SPECIAL TO THE RECORD DAILY RECORD.

Eastern Dispatches.

COLD WINTERS. While we have encountered unprecedentedly cold weather this winter, it may not be amiss to record some of the most notable winters of the past.

In 491 the Eximie Sea was frozen over for twenty days.

In 558 the Black Sea was covered with ice for twenty days, and in 663 the ice was eighty feet thick.

In 764 the two seas at Constantinople were frozen a hundred miles from the shore.

In 821 the Elbe, the Danube and the Seine were frozen during four weeks.

In 1093 the Thames in England was frozen over for fourteen weeks.

In 1223 the Mediterranean was entirely frozen.

In 1325 the Baltic Sea was passable for travelers for six weeks, and again in 1492 the Baltic was frozen from Pomerania to Denmark.

In 1407 all the small birds in England perished from the intense cold.

In 1465 the Thames in England was frozen so hard that it was cut in blocks and sold by weight.

In 1570 the intense cold lasted three months, and all the fruit trees of the Province of Langue-doc were destroyed.

In 1624 the rivers of Europe and Asia were frozen, and ice covered the Hellespont.

In 1658 Charles X. of Sweden crossed on the ice from Holstein to Denmark with his whole army, with large trains of artillery and baggage.

In 1697 provisions and fuel became so scarce on account of cold in Paris, that a small bundle of kindle brush cost forty cents, the cattle froze in their stalls, and the Seine could not be crossed by heavy carts.

In 1683 one-third of the population of Turin died of hunger. The cold snap lasted thirteen weeks.

In 1618 forest trees, even the oaks in England were split by the frost; the Thames was covered with ice eleven inches thick, and nearly all the birds perished.

In 1691 the wolves, driven to desperation by the cold, entered Vienna and attacked the cattle and even men.

In 1709 was a year of intense cold all over Europe, and much could not be said for many weeks in certain provinces, because the wine could not be kept in a fluid state.

In 1735 in Chinese Tartary, the thermometer fell to 57 degrees below zero—Fahrenheit.

In 1740 was a winter of such rigor in Russia that an ice palace was constructed at St. Petersburg 51 feet long and 17 wide. The columns were supported on the walls, and two mortars for bombs. The cannon held balls of six pound weight, were charged with powder and discharged, so that the ball pierced a board two inches thick, at a distance of forty feet.

The cannon did not burst, although its walls were less than ten inches in thickness.

In 1812 the cold in Russia surpassed in intensity that of any winter in that country for many preceding years, and was very destructive to the French army in its retreat from Moscow. Napoleon commenced his retreat from Moscow on the 19th of November, and the march was perished by battalions and the horses fell by hundreds on the roads. What with the loss in battle and the effects of the awful and calamitous frost, France lost in the campaign of this year more than 400,000 men.

CALIFORNIA CONSTITUTIONAL CONVENTION.—The Joint Legislative committee appointed to consider the proposal for a Constitutional Convention has reported, recommending the adoption of the course indicated. The report of the committee reviews the arguments for and against the two methods of amending the Constitution, and reaches the conclusion that the Convention is at once the safest and the best. The tendency which has been recently developed, says the Sacramento Record, to introduce ill-considered Constitutional amendments to the Legislature, and the fact that when such amendments are submitted to the people at general elections, they seldom or never obtain that careful consideration which their importance demands, appear to justify the judgment of the committee. It is apparent, and has been for some time past, that the Constitution as it at present stands does not meet existing requirements in many important respects. All that the present Legislature can do is to provide for the submission to the people, at the next Legislative election, of the question whether they shall or shall not be a Constitutional Convention. If a majority of the voters declare in favor of the proposed course, then the next Legislature will be called upon to provide for a special election for delegates to the Convention, which must assemble within six months of the passage of the bill authorizing its creation. Thus it will not be possible to hold the Convention before the summer of 1876, and in the meantime there will be no lack of opportunity for the people to make up their minds as to whether they want a new Constitution.

A sentiment worthy of analysis is the strange disgust felt by the poor for certain articles of food. During the famine in Ireland people would almost starve rather than eat "Indian meal." Australian preserved meat is an abomination to the inmates of British poor-houses. The female paupers in the Cardiff workhouse, to show their dislike for this kind of food, lately rose up in revolt and assailed the house officials. The visiting committee having partaken of a repast consisting of Australian mutton and prepared as an Irish stew, declared it was "exceedingly palatable."

