

THE ARIZONA SILVER BELT.

OFFICIAL PAPER OF GILA COUNTY.

Saturday, February 17, 1894.

Entertaining a Sister's Friends. A young fellow the other night...

"Gambling again" I asked. "No, sir," he replied, with much feeling...

A Burglar Alarm. The other night people living near King street were awakened by cries of "Help..."

Bigness of the Fair. To visit the fair with profit or comfort you must leave your sense of duty behind...

Revealed in a Dream. Two years ago John P. Elmberg of St. Paul was injured while boarding a cable car...

Pumping Out a Lake For Ore. Under what was once Lake Angeline, near Ishpeming, Mich., are said to be the largest iron ore deposits ever discovered...

Hunting For a Brand. They have got hold of a report down south that there is a fellow up in Minnesota who, whenever he goes on a spree, insists on paying a year's subscription to his town paper...

Nobody to Buy Her Stamps. A Baltimore woman has collected 1,000,000 stamps within three years. Her motive was to sell the stamps to a person who advertised that he would pay \$300 for 1,000,000 stamps...

During the late high water on the Grand river in Missouri a fence post of an inundated farm bore this truthful legend: "This place for sale."

Sparrows Killed by Lightning. The electrical storm on Sunday morning killed many sparrows in the vicinity of the navy yard in Brooklyn. In the hospital grounds was a wheelbarrow full of their bodies. They had fallen from a tree...

In front of the house of Commodore White, in Officers' row, Flushing avenue, 210 dead sparrows were found under a tree. There was no mark on the trees to show that lightning had struck them...

A VILANELLE.

Love in the dawn is honey sweet— Sweet to the taste and to the sight; Kisses are balm when young lips meet.

The heart in the thrush of its first white heat Burns, a meteor shining bright; Love in the dawn is honey sweet.

Enjoy while you can such moments fleet— Those transient spells of a fond delight; Kisses are balm when young lips meet.

The lilies smile at our very feet, The roses blush to our left and right; Kisses are balm when young lips meet.

Wedded today in the bowers discreet Our lives shall fall upon lines of light; Love in the dawn is honey sweet.

Kisses are balm when young lips meet— Eugene Davis in Kate Field's Washington.

Emblems of the Apostles. The medieval artists, having no idea of the personal appearance of the Saviors...

St. John's emblem was a caldron, referring to his experience in the boiling oil. St. Philip's emblem is an enigma.

It was a spear and a cross, yet it is known that he was hanged. St. Bartholomew, who was "flayed alive," is represented with a knife and his skin hanging over his arm.

St. Matthew's emblem is a square, supposed to have some reference to Christ's calling. St. Thomas is pictured carrying a spear. The emblem of James the Less was a club, he having been "beaten to death with a fagot."

St. Matthias, an ascetic, he having been beheaded. Simon's emblem was a saw. The legend says "he was sawn asunder."—St. Louis Republic.

A Game Hunter's Last Effort. M. de Cherville had a dog which had become wholly deaf and almost blind with old age...

On one occasion when M. de Cherville thought he had eluded the old dog he found when in the field that the faithful creature was limping after him, whining with the pain of moving his old limbs...

Bringing the bird to a limping, lumbering gait, the dog did what he had never done before in the field; he got upon his hind legs, planted his forepaws on De Cherville's shoulders and dropped the bird on his breast.

She has also made several voyages up to Alaska and has always made money for her owners. Many a fine ship has ended her career on the high seas...

Seven of Uncle Sam's old fighting ships—the Nyack, Saco, Tuscarora, Naragansett, Alaska, Donella and the old Monitor Monadnock—ended their careers in California City...

They were the pride of the United States Navy. Here the fine old steamer China of the Pacific Mail company went up in smoke, as did the steamers Antelope and Bertha.

The bark Fraser, Lady Bowen, Roanoke Sprague and the whaler Shooting Star also ended their careers there, and so did the old whaler Cyane.

California City about five years ago, and for 10 years before that in San Francisco at Tiburon. It was in the Tiburon yard that the mail steamers Montana, Arizona and Constitution were crumpled, and the torch was applied to the John L. Stevens, Orlandina, Great Western, Buena Vista, Maria Mariana and Colorado.

