Saturday, September 13, 1883.

THE SILVER BELT is kept on file at T. E. Dukes Advertising Agency, 65 Merchants Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

Office Hours of Globe & San Carlos Telegraph Company.

From 8 to 11:45 a. m. 12:45 to 4 p. m. and 7 to 9 p. m. Sunday hours—9 to 10 a. m. and 7 to 8 p. m.

LOCAL NEWS.

Our friends Joe Sloan and D. Larre are in town.

George Monroe has returned from his trip to Tonto.

Dr. C. A. McDonell returned from California on Thursday.

We direct attention to the advertisement of Gustav Billing.

Alex. Graydon advertises 100,000 pounds of barley for sale.

The jail is being repaired and improved locks put upon the cells.

Dr. Pangburn, C. T. Connell and S. Gilson left Thursday for Tucson.

Stock brought to the United States for breeding purposes are free of duty.

Mr. Gantzhorn, merchant, from Maxy, left Globe for home this morning.

There was a dance at Grapevine Springs, Salt river, Thursday evening.

Mr. B. Stevens, superintendent of the Globe and Casa Grande stage line, is here.

We are indebted to Mrs. James Anderson for Detroit papers of recent date.

There will be preaching at the M. E. Church to-morrow evening at the usual hour.

Travel to Globe is improving. C. & G. stage is now carrying a fair share of passengers.

W. Guesse who has been in Tucson, upon legal business, returned to Globe the present week.

There is now a fair demand for mining property in this district, and with a prospect of some sales.

Mr. B. J. McGinnis the new principal of the public school reached Globe on Thursday from Tombstone.

A. C. Webster who has been visiting relatives and friends in the empire State has returned to Globe.

There are now fifty-eight scholars upon the roll of the public school. It is expected that twelve will be added the coming week.

We tender our acknowledgements to Mrs. Swift, of McMillen, for a generous sized roll of golden ranch butter, of her own making.

The sound of the bagpipe, which during the days of Edward the confessor, fell upon the Norman ear, is now re-produced in Globe.

Fresh eggs, apples, pears, oranges, lemons, choice raisins, canned goods, crackers, oat and corn meal, &c., &c., just received at Chapel's.

A few days since Thomas Irvine was thrown from his horse and although not seriously injured, he was stunned and slightly bruised.

Hensley and Red Jack, confederates of Tuttle and Redfield in the robbery of Wells, Fargo & Co's treasure box and the murder of John Collins their express messenger, we fear have escaped.

W. A. Holmes will start for Owensburg, Kentucky, shortly. Should the girl give him the mitten, he will have had the satisfaction of seeing the blue grass country, which will repay him for the trip.

We are in receipt of No. 1, volume 1, of the New York Sun, dated September 3, 1893—fifty years ago. The paper is about the size of a letter sheet, and announced to be published daily by Benj. H. Day, printer.

The following is the list of grand and trial jurors for the ensuing term of the District Court, in and for the county:

HOW DOES THIS STRIKE YOU!

The Railroad from Flagstaff to Globe an Assured Success.

The point of junction, Flagstaff, comes to the front with an offer of one hundred thousand dollars. The terminus, Globe, follows, goes one better and takes two hundred thousand dollars in bonds. The smelters and mining companies, such as the Old Globe, Buffalo, Long Island and Carrie sign another one hundred thousand. The cattlemen and farmers along the route, place confidence in the road to amount of one hundred thousand dollars. Two hundred miners and laborers, offer their labor for shares in the enterprise.

All this means the placing of two million dollar's worth of railroad stock. It means the immediate letting of the contract for the first fifty miles of road; it means new existence for Globe; it means a glorious revival of trade and prosperity for the county. It means the long looked-for success of our copper enterprises; it means Globe the copper center of the continent; it means dividends to the shareholders of the Globe, Buffalo and Long Island; it means the opening of our immense silver and gold interests; it means cheap reduction of our ores, cheap freight, revival of our mining interests; it means a population of 10,000 where Globe now stands with barely 1,500; it means more, it means money for everybody who to-day suffers from hard times, who is waiting for something to turn up.

What then is the matter with our people? Flagstaff to-day is the only point where sufficient interest for the enterprise has shown itself to raise one hundred thousand dollars for the road; have our people become short-sighted; cannot Globe, the terminus, aid in proportion as the point of junction has done? Cannot Gila county promise to raise, in the East, after the necessary legal enactments have been complied with, a beggarly 200,000, at a low rate of interest in exchange for railroad bonds? Is our belief in the growth of Gila county, and the consequent growth of our resources, upon railroad advent and connections, so small and timid as to make us waver and think whether we shall be able to bear an additional tax burden, such as would accrue from the issue of bonds. Would not each one of us pay cheerfully, as our contribution for one year, double the taxes we are paying now; for after the road is once built, the railroad taxes themselves will form a heavy income for our county, leave alone the increase of population, and consequent increase of taxable property. Can the farmers be possibly so short sighted, as not to see that a railroad will give them an ample and profitable outlet for that surplus grain and farm produce which is sure to accrue in the near future. Can the copper companies be so blinded as not to perceive that a railroad means for them big money, and no railroad—ruin.

