Attack on Santiago By Land and Sea.

Furious Fighting Continued all Day--Sampson's Fleet Engaged The Forts--General Shafter's Forces Advanced on the City--Only Meager Details Obtainable.

Washington, July 1, 4:30 p. m.—The signal office has received the following from one of its officers at the front: "The American troops are driving the Spanish back. The wounded are being brought in right along."

Washington, July 1.—General Shafter has reported to the president that he began an attack on Santiago this morning, and that battle is now going on, beginning with active skirmishes. The dispatch was received by the members of the cabinet with much enthusiasm.

General Shafter's Dispatch to Secretary Alger. Secretary Alger received the following dispatch from General Shafter dated at 9:45 a. m. today: "Camp at Sevilla, Cuba, July 1.—Action now going on, but firing is light and desultory. Begin on the right near Caney, where General Lawton's division. He will move on the northeast part of the town of Santiago. Will keep you continuously advised of our progress."

PUERTO RICO COMES NEXT.

Major General Brooke Ordered to Have First Army Corps Ready to Move Within Ten Days.

New York, July 1.—A special to the Times from Washington says: The Puerto Rican expedition, the next number on the program after the surrender of Santiago, is to be led by Major General John R. Brooke, now commanding the first army corps at Chickamauga, who will be made the military governor of the island after its capture. General Brooke has been ordered to get his corps, composed of 27 regiments of volunteers, ready to move to Tampa within a week or ten days. From there they will be sent to Santiago preparatory to the movement on San Juan, which will be made from Southeastern Cuba, as a base.

If by the time General Brooke's force arrives at Santiago, General Shafter has not succeeded in taking that town, as many men as are needed will be landed to re-enforce him. If, however, as is more likely, General Shafter has practically, if not actually completed his task, when General Brooke arrives, the plan is to land a portion only of the volunteers to help form an army of occupation for the province of Santiago, and take on board the bulk of regulars now in General Shafter's command and proceed to Puerto Rico, it will remain for the other ranking major general in the regular army, General Miles, to lead the main expedition against Havana, when the time comes for the final movement to drive the Spaniards out of Cuba.

Were Slowly Poisoning the Carina.

London, July 1.—A special from Bucharest, the capital of Roumania, referring to the report from Vienna on June 25, that the Count and Countess Zuanoff, said to have been respectively the chamberlain of the czar and the lady in waiting to the czarina, had been arrested on the charge of attempting to poison their majesties, says: "The czarina showed signs of slow poisoning from arsenic, which had been administered daily to her in cups of coffee by the lady in waiting." "The czarina" the dispatch adds "is very unpopular and is frequently dubbed the German."

WAITING FOR AMERICAN TROOPS.

General Aguinaldo Under Promise Not to Enter Manila Until Americans Arrive—Germany's Position Regarding Philippines.

London, July 1.—A representative of General Aguinaldo, the leader of the Philippine insurgents, now in London, is quoted as saying that before General Aguinaldo left Hongkong he promised Rear Admiral Dewey not to enter Manila until the arrival of the American troops. General Aguinaldo's representative adds that he has just received a dispatch from Cavite saying that a republic had been proclaimed there by the general under the protection of the United States, and approved by Great Britain and Japan. The Philippine leader asserts that he has been to Berlin, where he saw the under secretary of the foreign office, who declared that all Germany wanted was that the existing import tariff would not be altered by a republic being established in the Philippine Islands, or at least that preference should not be given any other nation.

PEACE RUMORS IN SPAIN.

Premier Sagasta Says They Are Absurd—Bishop of Segovia Declared for a Holy War—Working People Desire Peace.

Madrid, July 1.—Premier Sagasta, in an interview today in regard to peace rumors said: "They are absurd. I am astonished that any attention is paid to them. There will not be and cannot be any discussion in regard to that matter. I affirm this absolutely. The government cannot treat for peace now. That action depends on developments, and the government will not act until the proper time." While the bishop of Barcelona has declared in favor of peace, the bishop of Segovia has issued a pastoral letter in favor of a holy war.

