Seventy-Five Miles Nearer the Black Hills Gold Discoveries than any other Newspaper, and gives more Reliable Information concerning them than any other.
Persons looking for homes in the West, especially in the Red River and Missouri valleys, or at any point in the Northern Pacific country, will find more interesting and at the same time valuable information in the Bismarck Tribune than in any other newspaper.
All persons interested in the Northern Pacific should be among its subscribers.
Bismarck is situated at the present terminus of the Northern Pacific, on the Missouri river, in a prairie region having a deep rich soil, well adapted to agricultural purposes. Three lines of steamers ply on Missouri in connection with the Northern Pacific to Council Bluffs above Bismarck, and to Fort Benton, 200 miles above, while the Yellowstone river is navigable for the million of acres of Bismarck 1500 miles of country above, directly tributary to it, and a large extent of country below it.
It is located twenty-five miles nearer the Black Hills than any other railroad town, and affords the best outlet and inlet to the New Eldorado—not only by shortest but the most and best route.
