GENERAL NEWS.

Fusionists Gathering at the Maine Capital Again.

More Indications of Trouble at the Seat of Conflict.

A Rumor is Afloat that Germany and the Vatican Have Reached an Agreement.

THE FUSIONISTS.

Arrival of a Body of Fusionists, to Be Followed by a Company of the Seventy-Five Bedford Fusionists—Treasurer White Refuses Either Government to Examine His Books.

Boston, Jan. 27.—The Herald's Augusta special reports the arrival of a body of fusionists from Lewiston and Auburn, to be followed this afternoon, if the information received at the adjutant general's office is correct, by the coming of a company of the seventy-five Bedford fusionists. The leading fusionists say that any attempt to arrest the officials of their government will be resisted by force. The governor has been urged the call of the Portland Blues and Monogony guards here, and it has been suggested to have them quartered in a hall near that in which the fusionists meet. Fusionist Treasurer White refused this forenoon to allow the finance committee to examine his books. He says he does not recognize either government as legal. There's a talk of putting him out by force.

Augusta, Me., Jan. 27.—The fusionists did nothing important to-day.

CONGRESSIONAL.

Majority and Minority Reports in the Fitz John Porter Case—The Mail Route Bill.

SENATE.

Washington, Jan. 27.—Mr. Randolph from the military committee reported the bill for the relief of Fitz John Porter. Mr. Logan made the minority report, and said that the president had not the authority to organize a commission and take ex parte testimony; that the action of the court martial is not reviewable by congress, and that congress has no right to pay persons for services not rendered, because of the exclusion from the army. The bill was placed on the calendar.

Mr. Edmunds' resolution was adopted, instructing the judiciary committee to inquire whether any discrimination was shown in the settlement between the United States and railroads mentioned in the act of February 22d, 1875, in favor of any one or more such railroads, and if so, what legislation was needed.

Mr. Pendleton introduced a bill authorizing the appointment of medical inspectors in the navy to the office of chief of bureau of medicine and surgery, and to remove the disability of the present incumbent.

Mr. Bayard then spoke on his legal tender resolution.

The post roads committee reported the bill declaring all public roads, post routes, to-day, but withdrew it on a point of order. The house then went into committee of the whole on the revision of rules report.

IOWA LEGISLATURE.

A Bill Introduced for the Abolishment of the Grand Jury System.

Favorable Report Upon the Measure Permitting Judges to Sentence Murderers to Death or to Imprisonment.

Des Moines, Jan. 27.—In the house the pending question being on the reference of the war and defense of the bond bill by Fisher, the question being whether it should go to the committee of the whole or amended to go to the ways and means committee, the previous question was moved by Coons, of Cass county and seconded and on the question to refer to the ways and means committee eyes and noses being called, it resulted: Ayes, 79, nays, 34, so the bill went to the ways and means committee.

A petition was presented by the chair, from Dr. Christensen, of Allamakee county asking the impeachment of Judge Granger, for misfeasance and non-feasance in office. The compensating public officers committee reported on the short hand bill giving them five dollars per day in civil cases, where litigants desire their services, and abolish them in criminal cases.

The judiciary committee reported favorably on house file No. 28 which gives the judge the right to sentence criminals who have pleaded guilty to murder in the first degree, to sentence to death or imprisonment, and the bill was then passed, being deemed needed in certain cases soon going on in Clinton county.

The joint resolution relating to the abatement of the penalty on legacy tax was passed.

The bill to give women the right to hold the office of county recorder was favorably reported on by the committee.

The resolution of Mr. Cobby calling for information as to the resolution of finishing the new capital was adopted.

Bills were introduced: Limiting jurors in circuit courts, in certain cases, to six; making township of three thousand persons; for the operation of the registration law; high salaries of county officers; regulating appeals from justices courts; calling down penalties on tax sales; in relation to fire insurance companies and property; for the payment of losses on the face of policy where the loss is total; increasing the county poor fund; in relation to the disbarment of attorneys for mistreating justices; making the election of mayor in cities of second class biennial; providing for the uniformity of school books; by Mr. Clayton a bill to levy a tax of one mill on the state tax for the payment of the war and defense bonds.

Mr. Hays presented a joint resolution relative to an amendment of the constitution, doing away with the grand jury.

House file No. 67 was then taken up and on motion to strike out the enacting clause, the vote was 30 yeas to 63 nays. The bill relates to the prosecution of people for selling liquor, and provides that the debtor shall pay a fee of \$25 for attorney's services of prosecution. Pending the question of the passage of the bill the house adjourned.

The session of the senate was brief to-day, occupying 45 minutes.

