YANKTON, DAKOTA TERRITORY. WEDNESDAY EVENING, MAY 15, 1878.

Number 17.

CATARRH IS IT CURABLE?

THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief of cure, await the answer to the question with constrained anxiety. And well they may, for so chronic and obstinate a disease is Catarrh, bronchitis, catarrh, cough, and asthma, and frequently fatal affections of the lungs follow in many instances, a cure simple but neglected, may be referred to as a labor but nevertheless serious results of neglected Catarrh, had enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow.

IT CAN BE CURED.

It can be cured. There is no doubt about it. The immediate relief afforded by HARRISON'S CATARRH CURE has been proved in the most convincing manner by the following testimonial: "I have suffered from Catarrh of the throat and lungs for many years, and have tried many physicians and remedies without relief of cure, awaiting the answer to the question with constrained anxiety. And well they may, for so chronic and obstinate a disease is Catarrh, bronchitis, catarrh, cough, and asthma, and frequently fatal affections of the lungs follow in many instances, a cure simple but neglected, may be referred to as a labor but nevertheless serious results of neglected Catarrh, had enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow."

A COMPLICATED CASE.

Gentlemen.—My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril, and had to drop in the throat, a very bad cough, asthma so bad as to be obliged to take a remedy for it at night before being able to lie down and sleep, and a constant dull pain in my head. My head was at times so full of catarrh, and matter as to injure my sense of hearing and compel me to get up several times in the night to clear it and my throat before I could sleep. For one of these distressing symptoms has disappeared under the use of not only the three bottles of HARRISON'S CATARRH CURE, but my hearing is fully restored. I have no asthmatic symptoms, no cough, no dropping in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the Cure on my system, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the HARRISON'S CATARRH CURE. G. H. LAWRENCE, Fitchburg, Oct. 11.

Indorsed by a Prominent Druggist.

I hereby certify that Mr. Lawrence purchased the HARRISON'S CATARRH CURE, and from time to time made me familiar with its merits. I believe his statement to be true in every particular. JAS. P. DENBY, Fitchburg, Oct. 11.

Each package contains Dr. Sanford's Improved Inhalant Tube, and full directions for its use in all cases. Price, \$1. For sale by all wholesale and retail druggists and chemists throughout the United States and Canada. WELLS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

COLLINS' VOLTAIC PLASTER

An Electro-Galvanic Battery combined with a highly medicated Strengthened Plaster, forming the best Plaster for pains and sores in the World of Medicine.

GENERAL.

Another Dead Lock in the House Today.

A Scarcity of Democrats Turn Up and There is No Quorum.

Consequently an Adjournment Occurs, With Florida and Louisiana Uninvestigated.

Bob Ingersoll Implores Congress to Permit Obscene Literature to Pass Through the Mail.

CONGRESSIONAL.

SENATE.

WASHINGTON, May 10.—Mr. Christianity, from the committee on the revision of the laws, reported back the petition of Robert Ingersoll and others, asking the repeal or modification of certain provisions of the revised statutes, forbidding the transportation through the mails of certain matter, pictures, &c., and moved the reference to the committee on judiciary. So ordered. This is a petition favoring the repeal of the law for bidding the transportation through the mails of obscene literature.

Mr. Christianity said that the petitioners did not ask for a correction of any error in the law, but for the change thereof, and that the subject did not belong to the committee on the revision of the law. The committee therefore asked that it be referred to the judiciary committee.

Mr. Terry, from the committee on post-offices, reported the bill regulating the compensation for transportation of the mails on railroads, providing for the classification of mail matter, and for other purposes.

Mr. Eastis introduced a bill to provide for the establishment of a Brazil steamship service. Referred.

Mr. Morgan called up his resolution touching the relations between the United States and Mexico, and spoke at length in favor thereof. The resolution was then referred to the committee on foreign relations, and the senate went into executive session.

HOUSE.

Washington, May 15.—Mr. Wood called up the senate concurrent resolution for final adjournment, and moved that its consideration be postponed till Wednesday, the 29th of May. He also moved the previous question.

Mr. Wood's motion was agreed to, yeas 130, nays 106.

The division on seconding the previous question on Mr. Potter's resolution, showed the presence of only 118 democrats, 29 less than a quorum.

After the house by a vote of 84 to 67 had ended the previous question, and by a vote of 130 to 106 had adopted the resolution to postpone the consideration of the adjournment resolution, all other business was dropped.

The regular order was announced by the speaker to be on seconding the previous question on the resolution offered by Mr. Potter, on Monday last. The speaker put the question to a standing vote, and announced that the yeas appeared to have it, —188 in the affirmative—whereupon a call for a division was made by Mr. Hale, and that gentleman and Mr. Potter were appointed tellers. The tellers reported yeas 121, nays 1, Mr. Hale's own vote, and then the objection, no quorum, Mr. Speaker, came from Mr. Hale, and was recognized by the chair. Then a motion for a call of the house was made by Mr. Hale, and ordered. The call proved the presence of 100 members. Further proceedings under the call were then dispensed with.

