Dry Goods, Clothing, Boots,  
and shoes, Hats, Caps,  
HARDWARE.

Special inducements to Cash Buyers. Give us a call before purchasing elsewhere. 6-1f

## Out o' Luck.

Tossed by the waves of relentless fate  
No shelter in sight—no home.  
No friend, no foe, no kin, no mate—  
I know not love, I know not hate;  
A stranger on Earth I roam.

With the past forgot, and memory dead,  
And the future dark to see—  
Knowing not, caring not where I'm led,  
Baffled and beaten, I struggle ahead,  
Till Fortune shall cease to flee.

Better to fall in the fight for gold,  
In the effort and heat of the chase;  
Better the Desert my bones should hold  
Than to plod through life and in want grow old—  
I'll win or I'll die in the race.  
—P. C. B.

## From the Enterprise.

Jack Dalton plead guilty to the charge of horse stealing and was sentenced to one year in the penitentiary.

The Kit Carson and Silver Flake mines in Big Bug district have been sold for \$25,000.

A continuance in the cases of J. Chapman and Henry R. Curtis indicted for murder has been denied. Trial set for July 23d.

The shipment of bullion made by Wells, Fargo & Co. during the month of May, amounted to the sum of \$70,000, of which \$60,000 was silver and \$10,000 was gold.

A number of Zuni Indians have become members of the church of the Latter Day Saints.

Hewes, shot by Ledden at the Verde, is much improved and it is thought he may recover.

The appointment of General Fremont as Governor of Arizona was made at the solicitation of New York friends, as a provision for his pecuniary needs.

## An Important Land Office Ruling.

WASHINGTON, D. C., April 15, '78.

Referring to your letter of the 21st ult., I have to state that a mining claim must be located in accordance with the local laws and Congressional enactments, and the amount of expenditure required by local laws must be actually made upon the claim to entitle the party claiming the same to hold it. The Congressional enactment requires that not less than the amount therein specified must be placed upon the claim annually. It is only where parties comply with the local laws and the Congressional enactments that they can legally claim mining land.

Very respectfully your ob't serv't,  
J. A. Williamson, Commissioner.

They have in Hart county, Kentucky, a man by the name of William Bowman, who was thrown away in the Apalache mountains, North Carolina, when an infant and was found by an old bear and adopted as a cub. At the age of about ten years he was captured, tied hand and foot, and then his captors found that he could not talk, nor could he be persuaded to take any food but milk, which he sucked from a bottle, showing that he had lived solely by the nursing of the bear. Bowman is now a farmer near Omega, and any one doubting the truth of this statement can have it verified by seeing him.

The war in the Island of Cuba is finished. The insurrection is entirely at an end. Vicente Garcia will leave the Island for St. Thomas. All insurgents in the Eastern department have laid down their arms. General Martinez Campos is expected at Havana in a few days, when peace will be officially proclaimed.

A late San Francisco paper says: "The bark B. F. Watson arrived at this port yesterday with a cargo of between 600 and 700 Chinamen. The Oceanic, which arrived from Hongkong on Wednesday evening, brought 575 Chinese passengers.

## Edison's Last and Best Invention.

The Cincinnati Saturday Night gives an interesting account of one of Edison's inventions, thus: "Imbibing a mint julep in the saloon adjoining, a brilliant idea flashed through his brain, and before he left the place he invented an instrument that is likely to revolutionize the entire saloon business. It is a machine so constructed that when a person who has just been partaking of some spirituous beverage breathes into it, the action of his breath upon a peculiarly prepared substance (also the invention of Mr. Edison), made to revolve slowly by means of a small crank, makes such an impression that by again applying the lips and turning the crank the other way, the effects of the drink can be reproduced as many times as desired, no matter how great a length of time may have elapsed. A man provided with one of these instruments could prepare himself with cocktails for a long journey, simply for the price of one drink. Edison christened it the "toddygraph." Of course the saloons will fight against it bitterly, as it must inevitably destroy the business of ninety-nine out of a hundred of them. A person can mix his drinks just to suit himself, and then stock his toddygraph with a supply of different beverages sufficient to last him a life-time. And when he has drunk himself to death with it, his children can bring the instrument out occasionally, and revive tender recollections of their parent by turning the crank and getting a whiff of the old man's breath."

