

# SANTA FE NEW MEXICAN

VOL. 46.

SANTA FE, NEW MEXICO, MONDAY AUGUST 30, 1909.

NO. 619

## PROGRAM FOR PRESIDENT'S RECEPTION

### Governor Curry and Secretary Jaffa Return Home

### TALKED TO THE DRY FARMERS

### Captain Fornoff Unable to Find Night Riders at Mountainair.

Governor Curry returned this forenoon from Albuquerque with Territorial Secretary Nathan Jaffa, where they had made arrangements with the Commercial Club and Delegate to Congress Andrews for the program on the evening of President Taft's visit at Albuquerque, October 15. Governor Curry today received a telegram from Fred W. Carpenter, the president's secretary, asking for the program and it was wired him this afternoon. At the same time, came a letter in response to an urgent request of Governor Curry to allot more time to the visit to Albuquerque, but the President's secretary writes that this is impossible, much to the President's regret. National Committee chairman Solomon Luna was appointed chairman of a committee of which Delegate to Congress W. H. Andrews, R. H. Collier, George Arnot, Judge Ira A. Abbott and Frank McKee are members, to finance the reception. A small delegation will go to the Grand Canon on a special train to meet the President and if possible to persuade him to take the special, which will bring him into Albuquerque before dusk. In that case he will be taken to the fair buildings to view the industrial exhibit. He will be given a reception at the Alvarado and will there make an address. Another reception will then be given at the Commercial Club and a visit to the Montezuma ball will be made. Elaborate decorations and illuminations are planned for the occasion.

**Will Not Resign.**  
Territorial Secretary Nathan Jaffa denies emphatically the published report in the Las Vegas Optic that he intends to resign as secretary of the Territory.

**Nice Sized Check.**  
Territorial Treasurer M. A. Otero today sent a check for \$102,911.10 to take up an issue of \$93,000 of bonds of May and September, 1899, and interest coupons. That the Territory is able to pay off this issue without refunding demonstrates its excellent financial condition.

**Stream Measurements.**  
Hydrographer W. H. Sutton returned today from a stream measuring trip in eastern, northern and north-eastern New Mexico. He measured the Pecos at Sunnyside, the Canadian at Logan and struck it at flood stage running nearly 2,000 second feet, the Mora at La Cueva, the Sapello at Las Animas and the Gallinas at Hot Springs.

Hydrographer J. B. Stewart left last evening for southwestern New Mexico to gauge the Mimbres, Gila and other streams of that section.

A gauge has been installed on the Santa Fe at the Don Gaspar avenue bridge. It can be seen by looking over the bridge wall on the west side of the bridge.

**Good Roads Work.**  
As soon as the survey on the Santa Fe-Albuquerque road is started, Territorial Engineer Vernon L. Sullivan will leave for Silver City to look after the securing of the right of way for the Silver City-Mogollon highway and thence go to Roswell on good roads matters.

**Talked to Dry Farmers.**  
Governor Curry made arrangements to go to Stanley, Santa Fe county, this afternoon to address a meeting of dry farmers there and also to post himself personally as to conditions in the vicinity of Stanley with a view of offering work on the Santa Fe-Albuquerque road to those settlers desiring employment for the winter.

**New Insurance Company.**  
Superintendent of Insurance Jacobo Chaves today received the application of the recently incorporated New Mexico National Life Insurance Company of Roswell, for permission to do business in the Territory. As soon as certificate of publication is filed, this permission will be given.

**No Night Riders at Mountainair.**  
Captain Fred Fornoff has returned from Mountainair where he investigated an alleged night rider outrage. He found that the affair had been greatly exaggerated and as to an organization of night riders, it is simply non-existent. One arrest was made. Incidentally, Captain Fornoff who drove overland from Mountainair

(Continued on Page Eight.)

## SECRETARY BALLINGER HURRIES TO WASHINGTON.

Resignation of Ormsby McHarg, Assistant Secretary of Commerce and Labor Accepted.

Seattle, Wash., Aug. 30.—Secretary of the Interior Richard A. Ballinger hurriedly left Seattle for Washington last night. Before leaving he said: "Emergency matters have arisen in the department which make it necessary to lay aside my plans and go to Washington. My trip has no special significance. It is not the result of a message from the President. I have practically completed my investigation of the irrigation projects and can lay aside my plans without difficulty."

