.

During the night the two boys amused themselves by carving their initials on the jail door, raising "calm" generally, and otherwise proving a hardened disposition.

The older lad will probably be held to serve the fine imposed for stealing the baby buggy, but the other boy was released. They are about twelve years of age.

Chief McMillin is at a loss as to what to do with the boys who are brought up for petty offenses, as to hold them in jail is usually the means of hardening them, and the only course available, appears to be to sentence them to long terms in the county jail or reformatory.
