

For the Asheville Citizen. GRAHAM COUNTY.

Splendid Homes for Good People.

Editors: Citizens—
Allow me space in your valuable paper for a few dots from Graham County. The county seat is off from Cherokee county by the Legislature of 1871-2, and named in honor of William A. Graham, who was Governor of the State in 1845. Robbinville, the county seat, is situated 399 miles west of Raleigh.

The surface is hilly, and many places mountainous, with rich valleys and splendid water power. It is one of the extreme western counties of the State. It is bounded on the East and North-East by Swain county, on the North and North-West by Swain county and Tennessee, on the West by Cherokee county and South by Macon, Cherokee and Swain. The county seat of Graham is situated 13 miles from Jarrett's and 12 miles from Valley Town, points on the Western North Carolina Railroad. The county abounds in some of the best agricultural and grazing lands west of the Blue Ridge; in fact, nearly all the lands are well adapted to the growth of grasses of the various kinds. The timber is in quality abundant and splendid in quality, consisting of cherry, walnut, poplar, hemlock, ash, hickory, chestnut and nearly all the different species of the oak. The line of the Nashville and Charleston Railroad will run through Little Tennessee through Swain county nearly on the line of Graham's forest distant of fifteen or twenty miles. The Western North Carolina Railroad runs near the borders of the county to the Tennessee River to the north of the noted Nantahale and up the river to the foot of the Gap, then down Valley River to Murphy. Thus Graham will soon be surrounded by railroads.

The water power is abundant and sufficient at most any point in the county for cutting and manufacturing its timbers into various uses within the borders of the county.

With the exception of a few locations the county is sparsely settled. Graham would support with the expenditure of some capital a large population. Medicinal herbs are one of the staples of the county. Corn, wheat, oats, rye and buckwheat are the principal grains grown and yield well when properly cultivated. We need immigration and capital, men of brain, good morals, with plenty of push and perseverance in them. Such could succeed. Lands can be bought on reasonable terms. Come and see us. We will welcome you.

Robbinville, N. C., May 1888

Brethren Pass Him Around.

About a year ago Dan Rutherford, representing the Columbus (Ohio) Buggy Company, visited Marion and at one of the hotels, without provocation, opened a bitter denunciation of the South, the Confederacy and our leading men, saying that "we were all d—bels, and ought to be hung." His abuse of left Davis was bitter in the extreme. He was spared a thrashing by the proprietor, who has been a Confederate soldier, because he was a guest under his roof. But last Friday he was here again, and while waiting at the depot for his train, began just as the proprietor came up, to boast of last year's performance. Rutherford covered at the command to stop and without remission, even by word, submitted to as strong a presentment of his character as words can convey. In a few moments he would have been severely thrashed had not the cars afforded a timely retreat. These characters are seldom met now, and the few that remain are the meanest and the lowest of the low. The company has missed one sale of which we know because of this man, and there may be many more. Such a representative as this will injure any firm. Brethren of the press, please pass him around and let the people know who it is with whom they deal.—Marion, N. C., Index.

Jumping from a Height of 10,000 Feet.

DETROIT, Mich., April 7.—An Evening Journal special from Jackson says: "Prof. Hogan made a magnificent leap from his balloon shortly after noon to-day. The first attempt at an ascension was a failure, but the second effort was a success, and the air ship soon reached a height estimated at nearly 10,000 feet. At this elevation the balloon seemed to stand still, and by the aid of glasses Hogan could be seen edging over the side of the car. Suddenly a cry went up 'He's jumped!' and the crowds craned their necks to see the man dash himself to pieces. The parachute failed to work at first, and the daring aeronaut was soon driven to the earth with lightning speed. A moment later, however, the umbrella shaped life-preserver opened its wings, and Hogan's rapid descent was checked. From that point he dropped slowly and reached the earth safely in four minutes at a point about one mile and a half from the city. The foolhardy man dropped 500 feet before his parachute opened.

A Matter of Business.

Tailor—No, sir, I won't let you have this suit of clothes until you pay for it.
Customer—But, my dear sir, if I can't have the clothes to wear, I can't pay for them.
"Don't see any sense in that."
"You don't ch? Well, you've got a mighty poor head for business. How do you suppose I'm to borrow enough to pay for them if I have to go around among my friends in the ragged suit I've got on?"—Omaha World.

Give Them a Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with mucus which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Beech's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. d.w.c.

J. A. TENNETT.

Architect and Contractor.
Plans, specifications and estimates furnished. All work to be by contract for, and no charges for drawings on contracts awarded. Office—No. 13, Hendry Block, north of Court House, Asheville.

LATE NEWS BRIEFS.

Carefully Condensed from Mail and Wires.

Gen. Q. A. Gilmore, U. S. Army, is dead.

United States vessels of war are arriving at Tangiers.

Roscoe Conklin, who is quite sick was reported better Sunday.

The legislative, executive and judicial appropriation bill has been completed.

The contract for the new hotel, to cost \$100,000, at Augusta, Ga., has been awarded.

A. L. Bargamin, book-keeper for E. K. Taylor & Co., Richmond, has "gone to Canada."

President Cleveland has been invited to review the Grand Army parade in Brooklyn on Decoration day.

The Elbia Iron and Bolt Company and the Connecticut Tube Company, of Pittsburg, Pa., have suspended.

1,188 Rhode Island gave a Republican majority of over 6,000. At the late election it only gave 1,700 majority.

The proposed marriage of Prince Alexander, of Battenburg, and Princess Victoria, of Germany, has raised a rumour in German and English official circles. Efforts are being made to smooth the thing over for the present.