**McHarg's Resignation Accepted.**  
Beverly, Mass., Aug. 30.—President Taft yesterday accepted the resignation of Ormsby McHarg, assistant secretary of commerce and labor, Secretary Nagel, head of the department, had an extended conference with President Taft and discussed the question of a successor to Mr. McHarg.

Secretary Nagel received a letter from the assistant secretary saying that he must adhere to his first intention of remaining in the department only for a period of six months. This term of duty will expire September 4 and by that time Secretary Nagel hopes to be ready to announce the choice of a new assistant.

Mr. McHarg announced some time ago that he soon would leave the government service to engage in private business. In his letter to Secretary Nagel he says, however, that if a successor cannot be found by September 4, he will continue in office until October 4.

There was no one in Beverly willing to say that Mr. McHarg's resignation was in any wise the result of the interview published in Washington last week in which he is credited with saying some sharp things about former President Roosevelt and his policy of forest conservation.

Mr. McHarg was quoted as saying the policy was too dream-like to ever be of particular value. Mr. McHarg is said to have grown quite bitter over the free manner in which some of the government officials in Washington, generally known as the "Roosevelt element," have been criticizing members of the Taft Administration. Consequently he is reported to have expressed his own views rather forcibly and the controversy started by Chief Forester Pinchot with Secretary Ballinger is declared here to be growing to such proportions that the President will have to take a hand and put the government house in order.

## LONG RANGE MARKSMANSHIP TESTS.

One Hundred and Sixty-Three Rifle-men Contest for Prize at Camp Perry, Ohio.

Camp Perry, Ohio, Aug. 30.—Long range marksmanship today engaged the attention of the riflemen at the annual tournament of the National Rifle Association. A hundred and sixty-three skillful long-distance shots of America took the 800 yard range to compete for a cup presented by Captain Leech of the Irish rifle team, which visited New York in 1874. The contest is seven shots at 900 and 1,000 yards with any military rifle and any ammunition.

The Leech cup was won by Lieutenant J. L. Topham, of the Thirtieth U. S. Infantry, who scored 103 out of a possible 105.

## STOCK MARKET IS MORE HOPEFUL.

All Securities Move Upward in Sympathy With Union Pacific Which Advanced Five Points.

New York, Aug. 30.—The stock market took its tone from the Union Pacific movement today which by mid-day had been marked up five points from Saturday's closing level. The renewed upward movement did not keep pace with the Union Pacific however but was orderly and deliberate.

There was some abatement in the demand for stocks came late today. Union Pacific, after reaching 20.34, fell back and affected the whole market. Trading became very dull but there were no signs of weakening.

## GALA BREAKFAST FOR BRILLIANT AVIATORS.

"Flying" Week at Rheims, France, Closes With Ovation to Participants.

Rheims, Aug. 30.—"Aviation week" came to its official close today with a gala breakfast in honor of the aviators. There were 500 guests and intense enthusiasm over the wonderful success of the week was manifested. Bleriot attended with his arm in a sling, the result of an accident yesterday, and he and Curtiss, the American, Farman, the Englishman, and Latham and Paul Han, the French flyers, received ovations, the assemblage arising again and again to cheer them.

## PANAMA SHAKEN BY EARTHQUAKE

### Clerks in Government Offices Rush Out

### NO LIVES REPORTED LOST

### Nothing to Indicate That Canal Was Damaged by the Temblor

Panama, Aug. 30.—A strong earthquake was experienced here shortly after 8 o'clock this morning. The people were greatly alarmed but, no one was injured. No damage is reported. The administration buildings, both of the government and the canal commission here and at Ancon were so severely shaken that the clerks left their desks and hurried into the streets. They returned when they say that no damage was done. The quake was also felt at Aguadulce, in Cocle province and Panama province, Panama, points more than 100 miles apart.

There is nothing to indicate yet that the Panama canal was damaged by the quake. Special inquiries are being made in this direction and a report from the canal commission is expected.

**An Appeal for Help.**  
Washington, D. C., Aug. 30.—Consul General Hanna at Monterey, Mexico, on behalf of the officers of the American colony there, has made an appeal to the American people to assist the destitute suffering at Monterey. It might be gratefully remembered and appreciated says Hanna in his telegram, that the city of Monterey, of 10,000 inhabitants, does 85 per cent of its foreign trade with the United States. Nearly every person in the city suffered loss and many of the poorer classes lost everything.