The chamber of agriculture of Barcelona has again petitioned the government in favor of peace. The central committee of the Socialist party has issued a circular pointing out the folly of continuing the war in view of the

Eight Americans and Nine Cubans Wounded. Signal Officer Allen sent a dispatch saying that the fighting was growing furious at Santiago. Eight Americans and nine Cubans had been wounded. Admiral Sampson's fleet is hotly engaging the forts.

General Attack By Land and Sea. Polaya del Este, July 1, 11:20 a. m.—A general assault on Santiago by land and sea by the forces of the United States began this morning. The Vostyns used her dynamite guns with good effect. Hard fighting was in progress along the line at 11 o'clock.

General Lawton advanced and took possession of Cabana, a suburb of Santiago. Morro castle and the other forts at the entrance of the harbor were bombarded by our fleet. The Spanish fleet in the harbor fired on the American troops, who were very close to the city. Nine wounded Cubans have been brought in.

Rumor That Santiago Has Fallen. Washington, July 1.—A rumor was in circulation here this afternoon that Santiago had been captured, but at 2:45 p. m. Adjutant General Corbin said there was no dispatches here to confirm the rumor.

SITUATION AT MANILA UNCHANGED.

Spaniards Erecting Defenses—Insurgents Within 2,000 Yards of the City—Foreign Men-of-War in Harbor.

Hongkong, July 1.—The Japanese cruiser Matsushima arrived today from Manila, which port she left on June 27. She reports that the American transports had not then arrived. The situation was unchanged, the Spaniards continuing to erect defenses, with the insurgents occupying positions within about 2,000 yards of the city. There were five German and four British warships in the harbor.

TERRITORIAL LAWS FOR ALASKA.

Ex-Secretary Sherman Has Returned from the Northwest—His Ideas Concerning the Government of Alaska.

Seattle, Wash., July 1.—Ex-Secretary John Sherman arrived last night from Alaska. He said: "Alaska would be better governed had she regular territorial laws. I believe it will be only a very short time until congress gives her these. It may be years before statehood can be given. That prohibition law to which the Alaskans object so strongly does not seem to prohibit entirely, as I noticed a great many saloons. If the law cannot be enforced it would be better were it taken off the statute books."

EVIDENTLY A COWARDLY ACT.

Red Cross Flags Displayed in Front of Spanish Entrenchments to Prevent Americans Firing on Them.

Copyright by Associated Press—Gen. Kent's headquarters, near Aguaduro, June 30, 3 p. m. via Port Antonio Jamaica, July 1.—The Spaniards in front of General Kent's line adopted a new method of preventing the firing on their works. They have a string of frequent intervals, red cross flags, the line being directly in view of their entrenchments. The object, it is thought at General Kent's headquarters, is to prevent the Americans firing in that direction, or if the red cross is ignored will spend the report that American soldiers are violating the rules of civilized warfare in firing upon hospitals.

CONGRESSIONAL.

Senate. Washington, July 1.—In the senate the Hawaiian annexation resolutions were taken up. Mr. Pettus (Ala.) made the first formal speech delivered since the opening of the present discussion in favor of the resolutions. At the beginning he said he proposed to particularly address himself to those with whom, during his life, he has been associated politically.

PLAN OF THE BATTLE

Disposition of Troops Made for Today's Attack on Santiago—Lawton's Division Lead.

SUFFICIENT SUPPLY OF FOOD

American Scouting Parties in Front of Caney Have Not Been Attacked—Cubans Holding Mountain Passes Against Re-enforcements.

Copyright by Associated Press—Off Juraguca, June 30, via Port Antonio, Jamaica, July 1.—Over 15,000 American soldiers, including all the regular troops now operating in Cuba and those of the volunteer regiments, supported by 4,000 Cubans under General Garcia, lie tonight within view of the Spanish entrenchments at the east of Santiago, ready for a forward movement in the morning, which may lead immediately to a general assault on the city. The advance will be made by General Lawton's division, forming the right wing, and if the Spaniards show signs of retreating, or if circumstances otherwise warrant it, General Wheeler's division and General Kent's division doubtless will join in the advance and endeavor to drive the Spaniards before them and enter the city.