A HISTORICAL BARK.

THE OLD MEMNON HAS REACHED THE END OF HER CAREER.

A Sailing Vessel That Ran Away From the Famous Alabama—Story of the Race. History of the Bark Since the War—Assigned to the Flames.

The old bark Memnon, one of the most ancient craft on the Pacific coast, will go to sea no more. She has fought her last battle against wind and water and will be towed to the marine cracker at California City, where she will be consigned to the flames.

The Memnon was built in Boston in 1838, and when she started on her first voyage was one of the finest vessels afloat of her size. For several years she was the pride of the western coast and could show her heels to any craft in the trade.

She was one of the very few American vessels that when chased by the pirate Alabama, succeeded in making an escape. The Memnon was on her way from Liverpool to Boston at the time and fell in with the Alabama when about half way across the Atlantic.

The Alabama concealed her identity until she got within half a mile of the Memnon, when the Confederate flag was hoisted to the peak and the astonished crew of the Yankee bark began to realize the true character of the strange steamer.

The captain of the Memnon called all hands aft, and in a very few moments told them that capture meant many long months in a prison, and that he proposed to escape if possible.

The crew were no more anxious to visit a Confederate prison than the captain, and when he gave the order to square away the yards the command was obeyed in a very short time.

It was blowing a gale from the north-west at the time, and the bark was under her topsails, but as soon as the yards were squared the men ran aloft, and after sail was loosed and set, the men took no time to cast off the gaskets. Everything was knife work, and in almost less time than it takes to tell it the Yankee was flying away to the eastward under a cloud of canvas that threatened to tear the masts out of her every minute.

Captain Sommes of the Alabama had no idea that the bark would try to escape and was below when the prospective prize changed her course and began to make for the coast of California, however, and sent sharpshooters at the flying Yankee in hopes of crippling her.

As the steam-tug the Alabama crowded on all steam and sail, but a stern chase was a long one, and in a breeze like that the Yankee bark was as fast as the Alabama and just a trifle faster.

In spite of everything Sommes could do the Memnon slowly but surely drew away from her pursuer, and as the Alabama dropped further and further north the hopes of the Yankee crew revived.

The chase lasted until night, and then the first steamer gave it up and hauled off to hunt for something not quite so speedy. But if the Alabama gave up the race the Memnon did not, for she never started back or shot until she had put several hundred miles of ocean between the Alabama and herself.

She then resumed her course for New York, where she arrived after a rough passage of 30 days. After the war she was placed in the East India trade and then sent out to the coast of the Australian colonies and went too old for that in engaged in the coastwise trade.

She has also made several voyages up to Alaska and has always made money for her owners. Many a fine ship has ended her career on the high seas...

California City about five years ago, and for 10 years before that in San Francisco at Tiburon. It was in the Tiburon yard that the mail steamers Montana, Arizona and Constitution were crumpled, and the torch was applied to the John L. Stevens, Orlandina, Great Western, Buena Vista, Maria Mariana and Colorado.

Antiquity of Grains.

Nearly all the grains now in use are of unknown antiquity. Wheat was cultivated in all latitudes as far back in the past as we have authentic knowledge.

Barley is thought to have originated in the Caucasus, but it was known and used everywhere in the most ancient times. Oats, like rye, were unknown in ancient India and Egypt and among the Hebrews.

The Greeks and Romans received it from the north of Europe. Had there been an early civilization on this continent the wild oats found here and there would probably have developed into the useful cereal now considered absolutely essential to the proper nourishment of horses.

This continent is credited with having given Indian corn to the old world, but this useful cereal was doubtless known in India and China many hundred years before the discovery of America.

Cotton was used for making garments in India at a date so remote that it cannot even be guessed at. The fact is mentioned by Aristotle. The first seeds were brought to this country in 1621. In 1666 the culture is mentioned in the records of South Carolina. In 1736 the culture was general along the eastern coast of Maryland, and in 1776 we heard of it as far north as Cape May.

The use of flax for making clothing is nearly as ancient as that of cotton and perhaps more so—plants of soft and flexible fiber having been without doubt among the first very stable productions of the ancient world and their practical value discovered soon after the invention of weaving.—San Francisco Chronicle.