## GENERAL ZELAYA AT HIS OLD TRICKS.

Fitting Up Filibustering Expedition at New Orleans to Plague His Neighbors.

Guatemala, Aug. 30.—There is considerable uneasiness here and in Salvador over the reports that General Zelaya, president of Nicaragua, is fitting up a filibustering expedition at New Orleans, the object of which is to attack Guatemala and Salvador.

## RANGERS CLOSE SALOONS IN AMARILLO, TEXAS.

Austin, Tex., Aug. 30.—The state rangers last night seized several cases of whisky here. The rangers have almost completely stopped the illicit sale of intoxicants here and as a result, the doors of the city lockup are standing open and have not closed upon a prisoner in several weeks.

## MAURETANIA BREAKS RECORDS

### Trip from New York to London in Five Days

### OVATION AT QUEENSTOWN

### Crossed the Atlantic Over Short Route in Remarkably Short Time.

Queenstown, Aug. 30.—The steamer Mauretania, record holder for the trans-Atlantic passage, arrived here today from New York over the short course and made the passage in four days, fourteen hours and twenty-seven minutes. It beats her previous record by two hours and fifty-three minutes. Four tenders took off the passengers and mail and a special staff customs officers was waiting to inspect the baggage. Special trains quickly on their way to London where they were scheduled to arrive at 6:35 p. m., the journey from New York thus being completed in five days, one hour and thirty-five minutes. Newport and Fishguard were lavishly flagged with the Stars and Stripes and the Union Jack for the occasion. The inhabitants turned out to cheer the incoming steamer and a general holiday was proclaimed.

## MONTEREY VISITED BY DISASTER

### Flood Sweeps 1,400 Lives Into Eternity

### PROPERTY LOSS \$12,000,000

### Appeal to the American People to Relieve the Distress.

Mexico City, Mex., Aug. 30.—Conservative estimates of the damage wrought at Monterey by the flood places the dead at 1,400 and the property loss at \$12,000,000. The river has gone down and danger is over. One quarter of the city of Monterey is destroyed and 15,000 persons today are homeless. The water mains are useless and the city is consequently without drinking water; neither is there a light nor street car service, for the power plant is seriously damaged. It will be impossible to resume train service for a week and the city is threatened with a food famine. The slaughter houses have been destroyed. Ten thousand persons are being fed on bread, coffee, and soup by the municipal authorities and the American consulate is giving food to all who apply. Thousands of persons have taken refuge in the cathedral and churches. Many adobe structures soaked by the rain are falling and there is some additional loss of life from this cause. The railroad situation is deplorable. On the branch of the International between Monterey and Tampico there are scores of washouts. The iron bridge at San Juan is destroyed and 75 miles of the Matamoros branch is washed out. There are a dozen washouts between Matamoros and Cuevas and the big iron bridge over the Rinconada between Saltillo and Monterey is gone. The total loss to the railroads probably will exceed \$500,000. The greatest loss of life in Monterey is said to have been caused by the giving way of the reservoir dam. Monterey is situated in a cup-like valley and surrounded on three sides by steep mountains. The waters rushed into the valley down the bed of the Santa Caterina river. The stream ordinarily is only 150 yards wide but with the advent of the flood the banks were fully three quarters of a mile apart. It is estimated that eighteen inches of rain fell. The cities of the republic are responding to Monterey's call for assistance.

Further reports indicate that the river settlements have been swept away. The town of Cadereyeta, in the river bottom, it is said has been destroyed and it is feared that there was heavy loss of life in the country districts adjacent to the Santa Caterina river. The fact that the water mains are broken at Monterey has forced the people to use the old polluted wells for drinking purposes. The local Young Men's Christian Association and the American colony are aiding in the work of rescue. No communication with the districts outside of Monterey.

## HARRIMAN NOT IN IMMEDIATE DANGER.

But His Life Must Be Regulated With Extreme Care is Verdict of Specialists.