## A FUNNY DISCOVERY.

An Englishman made the new silver dollar, and some observing person with a good deal of time on his hands says of that curious coin: "By turning the coin top side down, and covering the base of the neck with the fingers, and allowing the chin and lips to show, it makes a complete old English king, crown and all. The Jewish nose is to be noticed plainly. Also, the hair at the back of the neck forms a lion's head if held under the fingers in same position." As England is the mother country, the coin is thus a happy hit. There are those, however, suggests the Louisville Courier Journal, who will look upon it as a bad omen.

The Port Phillip and Colonial Gold M. Co., crushed during the month of January, 4,581 tons of ore and treated 30 tons of iron pyrites, which produced 1646 ozs. 13 dwts, 12 grs. of gold—value of production, \$3,711 2s. 10d.; profit, £732 10s. 8d., yielding therefore a net profit of only about one dollar per ton. This is in Australia a flourishing mine, while our mine owners would consider it a very poor investment. However, the Australians go on the principal that half a loaf is better than none, and if our Arizona miners would once come to the same way of thinking, there would be hundreds of mines opened that are now lying idle.—Arizona Star.

An exchange says: "New York women who embroider all day do not make over \$3 a week." The best reason that could be assigned for building another trans-continental railroad and giving these poor women a chance to go west and south, marry and if industrious raise a large and interesting family, and perhaps a future president. More women in the West are absolutely pined for. Globe, alone, will provide fifty husbands for as many women as the class referred to, in a week after their arrival.

The day is not far distant when the housewife will glance into the woodshed, and, finding the husband has gone off without splitting the daily allowance of fuel, will take down the photograph, howl into it a volley of epithets that will register 100 pounds pressure to the square inch on the safety gauge, and then call out to her boy: "Here, John, go down town and grind that out to your darned lazy old father, and see that you turn the crank lively, too."

—Elko Post.

## The reports of the Pope's falling health and contemplated abdication are denied.

Thomas Winans, the Baltimore millionaire, has gone down to duty death.

General Butler is the noblest straddler of them all, remarks the New York Tribune. He caucuses with one party and votes with the other.

President Hayes is openly charged with tampering with witnesses previous to their testifying before the Potter committee.

Wm. and A. Wait Anderson sailed from Boston on the 7th for Havre in a boat 19 feet long and 6 feet 4 inches beam, provisioned for sixty days.

Fifty million dollars was the sum Secor Robeson spent for repairs alone on the navy which now has less than a score of ships fit for use, and half of these of little account.

The Democrats of Oregon claim the election of Governor and a majority of the legislature, consequently a U. S. Democratic senator and one congressman, and perhaps two.

The Chicago Times says: Ben Butler is the tail of the Investigating Committee; but it must not be forgotten that the intelligence, enterprise and ability of a hornet are in his tail.

A Bishop of the Church of England, recently died in Canada, at the age of 119 years. He was the father of eleven children, eight of whom were born at four births. One of his daughters also has had two pair of twins.

Dr. J. B. Lawrence, Treasurer of Mohave county, is published as a defaulter. He has surrendered property valued at \$2,589.67, but is still in arrears \$2,589.77. His bondsmen are looked to to fork over the latter sum.

The Southern Pacific Railroad Company continue to put up buildings here; a dwelling house and store-room has just been completed near the depot, and a fine car-repair shop is nearly finished close by the round house.—Yuma Sentinel.

The Sentinel announces the arrival at Yuma, for L. J. Webster of this place, on the 8th, of 27 mds., (packages, we presume) on the 11th for Vosburgh & Kline 68 groceries, 2 oil; on the 13th for Dr. Vail 17 drags.

The Cincinnati Gazette says: "a cat would not be convicted of a midnight brawl upon the testimony of such a man as McLin." Yes Hayes holds his seat by virtue of McLin's testimony, remarks the Detroit Free Press.

This is the same McLin whom Hayes appointed to a judgeship in New Mexico and whom a Republican senate refused to confirm for the reason that he stank in the nostrils of the nation.

It is not strictly consistent for the friends of Secretary Sherman to assert, first, that he did not write the interesting letter to Anderson and Weber attributed to him; and second, that there is nothing in the letter to be ashamed of, anyhow. It brings up the case of the woman who was sued for borrowing and not returning a wash tub. Her answer was, first, that she never borrowed the utensil; second, that the hoops were all off of it, and it was of no account.

There is no good will between Prussia and France or Rome, but the recent attack on the emperer of Germany has caused such general alarm that the French government offers to discover Nobling's French correspondents, and the pope has directed instructions to be sent to the Catholic clergy of Germany to do all in their power to arrest the spread of Socialist ideas. The wounded emperer is thoroughly alarmed at the repeated attempts to kill him.
