ALBUQUERQUE CITIZEN

"WE GET THE NEWS FIRST"

ALBUQUERQUE, NEW MEXICO, WEDNESDAY EVENING, AUGUST 14, 1907.

WEATHER FORECAST
Denver, Col., August 14--Fair
tonight and Thursday.

NUMBER 191.

NATHAN JAFFA
SUCCEEDS J. W.
RAYNOLDS

President Today Appointed
New Territorial Secretary Recommended
by Gov. Curry.

PROMINENT CITIZEN OF
THE PECOS VALLEY

Raynolds Resigns in Deference to
Wishes of New Executive--Jaffa
Bears Highest Reputation
and Will be Generally
Endorsed.

Oyster Bay, N. Y., August 14.—President Roosevelt today appointed Nathan Jaffa of Roswell, as secretary of the territory of New Mexico, vice J. W. Raynolds, whose resignation reached the president a few days ago.

The president appointed Mr. Jaffa to the position on the recommendation of Governor Curry.

He has every confidence in the new executive of New Mexico and the recommendations of Governor Curry will have considerable weight with the president and the interior department on all matters of state.

What His Friends Say.
The report that Mr. Jaffa would succeed Mr. Raynolds as territorial secretary has been heard on all sides and in the press for the past two or three weeks.

It originated in Roswell at the time when the new governor first spoke of the matter to Mr. Jaffa.

The Roswell Register-Tribune, commenting upon the appointment at that time published a picture of Mr. Jaffa and the compliment paid him by his home papers is certainly most creditable to the new secretary.

In fact, the Citizen does not feel that it can place Mr. Jaffa in a better light before the people of the territory than the statements of the Tribune which are as follows:

"The selection was one that has done more to commend the good impression made by Gov. Curry than any other one thing, and people of all parties join in congratulating the new executive on the choice of his lieutenant."

Mr. Jaffa, at the prime of life at forty-three, splendidly capable, thoroughly versed in conditions in New Mexico and the west, and fit by education and rare common sense for any duty that may be reposed upon him, no matter what it is.

The only regret attendant upon the whole matter is that his appointment will necessitate his removal to Santa Fe, and after these years during which he has been the friend and champion of all of us, it will be hard to even loan him for a while to the capital.

Mr. Raynolds' Official Life.
J. W. Raynolds, territorial secretary, first assumed the duties of territorial secretary in April, 1901, upon the death of G. H. Wallace, who had been the secretary for a number of years.

Mr. Raynolds was twice reappointed and his present term would have ended January 13, 1910.

It is understood that Mr. Raynolds will enter the banking business with his father.

Mr. Raynolds is a young man in public life. He is only 34 years old but he has built for himself a record of which he may be justly proud.

As secretary of the territory, he has a clean record for honesty and efficiency and as one of the younger leaders of the republican party, he is recognized as cool, capable and resourceful.

Mr. Raynolds stated today that he was ready to turn over his office upon the arrival of Mr. Jaffa.

Nathan Jaffa, the new secretary, was born in 1845 at Cassel, Germany. He came to the United States thirty-five years ago and for a number of years was connected with the Jaffa Brothers' meat and cattle establishment at Trinidad, Colo.

Mr. Jaffa came to New Mexico in 1882 and located in Albuquerque being connected with a local firm of Jaffa Brothers, his uncle, who conducted a flourishing business.

But the young man was anxious to do things for himself. With William Prager, another young man, he left this city with a wagon train of merchandise and proceeded south, looking for a location where he might establish himself in business.

The young man intended locating in Socorro, but continued their journey until reaching the present location of Roswell, where they decided to locate.

"DOCTORED MY REPORT"
SAYS MINING
ENGINEER

W. H. Holmes Declares Lost
Spanish Bullion Mine
Is Nothing But a
Cave.

VALUELESS SAMPLES
WERE TAMPERED WITH

Charges That Affidavit Made by
Him Was Fixed up by Others
Afterward--Several Witnesses Say Place Is Not
a Mine.

Denver, Colo., August 14.—Testimony of a decidedly sensational nature was given at yesterday's session of the trial of the Lost Bullion Spanish Mines company case in the federal court by W. H. Holmes, a Denver mining engineer, who visited the mine for Dr. Saunders, the man who, it is claimed, had control of it before the present company.

Holmes declared that the Lost Bullion promoters, or their attorneys, tampered with his samples, changed his reports and doctored an affidavit signed by him for use at the fraud hearing in Washington.