Turner, N. Y., Aug. 30.—The trend of opinion regarding Harriman's condition was demonstrated today by the relaxation of the intense interest the community has displayed in that subject. Another indication was the thinning of the ranks of newspaper men who rushed here Friday when Wall street was first startled by a report that the financier was about to undergo a critical operation. One thing is certain. On Friday a noted specialist, perhaps several specialists held a consultation at the Arden house. What the verdict was can only be conjectured, but if they came to consider an immediate operation they decided against it. Harriman seems to be in no immediate danger but his life must be regulated with extreme care.

Employees of the estate who came down to Turner today said that Harriman appeared on the porch later in the morning in an adjustable reclining chair. He spent some time in the sun and said he had a restful night and is in good spirits.

## CONGENIAL JOB FOR HARRY THAW.

He is Made Librarian by Authorities at Matteawan Asylum for Criminal Insane.

Matteawan, N. Y., Aug. 30.—In search for a regular occupation for Harry K. Thaw, the authorities of the institution appointed him librarian.

## SPECIAL AGENTS FOR CENSUS.

Advisory Staff Has Been Appointed for Temporary Service at Washington.

Washington, Aug. 30.—The formulation of the census schedules, upon which the enumerators will enter the information they secure next April, is one of the most important subjects now before U. S. Census Director Durand and Assistant Director Willoughby.

The census law authorizes the director to determine the form and subdivision of the inquiries necessary to secure the information ordered by Congress.

To assist in this work Director Durand has secured the cooperation of a score or more of experts in statistics, economics, agriculture, manufactures, etc. They have been appointed expert special agents to serve for a short time while the work of formulating plans are under way and are now assembled in Washington. The agriculture, manufactures, and population schedules are the principal ones under current discussion.

In the formulation of the agricultural schedule four of these experts are acting as conferees, J. L. Coulter, H. C. Taylor, G. F. Warren, Jr., and Thomas M. Carver.

Mr. Coulter is instructor in agricultural economics in the University of Minnesota. He is also a special agent of the state board of health. He received the degree of A. B. from the University of North Dakota, 1904, and Ph. D. from the University of Wisconsin, 1908. He is an economist, statistician, and lawyer. He resides in Minneapolis. Mr. Taylor is professor of agricultural economics in the University of Wisconsin. He has won the degree of M. S. (Agr.) from the Iowa Agricultural College; that of Ph. D. from the University of Wisconsin; and finished his academic career at the London School of Economics and the University of Berlin. He is a specialist in economic problems in agriculture. Mr. Warren is professor of farm management and farm crops in Cornell University. He is a B. Sc., of the University of Nebraska; a B. S. A., an M. S. A., and a Ph. D., of Cornell. He lives at Ithaca, New York. Mr. Carver is a professor of economics in Harvard University, a Ph. D. of Cornell and was formerly assistant editor of the Economic Bulletin. He is a writer of economic subjects in various reviews.

Those at work on the manufactures schedule are Spurgeon Bell, Arthur J. Boynton, C. W. Doten, E. D. Howard, Emil P. Secker, W. M. Persons, Horace Sechrist, A. H. Willett, and Alvin S. Johnson. Mr. Bell was formerly assistant editor of the "Economist." He is a B. S. of the University of Texas. He was also in graduate work in economics in the University of Chicago. His home is in Chicago. Mr. Boynton is assistant professor of economics in the University of Kansas. He is an Harvard A. B. and A. M., of Columbia. He resides at Lawrence, Kansas. Mr. Doten is assistant professor of economics in the Massachusetts Institute of Technology. He holds the degrees of A. M., and Ph. D., from the University of Vermont, and also A. M., from Harvard. Mr. Howard is assistant professor of economics in Northwestern University. The degrees of Ph. B., Ph. M., and Ph. D. have been conferred upon him by the University of Chicago. He lives at Evanston, Ill. Mr. Secker is an expert on manufacturing industries, and resides in St. Louis, Mo. Mr. Persons is assistant professor of finance in Dartmouth College. He is a B. S., of the University of Wisconsin, and has performed expert statistical work for the department of commerce and labor. Mr. Sechrist is instructor of economics in the University of Wisconsin. For a time he was a special agent of the bureau of corporations, department of commerce and labor. He lives at Madison, Wisconsin. Mr. Willett is professor of economics in the Carnegie Technical School. He holds the degree of A. B., from Brown University, and of Ph. D., from Columbia. He is an authority on political economy. His home is at Shales, Pa. Mr. Johnson is an A. M., and A. B., of the University of Nebraska and a Ph. D. of Columbia. He is a statistician of wide experience. He resides at Chicago.