At a recent meeting of the Italian Scientific Congress, held in Rome, two Neapolitan physicians submitted for examination a liquid preparation designed for stopping instantaneously the flow of blood from wounds of every description. A commission of physicians, according to the Roman "Fanfulla," have been experimenting with it in the anatomical theater of the Santo Spirito, and have reported on it as one of the happiest of recent discoveries, and as particularly serviceable on the field of battle.

WASHINGTON, March 2.—The President has nominated Orange Jacobs to be Chief Justice of the Supreme Court of Washington Territory.

A banquet was given to-night by the Alumni of Yale College, in honor of Chief Justice Waite. It was attended by a large party of distinguished gentlemen, including President Grant, the Associate Justices of the Supreme Court, President Porter, of Yale College, Wm. M. Evans and Judge Pierpont.

New York, March 2.—An explosion of caps used in firing a toy mortar in a store on the corner of Broadway and Twentieth streets, this afternoon, blew out the whole front of the store, seriously injuring the clerk of the establishment, and a lady and gentlemen who were passing.

The Catholic pilgrimage to Rome is announced to start not later than the middle of May.

Kennedy, shot by Mrs. Toner in Philadelphia last night, will probably recover. He denies that Mrs. Toner shot him, and says it was a man walking behind him, but this story is generally disbelieved.

Senor Aldama, agent for the Cuban Republic here, says the patriot forces more than hold their own. They number about twelve thousand armed men; and they could put three times the number in the field if they could procure arms and ammunition. The native Cubans are all on their side. Nearly half of the island is in their possession.

CINCINNATI, March 2.—The summary of the temperance movement in sixty Ohio towns and villages up to date shows eleven towns in which liquor selling is abandoned, and over forty in each of which from five to twenty-six places are closed. The work is everywhere progressing vigorously. The Methodist ministers of Cincinnati have called a temperance meeting for the people to consider the expediency of inaugurating the prayer movement here.

COLUMBUS, Ohio, March 2.—An immense temperance meeting was held here to-night. The enthusiasm appears to increase. Speeches were made by a number of prominent citizens, including several clergies.

DATON, O., Mar. 4.—Several praying bands of women visited a number of saloons here today. None surrendered, but several were willing to sell out or be set up in other business. Three new saloons were opened today. The women are not discouraged, but are determined to persevere.

St. Louis, Mar. 3.—A fire to-night, originating in the basement of 402 North Fourth street, destroyed \$50,000 worth of rubber goods stored there, belonging to the Goodyear Rubber Company. It completely gutted the Dollar Store of J. W. Laton. Laton's loss cannot be estimated to-night. Insurance on rubber goods, \$40,000.

Lewis M. Louk, a real estate agent, blew out his brains this evening. Financial trouble was the cause.

PHILADELPHIA, Mar. 2.—The women's temperance movement is still progressing and liquor dealers exhibit considerable uneasiness at the prospect.

BOSTON, Mar. 2.—James B. Libbey, of the Boston Press, formerly one of the proprietors of the Boston Courier, died today.

INDIANAPOLIS, Mar. 2.—A large meeting of the prominent business men of Indianapolis, held to-night, adopted resolutions favoring an increase of the volume of paper currency, deprecating an immediate return to specie payment, and endorsing the position of Indiana Senators on the subject.

The temperance excitement continues. Meetings were held this afternoon and to-night.

WORCESTER, Mass., Mar. 3.—A meeting is being held here with a view of organizing a temperance crusade, after the Ohio style. Great interest is manifested.

PHILADELPHIA, Mar. 2.—No demonstrations by the temperance crusaders are reported to-day. The general feeling here is adverse to this course. Strong efforts will be made, however, in the interest of temperance reform.

BUFFALO, N. Y., March 2.—Ex-President Fillmore's condition is slowly improving, and his physician thinks there is a chance for his getting up again.

New York, Mar. 3.—A Paris letter, speaking of the approaching 16th of March, when the Prince Imperial will depart to his majority, says the Postoffice Department has been showering millions and millions of Bonapartist tracts, handbills and songs over the country, and the provincial electors, both in town and country, have received visiting cards bearing the Prince Imperial's photograph. One cannot travel twenty miles out of Paris without hearing of Bonapartist agents being at work in every village.

A memorial to Congress, numerously signed by bankers and others, has been left for signatures at the Cotton Exchange, against the issuing of irredeemable paper money, as legal tender, and stating that this is making a forced loan upon the people of the United States, and is only excusable by the necessity of a great war, and that their issue in time of peace would be in violation of all constitutional powers. It protests against a resort to such a ruinous expedient when there is no necessity to exercise it.