Mr. Hale—Will the gentleman from New York, (Potter) listen to me for a moment?

M. Kenny—I demand the regular order.

The question recurred on seconding the demand for the previous question, and the republicans refraining from voting, and the democrats being unable to muster more than 120, the house was again left without a quorum.

Mr. Caldwell rising to a question of order, directed the speaker's attention to rule 31 of the house.

The speaker directed the rule to be read. It provides that every member who shall be in the house when the question is put, shall give his vote, unless the house shall excuse him.

Mr. Caldwell—The language of that rule is imperative. It says that every member present shall vote.

Mr. Fort—I suggest that we are paired on this side of the house.

Mr. Caldwell—I call attention to the fact that Mr. Cameron is present and has failed to vote and has not been excused.

Mr. Speaker—This is not a new difficulty the chair has caused the rule to be read, which is the extent, he thinks, of his power in that direction. In other words, he knows of no physical way, even by means of the sergeant-at-arms, or through any persuasive power which he possesses [laughter] to compel the gentleman to vote, but if the gentleman from Tennessee [Cald-

well] will indicate a way, the chair will cause it to be followed.

Mr. Caldwell—I suggest that the chair can order the sergeant-at-arms to arrest any member who disregards the rule, and carry him between the tellers. (Derisive laughter and cries of "suppose you let him try it.")

Mr. Mills mentioned Mr. Blaine's ruling, during the filibustering against the civil rights bill, that you may bring a horse to water, but can't make him drink.

Mr. Beebe asked why Mr. Potter did not enforce the attendance of the absent.

Mr. Potter said that they could not procure a quorum of the democrats to day, and that yesterday a joint resolution was adopted for adjournment at 4 o'clock to-morrow, which would terminate all proceedings.

Under call, further proceedings of a filibustering nature were terminated by a motion to adjourn.

The clerk announced a republican caucus, which caused roars of derisive laughter from the democrats, and demonstrations of triumph from the republicans. The excitement was intense for a few minutes.

FIRES.

Salmon Falls, N. H. May 15.—A fire this morning destroyed the Picker building, attached to the Portsmouth manufacturing company's cotton mills in South Berwick, Me., causing a loss of \$50,000; insured.

FT. RANDALL PERSONALS.

COL. LUGENBEEL'S RECEPTION.

Fort Randall, May 15.—Col. Lugenebel arrived yesterday on the steamer Western. There was a general hand-shaking and all seemed glad to welcome their old commander back. The band was out and played several fine pieces while the boat was coming and when she was lying here.

MAJ. OFFLEY.

left this morning for Santee agency, Yankton and Omaha, and may visit California before he returns.

POLITICAL.

STATE CONVENTION.

Harrisburg, Pa., May 15.—The republican state convention met at 10:30 a. m. N. J. Parvance was chosen temporary chairman. A temporary adjournment was taken to await the reports from the committees.

MUSICAL CONVENTION.

Cincinnati, May 15.—The beautiful May weather of to-day has attracted an immense throng upon the streets, and at various places of interest in the city and suburbs. The decorations upon the various business houses, hotels and private residences are so profuse that upon some of the more prominent squares one literally walks under a canopy of evergreens, bunting, lyres, harps and other devices. Notwithstanding the large number of people already here, the railroads and steamers are arriving at intervals, with hundreds of excursionists. From the present indications the entertainment this afternoon will be almost as largely attended as the one last evening, when it was estimated that 8,000 persons were in the building. Every seat has already been secured. The music at the matinee will be of a varied character, opening with an overture from Tannhausen, after which Miss Cary, Mr. Adams, Mme. Papenheim will render arias from Verdi, Weber and Meyerbeer; these are to be followed by an orchestra performance, and duos. To-night, the oratorio, "The Messiah" will be given, in which Mrs. Osgood will make her first appearance.

THE DOMINION.

CROP REPORTS.

Toronto, May 15.—The Globe publishes crop reports from all over Ontario and a portion of Quebec. The principal features noted is the extraordinary and unprecedented rapidity of growth at this early date. The recent heavy rains have done a good deal of damage in low lying districts, and in some places the frost of the last few nights has blighted the previous fair prospects. Fruit trees and gardens have suffered more than grain crops, and possibly the latter may yet recover to a greater extent than might at first sight be supposed. The hay crop will undoubtedly be heavy, and is already past any danger from drought. In some localities there is some danger of the grain becoming so rank that injury will result from that source.

FOREIGN.

SERIOUS TROUBLE APPREHENDED.

London, May 15.—The cotton operatives on the strike in Lancashire are greatly exasperated at the refusal of the masters to compromise. When the representatives of the operatives left the meeting at Manchester, yesterday, when no compromise was arrived at, they indicated that the leaders would not be able to longer restrain their men, and disclaimed all responsibility for what might happen in the strike district. When the news of the decision reached Burnley, thousands of people assembled in the streets, shouting, and smashing the windows. A mass meeting will be held there to-day, and serious trouble is feared.

