United States Hawaiian Commission Returned from Honolulu, and Are En Route to Washington to Make Out Their Report There.

San Francisco, Sept. 30.—The steamship Gaelic arrived here today, bringing the congressional commission, Senators Cullom and Morgan and Congressman Hitt, from Honolulu. Senator Cullom says: "We have done as much as was possible in the time at our disposal, and we covered the ground pretty thoroughly. When we meet at Washington, November 14, we shall go to work at once on our report."

Canada's Fight Against Rum. Toronto, Ont., Sept. 30.—The majority for prohibition throughout the entire Dominion will not likely exceed 18,000. All the provinces except Quebec voted for prohibition. Quebec's majority against it was 40,000. Even the prohibition papers consider the majority too small to influence the government in any attempt to enact prohibition legislation.

GENERAL MERRITT'S STORY.

He Was Under No Obligations to the Philippine Leader, and Never Met the Gentleman. Washington, Sept. 30.—The report of Major General Merritt, of the operations about Manila, was made public today. After giving briefly the story of his embarkation, arrival at Manila and disposition of troops there, he says: "General Aguinaldo did not visit me nor offer his services as a subordinate military leader, and as my instructions from the president fully contemplated the occupation of the islands by the American land forces, I did not consider it wise to hold any direct communication with the insurgent leader until I should be in possession of the City of Manila; especially as I would not until then be in a position to issue any proclamation, or enforce my authority, in event his pretensions should clash with my designs. When the troops of my command carried the Spanish intrenchments, extending from the sea to the Pasig road on the extreme Spanish right we were under no obligations, by any pre-arranged plans of mutual attack, to turn to the right and clear the front still held against the insurgents, but were able to march straight on and occupy the city and suburbs."

Cubans Will Farm It.

Havana, Sept. 30.—General Gomez, in an interview is quoted as saying that the insurgent forces will disband and apply themselves to farm labor as soon as the Spanish troops evacuate.

SPANISH OFFICERS TO BE OUSTED.

The Havana Custom House Will Be Taken Possession of by the United States Government. Washington, Sept. 30.—At a cabinet meeting today the president read to the effect that by Oct. 15, danger from yellow fever in Cuba will have passed. It is understood that the movement of troops will begin about that time. The conduct of Spanish customs officers at Havana being very unsatisfactory to the president, it is said he has decided to take possession of the custom house there at an early date, and to administer its affairs under the regulations prescribed by this government.

Turks and Armenians Again.

Constantinople, Sept. 30.—Advice from Van say fighting occurred at Alashgorb, between the Turks and Armenians from Russia. About 30 Armenians were killed.

RAIN DROWNED FIRES.

But One Poor Woman Burned to Death in Wisconsin, and Her Children Badly Scorched. Milwaukee, Wis., Sept. 30.—Reports received at the railroad offices state that the forest fires in the northern part of the state were quenched by a heavy fall of rain late last night. At Cumberland 25 families were rendered homeless, and a large saw mill plant valued at \$225,000 was wiped out. The wires are down in all directions.

Mrs. Jacob Corroson, at Dry Wood, was burned to death, and two children of Mrs. Corroson were seriously burned while attempting to rescue the mother. The pecuniary loss is not expected to reach over \$1,000,000.

Preparing for Work.

Paris, Sept. 30.—The American commission held its usual session this morning. It is believed that the commissioners are crystallizing their plans and arranging all the details of the work which will be taken up when the commissions begin joint session.

The Spanish Commissioners Formally Deny the Paragraphs Purporting to Give the Substance of Their Instructions which have appeared in the newspapers.

PANA PANIC STRICKEN.

Striking Miners Parade the Streets All Night—Imported Negroes Kept Within Their Stockades. Pana, Ill., Sept. 29.—Last night was a terrorizing one for the people of Pana. All night long the striking union miners, re-enforced by miners from other towns, paraded the streets or lay in ambush awaiting the coming of negroes from Springfield stockades, who announced their intention of driving off the whites. But the deputy sheriffs were successful in keeping the negroes within the stockades. Many shots were fired in the vicinity of the mines. Today, in response to Sheriff Coburn's urgent appeal, battalions of Galesburg, and two companies of Hamilton's Sons of Veterans, are on the way to Pana under instructions from the governor to maintain order, but under no consideration to assist mine owners in operating their mines with imported labor.

Governor Tanner denies the report that he refused to send rifles to the sheriff at Pana.

Heled Up the Negroes. Two hundred Pana miners held up a special train at the line of Shelby and Christian counties this afternoon. The train was carrying 50 imported negroes for work at the Pana mines. At the point of their guns the miners compelled the negroes to unload and started to march them to Tower Hill, to ship them back to Washington. Ind. Sheriff Courtright is said to be on his way to Tower Hill with a posse to release the negroes. A clash is expected.

Confusion in the Philippines.

Madrid, Sept. 30.—A dispatch from General Rios, Spanish governor of the Viceraya islands, who is reported to have recently proclaimed himself governor general of the Spanish dominions in the Philippines, reports insurgent expeditions as having arrived at the Viceraya. The rebellion is spreading, several provinces of Luzon have been invaded, and some officers of the gendarmes and their families have been massacred. The revolt of the Spanish officials of Manila has fled to Manila. La Correspondencia blames the Americans for tolerating the new rising of the insurgents, and urges the government to present a protest before the Paris commission.

