

THE ARIZONA SILVER BELT

Saturday, April 14, 1883.

LOCAL NEWS

The sociable netted ninety dollars. Friday's mail was a long distance behind.

It snowed in Globe on Friday morning. Binehart is ready to furnish ice at bottom prices.

There will be some unique costumes at the Masquerade ball.

R. F. Kollner intended to leave for Globe on the 12th inst.

Abe Henderson is off to San Francisco. He will be back soon.

Dr. Heineman's house is rapidly approaching completion.

Mr. Walbridge of the firm of Fisk & Walbridge is out of town.

We are indebted to Mrs. John Jones for late Monday, P. A. papers.

Capt. Sharp comes to see us once in a while, and is always welcome.

Don't forget that the time to subscribe for the Silver Belt, is now.

Frank Middleton and family started for Flagstaff last Tuesday morning.

The butchers have decided to close their shops at two o'clock on Sunday.

Mr. Simmons, of San Carlos, is in Globe. Mr. S. is a pleasant gentleman.

Read H. W. Fiske's new ad. His new store is one of the best of its kind in Arizona.

They have got a new brewer at the Pinal Brewery and he makes excellent beer.

Con Burns and W. Board intend leaving Globe to-morrow morning, for a trip east.

The society editor of the Belt was the auctioneer at the "Sociable" the other night.

Outside advertisers who want to reach a host of readers should advertise in the Belt.

Geo. Walker, who was at one time employed by the Mack Morris Company, is in Globe.

The ladies who presided at the sociable were pretty as pictures and as good as they.

Vosburgh and Newton are sending six thorough bred young Durham bulls to their range.

Don't forget the masquerade ball. Make your costumes, or order them through Schein.

Tom Pascoe had some trouble getting a prisoner to the jail, a few days ago, but he got him there all the same.

Rev. Mr. Girard, of Florence, a Catholic priest, is in Globe, and will celebrate High Mass at the school house, on Sunday morning, at 10 o'clock.

August Piper, one of the proprietors of the Pinal Brewery, was scalded in the leg last week. It is healing rapidly.

Bill Mallory says his mine is so favorable for working, that he can take out, single-handed, six tons of \$100 ore each week.

The Takoma smelter, last Tuesday morning, turned out a five hundred pound bar of copper, to every two pots of slag.

H. W. Fiske, the efficient Public Administrator of Gila County has his office under the Masonic Hall, Broad Street, Globe.

Frank Middleton lost two horses Saturday night. They are supposed to have been stolen by the prisoners who broke jail.

WANTED—a map of Globe District or a tracing of one. Any person having the same would confer a favor by informing us of the fact.

Everybody was pleased when Mrs. V. Anderson won the gold ring at the sociable and Mrs. Graves the artistically decorated guess cake.

Billy Hanson made his appearance the other day with a plug hat on. It was a new revelation to our slouched-hatted population.

Three prisoners made their escape from the county jail last Saturday night. No blame attaches to the Sheriff or his assistants.

When the temperature in this sanatorium gets so high that it is tired climbing, we'll go down and cool off in the ice house.

The ice machine is at work, and considerable stock is already on hand, so that if anything happens to the works customers can be supplied.

The anthem was well sung last Sunday evening. Mrs. Fisk's voice gave the singing a charm which was lacking in the male quartets.

It would be a pretty nice stake for one man if he had the price of the rations that have not reached the Indians at San Carlos since last August.

An Astonishing Run.

The Takoma smelter stopped running on Wednesday. It will be idle for a short time. During the last twenty-one hours they ran 16,000 pounds of copper bullion; and in forty-five hours 29,000 pounds of copper and 17,000 pounds of matte.

The Hon. Pat. Hamilton has been in town for several days gathering material for his forthcoming work on Arizona. The book will contain at least three hundred pages.

Vinson Anderson, for the last three years a resident of Globe, for fifteen months in the employ of Fisk & Walbridge, Bankers, and since the election of D. B. Lacey, Treasurer of Gila Co., his assistant, leaves Globe, next Tuesday for Silver City.

The night of the Indian scare at San Carlos, one of the employes got badly off his hands. The single Chiricahua became magnified in his eyes to a band, who, to use his own words, were "shooting in all directions, and were coming down to the agency."

