Was on deck now and could see those Franklin Stoves at Goebel's which are named after him, he would indeed be surprised, but the low price at which they are sold would cause him to drop his loaf of bread from under his arm and take a stove for this winter, instead of trying to depend on a fire-place.

An Annexation Stanchion Advocate Talking to Chicago Reporters.

Chicago, Oct. 19.—Judge Lannon, of Utah, in an interview this morning spoke against the admission of Utah as a state of the Union. He urges the annexation of Utah to Nevada, making the second largest state in the Union with 300,000 population to offset the Mormon population and to prevent the legalizing of polygamy.

WHAT BANKERS SAY.
Advocacy of Silver Denounced as Heresy—Elastic Currency Wanted.

Chicago, Oct. 19.—The closing session of the American Banker's association was marked by a paper read by President Hendrix, of the Union bank of New York. He said in the section of the country most fertile in financial heresy, which was embraced in populism and silver advocacy, bank failures had been most numerous and largest.

Horace White, of New York, spoke on the necessity of an elastic currency, and was followed by ex-Director of the Mint Leech, in the same view.

OF COURSE, OF COURSE.
The American Bankers association adopted a resolution this afternoon demanding the immediate and unconditional repeal of the silver purchasing clause of the Sherman law.

A CABLE ACCIDENT.
A Dozen Cars Derailed Miraculously Without Fatal Results.

Chicago, Oct. 19.—The tangling of the cable on the Washington street line today derailed and partly wrecked a dozen cable cars. They were crowded with passengers, most of whom lost their heads and became panic stricken. In crowding out of the cars many were badly injured, but fortunately none received fatal hurts.

WASHINGTON GRIST.

The Sherman Law Will Stand—Democrats in Caucus Fix Up a Compromise Scheme.

Republicans Elated Over the Middle—Appointments Hung Up—\$50,000,000 Shortage.

A DOUBTFUL CASE.
Washington, Oct. 19.—The silver men signed the Democratic caucus call without hesitation. The repeal men signed with some reluctance.

Later 3 p. m.—The Democratic senatorial caucus was in session two hours this afternoon and the steering committee of the senate say it has been agreed to compromise the silver fight. The Sherman law will be permitted to run until January, 1895, which will carry it over until after the next congressional election. Five of the eight committeemen have signed the compromise plan.

TO-DAY'S SENATE.
The senate met at 11 a. m. this morning and waited an hour for the appearance of a quorum.

Senator Stewart addressed the senate denouncing the effort to change the rules.

A TREMENDOUS SHORTAGE.
Secretary Carlisle has sent a report to the senate on the condition of the treasury which says that if the present condition of affairs continue there will be a deficit at the end of the year of \$50,000,000.

MINERS OPPOSE IT.
Representative Bell's bill which passed the house last week, providing for one year the operation of the mining laws requiring \$100 worth of work on every mining claim, is to be opposed by the Black Hills miners. These men insist that the benefits of the bill shall not extend to non-residents. They have notified Register Charles Fisher and claim that corporations hold many mining claims in the Black Hills and in other sections, and they will take advantage of this suspension to the detriment of the different mining regions.

APPOINTMENTS HUNG UP.
Information comes from Sec. Carlisle that all presidential appointments have been hung up until the senate acts upon the silver question. When Senator Brice called upon Sec. Carlisle this morning to secure action upon some customs and internal revenue appointments for Ohio, the secretary told him frankly that the president had put his foot down upon all appointments of the presidential class, and that there would be none made excepting probably a few of great emergency, until after the senate had acted upon the silver bill.

IMPORTS AND EXPORTS.
The treasury department has issued an advance statement of the imports and exports for the first nine months of the present year. During the year the value of imports was \$625,885,623; of domestic exports, \$587,041,462; of foreign exports, \$15,222,731; a total of exports, \$602,264,193. Imports for the nine months was \$22,221,440.

As compared with 1892 the relative situation has greatly changed. The imports greater by \$1,584,255. On September 30, \$46,859,800, or \$21,106,265 less than last year. The exports of domestic articles were greater by \$7,984,255. On September 30, 1892, the excess of imports over exports for the month was \$4,557,579; for the three months, \$76,625,080; but for the nine months the excess of exports over imports was \$29,204,090. In September, 1893, the exports of gold were \$1,436,832. Imports, \$6,678,945. The exports of the silver were \$4,742,082. Imports, \$1,914,789.

POLITICS CREEPING IN.
Democratic leaders say it will never do to let the session end without some result. They do not see a way out of the difficulty yet, but they are confident some solution will finally be reached. They say the party might as well disband at once as confess its inability to legislate. They insist that action of some kind must be the result of the session and they believe it will not be long before in this regard seems to be based more on the idea that the party will be governed by the instinct of self-preservation than upon any idea of what the form of action will be. It seems to be the general idea among senators on both sides of the chamber that there will be nothing decisive done this week at least.

Republicans are delighted with the middle. They are inviting attention to the inability of the Democratic majority to do anything, and if the session should end in absolute failure every Republican newspaper in the country and Republican speaker on every stump would point to the spectacle of the Democratic party in undisputed possession of the entire legislative machinery, but without the ability to enact into law the first recommendation of their president, although the majority of the Republicans have been standing ready and anxious to help them in every way.

NATIONAL NOTES.
Senator Voorhees has for a third time abandoned the night session idea.

Senator Voorhees intimates that the present week may end the long debate. In the house to-day only routine business received attention. The bankruptcy bill was made a special order for Monday next.

At the request of the citizens of the recently opened Chertock strip, the newspaper has directed that the editorial remain there until Nov. 20.

Reports to the comptroller of the currency show that the reserve held by the national banks at the close of business Oct. 8, in the cities mentioned, was as follows: Minneapolis, 29.07; Milwaukee, 45.54; Louisville, 31.30.

The Mexican government has appointed Senor Don Jose Canals as a commissioner under the treaty of March, 1889, to determine the questions of boundary growing out of changes in the bed of the Rio Grande and Colorado rivers.

The president, to a Democratic senator visiting him, spoke highly of the unwavering support given him by repeal Republicans. He said that there would have been no question of unconditional repeal if he had been accorded such support by members of his own party. He was very bitter toward the Democratic senators.

The Democratic senators have again put their steering committee—consisting of Messrs. Gorman, Gray, Ransom, Vilas, Walthall, Cockrell, White (La.) and Blackburn—to work upon the silver problem. It is said they have prepared a rough draft of a bill to be submitted which simply provides for an extension of the present law for one year from Jan. 1 next.

In the A. T. & S. F. shops at Topeka 1,200 men have resumed work. The turning point in the business depression on this line has been reached, and normal business shows a splendid increase in both passenger and freight departments.

\$4,000,000 FIRE.
A Dismal Conflagration Rages All Night in New York City.

New York, Oct. 19.—Since 7 o'clock last night until 7 o'clock this morning, a terrible fire was raging in New York city. At the latter hour it was under control after destroying \$4,000,000 worth of property. It started in Wm. Campbell & Co.'s big wall paper house on 41st street, and spread to neighboring and surrounding six-story buildings as far as 11th avenue and 40th street.