FOREST FIRES STILL PLAMING.

Five Hundred Million Feet of Valuable Timber Destroyed and Many Families Burned Out. Chippewa Falls, Wis., Sept. 30.—Forest fires are still creating great havoc. No rain has yet fallen in the district tributary to this point, and the lumber companies are sending hundreds of men in to the woods to save the standing pine. It is estimated that already 500,000,000 feet have been destroyed. A movement has been started to assist farmers who are burned out. Thousands of men are still fighting the flames, but are making little headway, as everything is dry as tinder.

The Doctor-Soldier-Statesman is Solving the Vexed Questions As They Come Up at Santiago. Washington, Sept. 30.—Secretary Alger has received a long letter from General Leonard Wood, military governor of Santiago, dealing with many questions of interest to the public. Combining medical skill with the highest type of soldierly qualities and executive ability, General Wood was able to meet and overcome the problems presented at Santiago. He has communicated the intelligence that all indications point to a speedy disbanding of the Cuban army.

No one can tell, he says, how long it will take to establish a stable government, but he thinks it will be quite a period.

WILLIE HOGLE RETURNS.

He is Sick and Very Weak, But in This Invigorating Climate Will Pull Up Rapidly. Trooper Willie Hogle, of troop E, "Rough Riders," returned last night from Montauk Point, sick and very weak, but glad to get home again, where he is now receiving the best of care and attention. He did not arrive the previous evening because he felt so badly at Hutchinson, Kan., that he thought it best to stop over a day and rest. The young man went all through the battles and trying scenes before Santiago de Cuba without harm, but the privations incident upon the trying experiences in the trenches and in that miasmatic climate finally overpowered the young soldier, and just as his regiment was ready to start for the United States he was taken down. August 5, and had to be left behind. He was at first in the cavalry division hospital, where but scant attention was given him. In fact, there was but one man connected with the hospital who did anything like his duty, and that was Hospital Steward Jennings, who worked over the boys until he fell from exhaustion. Afterwards, he was removed to Robinson's hospital on San Juan Hill, where he was given better care, and then there was some show for his recovery. All this while the young trooper's family were doing their best to communicate with him, and Captain Muller sent a cablegram to Santiago about him, but none of the messages reached the sick soldier.

Finally, Trooper Hogle recovered sufficiently to be sent to this country, and arrived at Montauk Point September 4, still a sick man. Mr. Hogle found that while the Point was pleasant enough in some ways, it was not in others. For instance, a cold, penetrating fog blew up every morning that would wait in under the tents where the sick lay, and made them anything but comfortable. To say nothing of the new element of danger added. However, excellent care was given the sick and they had everything that was needed. Captain Muller notified the young man's family in this city, and afterwards, when he was able, Mr. Hogle wrote home, so that all doubts were settled as to his whereabouts. But his folks had a severe time of it, especially his mother, in the long drawn out suspense, and the harrowing uncertainty as to whether he was alive or dead, and one report stated that he was buried in Cuba. After muster out Trooper Hogle started for home, being obliged to stop en route on account of his weakness.

He could talk but little this morning when a reporter called to see him, for he had but little strength left. He, however, said, in response to questions, that the United States was bound to have trouble in the island, for a large element of the native population was a hard lot to manage. The Cuban soldiers at Santiago did not impress Mr. Hogle favorably. They were a very uncanny lot, ignorant men with very large heads, who refused to do anything unless paid for it. They wished it to be understood that they were Cuban soldiers and were not obliged to work.

A number of friends called on the young trooper today, but he is not strong to receive visitors, and his friends would do well to let him alone for a few days until he has recovered sufficiently to enable him to get around.

MRS. LUCY GOODWIN Suffered four years with female troubles. She now writes to Mrs. Pinkham of her complete recovery. Read her letter:

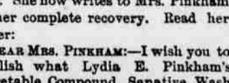

Dear Mrs. PINKHAM:—I wish you to publish what Lydia E. Pinkham's Vegetable Compound, Sanative Wash and Liver Pills have done for me.

I suffered for four years with womb trouble. My doctor said I had falling of the womb. I also suffered with nervous prostration, faint, all-gone feelings, palpitation of the heart, bearing-down sensation and painful menstruation. I could not stand but a few minutes at a time.

When I commenced taking your medicine I could not sit up half a day, but before I had used half a bottle I was up and helped about my work.

I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and use one package of Sanative Wash, and am cured of all my troubles. I feel like a new woman. I can do all kinds of housework and feel stronger than I ever did in my life. I now weigh 131 1/2 pounds. Before using your medicine I weighed only 108 pounds.

Surely it is the grandest medicine for weak woman that ever was, and my advice to all who are suffering from any female trouble is to try it at once and be well. Your medicine has proven a blessing to me, and I cannot praise it enough.—Mrs. Lucy Goodwin, Holly, W. Va.