Report Tampered With.
The witness testified that he went through the mines at Silver City and took fifteen samples from the location. He was there from September 21 to September 27, inclusive, of last year. These samples, he said, he sent to a Denver assayer, designated by Dr. Saunders, and the assayer returned only seven of the fifteen samples with assay certificates. These, the witness declared, were appended to his report and were subsequently changed by the promoters of the company or their attorneys.

A Natural Cave.
His report was submitted by the defense as a part of the evidence they will put in. The report, as submitted, spoke in enthusiastic terms of the mine, and advised the owner, Dr. Saunders, at that time, that he would be justified in spending money to develop the property. Holmes then stated on direct and cross-examination that the report had been changed in those particulars, as he had later testified.

He testified that he had been through the entire workings and that the passages were undoubtedly natural. He and his father, he testified, had explored the cave during the summer of 1902. He said that he had been through the entire workings and that the passages were undoubtedly natural.

He said that he had been through the entire workings and that the passages were undoubtedly natural. He and his father, he testified, had explored the cave during the summer of 1902.

JENKINS KILLED WOMAN
WHO SHOT HIS
BROTHER

Her Action Is Alleged to Have
Been Purely Accidental.

SLAYER IN COUNTY
PRISON AT RATON

Raton, N. M., August 14.—(Special)—Tom Jenkins is in jail here charged with killing Lizzie Zeller at Dawson, in this county, Sunday evening.

It is alleged by Tom Jenkins that his brother Sunday evening visited the house at Dawson where the Zeller woman resided.

In a scuffle over a revolver, the woman was discharged in the woman's hands and the bullet entered John Jenkins' body near the heart, causing a wound which will result in death.

Woman Killed by Victim's Brother.
The woman was prostrated by the shooting, which others describe as purely accidental, but as soon as Tom Jenkins heard of the affair, he secured a six-shooter and went to her house.

Slayer Arrested.
Jenkins was immediately arrested and brought here for safekeeping. The body of the woman was taken to Las Vegas, her former home, where she attained notoriety some months ago by an attempt at suicide.

John Jenkins is in the Miners' hospital at Trinidad, but physicians expect his death at any moment.

The Jenkins family has resided in this county for many years, the father being a pioneer. Both Tom and John are well known and have always been considered good citizens.

KANSAS CITYANS BUY
BANK IN CHICAGO

Chicago, August 14.—The Federal National bank last night passed into the hands of a coterie of financiers, headed by John Worthington, of Kansas City.

DR. LORD SECURES
DIVORCE FROM WIFE.

Santa Fe, N. M., August 14.—Dr. C. N. Lord, a well known dentist of this city, was granted a divorce yesterday from his wife, Mrs. Marietta Lord, by Judge McFee.

HOPEWELL'S RESIGNATION
WAS NOT ACCEPTED

Santa Fe, N. M., August 14.—(Special)—Col. W. S. Hopewell today tendered his resignation to the new governor, George Curry, as a member of the Capitol Extension board.

This board is appointed to superintend the building of an addition to the territorial capitol, and so the district attorney expects to prove, was the man with whom Bedroa Khachadorian, Tavsharjian's slayer, lodged while in this city awaiting favorable opportunity to fire the fatal shot.

TWO MEN RUN OVER BY
TRAIN NEAR LOS
CRUCES

Evidently Asleep as They
Made No Effort to
Escape.

ONE GROUND TO PIECES
OTHER DIED LATER

Las Cruces, N. M., August 14.—(Special)—Two men, the identity of whom is as yet unknown, were run down seven miles south of this place at 9:47 o'clock last night by Santa Fe passenger train No. 19.

According to Engineer J. W. Lyon, who was on the engine, the men had evidently laid down on the track and gone to sleep.

The train was stopped and backed up. With lanterns, Conductor Gifford, who was in charge of the train, and the brakemen, with the help of several passengers, began picking up the remains of the man who had been run over.

Both are Dead.
Noticing that the man was not dead, the trainmen moved him into the baggage car and Dr. Williams, of Fierro, N. M., who was on the train, was called in. Dr. Williams rode with the injured man to Las Cruces, but his injuries were beyond mending and he died shortly after reaching Las Cruces.

A valise, a bundle wrapped in oil cloth and a large harp were found beside the track where the accident occurred, evidently belonging to the unfortunate who were killed.

The man found beside the track had the appearance of being either an Arabian or an Italian, but the other one was so badly disfigured that the remains scarcely bore resemblance to a human form.

