

THE ARIZONA SILVER BELT.

OFFICIAL PAPER OF GILA CO.

Saturday, August 30, 1890.

Entered in the Post Office at Globe, as second-class matter.

This paper is kept on file at E. C. Dako's Advertising Agency, 64 and 65 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

POST OFFICE RULES.

Office open from 7 A. M. to 7 P. M., daily. Sundays—one hour after mail arrives. Mail closes going East and West at 7:45 A. M., daily. Money Order Department—closes at 5 P. M., daily—Sundays excepted. Mails go to San Carlos and Maxey every day, Sundays excepted—to Catalpa, Ariz., Tucson, Rye, Payson, etc., every Monday, Wednesday and Friday. These mails close the night previous at 9 P. M. JOS. H. HAMIL, P. M.

Globe & San Carlos Telegraph Co. Office Hours—9 o'clock A. M. to 12 M. and 7 to 8 P. M. Sundays—10 to 11 A. M. and 4 to 7 P. M.

LOCAL NEWS.

Register early! Rabbit metal for sale at the Dist. office. Democratic primary is now progressing.

Dr. A. Trippel returned from Arizona last night. Instruction in the public school will be resumed September 8th.

The Gila river, at San Carlos, yesterday was very high, no teams being able to cross.

Grant Allison will enter the employ of the Buffalo Mining Company on the 1st prox.

Ed. Laine writes from San Francisco to the postmaster to hold his mail, as he will return to Globe.

Straw hats worth 75 cents are now being offered at 45 cents.

A. BAILEY & CO. The rate of taxation, in Gila county, for 1890, is \$3,201, a gratifying reduction from previous years.

D. M. Bjornard, of Central Arizona railroad, and Maj. Vaughn, both of Flagstaff, arrived in Globe yesterday from the south.

O. W. Allison, brother of G. M. and Grant Allison, arrived Thursday evening from Los Angeles, and purposes making Globe his home.

A very heavy rain visited this section last Sunday night, continuing for several hours. The rain gauge showed a precipitation of .96 inches.

We will repair your watch at Phoenix prices, and pay all charges of sending and returning same. Hand your watch and jewelry to W. W. Brookner.

Geo. W. P. Hunt has accepted a position with A. Bailey & Co., an arrangement which should prove mutually advantageous to both parties to it.

W. C. Haverly has taken the contract from the Buffalo Mining Company for handling ore to the smelter. It could not have been given into better hands.

Two wagons loaded with copper were turned over in the Gila river at San Carlos on Wednesday, and the water was so high yesterday as to completely cover them.

Dr. Hall is prepared to do all kinds of work pertaining to dentistry in a thorough manner. Charges reasonable. Office at the residence of Mrs. Fiske, Oak street.

J. B. Willey was up from the river on Thursday. Crops generally have been good in the valley, and farmers are feeling good over the prospect of remunerative prices for grain.

Say-es, one of the alleged murderers of Reynolds and Holmes, on a preliminary examination, was held to await the action of a Pinal county grand jury upon the charge of murder.

Mrs. C. E. Taylor received word on Thursday of the marriage of her son Lyman C. Woods to Miss Carrie McLaughlin, on the 24th inst., at the Catholic cathedral in Los Angeles.

The Old Dominion Copper Company have been seriously hindered in their work through the non-arrival of coke caused by heavy roads and high water in the Gila at San Carlos. Smelting was resumed on Tuesday, after a few days' idleness and a further brief suspension may be necessary.

Mrs. Geo. H. Roberts returned home on Thursday evening from a pleasant visit in Texas and New Mexico. After a provoking detention of four days at Fort Thomas, in consequence of the flood in the Gila, Mrs. Roberts successfully braved the torrent in a frail craft, and came through to Globe without further incident.

The party given at the Bink on Tuesday night is spoken of by those who attended, as the most enjoyable social event that has taken place in Globe in several months. The attendance was sufficiently large to comfortably fill the floor and the assemblage a congenial and merry one. Dancing was the order of the evening and was kept up until a late hour.

COMMUNICATION.