Mr. Sage, the government scout at San Carlos, had a needle gun which he got resighted and shortened in the barrel, and which he sold, or said he sold, to an Indian.

An outrageous proceeding, that ought to be punished, occurred a few days ago, at San Carlos. A man employed by Agent Wilcox who had some business connection with one of the late traders at the reservation, went into the house of the latter and with leveled pistol compelled the payment of a claim which, as the story is told to us, was unjust.

The cemetery on one of the foothills west of Globe, has seventy-six graves in it. This little "city of the dead" has a suburb in almost every hill around it, and the population did not all get there through natural causes.

The Church sociable was a grand success. The instrumental duet by Mrs. Chas. Fisk and Mr. Johnson, was good, as was also the vocal duet by the same lady and Mr. Hanks.

William Luddy, a well known printer and a good fellow, who has been employed in the office of the Globe Chronicle for several months, and was formerly on the Belt, left Globe on Wednesday morning for Florence.

How many registered voters did you have in the mail yesterday afternoon?

To-morrow evening the pastor of the Methodist church will preach at the usual hour.

Old Dominion Copper M. Co.'s shipments for the week is, 182 bars—58,640 pounds. Total shipments, 2,709,250 pounds.

Yesterday afternoon, the incoming stage was held up, between Riverside and Florence, and the mail taken away. This stage robbing is getting tiresome.

Several agency employees are on the street. It must be that they are laying in a fund of health, for the hot weather they must soon experience at San Carlos.

The Brewery boys are going to have twenty tons of ore worked at the Stonewall Jackson mill, which they estimate will work \$500 per ton.

Con Burns is bulkheading his property where it touches the line of Pinal Creek, and making ready for the time when the freshets will be here.

W. V. Anderson is making quite a respectable office, for the District Attorney and the Clerk of the Board of Supervisors out of Fiske's old gun shop.

Gila County has been singularly fortunate in her public officers, and the new Assistant Treasurer, G. S. Van Wagenen, is not an exception to the rule.

The Takoma Company ran 83 large bars of copper bullion one day this week in an eight hour shift. Each bar had more or less of matte on it besides.

Cook, the barber, is pushing work on his Florida mine. He has five feet of ore, an assay from which yielded \$353.50 to the ton. It is a white quartz, carrying a chloride of silver.

Burge, the photographer, has some of the best views of Arizona scenery, ever taken. People in the east who desire them can send their orders through the Silver Belt.

In connection with the editorial article, headed, Silver Belt, it is worth noting the fact that Mr. Robb has been associate editor for three years, and Mr. Arana foreman for four years.

There's a Mexican washing dirt, on Pinal Creek, about two miles south of the town, and he claims that if he worked hard he could make \$15 per day. This is not written to induce emigration.

The Hon. J. V. Graves and his estimable lady, have come back to us again. Mrs. Graves' absence has been almost an uninterrupted illness, but the climate of Globe will soon restore her to her wonted health and vigor.

Whoever took a hat that belonged to some one else, without leaving his own, on Wednesday evening, will get a white mark in heaven, if he returns it in time for Church to-morrow evening. It can be left at the Belt office.

The party given at the school house, last night, in honor of Mr. and Mrs. V. Anderson, was the pleasantest affair of the season. The music was very fine, and the guests vied with each in their desire to get enjoyment out of the occasion.

A man named Arthur had a dispute with another named Peterson, at Miami, on Tuesday last, and nearly killed two children. He skipped the country, but whether it was for fear of punishment, or chagrin at missing his man, we have not learned.

The position of Probate Judge will soon be vacant. We want a good man in it—a voter, an old resident and a man who has not got the itch so badly that he wants to hog everything. Judges Allen and Swasey are mentioned in connection with it, and either of them would make an efficient officer.

E. O. Kennedy has leased the Isabella mill for ninety days, commencing on the first of May, with the privilege of renewal for an additional ninety days. This affords an excellent opportunity for getting ore worked, as Mr. Kennedy will do a custom business. His well known ability and honesty will insure him a steady run. Take your ore to him.

