HERE AND THERE.—While there are those in our midst who may not be overburdened with metallic substances bearing the stamp of the Goddess of Liberty and the American Eagle, it is gratifying to say that there are no cases of actual distress. In this respect our people are immeasurably better off than many in the States east of the mountains.

Notice! Notice! OFFICE FLOREAL SPRING WATER CO. July 30, 1873.

THE FOLLOWING REGULATIONS HAVE been duly adopted by resolution of the Board of Trustees of the FLOREAL SPRING WATER CO.

They are to be strictly observed by consumers of Floreal Springs water:

1. In all cases of non-payment of the water bill within three days after the date when the supply will be cut off, and the water shall not again be let on, either for the present or any subsequent period, until the amount due has been paid.

2. No person or family supplied with Floreal Springs water will be permitted to use the same for any other purpose than that stated in this agreement, nor to supply water in any way to other persons or families.

3. Consumers shall prevent all unnecessary waste of water, and shall make no concealment of the purposes for which it is used.

4. No alterations shall be made in the water-pipe or fixture without first giving notice of the intended alteration to the Company.

5. In all cases where water is to be supplied to several parties or tenants from one connection or tap, the Company contracts only with one of said several parties, and on his default to abide these regulations, and pay the rates, will cut off the connection.

6. Whenever any of these regulations shall be violated the supply of water will be discontinued, and not restored until all charges and expenses are satisfied.

7. All persons taking water shall keep their service pipes in good repair at their own expense, and they will be held liable for all damages which may result from their failure to do so.

8. Sprinkling with hose and standing irrigators will not be allowed under any circumstances.

9. The Inspector, or other property authorized officer of the Company, shall be admitted at all reasonable hours to all parts of any regulations supplied with water, to see that these regulations are observed.

10. The attention of customers having pipe connections is hereby called to the fact that the Regulations adopted by the Board of Trustees, and which are hereafter embodied in all contracts, and which are required to be signed before the supply will be furnished. The above regulations will be strictly enforced, and parties neglecting or refusing to comply with them will have their supply discontinued at once.

11. The Company reserves the right of placing meters on all places supplied through the pipes, in which case two one-half cent per gallon will be charged for the water used, and one-half the cost of the meter and piping upon the premises. Parties having hose, in case of fire, will be allowed to use water to extinguish the same, free of charge. Water will be supplied by the meter, within the main limits of the town, at 10 Cts. per gallon. And at the Goose Neck of the Company, on Main Street, at 15 Cts. per gallon.

The necessity of an economical use of water is imperatively called for in order that a FULL SUPPLY may be kept at the Company's works in case of FIRE. W. M. LUBBOCK. 1790-ft
