FAST ON THE ROCKS

British Steamer with 174 Souls On Board Wrecked on Lizard Point Rocks.

143 LIVES REPORTED LOST

Passengers Were Eating Dinner When the Crash Came, and Then All Was Confusion—Machinery Failed in a Gale.

Falmouth, Eng., Oct. 15.—The British steamer Mohegan, Captain Griffiths, belonging to the Atlantic Transport Company, has been wrecked in the vicinity of Lizard, between Manafas and Lowlands. About 143 persons, passengers and crew, were drowned.

The Mohegan left London for New York Thursday, having on board 59 passengers and 115 officers and men. The coast is extremely dangerous and the general opinion is that the machinery of the Mohegan became disabled during a heavy easterly gale, ran ashore and foundered. Tugs which put out returned without being able to approach the vessel, owing to the severity of the weather. The life boat landed 31 of the passengers and crew. One woman died after she was brought ashore. One survivor, George Maule, of New York, said: "At 7 o'clock yesterday evening, when most of the passengers were at dinner, the vessel was going at full speed. We heard a crash, which seemed to denote collision with some other vessel. But when we rushed on deck we found the Mohegan on the rocks."

"Orders were given immediately to lower the boats. The crew behaved like heroes. The steamer immediately began to settle by the bow, and the life boats were launched. The women were sent away in the first boats. I managed to secure a life belt and jumped overboard. When I was leaving the vessel a little girl begged me pitiously to save her but I was powerless. Eventually, I caught and held a plank floating on the water and clung to it seven and a half hours, when I was picked up by a tug. I could not have lasted much longer."

The Mohegan sank in about 20 minutes after she had run on the rocks. Later in the morning it became known that another life boat had landed 16 more survivors. As the life boats put out from a number of places, the number of survivors may be increased. All survivors are in a pitiable condition, some being badly injured by the waves and rocks and suffering from bruises and fractured limbs.

As the day wore on, further reports were received which showed that 44 survivors of the Mohegan were landed at Port Houtstock, Cornwall, where the bodies of five dead persons were received. Then came an announcement that 14 of the crew had been found alive on the rocks. The coast guardman who was on duty says he noticed the Mohegan was pursuing a dangerous course.

Among the passengers saved are Miss Noble, of Baltimore, Md.; A. G. L. Smith, W. Bloomingdale, R. Kelly, A. Smith, W. Bondurant and S. Wood. The following officers were saved: Victor Lawrings, Ferguson, Dr. Trever, Mrs. Piggott, the stewardess. The saved include 50 members of the crew. Among those missing are Mrs. S. C. Crane, believed to be the wife of Stephen Crane, novelist, and Mr. J. Hyslop, believed to be the official manager of the New York Yacht Club. Miss Bondurant is an American operating singer, professionally known as Maud Rounds. She telegraphed to a relative in London: "Ship wrecked; mother dead."

Explanation from London. London, Oct. 15.—The Mohegan is said to have been an ill-fated vessel from the start. She was only bought by the Atlantic Transport Company when their own boats were to be delivered to the United States government during the war. She was formerly the Cleopatra, of the Wilson & Furness-Leland line, and was bought direct from the Hull ship yards. She only made one voyage out and home. This was most unprofitable, for her engines were defective and the boilers leaked. She is further alleged to have arrived at New York in such condition that she was sent to the empty. The steamer has been in dock undergoing repairs and her managers claimed she was in perfect condition when she left port. It is surmised her engines broke down and the vessel, on the rough sea and heavy gale, drifted on the rocks.

Admiral Gherardi Proposes An Offensive and Defensive Alliance with England on the Chinese Question.

Boston, Oct. 15.—The Massachusetts Reform Club decided last night to hold an investigation on its own account for the benefit of the board now in session at Washington. Rear Admiral Gherardi (retired), who spoke for the navy, created much surprise by saying: "Lack of attention on the part of the people regarding the army's needs, was the cause of the present trouble. Congress has not done as it should: the regular army should be increased. We are not yet out of war, and we need to be thoroughly equipped with an efficient land and naval force. We are going to dabble in the east, and you will have to fight yet shoulder to shoulder, and ship to ship, with England on the Chinese question. There will be an offensive and defensive alliance there. I wish to God we would keep out of the Philippines."

Thompson introduced the president, who made a speech, in which he said that the great assemblage greeting him everywhere meant that the people "want those of us who are charged with the administration of the government to see to it that the war is not in vain and that just fruits of our achievements on land and sea shall not be lost."

SPAIN DOESN'T LIKE IT.

Because the United States Will Not Submit Her Absurd Propositions to Arbitration.

Madrid, Oct. 15.—La Correspondencia a semi-official paper of the Spanish government, attaches much importance to yesterday's meeting of the peace commissions. It is believed that besides discussing the Cuban debt and evacuation of Cuba, the Philippine question was under discussion.

La Correspondencia says: "The Americans are uncompromising, disposed only to yield on points of unimportant detail. They are not disposed to agree to arbitration, while Spain is willing to accept Russia or Germany as an arbitrator."

Window Glass Plants Closed Down.

Fires were banked and may be extinguished, and 15,000 workers who have been looking forward to a general resumption on October 15, are forced to remain idle. The strike is for the advance in the wages of cutters and flatteners, but is really the result of a fight between the Knights of Labor and the American Federation of Labor.

POLITICAL NEWS.

Bernalillo Republicans.