EDS. SILVER BELT:—Being the complaining witness against the four Indians suspected of the murder of Ed. Baker, and having accompanied Sheriff Thompson to Fort Apache for the purpose of identifying them, I deem it but right to expose the ungentlemanly conduct of Lieut. Johnson, in charge of the White Mountain Indians, toward us.

While we were at Fort Apache, endeavoring to have the commanding officer, Col. Hunt, send for the Indians for whom we had warrants, Lieut. Johnson evidently was averse to the execution of the warrants, and during a conversation in reference to the matter he discredited my statement that the Indians for whom we had warrants were the murderers of Baker, and during that conversation, called me a liar, although I had neither said nor done anything to provoke such an assault.

Being in the post and knowing that should I resent the insult, the consequences might be serious to me, regardless of the right in the case, I was constrained to take no further notice of the remark than to tell him the reason I did not resent it, that in any other place removed from the protection of the military, I would certainly have called him to account.

We were denied an escort; consequently, for our own safety, we were necessarily obliged to take our departure from the fort, with one of the alleged offenders in custody, at 11:30 at night, and made a forced ride until we reached San Carlos, a distance, as I am informed, of ninety miles.

S. S. PATTERSON. The rain, reported to us by Mr. Bonnard, in Dripping Springs Valley, a few days since, was phenomenally great. Griffith's ranch was greatly damaged; orchard covered by sand and rock, cellar filled with water and property therein totally destroyed, or greatly damaged. This precipitation was doubtless one of the heaviest in so short a time ever known, but such occurrences are not uncommon in arid regions. Rain is the most capricious of all the meteorological phenomena. The quantities which have been recorded at some places, to have fallen at one time, are truly enormous. The following are a few of the most remarkable that we have any knowledge of: At Joyense, in France, 31.17 inches fell in 22 hours; at Geneva 30 inches in 24 hours; at Gibraltar, 33 inches in 25 hours; on the hills above Bombay 24 inches in one night, and on the Khasia Hills, 30 inches on each of five successive days, or a total of 150 inches within that brief space of time.

James Patton returned from Tucson last Saturday, and the men, teams and pack trains engaged by him for E. F. Kellner & Co. are expected to arrive in a few days. He reports great damage to farms and settlements along the San Pedro from Benson to its mouth, by recent high water. The river in many places changed its channel, cutting through farms and washing away houses at Mammoth and Dudleyville. It is estimated that fully fifty per cent. of the farmers of the valley lost their crops. Nearly the entire Dudleyville townsite was destroyed, and the river, when Mr. Patton was there, ran within fifty feet of Geo. Cook's store and was rapidly undermining the intervening ground, despite the efforts of some forty men to divert its course. Mr. Patton's brother, farming near Reddington, was a heavy loser, as was also Geo. Scott.

By invitation Messrs. Shanley, Danforth, Powers, Lonergan and Hackney witnessed an illusory exhibition of the detached head of Dr. T. C. Stallo on a plate, and so perfect was the deception it was impossible to even conjecture how it was done, or that the Doctor had not been decapitated. Although claiming it as the head of a Turk, it talked in English, with an intonation of that of the Doctor. When asked if really and truly a Turk, when in life, how many wives he had it winked its dexter eye and replied "only seven." Upon seeing the Doctor, entire, upon the street, the following morning, we are of the opinion that that which made us shiver the previous evening was simply an optical illusion, and, therefore, we no longer whistle to keep our courage up.

Globe experienced the inconvenience of being without mail on Tuesday and Wednesday, an unusual rise in the Gila river having snapped the cable and carried away the boat used to ferry the mail across the stream at Riverside. The accident necessitated sending to Florence for a new boat which was built and forwarded to Riverside arriving there Wednesday, and service on this end of the route was re-established and it is hoped the annoying delays of the past four weeks will not be repeated. The road between Dripping Springs and Riverside is still impassible to vehicles and mail is carried on pack animals. The bad portion of the road is mostly in Pinal county.

We learn from the Graham county Bulletin that that much injured man, William Roberts, who killed J. W. Cress near Fort Grant, July 30th, applied to the Probate Court for his discharge on the ground that the act was justifiable. Messrs. Herring, Moorhead and District Attorney Patterson of Graham county were present on the part of the Territory, and Wood and Wilson appeared for the defendant.