While the movement may not reach this extent tomorrow, its purpose is to force the 5,000 men of General Lawton's command two miles further forward than they are now, to make the little village of Caney and to occupy the ridge overlooking the city and harbor, from which our artillery fire can be rained upon the Spanish entrenchments in front of the city and upon the large body of Spanish soldiers holding them. The Americans may be unable to accomplish this movement in one day, and postpone further advance until the light artillery and siege guns can be placed in position on the ridge, and preparations be made to pour a deadly fire of shell and shrapnel into the entrenchments, dislodging the enemy, and enabling the main body of the American forces to carry the city by storm. It is believed at the same time General Lawton advances, General Kent's division on the left will attack Aguaduro on the coast, four miles east of Morro castle which will give our army a base much nearer Santiago than the present one near Juraguca.

Until today our men at the front have been subsisting on half rations, but owing to the excellent work of Colonel John Weston, chief of the commissary department, supplies have been sent to the front by pack animals, and a dispatch, all day and night, and our soldiers are no longer in want of food. Though they have been drenched with rain several days and suffer from a lack of sufficient food, the spirit of our soldiers is all that could be desired, and they are eager for a general attack on the enemy's stronghold. The 3d and 20th infantry, the last regulars to remain at Juraguca, went to the front today and the 23d Michigan and one battalion of 34th Michigan will break camp early in the morning to join General Kent's division on the coast, leaving nothing at Juraguca except the supplies and the large field hospital in charge of the chief surgeon's corps prepared to attend to the wounded who may be sent there from the field hospitals at the front. With our troops lying almost at the base of the Spanish entrenchments, the great fleet of warships, lying just outside the entrance of the harbor prepared to demolish the Spanish shore batteries if they attempt to stop the progress of our army, the fall of the City of Santiago seems near at hand, and the majority of our soldiers sleeping tonight on the eve of events which are to occur tomorrow, believe the American flag will float over Santiago on the nation's birthday, Monday next.

Investment of Santiago Will Follow Capture of Caney.

Copyright by Associated Press—With the United States army, five miles east of Santiago, June 30, via Playa del Este, July 1.—The American forces, now numbering nearly 17,000 men, still occupy a position in a long line five miles east of Santiago, but no forward movement has been made during the past 24 hours, owing to the difficulty experienced in forwarding sufficient supplies from the base at Juraguca, and the fact that it has not been possible up to the present to send the light artillery and siege guns to the front from Balquer. Major General Shafter is at the front conducting a reconnaissance in person. The American troops have made a base at Aguaduro, and upon the coast near the left wing of the invading army, where the new base may be established later. Caney, which commands the land entrance to Santiago, lies close to the Americans' right wing and probably can be taken without difficulty soon, as it is held by only a small guard of Spanish troops.

Double Hanging in Indian Territory.

Muscogee, I. T., July 1.—Henry Whitfield, alias Perkins, and K. B. Brooks, both colored, were hanged within the stockade of the United States jail today. It was the first execution in the history of the federal courts in the Indian Territory.

"I DO MY OWN WORK."

So Says Mrs. Mary Roehle of Linden, New Jersey, in this Letter to Mrs. Pinkham.

"I was bothered with a flow which would be quite annoying at times, and at other times almost stop. "I used prescriptions given me by my physician, but the same state of affairs continued. "After a time I was taken with a flooding, that I was obliged to keep my bed. Finally, in despair, I gave up my doctor, and began taking your medicine, and have certainly been greatly benefited by its use. "Lydia E. Pinkham's Vegetable Compound has indeed been a friend to me. I was as near death I believe as I could be, so weak that my pulse scarcely beat and my heart had almost given out. I could not have stood it one week more, I am sure. I never thought I would be so grateful to any medicine. "I shall use my influence with any one suffering as I did, to have them use Lydia E. Pinkham's Vegetable Compound."

Reported Capture of the St. Paul.

New York, July 1.—The Journal prints a dispatch this afternoon saying that a cablegram received at Cape Haytien from Mole St. Nicholas, reports the capture of the U. S. auxiliary cruiser St. Paul, Captain Sigbee commanding, on Tuesday last. The Journal discredits the statement.

Journal Dispatch a Fake.

New York, 4:30 p. m.—The United States cruiser St. Paul passed into Sandy Hook at 4:25 p. m. The previous report that the St. Louis had been sighted was an error.

MANZANILLO BOMBARDED.

Defenses Badly Damaged by Four Warships—Balloon Sent Up from American Camp.

