THE NEWS.

Continuation of the Snow Blockade on Eastern Railroads.

Juan Meca, the Spanish Assassin Executed this Morning.

Union Pacific Management Sharply Criticized by Government Directors.

WASHINGTON.

REPORT OF GOVERNMENT R. R. DIRECTORS.
Washington, Jan. 4.—The government directors have sent their annual report to the secretary of the interior. They are of the opinion that the Union Pacific, in view of the extremely liberal aid it has received from the government, and the brilliancy of its success as a commercial enterprise, should be judged by the most severe standards known among the railroads of the country. Measured by this standard they report deficiencies many and apparent. At the same time the property is being brought up with steadiness, though slowly, to a fair degree of average excellence. The failure to replace with steel rails, the worn out iron rails is sharply criticized, and the directors say that although the policy now pursued by the company in regard to the material condition of the property is careful and sufficiently safe, it is by no means liberal nor such as the country has a right to expect or the government to insist upon.

ALL RIGHT NOW.

Washington, Jan. 4.—The District of Columbia bonds, which Treasurer Gillfillan refused to redeem, as they lacked the seal of the district, have been completed by the commissioners and redeemed by the treasurer.

REDEMPTION.

Washington, Jan. 4.—The secretary of the treasury will to-day issue a call for the redemption of ten million 5.20 bonds of 1865, consols of 1867, of which six millions will be coupon and four millions registered bonds.

WIND AND WATER.

STAY COMMENCED.

St. Louis, Jan. 4.—Leverett Bell, city counsellor, entered suit in the circuit court this morning against Jas. H. Butler, president of the defunct bank of the state of Missouri and his bondsmen, Barton Bates, Jas. B. Eads, John Jackson and Julius D. Walsh, to recover the balance of the city's funds deposited in that bank. The sum in the bank at the time of its suspension was about \$270,000, but dividends since paid have reduced the amount to about 178,000, for which suit judgment is asked.

DEATH SENTENCE PRONOUNCED.

Edward N. Nugent, convicted in the criminal court some days ago of murder in the first degree for killing his wife two years ago, was sentenced this morning to be hanged on the 14th of February next the same day that Henry J. Redemeyer is to be executed. The court however granted supercedes in both cases. They will be taken to the supreme court.

RETURN OF MOONSHINER HUNTERS.

Cincinnati, Jan. 4.—A squad of fifty revenue men, under Capt. Bernside, have returned from a raid on moonshiners in the border counties of Kentucky and Tennessee. They report the destruction of over fifty distilleries, and the capture of a large number of stills. It is thought the business is pretty well broke up in that region.

Madrid, Jan. 4.—Monca has been handed over to the brotherhood charged with accompanying condemned persons to execution. A chapel is erected in his cell where he will remain twenty-four hours in prayer. The execution is to be by garrote.

LATER—THE JOB DONE.
Juan Meca, who attempted to assassinate the king of Spain on the 25th of October last, was executed this morning. At midnight the prisoner made a will leaving his property to his wife. At 5 he attended mass and at 8 he was led from the prison and taken in a carriage to the scaffold, which he mounted without support, and listening to the admonitions of the priests. Two battalions of troops were drawn up around the scaffold. An immense number of spectators were present.

WILL RESIST.
London, Jan. 4.—All societies connected with the engineering trade, unite to resist any prolongation of the hours of labor. The cotton masters at Huddersfield are considering the advisability reducing wages as at Oldham.

RIOTS THREATENED.
Constantinople, Jan. 4.—Owing to the depreciation of the caimes and the high prices of provisions, anonymous letters have been addressed to the porte threatening serious riots if caimes are not withdrawn. Military precautions have been taken.

PROPOSE TO DEBUNK.
Paris, Jan. 4.—The Dr. Neuvieu-Sieckle (newspaper) says the minister of foreign affairs proposes to the cabinet to denounce treaties of commerce with England and Belgium.

FAILURE.
London, Jan. 4.—R. Hudson & Co., seed crushers of Leeds and Hull, failed; liabilities, £115,000.

THE CORNISH BANK.
A dispatch from Plymouth says the Cornish bank will cause terrible distress among the traders of West Cornwall. The immediate cause of suspension is a run on the bank during the last fortnight, resulting from rumors that the late Sir Frederick Williams was largely indebted to the bank, and that a large portion of its capital was locked up in mines and advances on tin. Further stoppage of the Cornish mines is inevitable, and the failure of many private firms must follow. The deposits amount to £5,000,000.

BANK FAILURE.
London, Jan. 4.—The Cornish bank at Truro, Cornwall, closed this morning. It is hoped the suspension will be only temporarily. The bank did a very large business in mining and other commercial enterprises. The bank belonged to Tweedie, William & Co. It was established about one hundred and ten years ago and has branches at Falmouth, Penryn and Redruth. Sir Frederick Williams, member of parliament for Truro, who died recently, held one third of the concern. His widow is the sole executor. The bank had authorized the issue of forty-nine thousand pounds.

ROYAL BAKING POWDER

Absolutely Pure.

CONSUMERS should bear in mind that the incomparable "Royal" is now the only Baking Powder in the market made from pure Grape Cream Tartar, imported exclusively for this powder direct from the wine-growing district of France. An old experienced housekeeper writes that, although she has to pay a few pennies more for the "Royal," finds that it goes so much farther and works so much better, that it's economy to use it. Another says she uses the powder in puddings, cakes, and all sorts of pastry, wholly without eggs. An old lady from Ohio writes that it makes the only biscuit her dyspeptic husband can eat. This is because the best and most wholesome materials are used. Approved by the New York Board of Health, and by such eminent chemists as Dr. MOTT, New York; Dr. HAYES, Boston; Prof. GENTH, Philadelphia, etc. Sold in tin cans only, by grocers.

A HOME INDUSTRY!

The undersigned takes this occasion to return his thanks to the people of Yankton particularly, and to his many friends throughout Dakota and Nebraska, for the generous patronage which has been bestowed upon the late firm of DUDLEY & HAWLEY through the many years in which that firm has carried on business in this city, and he now desires to call the attention of these friends and that of the people generally to the enlarged facilities, more extensive assortment and more commodious rooms, which the late firm had provided and which he, as the successor of Dudley & Hawley, now possesses.

In the line of the Hardware trade, and in the manufacture of Tin, Copper and Sheet Iron Ware, he claims to have an establishment equal in all respects to anything in the northwest, occupying three grand rooms, each 25x100 feet in extent.

In the future, by constant application to business, he hopes to see the Hardware trade of the region which is naturally tributary to this point, centered here, and shall spare no effort to make it for the interest of the people within this region, to purchase their Hardware, Tinware, Copper and Sheet Iron ware, Stoves, and all other articles in this line from

Yours gratefully and respectfully,