GILA COUNTY'S NORTHERN BOUNDARY LINE.

(Communicated.) PAYSON, Aug. 21, 1890.

EDITORS SILVER BELT, GLOBE, A. T.—The Arizona Champion, dated Aug. 16th, says: "A correspondent of the Journal-Miner, writing from Payson says: 'There is great dissatisfaction throughout Tonto Basin in regard to a part of it being annexed to Gila County, and there may be a strong fight to take it back and make a new county of it and a part of Yavapai, south of Flagstaff and east of the Verde. Why not? We are willing to take our proportion of the indebtedness.'"

The language of that article is such that the people of Globe and the southern portion of Gila county may think that the people in and around Payson are going to make an effort to get the lines changed and so they are, not as the Champion intimates, but changed so that some people who contend that they are not in Gila county will find out that they are, as it was intended they should be when the cut-off was made.

The way the people of Payson and vicinity want the lines to run is as follows: Commencing at the North Peak of the Mazatzal running along the dividing ridge between the East Verde and Verde, thence up the Verde to Fossil Creek, thence up Fossil Creek to the big springs that break out where the upper trail, that goes from Strawberry Valley to the Verde Valley, crosses Fossil Canyon, thence north to the 3d Standard north, thence along said line to the Apache line.

There are plenty of reasons why the lines should run that way that are not necessary to mention here. Yours truly, U. Z. CURTIS.

HARDIE'S MURDERERS.

The following letter was written in response to a request from the authorities of Cochise county, for all the information in possession of the military at San Carlos in regard to the killing of Lawyer Hardie: SAN CARLOS, A. T., Aug. 16, 1890. Respectfully returned to Capt. John L. Bullis, Twenty-fourth Infantry, Acting Indian Agent:

The information given by "Say-es" and "Curly," who were both closely questioned on the within subject, is about the same. "Say-es," one of the convicts who murdered Sheriff Reynolds and escaped from the civil authorities in November last, admitted that he was one of the three bucks present at the murder of Mr. Hardie in Rucker canyon, the other two being "Wash-tan-tah" (killed on the 17th ult.) and the "Kid," still at large. After shooting Hardie, "Say-es" says Kid and Wash-tan-tah robbed him, taking but very little money, which the Kid gave to his squaw, who was also present at the time of the killing. He then took Hardie's gold watch and "beat the inside" (works) out against a rock, then gave the case to Wash-tan-tah, who cut it into strips for rings and other rude ornaments. A small watch chain—the one sent herewith—was found near Wash-tan-tah's body on the 17th after the light, and this, Say-es says, was on Hardie's watch. This is all the information I have been able to elicit. Should the Kid be captured, which is not unlikely, as our efforts have not been relaxed, an attempt will be made to get further information on the subject of this letter.

Lewis Johnson, Capt. 24th Inf., Bvt. Lt. Col. Commanding Post.

Sheriff Thompson has been assiduous in bringing the murderers of Ed. Baker to justice, and has been the means of incarcerating the suspected parties. Chief Guadalupe was arrested at Fort Apache by Thompson, and by the aid of S. S. Patterson brought to Globe, through a thickly inhabited Indian country without military escort. Bak-ol-cho, Bat-dish and Na-ga-son, were arrested upon a warrant telegraphed Col. Mizner by Sheriff Thompson, and they are now imprisoned at Apache awaiting the arrival of Under-Sheriff Penberton, who left Globe on Tuesday and who is promised military escort, so as to insure their safe convey to this county, where the extent of their culpability will be inquired into. Guadalupe is a secret service man and has two sons (scouts) also charged with participating in the murder of Baker. The Indians here referred to have long since been regarded by residents of Gila county as robbers and otherwise dangerous to the welfare of the white community, and, therefore, it is a mystery why they should enjoy the confidence of the military who employ them for the protection of the whites and the peace of the reservation.

A patent has been issued to Dudley I. Craig, of Pinal ranch, for an adding machine. It is simply and ingeniously constructed on the principle of the Hammond type writer, and for rapidity and accuracy should exceed any of the devices for the same purpose now on the market. It is provided with one hundred keys consecutively numbered from 1 to 100 and will add two columns at a time. Mr. Craig is now at work on a machine designed to add, subtract and multiply, and has sufficiently progressed that he feels confident of success.

