The New Mexican is the oldest newspaper in New Mexico. It is published every day except on Sundays and public holidays.

SATURDAY, DECEMBER 31.

Received of divine providence one New Year's snow in good condition; for which many thanks.

GOVERNOR PAINCE has made an excellent executive and the people of New Mexico wish him a happy New Year.

GENTLEMEN: Let us have good work for the people this session and leave nothing undone to give us good legislation.

A HAPPY NEW YEAR to the next governor of New Mexico, be he who he may, as long as he administers his office honestly, fairly and wisely.

A HAPPY NEW YEAR to all of you, big and little, great and small, thick and thin, fat and lean, within the boundaries of sunny New Mexico.

BEFORE this legislative session shall be over, several surprise parties will be sprung, but the NEW MEXICAN is on and will keep the people posted.

A HAPPY NEW YEAR to the people of New Mexico and may the first day of the year of grace, 1894, behold the state of New Mexico in existence and in full swing.

The NEW MEXICAN'S compliments to President Hayes and Speaker Branch; a happy New Year and be ye fair, just and impartial in your rulings and vote every time for the right thing and the proper measure.

There is some caviling by papers, that do not know what they are talking about concerning the proposed repeal of the law making the payment of a poll tax, a prerequisite to voting. Repeal this obnoxious provision nevertheless. It is a fraud and a delusion. Repeal it.

From all appearances, the interests of the coal miners of New Mexico are to be looked after at the present session. The coal mining interests of the territory are becoming great and important; and good legislation for their protection and for the men employed in coal mining would be timely and proper.

A HAPPY NEW YEAR to the members of the 30th legislative assembly; may they during the coming eight weeks work together unitedly and pleasantly and enact laws necessary for the proper conduct of affairs in the territory, for the advancement of every interest of the people and for the benefit of this commonwealth.

A HAPPY NEW YEAR to the outgoing federal officials of New Mexico; the NEW MEXICAN congratulates them upon the good record they have made; they will retire from office at the dictum of Grover Cleveland with the sentiment of the people of New Mexico expressed as follows: "Well done, ye good and faithful servants."

The first bill passed by the assembly, namely the one introduced by Senator Veeder and giving the governor summary power to remove tax collectors and other officials who shall be proven to be delinquents, is a very meritorious and timely measure. If the assembly keeps on passing bills of the kind of the one above referred to, the people of New Mexico will not grudge the cost of the session.

TO THE CITIZENS OF SANTA FE. The New Mexican has done faithful, telling and energetic work for the capital city for many a year and especially during the past year; it was instrumental in connection with the incorporators of the Santa Fe Irrigation company in bringing out the great enterprises now in course being carried on by the Santa Fe & Improvement company; it has fought for the capital city day in and day out; it has given employment to many a Santa Fe boy; it pays out weekly and monthly a large amount in salaries; it has brought lots of business here and has kept the name of the capital city ever at the masthead. With this little preface the NEW MEXICAN wishes the citizens of the New Mexico county of Santa Fe a happy and prosperous New Year.

EDUCATIONAL GROWTH. In no respect is New Mexico making more real progress than in her educational interests. The good work in this respect by the law makers of four and two years ago has been going on unabated until now it may be said that public interest has been thoroughly aroused. The success of the second annual convention of teachers just closed at Las Vegas, is most gratifying. There were forty-six thoroughly trained practical educators present and the papers read and topics discussed were of a character that would have done credit to any state in the Union. New Mexico is certainly on the right track now and the prospects for her educational interests in the future could scarcely be brighter.

A GOOD WEEK'S WORK. On no occasion in the legislative history of New Mexico have the council and house accomplished as much as we are pleased to be able to record to the 30th assembly in the first few days of the session. Usually, not only the first few days, but the whole week, is one of comparison, turmoil and excitement with little or nothing to show for the time and labor expended, and generally it is the middle of the second week before actual business has been commenced.

In the present case the second day found organization completed and the two bodies ready for actual work. Happily, there are no contests, and thus far business has progressed most satisfactorily, a number of bills, joint resolutions, etc., some of them of urgent importance, having been sent to the governor for his signature.

Thus from all indications the present session is going to prove a busy one, of much general benefit to the territory. The NEW MEXICAN congratulates the members on their record at the end of the first week of the session.

HELP THE PRINTERS. A law should be enacted providing that all territorial, county and municipal officers have all the necessary printing of their offices done within the territory and by bona fide printing establishments in the territory; why a county clerk or any other official should send to St. Louis or Chicago firms to have books made or printed stationary furnished for his office is not exactly clear, especially when the books can be made or the printed stationery furnished by printing and binding establishments within New Mexico; some institutions should be encouraged and certainly the newspapers of New Mexico, who are doing a great and constant work for the advancement and upbuilding of New Mexico deserve and should have fair consideration at the hands of the present assembly. This is not a political question, as by the enactment of such a law printing establishments publishing papers of Republican and Democratic proclivities will be benefited alike and no public interest can possibly suffer. The members of the assembly who will aid in having such an obviously fair and timely bill enacted into law will have the gratitude of the press and now-days it is not a bad thing to have the newspapers on one's side.

TERRITORIAL PRESS COMMENTS. The Santa Fe Railroad Company. The Santa Fe company is liberal with all the public interests in New Mexico, and there is no disposition in this territory to hamper the road with adverse legislation. Albuquerque Citizen.

Regulate Express Charges. The present New Mexico legislature ought to regulate and reduce the present exorbitant charges of the Wells-Fargo Express company. The present rates of this monopoly are unjust and oppressive and ought to be sold down to decent proportions. -Baton Range.

A Division of Colfax County. Gentlemen, hear in mind that the division of Colfax county is inevitable, and unless we take the field and assert our claims and rights in the premises, the division will be disastrous to our growing town. It is not a question of whether you can afford to assist in securing some advantage from the change, but whether you can afford to have the county divided, your taxes increased and the town ignored without receiving any benefits in return. -Baton Range.

An American State. Some of the senate amendments to Mr. Joseph's enabling act for admission of New Mexico are provoking no little serious discussion among some of the territorial newspapers. Some declare that the proposed limitation of the public schools of the new state to the English language in imparting instruction would defeat adoption of any constitution framed under the enabling act as amended. Others retort that unless New Mexico can be made an American state she should remain a territory.

There is reason in both assertions above noted - yet there is a possible course which can reconcile their antagonism. So great is the attachment of the native population for the Spanish language that a provision excluding it from the public schools would be defeated by a tremendous majority in the popular vote. Yet self operating machinery may be provided which will convert New Mexico into an American state without presenting of her native population the alternative of

For Bronchitis. "I never realized the good of a medicine so much as I have in the last few months, during which time I have suffered intensely from bronchitis, followed by pneumonia. After trying various remedies without benefit, I began the use of Ayer's Cherry Pectoral, and the effect has been marvellous, a single dose relieving me of coughing, and securing a good night's rest." -E. A. Higginbotham, Gen. Store, Long Beach, Va.

La Grippe. "Last Spring I was taken down with la grippe. At times I was completely prostrated, and so difficult was my breathing that my breath ceased as it continued in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid." -W. H. Williams, Cook City, N. D.

Lung Trouble. "For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing, severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured. I can confidently recommend this medicine." -Franz Hoffmann, City Centre, Kans.

Ayer's Cherry Pectoral. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 50¢ per bottle. Prompt to act, sure to cure.