Dividing California. State division is no new thing in America. It is not exact to say that all the lands formerly held in the west by the old states formed an integral part of those. But the lands held, say by Connecticut and Virginia and Ohio, were so after a fashion and were merged into a great state. Besides this, however, we have the formation of Kentucky out of Virginia, Tennessee out of North Carolina, Maine out of Massachusetts, Mississippi and Alabama out of Georgia, Vermont out of New York, and West Virginia out of Virginia.

In some of these cases were the conditions more diverse than those of our two great divisions in California. There is no record that any of these regret their new statehood, nor is there an intimation that they desire or have ever desired to merge again into the old state.

The desire for a local self government in northern California arises from no jealousy, no antagonism to northern California, and none of all to political philosophy. It is the result of economic and political necessities. We need a state government of our own. In federal affairs we have our own separate officers, courts, military department, etc., just as Oregon has, and we have our own financial and industrial independence as much as Oregon has, and we have a new population quite as distinct from that of northern California as is that of the state of Washington.—California.

Rubenstein and the Deadbeat. These whose mission in life it is to entertain the public are always pestered by friends and acquaintances for free seats at their entertainments. There probably never was a singer or an actor or a pianist who was not bored nearly to death by these people, many of whom had not the slightest claim to ask the courtesy they demand.

A friend who was particularly successful in his day, and that day was not far back either, was Rubenstein, who traveled nearly the whole world over delighting people with his genius. He, like all others, was very much annoyed by requests for complimentary tickets, but most of the time he maintained his composure, even though justly irritated. It is told of him that just before one of his recitals in London he was pestered by an old lady in the entrance hall and this gentleman said:

"Oh, Mr. Rubenstein, I am so glad to see you! I have tried in vain to purchase a ticket. Have you a seat you could let me have?"

"Madam," said the great pianist, "there is but one seat at my disposal and that you are welcome to if you think fit to take it."

"Oh, yes, and a thousand thanks! Where is it?" was the excited reply. "At the piano," smilingly replied Rubenstein.—Harper's Young People.

Manufacturing Bank Notes. A new principle has been suggested in the manufacture of bank notes. It is a sheet of paper by plunged into a mixture of various coloring matters, each color will penetrate into the fibers with a different degree of speed, each brand having a distinct color. It would be impossible to imitate these effects without an exact knowledge of how the mixture of colors was made. If a drop of the mixture of colors be allowed to fall on a sheet of paper, a number of rings, each having a determined size and shade, will be developed, and this imitation will be rendered even more difficult.—New York Telegram.

Professional to the Last. Alexis Erbel, the leader of the orchestra at the Buda-Pesth Volks Theater, died on the 16th of June. Shortly before the end came a Jesuit father urged upon the dying musician the desirability of his accepting the consolation of the church. Erbel listened, apparently with great interest, to the exhortations of his clerical adviser, and when he had done remarked in a tone of the deepest conviction:

"What a splendid baritone voice!"

"A few moments afterward he breathed his last.—Frankfurter Zeitung.

When J. M. Barrie Lost His Smile. J. M. Barrie recently presented the price at the universities academy, where he was formerly a pupil. Among other things he said: "I remember one prize I got which had rather disastrous results. It was awarded by the girls of the school by plebiscite to the boy who had the sweetest smile in the school. The tragic thing was that my smile disappeared that day and has never been seen since."

New Office Requisite. Visitor—Why do you have that dog sitting on your writing desk? Clerk—I have mislaid my sponge, so I am getting him to lick my postage stamps for me.—Solbremsen.

One Way of Collecting. "Are you and Dedbroke really such intimate friends as he tries to make out?" "I don't know. What does he say?" "Oh, I don't know exactly, only he creates the general impression that you and he sleep in the same bed."

"Is that so? We never have, but I guess we've been obliged to unless he finds some way to pay over the money I've loaned him."—Detroit Tribune.

PALATABLE AS MILK. Sold by all Druggists. SCOTT & BOWNE, Chemists, N.Y.

Mining Application No. 621. U. S. LAND OFFICE, TUCSON, ARIZONA, December 28th, 1893.