Money to loan on approved security.

E. F. KELLNER. Location notices for sale at the Post Office Store.

Dr. W. Hall, dentist, will remain in Globe only a few days, and persons wishing to avail themselves of his services should call on him without delay. Office at Mrs. Fiske's, Oak St.

The Board of Supervisors, on Tuesday, appointed Samuel Lowe, Justice of the Peace for Globe precinct. He is well qualified for the position, an important one, and we feel warranted in saying it will be worthily filled by Mr. Lowe.

GLOBE, A. T., Aug. 28, 1890. Democratic meeting held at the Court House, Thursday evening, with Patrick Shanley in the chair, resulted in the election of a committee of five to select, with the aid of candidates, fifteen delegates to represent the Globe precinct in the coming County Convention. J. W. LARGENT, Secy.

We learn from Mr. Roggenstroh that thirteen colts were killed and five other domestic animals wounded on his range, within ten weeks, by lions. We also learn that other localities have suffered severely from carnivorous animals and have no hope that the stock interests will improve until a general and more liberal scalp law is enacted, which will justify a business of killing them.

To make room for an immense stock of Fall and Winter goods, now being purchased by our Mr. Bailey in Eastern market, we will sell ladies, gents and children's straw hats, satens, lawns, challies, kinkie seersuckers and white goods below cost. Call early before the choice patterns and styles are gone. A. BAILEY & CO.

Richmond Basin is now the liveliest camp in Gila county outside of Globe District. There are some thirty choloriders at work there, whom the rise in silver has encouraged to increased efforts. Moyle and Viette have a lot of ore ready for shipment, and lessees on the Mack Morris and other claims are reported as taking out good ore. The Basin mines are among the best in this section and should be operated on a large scale.

The Buffalo Mining Company have everything in readiness to commence smelting when sufficient coke arrives. Teams have been delayed by heavy roads and high water in the Gila river, but will begin to roll in within a few days. There is an abundance of good ore in the mine, and the bins are full. The crushing of ore began on Thursday, and the smelter will probably be blown in next week.

We inspected Job Atkins' new bath rooms yesterday, and found them complete in all appointments. The bath tubs are ample in size, and furnished with hot and cold water and a shower. The bath rooms are large, tastefully furnished and lighted by large skylights. In fact they are in every way equal in point of comfort and convenience to those of more pretentious city establishments. Mr. Atkins' price is reasonable—three baths for \$1.

Cattle are finding ready sale in the valley at present. G. T. Peter has sold to Bart & Cresswell 150 head of feeding steers and dry cows; E. T. Mills to Sam Webb, sixty head of mixed cattle; Cline Brothers to Goldman & Co., 120 head of steers, and to E. J. Edwards, ninety head. The prices brought are understood to range about \$1.65 per hundred, the cattle averaging rather light in weight. They were all from the lower Tonto Creek range.—Phoenix Republican.

Buy yourself a Battist satin striped dress, only 15 cents a yard. A. BAILEY & CO.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the spring time or, in fact, at any time and the better it is known the more popular it becomes.

Does your watch need cleaning or repairing? Take same to W. W. Brookner, to be forwarded to St. Clair & Pratt, jeweler at Phoenix.

The Board of Supervisors granted the petition of E. F. Kellner for the renewal of his toll road privileges on Pinal mountain, and it is understood Mr. Kellner intends building a road from Globe passing near the cemetery, over a portion of the present road to Kellner's saw mill and connecting with the traveled highway two miles the other side of Dripping Springs. It is claimed that the proposed road will shorten the distance between Globe and Riverside about six miles. A. G. Pendleton is now engaged making the survey.

Photograph, autograph and scrap albums, checkers, checker boards, chess, dominoes, stereopticons, key rings, blank books, writing tablets, telescopic drinking cups, folding cork screws, etc., just received at the Post Office Store.

The walls and ceiling of Starr & Rogers' popular resort have been papered in the highest style of the decorative art, and the place presents a handsome appearance. Fred McGroggor is the artist.