A Baltimore dispatch states that the Edgar Stuart, in her trial trip yesterday, was confined by the Government to a point fifteen miles down the bay, where a revenue cutter was stationed to bar her if she showed any intention of slipping off to sea. She carried the American flag at her gaff, the Cuban flag at the fore, the British flag amidships and a private pennant at the main. Her armament consisted of two brass bored swivels, and besides these she carried a plentiful supply of side arms for the crew.

Her trial trip is thought to demonstrate that she cannot make ten miles an hour.

WASHINGTON, March 3.—It is stated that the House Civil Service Reform Committee will submit a bill, at an early day, establishing the salaries of department officials at the rates at which they stood before the recent repeal of the increase of salary bill.

WILKESBARRE, Pa., March 3.—The miners who have been for the last two months fighting the fires at the Empire mine have ceased work, and last evening a most extensive cave in one of the mines occurred, exceeding in extent the fall of the Baltimore mine a short time since. Great consternation prevails in the neighborhood, and families are preparing to leave. The fire has now free scope, and threatens to utterly ruin one of the most valuable mines belonging to the newly formed Wilkesbarre and Lehigh coal company.

CHICAGO, March 3.—A Washington special, speaking of Lattrell's efforts to secure an investigation of the Central Pacific contracts, says Lattrell has been, ever since the opening of the session, hammering at an attempt to have these railroads investigated either by Congress or the courts, but he has failed uniformly in his endeavors. He is a new member, but he has been so persistent that some success ought by this time to have crowned his efforts; and that he has failed can only be attributed to the influence of a strong combination in this city whose end ever is to prevent any investigation of the subject.

SAN FRANCISCO, Feb. 3.—The notorious Vasquez and his gang of outlaws have again been heard from. They robbed the passengers of the Los Angeles stage near Solidad on Friday and got \$300. No person was injured by them. At Solidad they robbed a store, and stole six horses from a stable; robbed a teamster, and started for the mountains. No organized pursuit of the gang has yet been undertaken, notwithstanding the offer of \$15,000 reward by the State.

Dispatches from Tucson, Arizona, state that Casavado's band of Apaches has surrendered to Lieut. Bachs. Cochise is reported as saying that he will not leave his reservation, and that he will do all in his power to prevent others from doing so. This is taken as an indication that the desire for war is by no means unanimous among the Apaches.

PACIFIC COAST. SAN FRANCISCO, March 2.—The Japan sailed for Yokohama and Hong Kong today. She took over \$300,000 in treasure.

The Assembly has appointed Burt, Howe, Coggins, Ammerman and Northcutt a committee to examine into the matter of the State subsidies to the Central Pacific Railroad.

The rain storm on Sunday was widely distributed throughout the State, and was timely for the farmers.

The overland trains are all blocked seventy-five miles east of Elko, Nevada.

SAN FRANCISCO, March 3.—Mining stocks were still lower today, with but little business. Several more assessments were levied yesterday, including one of 35 cents per share on the Pacific Bonax Company; one of 50 cents per share on the Andes Silver Mining Company; and one of 20 cents per share on the Union Consolidated Mining Company, amounting to \$10,000, delinquent April 8th.

The time for redeeming delinquent the January assessment of 25 cents per share on the stock of the Kentucky Mining Company has been further deferred until March 16th.

Michael Hydeneger, a stonecutter, while riding in an omnibus car, about 7 o'clock last evening, was suddenly seized with a fit, while the car was passing Union and Powell streets. He was conveyed from the car to the sidewalk, and died almost as soon as laid thereon.

BAYONNE, March 2.—Five thousand Republicans camped fifteen miles northwest of Bilbao were surprised by the Carlists, and a bloody engagement took place, in which one thousand of the Government troops were killed. The remainder took to flight, closely followed by the royalists, and all were either captured or drowned in the attempt to cross the river in the way of their retreat.

PARIS, March 2.—Ledru Rollin is elected to the National Assembly from the Department of Vancluse to fill a vacancy.

LONDON, Ont., March 2.—All of the injured survivors of the burned passenger car are progressing favorably. The bodies of the dead have been identified.

MADRID, March 2.—Official reports of the battle on the heights of Somovosto, admit that the Government troops lost 800 killed and wounded. The merchants of this city and the provincial deputations offer the Government men and money.

It is reported that Archduke Albert, of Austria, is visiting the camp of Don Carlos incognito.

HAVANA, March 2.—A detachment of three hundred volunteers, the first mobilized since the Captain General's decrees were issued, went to Cinco Villas District to-day, for active service in the field. Three thousand more leave for Puerto Principe to-night.

Foreign News.