The Democratic members of the House caucused Saturday and determined to pass the bill allowing the four territories seeking admission into the Union to be voted for in a lump. The election in the territories will be held next November.

General John Newton, of New York, Commissioner of Public Works, has been elected President of the Panama Railroad Company.

His duties will not interfere with his promise to Mayor Hewitt to continue to act as Commissioner until after the Presidential election.

While Mrs. Marie Wright, a Washington correspondent, was riding near President Cleveland's country home on Wednesday last her horse became unmanageable and she was in great danger of being thrown. The President, who was also riding near by, saw her plight, dismounted from his horse, and, seizing the bridle of Mrs. Wright's steed, subdued the animal after a severe struggle.

It was rumored in Buffalo, N. Y., that President Cleveland was about to veto the bill appropriating \$250,000 for public buildings in that city. The citizens held a meeting and appointed a delegation to wait upon the President and beg him "Don't." One of the delegates an old friend of the President, said: "Cleveland was always just like a bull-jog; and he has concluded to veto that bill all the delegations on earth can't stop him."

If it shall turn out to be true, as indicated by advice by telegraph, that the suffrage amendment to the Constitution of Rhode Island abolishing re-estate qualifications for naturalized voters received the necessary three-fifths vote at the election on Wednesday, the Democrats, after all, will have obtained a substantial victory. The loss of the Legislature would be more than compensated for by the adoption of this amendment, while the Democracy, always on the side of the people, supported it. We hope it was carried.

Would Have Been in Order.

The Board of County Commissioners having analyzed the registration list, the following would have been in order, to wit:

Be it enacted by the powers that are, 1st. That it having been made to appear to our satisfaction that Dave Smith alias clever fellow, and Charley Baird, Smith & Baird, are now selling good goods lower than any other house in fourteen counties and that it is the duty of all good citizens and citizenesses to patronize them in preference to any other concern known; and therefore be it enacted that we and each of us of our own free will and accord, do depose and say that the aforesaid Smith & Baird are selling Furniture, Groceries, Dry Goods, Clothing and Groceries of the best quality at such prices that further reduction is unnecessary and they are hereby appointed salesmen for the county of Buncombe: Ordered that a copy of this enactment be published in the city papers of Asheville, N. C.

On motion adjourned. J. S. B. Sec'y.

Call and examine our stock of Clover, Timothy and other seeds, and oblige. Yours truly, SMITH & BAIRD.

WEAK, UNDEVELOPED PARTS.

Order your camera and accessories from the only reliable source. Write to J. A. T. for full particulars.

Delightful Excursion!

ASHEVILLE

All the above goods are made in Congress, Button and Lace, and if not sold by your dealer, write W. L. Douglas, New York, N. Y.

HERRING & WEAVER,

AGENTS,

ASHEVILLE, N. C.

Jan 24 1891

Postponed.

Owing to the absence of some prominent citizens who are interested in the street railway business, Capt. Atkinson has postponed the meeting called at his office for to-day at 11 o'clock until Thursday morning at 11 o'clock.

The Till Family.

Notwithstanding the disagreeable weather last night, an average audience turned out to hear the Till Family, in concert, at Opera Hall. Every true lover of music was delighted, and the selections given were of a high order. The leading feature of the evening's entertainment was the Rock Band. The Tumbleronion performance was very fine, and taken as a whole the performance was exceedingly novel and interesting. The Till Family are musicians of a high grade, and we hope to see the Opera Hall filled to its fullest capacity, at the performance this evening and to-night.

Church Dedication.

Rev. T. M. Myers of this city, dedicated on Sunday a new Christian church building, near Mills River, just within the county of Buncombe. The church was named Antioch, and starts with sixty members. It is among a good people. A number of citizens of Asheville accompanied Mr. Myers to the dedication. The ceremony was very imposing and interesting, and was witnessed by a large congregation. Mr. Myers preached a very able sermon.

How to Make Money.

The way to make money and save money is to buy the best advantage what you are compelled to buy on the most favorable terms. Always buy the best goods and make your money go as far as possible.

A dollar saved in buying ten dollars worth of goods is a dollar saved for a rainy day. This being the case the question arises where to buy the largest amount of goods to the best advantage.

You must decide this question by practical experience.

We guarantee to give you as much of the same class of goods for your money as money, if not more, than any house in town. All we ask is a fair trial.

We sincerely thank the citizens of Asheville and surrounding country for the liberal patronage bestowed upon us heretofore, and by fair and honest dealing trust to merit a continuance of the same.

We always keep a full line of fancy and home groceries, flour, lard, mill feed, grain and produce.

The dead-lock in the House of Representatives on the direct tax bill continued through Saturday, and was adjourned over to yesterday.

A man named Post and a woman named Stump were married some time ago by a preacher named Lyndon in a little town in Maryland. They now have a boy named James Lamp Post.

A syndicate has just been organized in Georgia to establish a factory for making first class paper out of cotton stalks. The best newspaper can be made for two cents per pound. It is claimed.

In boring for oil near Newville, Cumberland county, Pa., a valuable mineral spring has been developed. A boring 4-1/2 feet has been suspended, a well-buried summer resort being considered as good a speculation as an oil well.

Prosperity.

The country has not for a long time been in as prosperous a condition as the present. Every one feels that good times have come at last, and come to stay, unless driven away by their own foolishness. This may be done, of course, by extravagance, debt contracting, &c., but if we will be careful, live within our incomes, and not allow ourselves to believe that any other relief is as good as Dr. Hart's Great Relief, all will be well. Lenders are just now an effort being made to sell other relief instead of the old reliable Dr. Hart's. We warn our friends to be on their guard.