George Curry, as a member of the Capitol Extension board, is appointed to superintend the building of an addition to the territorial capitol.

SECRETARY TAFT
RETURNS TO WORK

Washington, D. C., August 14.—Secretary Taft returned to Washington this morning from his vacation and at once plunged into a great mass of work to be disposed of between now and next Saturday when he will leave on his western trip and embark for the Philippines.

ASSOCIATED PRESS IS
RENEWING ITS
SERVICE

Messages Now Being Handled
Out of Its Main
Offices.

STRIKE SITUATION
REMAINS UNCHANGED

Chicago, August 14.—The regular overland circuit of the Associated Press opened through to Denver and Colorado Springs at 2:33 o'clock this morning.

No Progress Toward Settlement.
Chicago, August 14.—Pending the arrival of President mail, but little progress is being made today in the effort to secure a settlement of the telegraphers' strike.

Waiting on Small.
New York, August 14.—All matters connected with the telegraphers' strike are practically in abeyance here today awaiting the arrival of President Small and other conferees at Chicago, where an attempt will be made to settle the strike.

At both Postal and Western Union offices it was declared that business is being handled in much more satisfactory manner than during the past few days, and that both companies can get all the men they want if the strikers do not soon return to work.

Messages of Death.
One of the conditions that prevails in all parts of the country, caused by the delay in handling messages, is the fact that messages of death must take their turn.

Today at the offices here, a tearful woman, clad in mourning, personally requested the operators to call for a small town in Oklahoma to tell them that she was enroute with the body of her son, who died last night.

The entire strike is experiencing the aggravation resulting from practically suspended telegraph facilities.

All Operators Quit.
San Francisco, Cal., August 14.—Fifty Postal telegraph operators struck yesterday afternoon.

Denver, Colo., August 14.—At 7 o'clock this morning the striking switchmen on the Colorado & Southern railroad went back to work.

Denver, Colo., August 14.—At 7 o'clock this morning the striking switchmen on the Colorado & Southern railroad went back to work.

GOVERNMENT MAY SEEK
INDICTMENT OF
HARRIMAN

Strong Probability That Heads
of Trusts Will Be
Vigorously Prosecuted.

JOHN D. ROCKEFELLER
IS NAMED IN LIST

Special Grand Jury Has Hot Work
Ahead at Chicago If District
Attorney Sims Can Complete His Arrangements.

Chicago, August 14.—Visions of stripes and prison cells are floating before the eyes of the nation's railroad kings and trust moguls.

Alarmed by the action of Judge K. M. Landis and the department of justice railroad officials fear that these visions may become stern realities.

In view of the avowed determination of the court and Attorney General Bonaparte to make some big men suffer adequately for the crimes of monopoly, the question is now asked seriously:

Will the government make an attempt to indict John D. Rockefeller himself, or E. H. Harriman, or J. P. Morgan?

There is apparently answer to the question in the swift action against the Chicago and Alton, co-conspirator with the Standard Oil company.

Harriman was head of the Alton which caused the heavy fine levied against the oil trust. Is he not the responsible party so far as the railroads concerned? Will not Judge Landis' scathing denunciation move the grand jury to return an indictment against an individual in this case?

Sim's Secret Mission.
Taking into account all these things, the secret mission to some unknown point of District Attorney Sims and his assistants this week, and the fact that secret service operatives and special agents of the department of justice are at work under the orders of the attorney general, the growing belief that Harriman is to be made the first example of stern justice is gaining ground.

It is understood that the investigation of the special grand jury summoned for August 14, will be made under the "conspiracy act," which provides a prison sentence of two years in case of conviction.

Guilty of Conspiracy.
The government will attempt to prove that all high officials of trusts or railroad engaged in rebating, who know of the rebating schemes, are guilty of conspiracy.

Should the jury decide to go still further, as is in its power, it could demand evidence on the steel trust, the coal trust or any other combination that it desired.

John D. Rockefeller could be brought into the inquiry of the grand jury as well as Harriman, and should the government meet with success in prosecution it might easily follow up its victory in the east and bring J. P. Morgan and other trust magnates to the bar of justice.

Detectives Watch Magnates.
To make sure that no important witnesses escape, District Attorney Sims and his assistants are said to have called on Capt. Thos. I. Porter, of the secret service, for the loan of his operatives.

It is said that each day the movements of every prospective witness is noted and a report filed at night. Should any attempt be made to take a European vacation or go fishing in Canada, an effort made to destroy evidence, the district attorney would at once be informed and the witness detained.