Notice is hereby given that The United Globe Mines, by Edward H. Cook, attorney in fact, whose post office address is Globe, Gila County, Arizona, has made application for a patent for the GLADIATOR and CENTRALIA lodes bearing copper, situated in Globe Mining District, Gila County, Arizona, and described in the official plat and field notes on file in this office, as follows, viz:

Beginning at corner No. 1, of the Gladiators lode, with corner No. 2, of the Centralia lode, (distance N. 33° 30' E. 100 feet, 26 deg. 25 min. E. 357.8 feet) a corner post 3 feet long, 6 inches in diameter, set 1 foot in the ground with mound of stones; thence S. 67 deg. 43 min. W. 1239.8 feet to corner No. 2, a corner post 3 feet long, 6 inches in diameter, set 1 foot in ground with mound of stones; thence N. 36 deg. 03 min. E. 300 feet to corner No. 3, a corner post 3 feet long, 6 inches in diameter with mound of stones; thence N. 70 deg. 03 min. E. 1235.2 feet to corner No. 4, identical with corner No. 2, of the Centralia lode, a corner post 3 feet long, 6 inches in diameter, with mound of stones; thence S. 43 deg. 36 min. W. 1495 feet to corner No. 5, Centralia lode, a corner post 3 feet long, 6 inches in diameter, with mound of stones; thence N. 26 deg. 25 min. E. 500 feet, to corner No. 6, a corner post 3 feet long, 6 inches in diameter, set 1 foot in ground with mound of stones; thence N. 44 deg. 10 min. E. 1560 feet to corner No. 7, identical with corner No. 1, of the Gladiators lode and place of beginning.

Total area of Gladiators lode 15.81 acres; less conflict with Alice 0.07 acres; less conflict with Fraction 0.24 acres; less conflict with Hooper 1.23 acres.

Total area of Centralia lode 17.76 acres; less conflict with Hooper 0.18 acres; less conflict with Grey 0.02 acres.

All persons holding adverse claims thereto are required to present the same before this office within sixty days from the first day of publication hereof, or they will be barred by virtue of the provisions of the statute.

HERBERT BROWN, Register. EDWARD H. COOK, Attorney for Claimant. dec16-10w

Mining Application No. 617. Survey No. 1107, Birds Nest and Maggie Jones. U. S. LAND OFFICE, TUCSON, ARIZONA, October 31, 1893.

Notice is hereby given that The United Globe Mines by Edward H. Cook, attorney in fact, whose post office address is Globe, Gila County, Arizona, has made application for a patent for the BIRD'S NEST and MAGGIE lodes bearing copper, situated in Globe Mining District, Gila County, Arizona, and described in the official plat and field notes on file in this office, as follows, viz:

Beginning at corner No. 1, Birds Nest claim, (distance U. S. M. M. No. 2, bears N. 63 deg. 28 min. E. 6170 feet) a corner post 5 feet long, 6 inches in diameter, set 1 foot in the ground with mound of stones; thence N. 23 deg. 46 min. E. 1500 feet to corner No. 2, a corner post 5 feet long 6 inches in diameter, set 1 foot in ground and surrounded by a mound of stones; thence S. 88 deg. 16 min. E. 600 feet to corner No. 3, a corner post 5 feet long 6 inches in diameter and surrounded by a mound of stones; thence S. 29 deg. 46 min. W. 1500 feet to corner No. 4, identical with corner No. 8 of the Maggie claim, a corner post 5 feet long 6 inches in diameter, set 1 foot in ground with mound of stones; thence S. 46 deg. 40 min. W. 1475.6 feet to corner No. 7, a corner post 5 feet long, 6 inches in diameter, set 1 foot in ground with mound of stones; thence N. 35 deg. 16 min. W. 200 feet to corner No. 6, a corner post 3 feet long, 6 inches in diameter, set 1 foot in ground with mound of stones; thence N. 46 deg. 03 min. E. 1475.6 feet to corner No. 5, identical with corner No. 1, of the Birds Nest claim and place of beginning, and containing 20.53 acres, mean variation 13 deg. 14 min. E. and forming a portion of the quarter of section in Township...

all persons holding adverse claims thereto are required to present the same before this office within sixty days from the first day of publication hereof, or they will be barred by virtue of the provisions of the statute.
