MORE INDIAN NEWS.

San Francisco, July 10.—Details of fighting on the 3d, 4th, and 5th of July, show that Lt. Raine's company of 13, which was massacred by the Indians, had been sent out on the 3d, over a rise into a ravine, to reconnoitre and met its fate before the large body, which heard the firing, could reach the scene. The next day Capt. Randall, with sixteen volunteers, while trying to join the main band, was beset by the Indians in force and held them at bay for two hours, receiving a mortal wound. Finally Col. Perry reluctantly sent them twenty men as reinforcements and released them. The volunteers claim to have killed a number of Indians and wounded several others. B. F. Evans was the only man killed besides Randall. All were brave and trusty.

NEW YORK

ASKING FOR HELP.

New York, July 10.—The Cuban league of this city have resolved to make an appeal to the people of the United States asking them to show their sympathy with the struggling Cuban patriots, also to ask congress when it meets to take some action that will end the struggle.

A BOLD ATTEMPT TO ROB A TRAIN.

New York, July 10.—A San Antonio, Texas, dispatch states that at four o'clock P. M. Sunday, the train of Mr. Scheebogen, enroute from Chihuahua to San Antonio laden with specie was attacked by thirty five white and Mexican highwaymen on Seco creek, fifty two miles from here. The train contained twelve wagons and there were twenty men with it. After a desperate fight, the robbers were driven off, losing several killed and wounded. Major Domo, of the train, Frank Grimsger and a Mexican were killed and several others of the train wounded. No such outrage has occurred since the war.

DISCHARGED FROM BANKRUPTCY.

New York, July 10.—Moses Minshesheimer, Mark Linheim and Robert Linheim have been discharged from bankruptcy. The firm are engaged in wholesale liquor business and failed for over \$500,000. One of the partners lost \$800,000 in speculations on his own account.

O'LEARY.

Last Friday, O'Leary, said he must consult his friends before accepting the Weston challenge to walk again in England.

BREACH OF CONTRACTS.

The silk manufacturers of Palerson, are about to begin actions for damages against strikers for breach of contract. Most of the strikers had written con-

tracts in which they bound themselves to finish all warps on which they had begun work before engaging in the strike. When the recent strike occurred a large number of strikers left work without finishing their warps.

WILL IT BE WAR?

Senor Mariscal, recently minister of Mexico, now residing near New York, being interrogated about the crossing of U. S. troops into Mexico said he was very sorry such a decisive step as crossing the border had been taken. It could not be considered in any other light by the Mexican government than an invasion in that country, and this was probably but the beginning. It was a very unfortunate situation, because the collision would be a very serious thing and most probably would lead to serious complications between the two governments. He knew the Genl. Trevino had received instructions to resist any invasion and he knew if Trevino's forces met any of the invading forces, there would be a battle. When a year ago depredations were more frequent, the house of representatives seemed to repel the idea of involving the government in any complication with a sister republic, and now while congress was not in session it seemed strange that a different policy had been resolved upon. It was not just to Mexico, for the Mexican government has always been disposed to do every thing in its power to maintain good relations between that country and the United States, but always under condition of resisting invasions of their territory and that they could not permit and would resent with all their force.

WASHINGTON

PARDONED.

Washington, July 10.—Uriah Helton, convicted of selling lottery tickets, and Wm. Rives, convicted of burglary, have been pardoned by the president.

Washington, July 10.—The following telegram was received this a. m. at the war department from San Francisco:

CRAIG FERRY, SALMON RIVER, }
Six o'clock P. M., July 5. }

Green's advance or rumor of it turned Joseph back and as I crossed the Salmon to the enemy's side, he fled to the mouth of the Salmon and recrossed. I had provided for this by ordering the cavalry force with two galling guns back to Cottonwood. Capt. Perry and a portion of the train from Lepwai formed junction with the Cottonwood force or is near doing so as Joseph appeared on the road near that place. The cavalry forced them back southwest. I am recrossing the Salmon on the Indian trail and hope he can't get back in the Snake country without disaster. His turning the right flank of the troops with me has done no other harm than to create alarm in the rear, except the loss reported of Lieut. Rains, of the first cavalry, and ten men sent out by Capt. Whipple as his advance. The troops are hearty and confident of success. I shall push my infantry and artillery to-morrow to near Cottonwood, there I am concentrated.

[Signed] HOWARD,
Major General.

Roasted Coffee.