These lines are not written with a view to bankrupt our county, they are not written with a view to see the farmers homestead mortgaged; they are not written with a view to see the copper companies furnaces lie idle idle forever; they shall simply serve as a reminder to those who may think that we can better afford to remain in the conditions of slow decay, than to help such enterprises, as for instance a railroad from Flagstaff to Globe.

TAX PAYER.

A Pleasant Trip.

Messrs. Allen, Hamill and Holmes who have been peregrinating along the line of the A. M. B. R. R., as far as its proposed intersection with the A. & P. road, have returned. They accord in the opinion that the line will run through a fine section of country adapted to grazing and agriculture as well as being flanked by an abundance of timber.

While at Flagstaff they inspected the large saw mill belonging to Mr. Ayers. It has a capacity of more than 100,000 feet per day and works with the regularity and precision of a clock. Immense logs disappear, and are turned into board and railroad ties with great rapidity. The mill has contracts to furnish 45,000,000 feet of lumber, 25,000,000 of which is for ties for the Mexican Central R. R.

On their way back they examined the Golden Wonder mine owned by Judge Birchett and E. Chilson, a description of which is given in another column. They were also at several extensive cattle ranches—Brady's on Wild Rye Creek, Watkins, Upper Tonto, Clines' and Allen's, Tonto, and Mills and Gordon's on Salt river. Stock on all these places they report as looking well.

Viva la Republica.

To-morrow is the anniversary of the independence of Mexico. If nervous citizens are startled by the firing of pistols and guns at 11 o'clock to-night, they may naturally conclude that sons and daughters of the sister republic are awake and about to enter upon the celebration of the independence of the land of their nativity.

Golden Wonder mine, situated near Green Valley, Yavapai County, Arizona, about two miles distant from the line of the A. M. B. R. R., is owned and being worked by Messrs. Birchett and Chilson. It is gold bearing and very free ore, containing no base metals other than a small percentage of iron. The vein is well defined between walls of syenite and will average about two feet in width, with a north and south trend, and dips to the west. It has produced since its discovery four years ago, upwards of three hundred tons of ore, the major part of which has been reduced in an arrastra, with an average result of about \$70 in gold per ton. The developments so far consist of an incline 75 feet in depth which exposes the vein the entire distance, from the bottom of which there have been two levels run along the vein, to the south 100 feet, and the north 80 feet. There has also been a perpendicular air shaft sunk, which cuts the vein at the bottom of the incline and follows the ledge downward to a depth of 200 feet with a level run about 60 feet to the north, besides other developments have been made which we failed to examine for want of time, but we saw enough to justify us in making the assertion that the Golden Wonder is a most promising and valuable property, and as a proof of its value we will add that it has done so far what 49 out of every 50 other mines have failed to do that is paid for the developments. This is only one out of a hundred or more ledges in this immediate vicinity, some of which give even better promise at the surface than the Golden Wonder.

Arizona Items.

The survey of the boundary line between the United States and Mexico will be made immediately. A large corps of engineers have already commenced work at Yuma; it is thought that it will take six months to run the line through Arizona.

Leon Rubio, the Mexican accused of murder and who has been confined in the county jail for nearly three years, was taken to the county hospital last Saturday. His left side is paralyzed, and the man's death seems near. The evidence against Rubio was only circumstantial from the first. The reason why he never has been tried is because there has never been a court in Graham county where the alleged offense was committed. The right of a speedy trial has certainly never been given Rubio.

There is some dispute as to whether this is an adjourned term of Court or a new term. Judge Sheldon said from the bench that the Supreme Court had decided that the Territory could not fix the term, and the Legislature had decided that it could. So from one decision it would be an adjourned term, and from the other a new term; in either case the law would be satisfied.

The report that Ju, Chatto, Geronimo and Nacha's bands are encamped near Casas Grande, Mexico, is confirmed by Juan Carriot and Antonio Lopez, who arrived at Deming, direct from Casas Grande, on the 12th. A truce has been entered into between them and Major Ornate, who was in command of 346 Mexican soldiers and more reported marching to Ornate's relief, with a view of surrounding Ju's command. When Ju is hemmed in it is presumed the world will be informed of the fact. The Indians make daily trading visits to the town of Casas Grande. At Corralitos, twenty miles distant, everybody in armed, and no one ventures from the hacienda without an escort. The citizen of Mexico are bitter in their denunciation of Crook.