Jack Raynor, mail carrier between Florence and Riverside, narrowly escaped being carried away by a tremendous flood in a canyon south of Riverside a few days ago. The water came upon him with such force that it was with great difficulty that he managed to reach a place of safety with his team and buckboard.

Hampton Ellis, while at work on the new ore chute of the Old Dominion Company, on Friday of last week, jumped to save himself from falling, and alighted on a pile of timbers. The descent was at least ten feet, and the concussion caused a painful injury to one limb. He deems his escape from broken bones as almost miraculous.

What would be a great strike for any other man save M. W. Bremen, and what would be very rich ore for any other mine but his famous Seventy-Six, was made last week at that property. Wire and flake silver plainly discernible to the eye, was found high in the slate capping. The new discovery will be followed up and its real value demonstrated.—Silver City Sentinel.

Cholera is spreading in Toledo, Spain. Thirteen cases and five deaths reported on the 26th. The United States is almost certain to be visited by it. Six thousand, or twenty-five per cent. of the population of St. Louis died of it in 1849. It was alike destructive in Cincinnati, Louisville, Pittsburgh and Eastern and Southern cities, but was never known to visit higher latitudes nor is it necessary, in order to avoid it, to ascend Pike's Peak. It is of Asiatic origin and first crossed the Atlantic sixty years ago.

PRACTICAL TESTS.

An Astonishing Offer—Some of the Results.

The San Francisco papers of recent date contained the following offer: "As an evidence of the ability of Joy's Vegetable Sarsaparilla to prevent sick headaches, we will give to the first twelve responsible persons who will apply at our office a bottle free if they will prove that after their headache has been cured that they will submit the fact over their signatures." This offer so startlingly asserted the efficiency of the remedy that many accepted, and I the latter of the parties, nearly blind, and in fact, have been compelled to take a physic every other night or else I would have a headache and dull, heavy feeling. I have taken that bottle of Joy's Vegetable Sarsaparilla, and have derived great benefit from it and intend continuing it. After my own experience I can heartily advise those troubled with biliousness and constipation to try it.

CHAS. E. ELKINGTON, 125 Lombard Avenue, San Francisco.

SUMMER COMPLAINT.—A druggist at Britt, Hancock county, Iowa, relates his experience with this disease as follows: During the summer of 1882, my little girl, two years of age, was taken seriously ill with summer complaint, an common to children of that age, and after being treated by a physician and getting no better, I took from my shelves a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. She felt relieved after the first dose, and in three days was entirely well.—ALEX. MOIR.

"For summer complaint," says Ben L. Bear, a prominent druggist of Los Angeles, Cal., "I know of no remedy so sure and safe to use as Chamberlain's Colic, Cholera and Diarrhoea Remedy." Mr. Bear is not alone in entertaining that opinion, as, wherever known, the Remedy is praised by all who use it. For sale by H. C. Hitchcock.

The Consolidated Bank of Tucson will pay the highest price for Gila county warrants, either in cash or in San Francisco exchange.

BORN.

CALFRE—In Sumner, Cal., August 15th, to the wife of Rev. D. W. Calfre, a son.

W. H. HUFF, PHYSICIAN AND SURGEON, Office in Mrs. M. J. Moore's building, Globe, A. T.

Political Announcements.

S. A. LOWE announces himself a candidate for the office of JUSTICE of the PEACE for Globe Precinct, subject to the action of the Democratic County Convention.

THOMAS A. LONERGAN announces himself a candidate for the office of COUNTY TREASURER, subject to the action of the Democratic County Convention.

W. M. G. PENDLETON announces himself a candidate for COUNTY RECORDER, subject to the action of the Democratic County Convention.

J. D. McCABE announces himself a candidate for re-election to the office of DISTRICT ATTORNEY, subject to the action of the Democratic County Convention.

J. H. THOMPSON announces himself a candidate for election to the office of SHERIFF, subject to the action of the Republican County Convention.

CHAS. T. MARTIN announces himself a candidate for re-election to the office of COUNTY RECORDER, subject to the action of the Republican County Convention.

GEORGE E. SHUTE announces himself a candidate for the office of SHERIFF, subject to the action of the Republican County Convention.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.