If there is any luxury more generally appreciated than another it is good coffee. Few persons can roast coffee well, and to meet this want Messrs. Bell, Conrad & Co., Chicago, have imported and roasted a coffee called

ANKOKIA,

which is the nearest approach to Java of any heretofore offered to consumers. It is not glazed, is brittle and will grind easily. Your grocer has the goods for sale, as also the famous

PEARLESS BAKING POWDER,

made by the same firm. Ask him for them and obtain the best goods in the world.

Anarchy Reigns Outside the Lines of the Contending Armies.

FOREIGN

THE BLACK SEA.

London, July 10.—The British government has informed the ports that the blockade of the Black Sea is not binding, being ineffective.

RESIGNATION.

Paris, July 10.—Intelligence received here states that twenty five Servian deputies of the extreme left have resigned the Skuptschina, because the address of the house in reply to Prince Milan's speech was not framed in accordance with the views of the minority. The resignations make a quorum impossible. The elections to fill the vacancies will be held immediately.

THE BRITISH COMMANDER.

London, July 10.—Vice Admiral Hornby, commanding the British fleet in Besika bay, arrived in Constantinople and will have an audience with the sultan.

WHAT THEY EXPECT.

New York, July 10.—A London dispatch says it is now known that an understanding has been arrived at between Russia, Germany and England, and that each nation is to have its share in the spoils of the sick man. France can't object, as she fears Germany, and Austria is now crippled, as she does not fight without Great Britain at her back. It is understood Russia will be satisfied with Armenia and Independence of Danubian Principalities; England gets Egypt and Cyprus, while Greece gets Crete, and Germany Russia's Baltic provinces, or perhaps a portion of Austria.

POOR TURKS.

London, July 10.—The street revolt in Constantinople comes from knowledge on the part of the Turks. They have been betrayed. They are especially angry at the English, for deluding them into the war and then deserting them.

WORSE THAN WAR.

Constantinople, July 10.—Complete anarchy prevails beyond the line of the contending armies. Bulgarian and Circassian Tartars murdering each other indiscriminately.

WAR ITEMS.

London, July 10.—General Skodeleff, jr., hero of Klokand is badly wounded and is likely to lose an arm and foot.

The Hungarian treasury bonds fell in consequence of fears relative to the attitude of Servia.

It is understood that advices have been received of military preparations throughout Austria on a larger scale than has hitherto been made.

The public assertions of special correspondents at Vienna coupled with the report of Baron Colice, on a special mission to the British government give the impression that active diplomatic efforts are making between England and Austria to establish a basis for future action.

The remainder of the Turkish troops operating in Montenegro have been ordered to prepare for departure.

Shumla, July 10.—The Russians have advanced as far as Moniater, about 25 miles south west of Rutchuk. A battle is believed imminent.

Russian detachments marching upon Selva and Plevna, unfortified towns, have burned four valleys between these points.

The bombardment of Rutchuk, from Stobosia, has ceased for four days.

The Turkish accounts charge the Russians with ruthless devastation in Bulgaria and murders and outrages against the Musselmans. The Russians make similar charges against the Turks, with reference to Bulgarian Christians.

Erzeroum, July 10.—The Russians retired from the neighborhood of Kars marching towards Alexandria without fighting. Mukhtar Parsha has entered Kars.

The Big Horn Country.

Deadwood Champion.

Mr. R. W. Gates, an old frontiersman arrived here yesterday from the Big Horn and Tongue river country, and is registered at the Custer House. He left here last fall to prospect in the Big Horn country, but found the snow so deep on his arrival there that prospecting was well nigh impossible, but found some good prospects. He left Tongue river about ten days ago with six companies of infantry and one company of cavalry, (the 7th), he latter in command of Captain McDougall. The command is under charge of Major LaSalle. The infantry is largely made up of the 1st and 22nd regiments. They came from Fort Cantonment on Tongue river. Major LaSalle was reticent as to the destination of his command, his movements being so private that no one knew until starting off in the morning the direction they were to travel the same day. From what information he could glean, he understands that one division will scour the foothills and plains in the neighborhood of the Little Missouri to intercept marauding parties of hostile Sioux, while another division, (the 22nd), will take the old Custer trail at Bare Lodge and follow it into the Hills to Bare Buttes. At the time our informant left, a scouting party of twenty men, under a lieutenant, had been out four days, and fears were entertained for their safety. The scouting party were escorted for two days by the cavalry. They struck a large and fresh Indian trail. Mr. G. says that after reaching the Belle Fourche the road to Tongue river is one of the finest in the country. The Little Missouri, 220 miles distant from here, has a valley from 15 to 50 miles in width thickly dotted with timber. He says the Tongue river valley and Fallens creek and other streams have large valleys, fine hay land, plenty of timber and not a mile of bad land on the entire road, but on the contrary, the land appears to be very fertile and prolific.