The Chiricahua get their supplies of ammunition from Tucson, through the reservation Indians. All the agents this side of Tophet cannot prevent it. We do not blame Mr. Wilcox for it; but we do for saying that his friendships want to fight the hostiles if they did, the Chiricahua would all be dead before another moon.

Warner, the kidney cure man, sends us a circular in which he offers \$200 for the discovery of a new comet. We handed it to our local editor who says there are two things he ain't "looking for"—Indians and comets; the first, because finding them isn't wholesome; and the latter because they can only be discovered when a man is full of Arizona corn juice.

We are requested by Mr. Hunter, the late telegrapher at San Carlos to say that, Gen. Crook was never in his (Hunter's) office at San Carlos.

The Total Wreck.

This mine is located within eight miles of Pantana, on the S. P. railroad, and is only a few hours ride from Tucson. From the depot to the mine there is a good road of easy grade. Quite a town has grown up, and a large number of people are employed. Our mining editor visited it in company with the superintendent, N. R. Vail, and two Eastern gentlemen, one of whom is a large stockholder, in the night time.

The percentage of each is small, though, looking at the ore in place or handling it the iron seems to be the pervading mineral. It is safe enough to say that there are 40,000 tons of ore in sight in the mine, and the figures are arrived at by cubing the known depth of the ore body by its developed length, and multiplying by what in our opinion is a small average thickness of vein. As the bottom is in ore, it goes without saying that another 40,000 may be below. As this ore is estimated to average \$60 to the ton, with the 4,000 lying on the dumps, makes \$2,840,000 upon which the company can calculate, and from which they should get dividends. A 20-stamp mill is working steadily, and from the first thirty days run, \$50,000 were shipped, and it was estimated that about \$20,000 more was in the mill in different forms—amalgam, retort, &c. The mill is kept in apple-pie order, and for a new one, runs very easily.

The ore is landed in a cheap and expeditious manner. The superintendent, N. R. Vail, is devoting all his energies to making a success of the mine, and it certainly has all the elements of success in it. The stockholders of Total Wreck are to be congratulated upon having so good a property. Outside of the Silver King, we have not seen a mine in Arizona having so large a reserve of ore in it.

Mr. Wilcox, through his Washington agent, Teller, has had influence enough with the signal service to get Hunter, the telegrapher at San Carlos, discharged. The reason is that Hunter would not read Mr. Wilcox's telegrams, nor tell him the contents of some that were in transit. In view of the fact that Hunter is a cripple, both legs being cut off above the knee, this action of the Agent looks like malevolence gone to seed.

The cause of the delay in the mail yesterday was, that the horses were out on the hills feeding, and the storm stampeded them.

Josh Licurance was in town this week. He speaks in a very well satisfied way of his copper prospects on the Gila.

A LESSON IN SPELLING.

Since the introduction of Spelling Matches, many words have come prominently into notice—words that were previously, comparatively unknown. For instance, we find Antiseptic, meaning: preventing and stopping all fermentation and decomposition, and Antiseptic; Pankinrin, then there is Antipyrin, cooling down inflammation and fever heat. These three words, so often miss-spelled, are three of the cardinal virtues of something that will cure many a bad spell, and that is Salicylic acid. It is pronounced Sal-i-cyl-i-ca. Warranted to afford immediate relief, and guaranteed to cure Rheumatism, Gout or Neuralgia.

A COMMON-SENSE REMEDY.

Salicylica. No more Rheumatism, Gout or Neuralgia. Immediate Relief Warranted, Permanent Cure Guaranteed.

FIVE YEARS ESTABLISHED AND never known to fail in a single case acute or chronic. Refer to all prominent physicians and druggists for the standing of Salicylica.

ECRETE—The only dissolver of the poisonous uric acid which exists in the blood of rheumatic and gouty patients. SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects.

It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid.

SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. The most intense pains are subdued almost instantly.

Give it a trial. Relief guaranteed or money refunded.

Thousands of testimonials sent on application. \$1 a Box, 6 Boxes for \$5. Sent free by mail on receipt of money.

Ask your Druggist for it. But do not be deluded into taking imitations or substitutes, or something recommended as "just as good." Insist on the genuine with the name of WASHBURN & CO., on each box, which is guaranteed chemically pure under our signature, an indispensable requisite to insure success in the treatment. Take no other, or send to us.