New York, July 1.—A correspondent in Santiago telegraphs to the Journal that four United States warships bombarded Manzanillo, on the gulf of Guacanayabo last Thursday, inflicting much damage to the defenses. The Spanish gunboats, according to this dispatch, opened fire upon the American warships, and then moved out of range. The same dispatch reports that a balloon sent up from the American camp was seen from Santiago on Thursday. In the balloon were two men, seemingly taking observations of the Spanish fortifications.

Cruiser Topoka Put to Sea.

New York July 1.—The United States cruiser Topoka went to sea early today, after having undergone a thorough overhauling at the navy yard. The Topoka was built in Germany ten years ago for the Brazilian government, but was never delivered. Subsequently the cruiser, then known as the Diogness, was reconstructed on the Thames river, where she was purchased for this government just before the breaking out of the war with Spain.

SPANISH REPORT OF BOMBARDMENT.

Claims That Attack on Manzanillo Resulted Disastrously to American Warships—Soldiers in An Ambush.

Madrid, July 1.—A dispatch to El Imparcial, from Santiago, says that four American warships bombarded Manzanillo, at 4 o'clock this morning, and retired with one seriously injured. The dispatch asserts that only one Spanish peasant was wounded during the bombardment. The dispatch says that a firing party of the Spaniards fell into an ambush yesterday, and one was killed and two others captured.

SOLDIERS IN HIGH SPIRITS.

Army Near Santiago Eager for Action—Military Balloon of Incalculable Value to the Troops.

Washington, July 1.—General Miles this morning received a dispatch from General Breckenridge, inspector general of the army, stating that the spirit of the troops was high, and that they were eager and expectant of action. General Miles also received another dispatch, sent quite early this morning, from General Shafter's headquarters, saying that a military balloon was high in the air, and giving an opportunity for observation over a great sweep of country. This in itself was of incalculable value to our troops.

WITHIN TWO MILES OF SANTIAGO.

Telegraph and Telephone Station Located Close to Scene of Action—American Lines Still Advancing.

Washington, July 1.—General A. W. Greely, chief signal officer, has received a dispatch from Lieutenant Colonel Allen, chief signal corps officer in Cuba, announcing that a telegraph and telephone station has been established within two miles of the city of Santiago. This information is of the highest importance to the officials of the War department, as it insures to them direct communication with General Shafter. The telegraph station being of course, within the American lines, its location conclusively indicates that the forces under General Shafter have established themselves in advance of telegraph communication.

Plenty of Money in United States.

Washington, July 1.—Inquiries at the Treasury department elicit the information that the total subscriptions for the bond issue of \$200,000,000 aggregated \$790,000,000; of this amount there have been received and absolutely accepted subscriptions in amounts of \$500 and less, for \$40,000,000.

Madrid Announces That Ships Have Passed Through Suez Canal—Report Discredited in London.

Madrid, July 1.—According to a dispatch received today at the Spanish ministry of marine, Admiral Camara, in command of the Spanish fleet recently at Port Said, Egypt, has passed through the Suez canal, apparently on his way to the Philippines.

Report Discredited.

London, July 1.—Officials at the United States embassy discredit the Madrid dispatch saying that Admiral Camara has passed through the Suez canal. They say he had not entered the canal this morning.

Entered the Canal.

Port Said, July 1.—Two Spanish colliers have entered the Suez canal.

German Admiral Refused to Interfere.

Berlin, July 1.—The following dispatch has been received from Hongkong: "According to trustworthy intelligence from Manila the Spanish governor general had, a few days ago at his own request, a meeting with Admiral Diederichs, commander of the German naval forces in the far east, in order to propose in behalf of the Spanish government, that Manila should be handed into the provisional charge of a neutral commander. The proposal was rejected by Admiral Diederichs in view of the American blockade."

DON'T SPEAK IN PASSING.

Because Admiral Cervera Could Not Leave Santiago Harbor, General Blanco Feels Chilly.

London, July 1.—The Pall Mall Gazette correspondent at Madrid telegraphs that a coldness exists between Captain General Blanco and Admiral Cervera. General Blanco ordered Admiral Cervera to leave Santiago. The admiral replied that he would be glad to leave, but his guns were dismounted, he was without coal, and the American admiral was waiting outside.
