Schley Will Accept.

Washington, October 27.—A committee representing the Woman's National Industrial and Patriotic League visited Rear Admiral Schley to-night and informed him that the league had decided and was ready to undertake the task of procuring, by popular subscription, a home for him at the national capital.

The National League has about twenty-two branch organizations throughout the country. Mrs. Charlotte Smith, as chairman of the national committee, informed the admiral that all plans preparatory to going on with the work had been perfected, and as he had accepted the offer of the industrial women the plans would be put into active operation.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may do a patient for years on their mercurial and potash remedies, but he will never be cured.

I was afflicted with Blood Poison, and the best doctors did me no good. Though I took their treatment faithfully, in fact, I seemed to get worse all the while.

It is like self-destruction to continue to take potash and mercury, besides totally destroying the digestion, they dry up the marrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.