The riot in Blackburn last evening was the direct result of the announcement of the failure of the negotiations. There were also riotous demonstrations at Accrington and a serious breach of peace is still apprehended there.

FROM CONSTANTINOPLE.

London, May 14.—A special from Constantinople says that Gen. Todleben declares that unless the Turkish commissioners induce the insurgents to disperse, he will adopt severe repressive measures.

A TELEGRAM FROM BATAUM.

states that a concentration of 7,000 armed Mussulman inhabitants, at Lzletia, in the Ardenutch district has compelled the Russians to retreat, and that the rapid gathering of armed bands renders untenable the Russian positions at Livanla and on the Choruk river.

TELEGRAPHIC BRIEVITIES.

Columbus, Ohio, May 15.—The senate and house adjourned until next January.

Albany, N. Y., May 15.—Both branches of the legislature adjourned sine die to-day.

Albany, N. Y., May 15.—The Grand Encampment of the Black Knights of Malta, of the United States were in session here yesterday, and elected officers for the ensuing year.

Philadelphia, May 15.—The schooner Dora S. Pridall sails to-day for Rio, with a valuable cargo, including sample cases of goods of all descriptions, under the auspices of united industries.

Boston, May 15.—The Base River Savings bank, of South Yarmouth with deposits of \$220,228 and the Union Savings bank, of Fall River, with deposits of \$612,000, have been granted the benefits of the restriction law by the savings bank commissioners.

THE COMING EMPIRE.

A new publication is about to be placed in the hands of the printers which will prove of inestimable value to this section of the country. It is to be entitled "The Coming Empire" and will emanate from the pen of H. N. Maguire, author of the Lakeside edition of "Black Hills and American Wonderland." Mr. Maguire has spent a large portion of the past two years in the Black Hills and his proposed work will comprise a complete history of that region, profusely illustrated and accompanied by an elaborate and accurate map of the Black Hills country drawn on a scale of ten miles to the inch. This map and book are to be largely devoted to the interests of the southern Hills, Rapid City and the two Missouri river routes—from Pierre and Bismarck. Mr. Maguire takes the ground that there is no question about the superior natural advantages of the Pierre route; but that its favorable features have been kept in the background by the advertisements with which the country is flooded regarding rival routes. A statement of the exact facts regarding this Pierre route will form a conspicuous portion of his book and to widely circulate these facts is all that is necessary to bring the travel and transportation this way. The Coming Empire will prove the means of circulating much valuable information regarding this route and that portion of the Hills in which we are most interested. Mr. Maguire is now in town and will see our business men on the subject of advertising. His book will contain about one hundred and fifty pages of valuable reading matter, will be bound in two different styles—paper and cloth and will sell at popular prices. The Western News Company of Chicago will take hold of the enterprise and aid in the circulation and sale of the books.

THE RIVER.

The steamer Josephine will arrive at Yankton from Benton in about a week.

The steamer Nellie Peck, of the Northwest transportation line, from Yankton, reached Bismarck last night and left today for Benton.

The steamer Black Hills, T. B. Burleigh master and Soc Drew clerk, left this afternoon for Pierre, Lincoln and Bismarck with 200 tons of freight and twenty cabin passengers. She will return as soon as her load is delivered.

Tr-Jay's White Swan telegram says: The river is falling very slowly. The steamer Tiger passed up last evening at 7:30. The old channel is filled with sand bars now and all boats have to go up this side of the island. Since they found good water there they have no difficulty in getting past here. Weather continues cool and cloudy.

TO THE HILLS VIA PIERRE.

The Sioux City Journal of Tuesday contains some facts about the Pierre route which are good reading to the people of this locality and we therefore reproduce them:

Fred T. Evans, arrived in the city Sunday night, direct from Pierre where he has been superintending the establishment of the freighting route from Pierre to Deadwood. He left Pierre on Friday morning, and came down to Yankton on the steamer Black Hills. Mr. Evans informs us that his first trains were started from Pierre, May 2. He has received a letter from this train stating that the roads were splendid, and the train was making 15 miles per day. Since then he has been sending out a train every day from Pierre and there is plenty of freight constantly arriving for shipment over this popular route. Three car loads of freight for T. S. Martin & Co., and three car loads for Miller & McPherson, Dead-

wood, have arrived at Pierre, and a car load of Schuttler wagons have been shipped there, all for transportation over this route. The roads are in splendid condition. There has been no rain nor any storm over them this season, and the roads are dry and dusty. Mr. Evans informs us that N. L. Witcher, who has been shipping over the Bismarck route, has made arrangements to ship by this route hereafter.

The tri-weekly stage line between Pierre and Deadwood was inaugurated May 15, and the government agents report it the best road into Deadwood. Mr. Wilsey from Cheyenne, W. T., has been appointed agent at Pierre and Mr. Gilmore is the division agent. The stages will make the 180 miles from Pierre to Deadwood in 48 hours, which is decidedly fast traveling. Ranches and stations are being erected along the route and horses will be changed every fifteen miles. There is no reasonable doubt that this will be the great freight and passenger route to the Hills.