Petitions were presented as follows: By Mr. Hanna, from the West Liberty temperance reform club, praying for the repeal of wine and beer exception in the prohibitory statute; by Mr. Travers, of Davis county, asking a constitutional amendment prohibiting the manufacture, sale and use of alcoholic liquors in the state; by the same, from the citizens of Emmet county, opposing the legalization act of the board of supervisors of that county in removing the county seat from Estherville to Swan Lake.

Bills were introduced as follows: By Harman, to regulate trials by jury in civil action in district and circuit courts; by Travers, to limit and control petty criminal proceedings, to save counties the payment of costs therein, and to create the office of county attorney and define his duties; by Goody Kootz in reference to offenses against personal property; by Lawrence, requiring sheriffs, where property is capable of manual delivery, to give proper notice of levy on execution; by the same, further defining the manner of the levy of writ of attachment where property is not susceptible of manual delivery; by Webb, in reference to the arrest and punishment of persons found in a state of intoxication; by Russell, of Greene, relating to the fees of county assessors and auditors.

The house message were taken up and disposed of as follows: The substitute for house file No. 79, in reference to the Cedar Rapids & Marion St. R. R., referred to the judiciary committee; the house file No. 44, further defining the duties of county officers, being the same as the bill passed by the senate yesterday evening was referred to the committee on judiciary.

Election of Railroad Officers.
New York, Jan. 27.—At a meeting of the Missouri, Kansas and Texas railroad company to-day, the following directors were elected: Jay Gould, Russell Sage, Tom Bond, Geo. J. Forrest, Henry Dillon, T. L. Ames, G. M. Dodge and T. H. Bond. The following officers were then elected: President, Jay Gould; vice presidents, T. H. Bond and B. H. McCready.

MORE FROM MAINE.

Showing How the Secret Preparations of the Fusionists to Capture the Capital was Headed Off.

Augusta, Jan. 24.—The presence of the military in the state house somewhat excites the populace, who murmur at military rule and indications of a movement to intimidate.

The republicans claim that it was the presence of the troops that brought the fusionists to their senses and induced them to refer the case to the supreme court.

About half the force is on duty at once, and the whole force could be brought into line in a moment. There is a patrol about town watching for any suspicious movements and trusty men are posted in every town to give instant information in case of any threatening demonstrations. The military and executive are both in readiness for any movement of the kind.

When all the evidence is ready for the

press the public at large will see how wise their action has been.

Sentinels were to-night placed outside the house and the corridors are all guarded. Col. White, of Bangor, was telegraphed to night to guard the state arsenal at that city.

There is evidently an attempt to rally the fusion forces to-night, but it will prove futile. Evidence shows that there was a plan to capture the state house last night, but the wise precautionary measures prevented. The government was just twenty-four hours ahead.

Cols. Blood and Davis, of Smith's staff, had recruited 200 men in Biddford and Portland and intended to send them to this city by a Pullman train, but the governor ordered the Biddford company to take the same train in the event of the fusionists coming, which meant to stop them here, and probably they will not come. Fusionists from Lewiston intended to come, but reports late to-night show they have abandoned the plan.

The force at the state house to-night is able to cope with a force of two thousand. The state house authorities say they are now sure this was to have been the night for the fusion movement on the state house. They say they have intercepted fusion dispatches showing that the fusionist governor was preparing to muster his forces the plan was to move on Augusta from all points. From Biddford one hundred and seventy-five men were to have come on the late pullman train from Boston. All this intelligence is asserted to be confirmed by republican advisers just received.

Gov. Davis said to-night that he had not felt a single regret since he has taken the decisive step of calling the troops to the state house. The step had been urged on him for several days by his military advisers, but not till evidence of the conspiracy to seize the state house had accumulated to a startling amount did he feel justified in exercising his prerogative as commander-in-chief, and then only to protect public property and uphold the laws. The strain upon republican institutions has been great throughout the whole controversy, but he could see no shade of arbitrary action in employing citizen soldiers of the state to protect the government recognized by the supreme court.

The governor has received congratulatory and complimentary dispatches from the governors of Mississippi, New York and New Jersey, and a set of resolutions from the Grant club in New York. Congratulations are being received by the governor from all sections of the country on sustaining free government in Maine and New York. The government was strong enough to sustain itself. The action of the court is warmly commended for able decisions which would serve as a landmark in future, and as bulwarks of republican government everywhere. No trouble apprehended to-night Gov. Davis spent the night at headquarters in the state house.

A report comes to the state house from Portland that secret fusionist lodges with a code of grips and passwords has been discovered. It was rumored in Augusta to-day that an agent of a New York firm received a few days ago an order for 200 carbines and 200 revolvers and a watch had been kept for them by the state house authorities.