STRIKING SWITCHMEN
HAVE RETURNED
TO WORK

Both Sides to Controversy
Agree to Abide by
Joint Conference.

Denver, Colo., August 14.—At 7 o'clock this morning the striking switchmen on the Colorado & Southern railroad went back to work.

JOHN D'S FATHER ALIVE
SAYS OIL KING'S
DAUGHTER

Mrs. Harold McCormick, of
Chicago, Makes Vigorous
Defense For Her
Parent.

RESENTS HER UNCLE'S
RECENT IMPUTATION

She Affirms Tarbell Story and
Says Her Uncle's Lack of Business Ability Is Cause of
Frank Rockefeller's
Attack.

Chicago, Ill., August 14.—Mrs. Harold Fowler A. McCormick, the daughter of John D. Rockefeller, has defended her father against the oil king's youngest brother, Frank Rockefeller.

"Jealousy," she said, "brought about by my uncle's signal lack of business ability, is the cause of the vituperation he has heaped upon my father. My father holds no malice against him. It may not be consistent with the usual picture drawn of my father, but he holds malice against no man."

"My uncle's failure to profit by the fortune of my father, and his repeated failures in business have been wormwood and gall to him. The bitterness has grown from year to year. It has taken for its objective point the brother who has prospered."

Says Her Grandfather Lives.
Mrs. McCormick says it is true that her grandfather is alive.

"Between my father and my grandfather there always existed the respect and love that is natural between father and son. My grandfather watched with the keenest interest the successes of his son."

Mrs. McCormick said that her grandfather's health was responsible in a large degree for his being out of range of the public eye.

Who the McCormicks Are.
Harold McCormick and Miss Edith Rockefeller, daughter of John D. Rockefeller, were married in 1895.

Harold McCormick is the son of the late Cyrus McCormick, the inventor of a patent reaper which started the fortunes of the McCormick family in the harvester business.

Cyrus H. McCormick, the present head of the international harvester company, is the brother of Harold McCormick.

The father of Harold McCormick died in 1884. Mrs. McCormick is the youngest of the three daughters of John D. Rockefeller. One daughter, Mrs. Strong, died recently in France.

Couldn't See Either Rockefeller.
New York, August 14.—Following statements made by Mrs. McCormick in the search for John D. Rockefeller's father, a reporter was sent to interview William Rockefeller and John D. Rockefeller, Jr., concerning the attitude of the various members of the family. He proceeded to Scarborough, N. Y., with the object of calling on William Rockefeller first.

Mr. Rockefeller had gone motoring and would not return until late. The reporter accordingly drove to Potomac Hill, the Rockefeller's house at Potomac Hill.

The carriage drove up to the front door. The reporter alighted and was about to ring the front door bell. Before he could put in his purpose of execution a huge negro, armed with a repeating rifle, advanced hurriedly down the drive and the following colloquy took place:

"What are you doing?"
"I am going to ring the bell."

"Who do you want to see?"
"Mr. John D. Rockefeller, Jr. This is where he lives, is it not?"

"Yes, but what do you want to see him for, where do you come from and who are you, anyway?"

During his conversation the negro held the rifle, which was pointed at the reporter to ring the bell, adding that Mr. Rockefeller did not want to see him, and, marching to the horse's head, with brusqueness ordered the reporter to get into the carriage and to at once leave the premises on pain of being shot. The reporter got into the carriage, which was driven off and escorted several yards by the negro and his rifle.

DETECTIVES WATCH
INJURED MACHINIST

Boulder, Colo., August 14.—Jack Livingstone, a railway machinist, who was badly injured in the explosion that resulted in the destruction of the Colorado & Southern depot early Saturday morning, is being guarded by Colorado & Southern detectives at his home in Denver. He is so ill from burns and injuries that he cannot be moved. The detectives consider his safekeeping important, and are giving him no chance to get away.

Livingstone was arrested on a warrant sworn to by the Boulder police on charges that when called at aid volunteer firemen in their fight against advancing flames, he refused to do so. His actions have been considered by the local police as a willful attempt to see the town burnt. They believe, on this account, that he might have been involved in the incendiary plot, which it is thought now to unravel.

Soon after Livingstone refused to aid the firemen, the accident occurred in which he was injured. He was picked up and sent to Denver, where he lies with J. T. Clapp, his father-in-law.

(Continued on Page Eight.)