On the schedule for population W. B. Bailey is advising. He is professor of political economy at Yale University. His alma mater, old Eli, has given him the degrees A. B., and Ph. D. His home is in Springfield, Mass. On the dependent classes subject E. B. Miller, an expert in social statistics, is engaged. Other special agents appointed because of their fitness along the lines pursued by the census bureau have been added to the regular office staff by Director Durand. Alexander Bowie, ranch man, and cattle and sheep raiser, at Wheatland, Laramie county, Wyoming, has been placed in the division of agriculture under Chief Statistician LeGrand Powers. The subject of animals on ranches has been assigned to Mr. Bowie. Willard E. Hotchkiss of Evanston, Cook county, Ill., by pro-

(Continued on Page Eight.)

## ONE OPINION BY SUPREME COURT

### Territory vs. Jesse Kimmick Is Affirmed.

### WAS CONVICTED OF MURDER

### Railroad Case Is Continued Owing to Attorney General's Illness.

The territorial supreme court held only a brief session this forenoon and then adjourned until tomorrow. In case Nos. 1194-1198, Territory of New Mexico, appellee, vs. Jesse Kimmick, appellant, appeal and writ of error from the district court for Sierra county, the court handed down an opinion sustaining the judgment of the lower court. J. M. Hervey, former attorney general, appeared for the Territory, and Charles G. Bell, Percy Wilson and W. B. Childers, appeared for the appellant. Kimmick had been found guilty of killing Roy Cliff at Hanover, Grant county, after a dance. The opinion is by Judge Ira A. Abbott and the syllabus reads as follows:

"If instructions cover and correctly state the law of the case, it is not error to refuse to give other instructions on the same points, although they may be correct statements of the law applicable thereto.

"It was properly left to the jury to determine from the evidence whether the defendant was a deputy sheriff at the time of the murder with which he was charged.

"Instructions are to be construed together and the fact that any one taken by itself, apart from the others, may appear to be incomplete or incorrect, does not warrant reversal of judgment if they correctly state the law, as a whole.

"The instructions on the right of self-defense were such as the evidence in the case required and were sufficiently favorable to the defendant.

"There was evidence which made necessary an instruction that the jury had the right to find the defendant guilty of murder in the second degree, but none that would have justified a like instruction as to murder in the third degree."

Case No. 1237, The Arizona & Colorado Railroad Company of New Mexico, appellee, vs. The Denver & Rio Grande Railroad Company, appellant, was continued on account of the illness of Attorney General Frank W. Clancy.

## SOUNDS MUCH LIKE A SAILOR'S YARN.

Mysterious Gases in Ship's Hold Kill Five of Crew and Strip Them of Their Clothes.

San Francisco, Cal., Aug. 30.—Mysterious gases released from the hold of the U. S. collier Nan Shan when the steel bulkheads were stove in by a typhoon, are responsible for the death of five members of the crew, according to the story of the third assistant engineer, Elmer Hutchins, who arrived here yesterday on the cruiser Buffalo. The vessel was en route from Cavite to Hong Kong at the time of the accident. The water poured into the paint locker and the fumes began to rise in great volume. Captain Carver and five of the Filipino crew went to investigate. All were overcome but Carver was revived. When the men were dragged back from the hold it was found that by some inexplicable freak the bodies had been stripped naked by the fumes.

## ZEPPELIN AIRSHIP HAS DAILY MISHAP.

This Time Broke Two Propellers and Must Take Off Two Days for Repairs.

Buelzig, Germany, Aug. 30.—The Zeppelin airship which started at 11:24 o'clock last night from Berlin on its return voyage to Friedrichshafen met with an accident today and landed here at 7 o'clock. The two forward propellers were broken and a fragment of one of them pierced the envelope permitting the gas to escape. The airship, however, kept up by throwing over ballast until a favorable landing place was reached. The ship came down gently, and now rests in a meadow. It will take at least two days to complete the repairs.

## LOS ANGELES HAS HOTTEST DAY IN MANY YEARS.

Los Angeles, Aug. 30.—Yesterday's weather was the hottest Los Angeles has experienced in 24 years. Thermometers registered from 101 to 105. There were no prostrations.