The Epitaph has been informed that Bonito, Crook's plenipotentiary to the court of Ju and Geronimo, is to receive \$100 per month. He hopes to return to the agency by Christmas—but does not speak hopefully of the result of his mission. He is accompanied by two as unlettered bucks as himself. His credentials bear date, San Carlos, August 25th, and the signature of Captain Crawford, commanding Indian scouts on the reservation. The embassy camped at Eureka Springs on the 27th ult.

M. W. Bremen, of Silver City, N. M., has seventy-five men on his payroll. Bremen's efforts, in the early days of that burg, materially assisted in preventing its collapse, and not only there, but also in Globe, when but a few months old, he showed his faith in its ultimate outcome by building a costly saw mill and expending not less than \$20,000 in opening and grading roads to the timber. To-day he is a heavy tax-payer in Gila county.

From to-day it is the intention to run a daily train, including a sleeper, from Kansas City, via the Atlantic and Pacific, to Oakland, California.

Is it not about time that Graham County should have a session of court.

The act creating the county was approved March 10, 1881, and no term of the District Court has ever been held in that county, and yet persons there are held awaiting trial for over two years at the expense of the county. The law provides that persons charged with crime are entitled to a speedy trial. The reason for this unparalleled delay should at once be judicially explained or the prisoners set free. No doubt many of the persons thus held have served a longer term of imprisonment than if tried and sentenced.

Common Sense.

Very few people in this world possess what is known as practical common sense. Let those who do claim a moiety of that necessary requirement say that it is foolish to assert that there is no known cure for Rheumatism, when the great medicine, SALICYLICA, is guaranteed to give immediate and permanent relief. A test of its efficacy is the fact that it has been established for five years, and is an assured success.

To Capital Seeking Investment.

I OWN THE CONTROLLING INTEREST in the two copper claims, with a large amount of high grade copper ore in sight. Plenty of wood and water on the claims. I want \$25,000 to buy outstanding interests, develop claims and put them in full producing condition. I will repay this \$25,000 out of the first copper produced, leaving you with a one-half interest in two good, developed claims, with good reduction works on property. You can secure yourself by deeds to claims and all improvements until money is paid back, then divide property and go ahead. Who wants to investigate this in good faith? Call on or address JOHN D. AMONG THE SHAKERS. In certain sections of the country there are religious sects known as Shakers; but for the present we will not speak of them. The "shakers" to whom we refer are those who suffer from scurvy fever which necessarily entails Rheumatic troubles and Neuralgia. To these unfortunate ones, therefore, we recommend Salicylica as a panacea for their ailments. Try it and be convinced of its curative powers. A COMMON-SENSE REMEDY. Salicylica. No more Rheumatism, Gout or Neuralgia. Immediate Relief Warranted, Permanent Cure Guaranteed. FIVE YEARS ESTABLISHED AND never known to fail in a single case, acute or chronic. Refer to all prominent physicians and druggists for the standard of Salicylica. The only discoverer of the poisonous uric acid which exists in the blood of rheumatic and gouty patients. SALICYLICA is known as a common-sense remedy, because it strikes directly at the cause of Rheumatism, Gout and Neuralgia, while so many so-called specifics and supposed panaceas only treat locally the effects. It has been conceded by eminent scientists that outward applications, such as rubbing with oils, ointments, liniments, and soothing lotions will not eradicate those diseases which are the result of the poisoning of the blood with Uric Acid. SALICYLICA works with marvelous effect on this acid, and so removes the disorder. It is now exclusively used by all celebrated physicians of America and Europe. Highest Medical Academy of Paris reports 85 per cent. cure in three days. REMEMBER that Salicylica is a certain cure for Rheumatism, Gout and Neuralgia. The most intense pains are subdued almost instantly. Give it a trial. Relief guaranteed or money refunded. Thousands of testimonials sent on application. \$1 a Box. 6 Boxes for \$5. Sent free by mail on receipt of money. Ask your Druggist for it. But do not be deluded into taking imitations or substitutes, or something recommended as "just as good." Insist on the genuine with the name of WASHBURN & CO., on each box, which is guaranteed chemically pure under our signature, an indispensable requisite to insure success in the treatment. Take no other, or send to us WASHBURN & CO., Proprietors, 287 Broadway, cor. Canal St. NEW YORK. For sale by Dr. S. C. Heineman and all leading Druggists. April 14-1y