The county convention to nominate candidates for legislative and county offices on the Republican ticket in Bernalillo county meets in Albuquerque on Wednesday, the 26th inst. It is understood that Hon. Thomas Hughes and Hon. T. A. Fincal are candidates for renomination to the territorial council, and that Sheriff Thomas S. Habbell is also a candidate for renomination. The ticket that will be nominated by this convention will carry the county by an overwhelming majority. The so-called Independent Republican movement will not hurt the regular Republican ticket to any alarming extent. In fact, it is understood that the Democrats will make no nominations but will endorse the Independent Republican movement. This will not prove good politics, as the result will show. Bernalillo county two years ago gave Mr. Catron 620 majority, it will double this election and will make it 1,200. This is the estimate put upon the vote by those best informed on Bernalillo county affairs.

What the Gang in San Miguel is Up To.

Word comes from San Miguel county that the Union party gang in that county, in office and desiring to get into office, is getting ready to perpetrate enough election frauds to carry the county for their ticket. That gang favors Mr. Ferguson, to be sure, but cares not much for him. Pelf for itself is its motto. But the abatement board of county commissioners of that county will do well to consider the situation. There is no judge on the bench to help along this time. Quite the reverse, there is a fearless, honest and able judge there now, one who desires to see the law upheld and respected and who will see to it that this is done. The board will do well to play with live coals. Its abatement and county scrip fingers may get severely burned.

Mr. Ferguson Goes North.

Delegate H. B. Ferguson accompanied by A. O. Larrazole, of Las Vegas, was a passenger north to Taos county this morning, where he will open the campaign and tell the dear people what a strong protectionist he is and how he insisted that a Republican house of representatives and 44 Republican senators should vote for the Dingley tariff law, how he procured the proviso of the tariff on wool in that law and how he demanded, that the president must approve the measure. He will also visit Rio Arriba county, where he will give the dear people the same song and dance. How much good this trip will do him, will be shown on election day.

Donna Ana County Conditions.

Most encouraging news for the Republicans reaches the New Mexican from the county of Donna Ana. The Republican ticket there, standing for law and order and for security to life and property and good, honest, county government will be elected by at least 500 majority, although a great big slush fund has been raised by the Democrats in order to secure a sheriff who will do the bidding of the lawless and law breaking element in certain parts of the county. The Republican ticket is first class and will be elected by the majority quoted. Preciliano Moreno is chairman of the county committee and Clinton Llewellyn is secretary of it. The election of Hon. J. A. Anchetta for the council of Captain W. H. Llewellyn for the house from Grant and Dona Ana, and of Marcial Valdez for the house from Donna Ana county seems to be absolutely sure.

Sugar Beets.

Captain S. H. Day has just received the following letter of interest from Professor Arthur Goss, of the Agricultural college at Mesilla Park: "The beets sent in by you analyze as follows: No. 985, Kleinwanzlebener, per cent of sugar in juice is 17.5; purity, 80.6. No. 996, Vilmorin, per cent of sugar in juice is 17.6; purity, 81.1. I am pleased to see that your beets are running high again this season. The beets reached us in good condition. The beets sent last year for examination began at 16 per cent, and by January had run up to 22, so that the showing for this season is much more satisfactory and speaks well for Santa Fe county's soil as especially adapted to cultivation of the sugar beets."

OMAHA EXPOSITION NOTES.

Arrangements of Exhibits Similar to That of Other Expositions—Government Display Particularly Fine—Places to Beware Of.

Editor of New Mexican. Omaha, Oct. 13.—As many of our people intend to visit the exposition, I venture to send a few notes, which may be of use or interest.

The most conspicuous feature is the beauty of the buildings themselves. By arranging the most important of them immediately around the lagoon, a magnificent view is presented, fully as fine as that at the court of honor in Chicago. At night, particularly, the effect of the myriads of electric lights is worth a week's travel to see.

Those familiar with the previous great expositions will not find anything very novel in the general scope of the exhibits. The agricultural, mineral, manufactures, liberal arts and fine arts buildings are quite similar to those at Philadelphia or Chicago, although, of course, there are many important novelties in electrical science. The most interesting department is the government building. It is by far the finest exhibit ever made by the government and attracts great attention. Do not fail to see it.

The horticultural exhibit is large, and particularly good as to apples. But while larger, it does not average as well as our own exhibition at Santa Fe. Even in apples and pears the specimens are not superior to those that we had, and in plums and similar fruits the display is very inferior. The mis-spelling of names seems to be a prominent feature.

The arrangements for meals are better than at previous expositions. At the large official restaurant north of the lagoon a very fair meal is provided for 25 cents, and the service is much more pleasant and cheerful than at Chicago; but beware of trying the restaurants on the Midway, some of which are simply dens of robbers.

After careful examination it can be truly said that there is no article in the entire exposition as handsome as the celebrated "Santa Fe table." It attracts great attention, and is photographed from every point of view.

City of Albuquerque Grant.

Hon. Matt. G. Reynolds, United States attorney for the court of private land claims, is in Washington attending to land court business before the United States Supreme court. Among the cases which will be heard by the supreme court the present term is that of the Villa de Albuquerque grant, of four square leagues, claimed by the city of Albuquerque. This grant was made in 1705 and in the trial of the cause before the court of private land claims was confirmed. The case was appealed to the Supreme court of the United States by the government, and it is expected a decision by that tribunal will be made in a short time. The interests of the city of Albuquerque are represented by Hon. F. W. Clancy, who is in Washington at the present time.