LONDON, March 2.—Salutes were fired on Saturday in several places on the reception of the news of the verdict in the Tabor case. At Wardour a cannon burst, and several persons were killed and others wounded. Some Democratic journals deplore the verdict, and denounce Chief Justice Cockburn for his unfair conduct in the trial, and quote against him the codices of Caleb Cushing in his recent book on the Geneva Arbitration.

The appointment of Earl Pembroke as Under Secretary of War and Earl Russell as Lord High Commissioner to the General Assembly of the Church is officially announced.

A conference of leading workmen representing 8,000 of their class in the west of England, was held at Bristol last night. A resolution was adopted favoring

the settlement by arbitration of all international disputes.

The Peabody Trustees report that their expenditures for the year 1873, amounted to \$195,000.

The special correspondent of the News in India telegraphs that the villagers of Eastern Tirhoot are slowly starving to death, and the future in other districts looks terribly ominous.

NEVADA STATE ITEMS.

GREATLY EXAGGERATED.—In connection with several stock men, yesterday, we infer that the reports circulated in regard to the cattle dying in great numbers during the late storm, were greatly exaggerated. The heaviest loss we have been informed of is that of Daniel Murphy, who has lost about 500 head on White's north of here. The cattle were in a poor condition, having but recently arrived from California, and before sufficiently recuperated from the fatigue of the trip they were overtaken by the storm and perished. At Willow Creek there is but little snow, not enough to prevent the finding of sufficient feed. In the neighborhood of Diamond Station, on the Elko road, the young stock were the only ones suffering in their search for food, having sunk into the deep snow and being unable to extricate themselves, died from cold and exposure. [Eureka Sentinel, 25th.]

AN IMMENSE AFFAIR.—The grand sheet and pillow slip, masquerade party, given under the auspices of the Trippichorean Social Club at Dyer's Hall, Reno, on Monday evening last, was without a doubt one of the finest parties ever given in Nevada, and the votaries of Trippichorean were unanimous in their expressions of satisfaction at the success of this novel experiment of the club, both financially and in all other respects. The novelty of the affair probably contributed largely to its success, and one feature peculiarly noticeable was that while all were arrayed in the same garb no two persons looked just exactly similar, everyone having some peculiar characteristic style. So stated are the club very successful, that they now propose for their next party a regular masquerade. [Reno Journal, 25th.]

The committee appointed by the Grand Jury of Storey county to inquire into the financial condition of the county found that the old indebtedness of the county had been wiped out, and that a balance remained on hand in the General Fund of the county amounting to \$10,000. Of this the county is indebted to the Virginia and Truckee Railroad bonds, \$10,000 have been paid, leaving a balance of \$200,000 indebtedness, \$90,000 of which has to be paid in the fiscal year 1875, which will necessitate an additional tax of \$2 on every \$100 worth of assessable property within the limits of Storey county. Special legislation will be required to meet the emergency.

THE NARROW-GAROE.—We learn that owing to the severity of the weather during the past few weeks, but little work has been done on the Palisade & Eureka Railroad. Mr. Woodruff writes that work has necessarily been suspended, but active operations will be resumed as soon as possible. We are sorry that the narrow-garoe should be so disaffected against the energetic proprietors of the Narrow-Garoe, but hope that clear skies and warm days may soon come. [White Pine News, 25th.]

A HARD TRIP.—During the past week our stage men have had a hard time of it. The Pioche stages were, in one instance, 48 hours coming from the 6-mile house to this town, and the road had to be broken every inch of the way. People not absolutely obliged to travel during the present inclement weather are certainly in luck. We sympathize with those who business calls to perform such journeys as from Pioche to Palisade and the opposite. [White Pine News, 25th.]

COLD WEATHER.—A letter from E. Woodruff, to Geo. Haight, Wells Fargo's agent here, states that at 6 o'clock on the morning of the 24th inst., the thermometer at Palisade stood 30 degrees below zero, and at Carlin, same hour, 40 degrees below. It is said to be the coldest weather ever experienced at either point, and has had the effect of stopping all work on the narrow-garoe. At Hamilton, on the night of the 23rd inst., the thermometer indicated 23 degrees below zero, and we thought that cold enough. [White Pine News, 25th.]

PASSED THROUGH.—Norman Wines, the cattle and stock man, passed through from Pioche on Thursday last. He reports all cattle in Spring and Steptoe valleys as doing exceedingly well. The only loss sustained has been, as mentioned elsewhere, by Daniel Murphy, who has lost some cattle too poor to stand the cold weather. [White Pine News, 25th.]

FERRELL.—The Sentinel says Col. A. C. Ellis will be a candidate for Governor on the Democratic ticket next Fall, and regards his aspirations with great favor. Two contesting accidents, neither serious, are mentioned. Snow is melting fast.
